

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

#### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

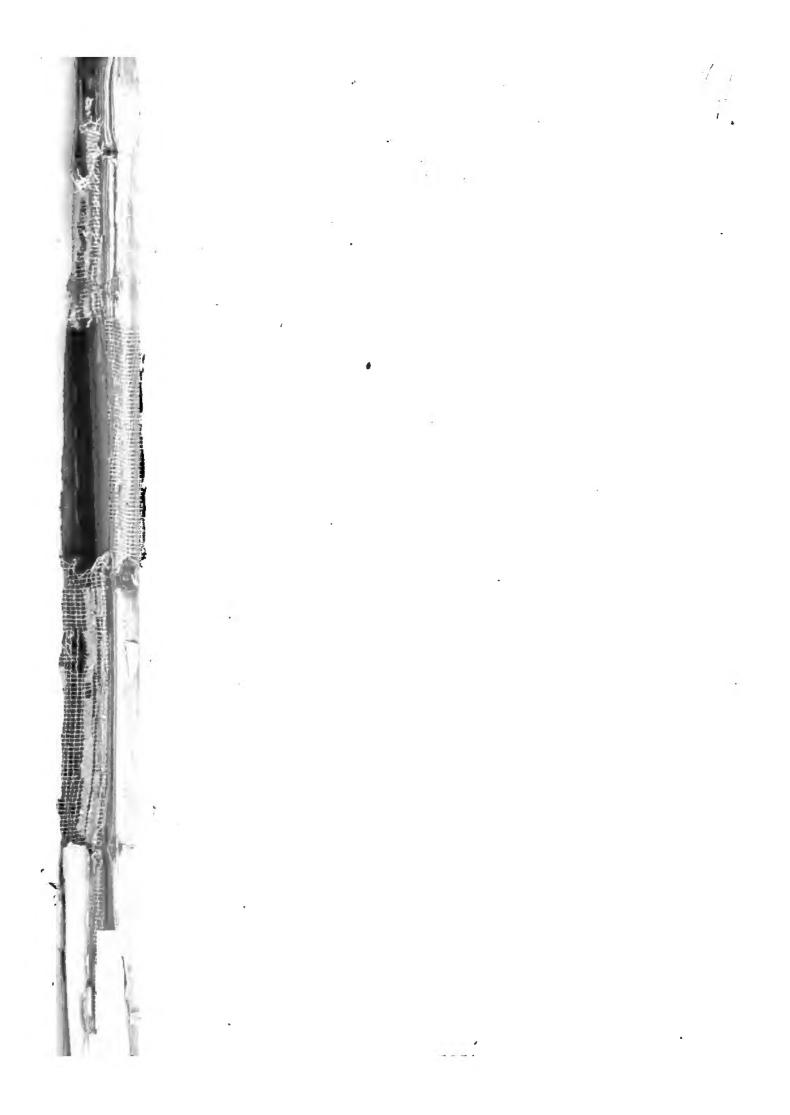

- + Make non-commercial use of the files We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + Refrain from automated querying Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + Maintain attribution The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + Keep it legal Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

#### PREFACE.

In the preface to the preceding volume of the Maryland Archives, the origin, nature and duties of the Council of Sasety were explained. The present continues the journal and correspondence during the critical and eventful year, 1776.

The military movements, during the period covered by this volume,

were, in brief, as follows:

The theatre of war had been changed from the Eastern States to New York. The British land forces were under the command of Gen.

Howe, and the navy under his brother, Admiral Lord Howe.

For the Americans to hold New York City, it was necessary that they should possess Brooklyn Heights, which were occupied by Gen. Putnam with a force of about 9000 men, of whom about one-half, under Sullivan and Stirling, were thrown forward to defend the approaches. On August 22, Gen. Howe crossed over from Staten Island with 20,000 men, and on the 27th defeated the Americans at the battle of Long Island, of which a highly interesting account will be found in Gen. Smallwood's letter on p. 338. On the night of the 29th, Washington withdrew his forces across the East River to New York.

On Sept. 15, Howe crossed over, and Washington evacuated the city and withdrew his army to the north of the island, where he took up a position, his centre resting on Harlem Heights, and his right wing extending to Fort Washington on the Hudson and Fort Lee on the Jersey side. An attempt by Howe to outflank the American position led to the battle of White Plains, fought on Oct. 28, after which Washington withdrew his main body to Northcastle, thus severing his connection with his right wing at Forts Washington and Lee. It was his intention to abandon these forts and make West Point the central position of the defence, but Congress overruled his plans, and ordered Greene to hold them as long as possible. On Nov. 16 Howe attacked Fort Washington and captured it, with heavy loss to the Americans. Washington now withdrew his army through New Jersey, and on Dec. 8 took up a position behind the Delaware.

These repeated disasters produced a deep feeling of discouragement throughout the country. To make matters worse, the terms of enlistment were expiring, and the men were refusing to re-enlist and were going home, so that the American army seemed to be falling to pieces.

On Dec. 2, Gen. Charles Lee, who had remained at Northcastle, despite Washington's summons to join him, crossed the Hudson with 4000 men and marched to Morristown. Here he was captured by a

party of the enemy's dragoons; but his force kept on their march and

joined Washington.

Washington's army, all told, now did not exceed 6000 men, but with this small force he resolved to strike a blow that, if successful, would check the enemy's victorious course, and hearten the despondent soldiery. On Christmas night he recrossed the Delaware, and at early morning surprised and captured a party of about a thousand Hessians posted at Trenton, where he entrenched himself. With this brilliant exploit, of no great moment, it is true, from a strategic point of view, but which by restoring confidence in the cause, and the abilities of the Commander-in-Chief, really proved the turning-point of the war, the year 1776 closed.

In these letters we note the first appearance of a question which afterwards became of high importance—that of the public lands. The case was this: Virginia, by her Constitution adopted in June, 1776, asserted a right to all the territory to the north and west included in her charter of 1609, as modified by the treaty of Paris in 1763; renouncing, however, all claim on the chartered territories of Maryland, Pennsylvania, and the Carolinas. This extraordinary claim, if allowed, would have given her a vast domain extending to the Pacific Ocean, according to the charter of 1609, or to the Mississippi, according to the treaty. Of course, to this she had no title whatever. The charter of 1609 had been revoked by due process of law in 1624, to the great satisfaction of the whole colony, except the patentees, and no new charter had been granted. Charter boundaries she had none. A claim resting on victories over the Indians in 1774 was quite as nugatory, for the Virginians at that time being subjects of Great Britain, all lands they might acquire by conquest inured, not to themselves, but to the Nor could they claim by possession, for the lands had not been crown. occupied.

What brought the matter into prominence at this early stage of the war was the question of bounty-lands. As the terms of enlistments were expiring, and the late reverses had much discouraged the people, Congress resolved to offer a bounty of twenty dollars and one hundred acres of land to every soldier that would enlist for the war. But where were these bounty-lands to be obtained? Maryland, with a strictly limited boundary, and no vast domains west of the Alleghanies, had no such lands to offer. The Convention, in October, protested against these extravagant claims of Virginia, not only as unfounded, but as unjust to the other States, and as constituting a standing menace to them. If this western territory should be wrested from Great Britain, this could only be done by the exertion of the States conjointly, and it should therefore be held as the common property of all. As matters now stood, if the resolutions of Congress bound Maryland to provide bounty-lands for her soldiers, she, and other States in similar circumstances, would be compelled to buy of Virginia, at her own price, lands

Preface. vii

to which she had no title. They therefore proposed to offer a State bounty of \$10 cash in lieu of land.

Congress objected. They thought that new recruits would be very likely to prefer ten dollars in hand to a hundred acres in the trans-Alleghanian bush, and Maryland would therefore have an advantage over other States. They refused to rescind their resolution, but declared that it was their intention to provide the bounty-land at the expense of the United States. The Convention begged the Congress to "specify any land belonging to the United States as a common stock, available for such purpose." To this there was, naturally, no reply. It was clear that the States would have to buy it, jointly, if not severally, from Virginia, after they had conquered it from Great Britain. The Convention reiterated their determination not to engage the State to any bounty of lands; the ten dollars in cash they were willing to offer. If Congress objected to this, they must be prepared for the consequences. The Convention repeated its declaration that "the back lands claimed by the British crown, if secured by the blood and treasure of all, ought in reason, justice and policy to be considered a common stock, to be parcelled out by Congress into free, convenient, and independent governments." From this just and reasonable position, Maryland, though she stood alone, steadily refused to recede, and declined to enter the Confederation until some equitable arrangement was made. Virginia, at last, conceded the point, and Maryland signed the articles of confederation on Mar. 1, 1781. Virginia ceded her claims to the lands northwest of the Ohio, to the United States, in 1783.

# [E. Johnson to Council.]

Gentlemen

The day I fixed in the week before last for to search into the Clifts on this River after Salt, proves rainy, & thereby I was disappointed in many hands engaged, but however with what I had I sunk a shaft ten feet square & five feet deep in the inside of the Clift, free from any tide that ever flowed since the Deluge, & have found since, that a few days sun thereon has brought out some appearances of saline particles so that I conclude this earth will yield Salt & have ordered it to be tried, the success of which you shall know p<sup>r</sup> next post. If this

c. s. c. earth yeilds salt, the whole Clift must do, & of course the quantity is inexhaustible. Report says that the Clift both North & South of this on the same side of the River are impregnated with Salt. I have not seen any of them except a small Bank at my own Plantation at the mouth of Hunting Creek south from the first discovered Clift which is very Salt & shall as soon as my harvest is secured make some large Experiments on, & if successful set to work to make what I The owner of the Land of the first discovered Clift will come upon no settled fixed plan of proceeding to erect either Public or Private Salteries at, but says after Harvest he will join me in trying further Experiments. The expence attending my working the Shaft, in hire of Negroes Provisions & Cooking for them cost me twenty five shillings currency, which I have paid & if agreeable to you to charge to my Salt Petre acct, please to give me yr order, or otherwise as you may think proper. The time of my engagement with my Labourer at my Salt Petre Manufactory expired a few days ago, and we have not done anything since my Manager has brought in his acct & thirty four pounds of good Crude nitre, for which he demanded a quarter of a Dollar, being informed that the May Convention gave him that sum. I have only paid a shilling, with promise of making it agreeable to the orders I am empowered to act by. I shall hire another Labourer soon to go on with the Business & shall continue as long as I can find materials impregnated sufficiently in a few months the quantity of earth & I have in my Shed, will I expect yield 200 lbs.

To Matt' Hammond, Quarter master

Sir. Two Companies of Col. Hall's Battalion will be immediately ordered to the City of Annapolis for its defence agreeable to a resolve of Convention, & as it will be proper that you as Quarter master should provide Quarters and Provision for them, we have thought fit to give you this early information of it that you may adjust Matters accordingly—the service requires expedition, and that not a moment should be lost in taking the necessary measures.

The Council of Safety will take M<sup>r</sup> Sprigg's vessel, if you are of opinion that she will make a fast sailer draw little water, and suit this Province as an armed vessel, of which please to advise us in Writing, and request she may be got ready with the utmost dispatch. We hope and expect a fortnight will compleat her. When can you set off for the Eastern

Shore to examine the vessels which are offered as suitable for C. S. C. the purpose? We want them. You promised to be with us on Friday, but we did not understand whether you could immediately go over the Bay, this matter requires dispatch, and we beg your immediate answer; if you can go, we shall be much pleased—if you cannot go; do you know any one, who would be proper to send on that Business?

No. 9.

To Mr. Thomas Dorsey

Sir. You will see by the inclosed Resolve that the Convention have directed the place of the regulars, that are to march from hence to Philadelphia should be supplied by three Companies of the neighbouring militia, 'till the militia for the Flying Camp can be ready. The Council of Safety have thought proper to order a Company of your Battalion to march down here immediately, and we desire you will despatch them with the utmost expedition. We expect a sufficient number of the militia for the Flying Camp will be raised in a very short Time to supply the place of y" with the other Companies which shall be discharged as soon as possible. Weems and Hammond are now with us and intend that the Company they are respectively to furnish shall be composed out of the whole Battalion—Companies if wholly ordered out may be much distressed and very indifferently armed.

### [Council to Maryland Deputies.]

To the Deputies of Maryland in Congress. Gentlemen.

The Convention have ordered that the sum of £10,000, be appropriated to fortify the City of Annapolis and place obstructions in the River Severn, but as we have not, nor know of an Engineer properly qualified to carry on the works, and your station may perhaps afford you an opportunity of assisting us, with one, we beg you will make enquiry for, and recommend to us some Person of knowledge and experience in that service; we are anxious to comply with the resolve of Convention, as Annapolis is very undefensible and we presume from it's advantageous situation may be an object with the enemy. We are so thronged with business that we cannot now write you fully, but will as soon as we have a little Leisure; as the Conveniencies may not be provided for Col<sup>o</sup> Smallwood and the Troops by the Time they reach Phila, we request you will give him all the assistance you can; we also send you inclosed a resolve of our Convention relating to our regular forces which we desire you will communicate to the Brigadier General of the Flying Camp.

P. S. We take the liberty of recommending Capt<sup>n</sup> Stricker to you as a Person proper for a Field Officer in the German Battalion, and think the service will be benefitted by his Appointment. If he should be commissioned the sooner 'tis done the better, as it will probably be a great inducement to his Countrymen to enlist.

To Rob' Alexander Esq<sup>r</sup> Sir

The Council of Safety are much at a loss in respect to the contracts made by you in Balt<sup>o</sup>, they have wrote to you several Times to transmit them, but have never had the pleasure to receive them or a Line from you on the subject.

There is a real necessity for their being lodged here as some of the Artificers do not comply with their Contracts, and we are subject to two Inconveniences, the ignorance of the real Contract and the want of Power to enforce it.

C. S. C.

Philadelphia July 8th 1776.

Gentlemen.

Altho' it is not possible to foresee the consequences of Human Action, yet it is nevertheless a duty we owe ourselves & Posterity in all our Public Councils, to decide in the best manner we are able, and to trust the Event to that Being, who controuls both Causes and Events, so as to bring about his own determinations.

Impressed with this Sentiment, and at the same time fully convinced that our affairs may take a more favourable turn, the Congress have judged it necessary to dissolve all connection between Great Britain and the American Colonies, and to declare them free and Independent States, as you will perceive by the enclosed Declaration, which I am directed by Congress to transmit to you, and to request you will have it proclaimed in your Colony in the way you shall think most proper.

The important consequences to the American States from this Declaration of Independence, considered as the ground & foundation of a future Government will naturally suggest the propriety of proclaiming it in such a manner as that the People

may be universally informed of it.

# [Wiesenthal to Council.]

July 8th 1776.

Gentlemen.

In all the Troops which are design'd, or are taking the field, there is a necessity for a Medical Department, abstract from that of the Battalions, & which is committed to the superintendancy of a Physician or Surgeon General, or Director in Chief, who has the care of the Hospitals & given the proper directions thereof as well, as to the Troops in General. This was that station I meant when I accepted the service, very well knowing that as Surgeon in common, several might be had to fill that Station, because during Engagements in which they chiefly act in dressing wounds &c. but very little art is necessary, but after the removal of the wounded to the Hospital, the proper applications are made.

The first Surgeon of a Battalion or Regiment is called Surgeon Major, and his province goes no farther than his Battalion, only except he is contiguous to the Hospital and has time, then he assists his men belonging to the Battalion.

c. s. c. You was pleased Gentlemen to give me a Comission of first Surgeon of Collonell Smallwoods Battalion only, which I accepted with the promise of having it laid before the Convention in order to encrease the Salary adequate to the above mentioned Station I have acted all along in that Station according to the extent of the circumstances I have taken & caus'd to take care of the Sick of the Ship Defence as often as they left the Harbour. I have advised and visited them when in Harbour. I have even twice furnished them with a Surgeon in absense of their own. The Militia when called to Town made likewise application during their stay. Several more might be mentioned, but the above will be sufficiently convincing and leave the method to your consideration being with the greatest respect, Gentlemen,

You have enclosed a list of the Arms in my Battalion. I am informed by Major Williams who examined the Guns, that all those said to be in good order are such as the owners would chuse to make use of in case of an Emergency. By this return the guns in the Battalion amount to no more than 351 which I am sorry to hear are so few, however the many good ones make amends. I have further to inform you that for the sake of satisfying the people, I allowed them to chuse a second Major who is wanting from the resignation of Col. Joshua Beall, and that Capt<sup>n</sup> John McGill had the voice of a very great majority. I therefore recommend him, as very worthy your notice & hope you will appoint him to that command. Gent. Elk Ridge 9 July 1776.

I received yours of yesterday in consequence of which, have ordered the Elk Ridge Battalion to meet immediately, and will send the number of men required to Annapolis. Col<sup>o</sup> John Dorsey tells me that you desired a Company of the flying Camp might be sent if they were made up; On Enquiry I find that there is no Company near full, tho' perhaps on the day the Battalion meets they make up their number; if so they will immediately march down, otherways will find a Company of Militia, which I imagine will be with you on Saturday. By a Letter I have just received from M<sup>r</sup> Pua, I find the Congress have passed a Resolve, that the militia of Maryland march to Philadelphia, I shall be glad to hear from your Honours on that head as soon as possible.

I have yours of yesterday with a list of Vessels. There is many People that have Vessels would be glad to get your money for them, wether they ware sutebel for your use or not. Will have as fine a Vessel of our own, as almost any in this Bay, and gos pretty fast. I want to sell her very much but am afraid she would not answar the end you want her for. M' Spriggs now gos fast and will carklated to be lenthen'd by puting 10 feet in her. She will draw but litell water, and I think will go very fast, but I may be mistaken in her Sailing

c. s. c. tho she sertainly sails fast now. I will be off on Friday, and go to Baltimore for you or the Eastern Shore tho your business requires my being in the yard. I will do what you think most advantages for the Province. I think to get Capt. Kilty to go to the Eastern Shore and will git him to come up with me for that purpos. I se the most of those Vessels you send a list off must be in Nanticoke and Wicomico as these two Rivers are block't up how are you to get them out if they shuld sute your purpose. John Ball has aplyed to me for to get the building one of the Row galleys which I have no objection to. If you think well off it. The more of them that are a building, in one yard the more hands will be employed, tharefore wee shall bee beter abel to protect them from the enemy tho I should be glad Mr Ball and every honest man should have part of the Province business.

# [Council to Dorsey.]

To Colonel Thos Dorsey

The Regular Forces in the pay of this Province leave this City this evening; the sooner therefore the Company you are to send get here the better. It will be proper under the Resolves of the Convention, that three Companies of our Neighbouring Militia should be stationed in Annapolis until the place of the Regular Troops ordered from here can be supplied by the Militia to be raised for the Flying Camp. When Colonel John Dorsey was with us, we conceived that your Company of Militia might be discharged when the Company of Militia raised on Elk Ridge for the Flying Camp marched here, but upon further considering the Resolve, apprehend there must be three Companies of the Neighbouring Militia in this City, until the places of the Regular Troops can be supplied by the Flying Camp Militia. You may rely on it however that the Company of your Battalion which comes down shall be relieved as soon as possible.

You must be mistaken in what you wrote about the Vote of Congress, those only of the Militia that compose the Flying Camp are to March to Philadelphia or any where out of the Province.

To Captain Edward Tillard

Sir. We are glad to hear you and your Officers are so forward in raising your Company as our Forces are at present much wanted, tho' it will be difficult to procure Firelocks for all the Men, yet we cannot agree to give so great a price as Six pounds Currency apiece, we have got very good at four pounds and a Crown, but would on this occasion willingly advance as far as four pounds Ten for such as are good and serviceable, fixed with Bayonets.

C. S. C. No. 27.

To the Committee of Baltimore County

Gentlemen. The Council of Safety think it expedient to have a Magazine built at some place in your County between five and ten miles back from Baltimore Town—they would have it large enough to contain about four hundred Barrels of Powder and a proportionable quantity of Lead, arched and substantially built and will be obliged if you will fix on any place you may Judge safe and Convenient and contract for Materials and attend to the construction of the same, they will supply the Cash necessary to defray the expence whenever you will be pleased to call for it.

### [Jesse Hollingsworth to Council.]

Sirs. Baltimore July 11.1776.

The Brigs are both dischar'd. On hoisting out the lower tier of the Flour on board M' Lux and Bowley's Brig, I find it is damaged. I have had two gentlemen to view the Flour. The report they make I send you. The Flour apears to have been wet sum time ago, as it is rotten all round the outsides and head of the barrill and has since dried so that it is hard and black which answers with what Capt Lunds reports concerning it, as he says that it has not been wet this sum time, but was under water more than two months ago, and not since His report I have taken down in writing as I think there has been a fault. I would bee glad that the blame should be fixt right. M' Spear has all the damaged Flour in his custody, and says that he will bake all that can be bak'd, and the remainder must be return'd I spose M' Lux ought to take it; If so Mr Spear says hee will asist Mr Lux in dividing it, and such as can be bak'd he will doe. The bake howses are going on and I sopose there might bee a parcel of bread, and part of Cap' Woolseys Flour sent to the Brig that lately arry'd with your Powder, if it is practicable and must be done, the sooner the better. I recd yours this day and shall speak to M' Jacobs about it, this evening to make the Tents. I think the lining must come here as the Sail maker would choose to work at home with their hands, from yours

Jesse Hollingsworth.

### [Council to Henry Hollingsworth.]

To Colonel Henry Hollingsworth

Sir. We are in immediate want of about four hundred Bayonets of different sized Sockets for the arms of the Eastern Shore Militia, who are to compose part of the Flying Camp, and have sent an order on you to M' Winters for them, and we request you will supply him with that Number as soon as possible. The greatest exertions are necessary upon this occasion and we doubt not your warmest efforts to enable us to carry into execution the resolves of our Convention with that dispatch the exigency of the times require.

### [Council to Winters.]

To Mr Elish Winters

The Convention having resolved that the Firelocks of such of the Militia who are to compose part of the Flying Camp as are not effective but might be made so by repairs, should be repaired at the expence of this Province and that we should cause Musquets found by the militia, borrowed or purchased for the Flying Camp, to be fitted with Bayonets Iron Ramrods, Worms, Priming wires Brushes Belt or Scabbards; and as we are apprehensive such repairs cannot be made or Bayonets fitted on the Eastern Shore with that despatch and expedition the service may Require, but at your Shop, we desire you will immediately inform us whether you can engage in that business and will undertake to repair and fit with Bayonets such Guns as shall be sent to you from the several Counties over the Bay for that purpose. If they can be done elsewhere we shall not desire you to do them as we could wish you should confine yourself as much as possible to the Work you have in hand but if they cannot, as there is an absolute necessity that the militia should be immediately provided with good and substantial Arms, we must request you will engage in that business for us. It cannot be expected, that during the time you may be at work on the Arms for the Flying Camp, that you should comply strictly with your Contract with the Province, yet it is hoped that you will be able to furnish some

Guns, as we stand in very great need of them. We have c. s. c. already Belts & Scabbards sufficient and have advertised for persons to make Priming wires and Brushes and expect to get the Ramrods in Annapolis, so that you will not have any thing to do but repair the Guns and fit the Bayonets unless to make swivels to sling the Guns, which must likewise be

We enclose you a Letter and order to Henry Hollingsworth for four hundred Bayonets of different sized Sockets, for the Militia arms, if you engage for us in that business you will send them by Express, but if you cannot you will be pleased to return them.

# [Smyth to Council.]

Ship Yard July the 12th 1776.

#### Gentlemen

This will be handed you by my son Thomas who waites on the Council for his Commission in pursuance of the Honoble the Conventions order to him for enlisting a Company of militia, he has enlisted a Company of stout able young Fellows and almost all of them Country born; he informs me that they have very few muskets among them which are fit for Service, and I believe it will be very difficult to borrow any from the Inhabitants as they dont know how soon they may be called on to use them. What guns belong to the Militia are generally very indifferent, permit me therefore to solicit your honorable Board that his Company and Capt. Perkins's may be armed out of the Arms that will be made by Winters, and those which are sent for to Chingoteague

I hope they will be indulged with having their Companies well armed as they have been industrious enough to enroll

them, so soon at this busy season of the year. As I appre- c. s. c. hend the Council have not been able to provide Tents for the Militia that this Province has resolved to send to the flying Camp, I make them a tender of my best endeavours to get as many made as will be sufficient for my Sons Company & perhaps Capt. Perkins's, if they will order over to me one of those made at Baltimore with the Poles, the Linning & Twine or thread to make them, the Cruger would do much better than none, perhaps some of the Sail Duck which is ordered up from Chingoteague might do better. It will certainly kill all our men to be exposed to the open Air in the months of August & September when such heavy dews fall. I have two or three men in my Service that have been used to making Sailes & a Taylor, whom I think would make, in a few days as many as will be sufficient for those two Companies. If the Council should determine to accept of my offer the sooner they send every thing over the better, and I dare say I can soon get the Tents made especially if they are to be made of Cruger; many women can be employed in sewing such Linning—If the Council have not provided Baggage Waggons enough I can furnish them with one very sutable for the purpose that is almost new & in very good order. I wrote you some time last week that a Robert Blake a Saddler in Chester town would undertake to furnish the Province with a Q<sup>ty</sup> of Cartridge Boxes, Gun Slings, Bayonet Belts &c. at the same price which the saddlers at Baltimore had done, & requested an answer, but have not heard from the Council on that subject. Blake waites your determination. A Report prevails here that some of the Companies of militia which are ordered to be raised for the flying Camp are to be stationed in this Province. My Son earnestly requests that he may not be one of those Companies & that he may be permitted to march to the Camp as first was intended, & I hope the Council will indulge him in his request.

You will please to remember that the hire of the Waggons sent to Chingoteague will amount to a pretty large Sum. It will be some time before I can attend the Council as I am much engaged in forwarding the building of the Row Galley which I have undertaken and am anxious to have her done very compleat. Any thing which the Council may have to do in the mean time in this quarter they will command me. What has been done towards sending for the Goods from Chingo-

teague, M' Nicholson has no doubt informed you.

I am Gentlemen with much respect Your most Obedient hble. Serv<sup>t</sup> Tho<sup>s</sup> Smyth. C. S. C.

At the request of an old Officer of mine and who at present is a first Lieut' in Col<sup>o</sup> Sheas Battalion, I am induced to recommend him to the Hon<sup>ble</sup> Committee as a fit person to command a Company in the German Batt<sup>n</sup> directed by a Resolution of Congress to be raised in your Provence.

John David Wilport late of your City is the person I mean He is a German by birth, was a Soldier in his own Country, Served many years as an Officer in the Regiment I had the honour to command in the Virgi Service, always supported the character of a diligent & brave Officer, And as far as I know & believe is a man of good character. We the Subscribers being requested by M<sup>r</sup> Jesse Hollingsworth to inspect some Flour (suppose nearly one hundred Barrels) said to be landed from the Brig Fortune, belonging to Mess<sup>rs</sup> Lux and Bowley) and which Flour was purchased by them for the Honourable the Council of Safety for this Province) do to the best of our knowledge believe that such of the aforesaid flour, as we have examined, has been damaged

by Bilge Water admitted into the hold of the said Vessel thro c. s. c. insufficiency of said Vessel or neglect of the Hands then on board, in not pumping her as often as necessary. And the said flour is now hard, rotten & musty & unfit for baking or any other merchantable use.

Gent. Phila July 12th 1776.

Yours by Capt. Stricker was this morning delivered to me, and I shall pay particular attention to its contents, tho I much fear our endeavour to procure an Engineer to suit your purpose will not be successful. Every man who ever fired a Cannon or was present at erecting any kind of fortification has been taken up for the Continental Service. There is no provision made here for quartering any troops which may pass through. Upon the first notice of Co<sup>1</sup> Smallwoods approach I made enquiry of the State-of the City Barracks, and find that there are some soldiers in them who have the Small pox of which I shall acquaint Co<sup>1</sup> Smallwood before he gets into Town.

Indeed there is danger in almost every part of the City, and I shall advise him to halt his men upon the common for a while, until some safe place can be provided for their recep-They will feel severely the want of Tents of which there are none in the Continental Stores. I submit to your consideration if it would not be proper to have Tents immediately made, and sent after the Troops. They will probably be stationed at a place where no quarters can be had. I expect to see them tomorrow Capt. Stricker will I think be appointed a field Officer in the German Battalion, for which I have no doubt but he is well qualified from what I have heard of him. militia of this Province are daily marching to Trent Town in the Jerseys, from whence they are to proceed to Amboy. This will be the rout of our Troops I presume. If Brigadier Dent should join the Regulars with the militia to be raised in your Province I dont know how it will be possible to settle the Rank of the Officers. As to keeping them distinct when they are to compose one Army, it seems to me to be impracticable. The rank of each Officer in the Army must be settled before Service is entered on, or the greatest confusion will probably take place. I ordered by Mr Stephen Steward a case of Instruments some paper and a Gun Carriage. Be pleased inform me if you received them. Mr Alexander writes me that D' Wisenthall wants the Instruments very much. Our

c. s. c. affairs on the lake are far from being so prosperous as I wish them, tho' we have heard nothing certain from that quarter since our Army retreated to Crown Point. Considerable reinforcements are ordered & if they arrive in time I hope our Enemies will receive a Check. Gen. Howe remains on Staten Island exercising his men, and viewing the situation of the adjacent grounds. The inhabitants of the Island are generally Tories, who I suppose will assist him all they can without taking up arms, which I think few of them will do. Gen<sup>1</sup> Washington and the Army under him are in good Spirits, and in strength daily increasing. We regret to hear of the arrival of a considerable reinforcement from Britain, daily will bring on a more intimate acquaintance between the two adverse Armies. May God send Victory to the Arm lifted in Support of righteousness, Virtue & Freedom, and crush even to destruction the power which wantonly would trample on the rights of mankind.

### [Murray to Dorchester Committee.]

July 12th 1776.

In Committee of observation for Dorchester County. Gentlemen.

Bazil Clarkson of this County was brought before us a few days ago being charged with going on board the Enemies Tenders, and carrying some men to join Lord Dunmores Party, And upon examining into the affair, we thought it our duty to send him over under the care of Cap' Hindman to take his trial before your board. John Rumbley was the only Witness produced to us against him, whose deposition we have taken & now send you enclosed. It is said Clarkson bears a very ill character as to holding a communication with & carrying men in his boat to the Tenders. And we have just now been informed that one Job Slacom Jof this County will prove that he endeavoured to persuade him & some others to go with him on board the Tenders and join Lord Dunmore, but as the guard was just setting off with the Prisoners, we could not delay them until we sent a summons for Slacom. There were several other persons apprehended in this County on suspicion of being unfriendly and having a communication with the Enemy, but upon our enquiry into their conduct, we could fix nothing criminal on them, & therefore discharged them, tho' some of them were under rather suspicious circumstances And indeed we are sorry to inform you that we have lately discovered such an unfriendly disposition in many of the Inhabitants about the Islands in this County that we are convinced it will be productive of very ill consequences unless some steps are immediately taken to keep them in proper order. And we beg leave to submit it to your consideration, whether it may not be absolutely necessary for the public service, that part of one of the Independent Companies be immediately stationed in that part of this County. The inhabitants there are so much exposed to the depredations of the Enemy, that we cannot help thinking many of them have been induced from that circumstance rather than from inclination to appear friendly towards them,

P. S.

c. s. c. and that many may be prevented from attempting to join the enemy could they see any Forces stationed among them to afford them proper protection. Our militia have been so long on duty, guarding our Bay and River Shores to prevent the depredations of the Enemy and the Escape of Tories, that they have many of them lost considerably in their Harvests and suffered much in other parts of their property, and we fear that if they are not assisted very soon they will be almost in a state of despair. Capt Woollfords Company which was originally intended for this County is now taken from us, and part of it is ordered by Major Price to be stationed in Somerset, and the other part on the mouth of Nanticoke, whereby it is rendered almost useless to this County, and we are left in a manner defenceless, tho' as much exposed as any County in the Province. This being the situation of our County we thought it necessary to inform you thereof, and we doubt not but your Honours will pay proper attention thereto. We are with great respect

Frederick Town July 13th 1776.

#### Gentlemen:

In consequence of a Resolve of Convention, We the Deputies from the Committees of the several Districts of this County met and proceeded to the recommending officers for the two German Companies and Lieutenants for the Rifle Company, whose names together with a Transcript of our Proceedings we here inclose you. As we have not heard from Capt. Barrett and have some reason to believe that he will not accept of his Appointment from the Emergency of the occasion we beg Leave in case of his refusal to recommend to your notice M<sup>r</sup> Thomas Beall, son of Colo. Samuel Beall, as a Gentleman well qualified to fill that Station, and one whom we are informed would be able in a very short time to raise his Company.

We are with respect,

Gent. Your obed Servants

Gentlemen:

When I was in Somerset the Committee of Safety delivered me three prisoners to bring up as far as Talbot there to be delivered to the Militia to send over to Annapolis, when I came to Cambridge I delivered them to a Guard of Militia there who had some men to send over, the Committee there thinking I had no right to leave them there, have sent them over here to me with a prisoner they had in Custody in expectation of my calling at Annapolis on my way to the Head of Elk. as it may be a means of stopping us some time by calling, have hired the Boat to carry the prisoners over, whom you will please to pay and take charge of the prisoners. I shall set off to morrow morning early for the head of Elk and shall make the best of my way to Philadelphia as fast as possible.

Your hble Serv' James Hindman.

St. Inigoes 13th July 1776. Gent<sup>n</sup> I rec<sup>d</sup> information on Friday the 12th July that there was arrived a considerable number of Ships and small Vessells between Smiths Point & Point Lookout, on which I ordered five Companys of Militia to repare there as fast as possible and imediately set out to the Point myself in order to git further information, On my arrival there I found about forty Sail of Vessells, they were then about twenty five miles off the Point in the Bay, where they continued till in the night. In the morning about fifty eight Sail were discovered opposite Smiths Creek in Potomack & eight in the Bay, on which I gave orders to call the Companys of my Battalion immediately to march to Potomack in order to prevent their landing in the District of the 21st Batt". We have had two small vessells drove on shore from the Fleet, on board of one of them was three whites & two Negroes, three of which now have the Small Pox on them. On of the white men informed us the Fleet was Dunmore's, and that Gov' Eden was on board the Foey, & that he heard it surmised that they intended to take possession of St. George's Island, since which the Foey and her Tender have come to in St. Mary's River, and I don't doubt but the greatest part if not all of the Fleet will be there in the morning. We have between two and three hundred of our Militia Stationed in different places, and I have just sent off an express to Col<sup>o</sup> Jordan to supply me with one or two hundred men of his Battalion if Possible. From the above affair I think it would be proper Capt<sup>a</sup> Beall's company from Drum Point should be ordered here and their place there supplyed with the Militia of the Co<sup>ty</sup>. I should be glad of your advice and assistance. I should have wrote you more particularly but have been marching from place to place from the morning till now, which is twelve o'clock in the night, and am much Tiard. M<sup>t</sup> Hugh Hopewell has promised me to hire an express in Calvert to carry this to you, should therefore be glad you would pay him.

5 oclock Sunday 14th July 1776. Calvert County Gentlemen. About one o'clock yesterday morning by Express from Captain Beall, I received information that there were forty sail of vessels off Point Look Out (Eight of which were Square Rigged) & requesting some Assistance from our Militia (and to get the other part in Readiness in case they should proceed up the Bay) Colo Mackall not being in the County, I gave such Orders as I thought might put us in the best posture of Defence: the Six Upper Companys were to hold themselves in readiness to march on the shortest notice, & with Part of the rest I went to Drum Point. About 4 o'clock a firing of Cannon & was heard (Supposed to be in Potowmack) which is confirmed this Morning by M' Hugh Hopewell Jun who was down near where the firing was; and brought the Inclosed Letter from Colo. Barnes: who also requested the Assistance of Capt<sup>n</sup> Beall & his men. M<sup>r</sup> Hopewell came to Drum Point this morning ab' Nine o'clock & Capt<sup>n</sup> Beall with all the men he had there, set out about half past Ten; leaving that Post in the Charge of our Malitia, who are now but few in number, but I propose to get (& keep) there about Sixty or Seventy men, Exclusive of Officers untill

I receive your Orders, or untill Capt<sup>n</sup> Bealls Return. Ships of War, Tenders & was this Morning lying off between St Mary's River & Point Look Out, & it is reported by some Desserters from thence that they intend to Land on St. George's Island in the mouth of St Mary's River. Capt. Beall desired me to Inform you of his Marching, and desires your Orders how he shall proceed. Collo Barnes could not get an Express to carry his Letter to you in St. Mary's, therefore sent it this Way & expects to receive your Answer the same way, which I will send him as soon as it comes: I shall go to Drum Point in the morning & you may Depend I'll do all in my Power to prevent their Landing in this County; if they should alter their Course, so as to come up the Bay or into to Patuxent; this Express is to be paid from Drum Point to Annapolis which is about sixty five miles, & by whom I expect your Orders, which shall be punctually Obeyed.

P. S. A messenger will be waiting at the late Capt Carrolls Dwelling House to morrow Evening to receive your Answer to Colo Barne's letter. You will be pleased to direct what number of Militia are to be kept on Duty in this County

& what number of Officers.

Sir. The mode pointed out by the Convention for arming the men now raising for the Continental Service, I am afraid will prove ineffectual. The people are much averse to parting with their Arms unless they are immediately paid for them, and we know of no resolve authorizing such purchase. Should there be any such be pleased to order a Copy to be sent, or if your Honble Board should think proper to order such guns as may be necessary to be bought up. I think the men would

soon be sufficiently armed, and I humbly offer it as my opinion that unless some such step is taken, the providing arms here, for the men that may be raised in this part of the County, will be altogether impracticable.

Sir. I received your letter and am well satisfyed that I have so far pleasd you. You mention sending £250 by Capt. Nicholson. He brought me an order for that sum but no cash, have sent the order by M<sup>r</sup> Wells to receive the money, after paying the flour Expence to Poakomoak the expence of discharging the Brigs and the hier of the Vessels for the Troops to Elk, shall lay out the remainder in any way you please to order as I have opened a count for you shall credit you with the money and charge you for what I doe and pay for you, and render you a state of the acount monthly or at the end of sartain Jobs done.

Mr Wells has some proposals to make, but thinks it hard that he cant be paid his old acount, which I know is hard on him as a man can have no trust here for any thing, and his surcumstances wont admit of his lying out of his mony so long. There is 20 bbls of superfine flour left with me and I was at the Bakery last night, there is a good deal of Bread bakd and very good, if there is any wanted for the Brig, please let me now in time, or if flour is wanted I have few barrels flour I should sell at 9° pr hundred which I would send down for the Brig. from your humble Servant

# [Council to Somerville.]

To Lieutenant Colonel Alexander Somervill

Sir. We received yours of the 1st and by the same opportunity one also from Colonel Richard Barnes informing us that Lord Dunmore and the Fleet were within the mouth of Potowmack, and as he heard, intended to take Possession of an Island called Saint Georges Island, but as their designs are uncertain, we think you had better give notice to your Battalion to keep themselves in readiness to march to oppose any attempt they may make to Land in your County and likewise to assist in any neighbouring County.

Captain Beall will have orders from us to remain in Saint Marys County with Colonel Barnes to watch the motions

of the Enemy and to regulate his motions accordingly, he will c. s. c. move to you if there should be a necessity. We have wrote to Brigadier Dent who will take the Command of the Militia and Regular Forces in his District. You will communicate this to Colonel Mackall if should have returned to your County.

To Captain Rezin Beall

Sir. We expect this will find you in Saint Mary's County as we hear from Colonel Sumervill that you marched from Drum Point on the 14th it is impossible for us to give absolute and particular directions to you as the designs of the Enemy are not known to us, we can only instruct you to watch their motions and regulate your own accordingly. you will stay in Saint Marys County so long as you apprehend the Enemy may have any design of Landing there or making any attempt to distress or plunder the Inhabitants, if they should move from thence to any other part of Potomack or up the Bay to Land on this Shore you will follow them with all the dispatch you can. We have sent instructions to Brigadier Dent to take the Command of the Militia and regular Forces in his District whose orders when they reach you, you will obey.

To Brigadier General Dent

By different letters we have received from Saint Marys and Calvert we are informed that the Fleet under Lord Dunmore have appeared in the mouth of Potowmack and it is apprehended they may attempt a landing on some part of that River or in the Lower Counties on this Shore, we therefore think it expedient that you should give directions to the militia of your District to hold themselves in readiness to oppose the Enemy in case they should attempt any Hostilities. We think it expedient that in this emergency you should yourself take the Command and remain with them till you hear further from us—as the militia for the Flying Camp are not in readiness, we conceive it will not interfere with your duty as Brigadier of those Corps, and your presence will be much wanted at this time in your District. Captain Beall with his Independent Company is now at Saint Mary's County, ready to oppose the Enemy. He and his Company will likewise be subject to your Command. We shall be glad to hear from

To Brigadier General Henry Hooper

We have just received information by Express from Saint Marys and Calvert Counties of Lord Dunmore and the Fleet under his command being removed from Gwynns Island, a small distance up Potowmack River with intention as we suppose, of landing at some place within that River, and if he should be unsuccessful in the attempt, we think it not improb-

able but he may endeavour to make a Landing some where c. s. c. or other upon the Eastern Shore, and should that be the case, we have no doubt but upon the receipt of this that you will be in readiness as soon as may be with the Militia under your Command to repel every attempt that he may make to land within your District.

Gentlemen:

This [is] to inform you that there is now lying, off the mouth of S' Mary's River, between seventy and eighty sail of vessels. I am now at Leonard Town on my way down with part of the 6th Battalion under my command, where I received an Express from Colo Barnes (who is now at St. Inegoe's Neck with the lower Battalion) informing me that this morning Ten Boats full of men landed on St. Georges Island and had returned for more. I expect to be opposite the Island some time this night and shall endeavour to get the best intelligence I can of their numbers, and give the earliest notice. We shall want more powder and lead and also flints, if they are to be had. Major Eden by whom this goes will inform you more fully. The Committee for this County sat this day and have detained Capt. Forrest's Company until they hear from you. I am Gentlemen: Your mo: obed' Serv' Jeremiah Jordan.

Inclosed are Capt. Forrests & Lieut Bond's enrollments, the other two officers have completed theirs, but have not returned them to Cap' Forrest Cap' Forrest desires me to inform you that his enrollment was compleated the day before they were received by the Field officer.

Baltimore 15th July 1776.

Gentlemen:

Capt. Rob' Sanders has been on board the Alfred adm' Hopkins ever since he first fitted out, he went on board at first as a Pilot when the fleet was intended for Virga, but after their destination was altered he continued on board, and was in the action with the Glasgow. He has Testimonials of his good Behavior and I believe will meet preferment in the Continental Service, but as you are intended to fitt out tenders & gondolas, If it be agreable to give him the Command of one, I presume it would be more satisfactory to him, and when you direct I will write for him to return.

Commodore Bouchier has sent up for Capt Moore to go into the Virga Service, but as I made application to you in his behalf, I have prevailed on him to wait a day or two for your answer. I must say that I think him very clever in his department, has perhaps seen more service than any other than will be in that employ and I should be sorry was he to quit the service of our Province. If therefore you chuse to keep him as Captain to one of your Vessells you will please to write by Mr Yeks who returns early to morrow.

You will want Rigging for your Vessells which we shall hope to furnish. And with much respect, I am

No. 45. [Council to Eastern Shore Committees.]

To Committees of Eastern Shore, (Circular).

Gentlemen. It is impossible for us to attend so particularly as we could wish to the Execution of every part of the inclosed Resolves and therefore must request the favour of you, (tho' we are conscious it will give you a good deal of trouble) to assist us far as the nature of the Subject, and your situation will admit of, to comply with them, particularly in borrowing Firelocks from such of the Militia as will lend on the Public Faith that the same shall be returned in the like good order as received or in case of Loss, the value thereof in having them valued—and also in collecting a sufficient quantity of Blankets for the Troops directed to be raised in Queen Anns and if practicable, more, to make up the deficiency which we are apprehensive there will be in some other Counties.

We think it best that the defective arms for the Companies to be raised with you for the Flying Camp, should be repaired and fitted in your County if possible. As Mr Winters of Chester Town, who is the only person we know of on the Eastern Shore capable of undertaking it, for the whole Battalion to be raised there, is already engaged in making Arms for the Province, and we should be sorry to take him from that · Business unless, thro' absolute Necessity, and therefore request you will exert yourselves in your endeavours to have them done without applying to him, if however you cannot accomplish it, you will be pleased to send them up to him for that purpose as fast you collect them taking his receipts for such as you may deliver. We desire to know how many arms you have in your possession belonging to the Province and the number delivered in by or taken from those who have not subscribed the Association, or enrolled in the Militia, and that those belonging to the Province may not be given out without the orders of this Board. We have already a sufficient quantity of Cartouch Boxes, Bayonet Belts and Slings and have advertised for Persons to contract with us for making

Knapsacks with Haversacks, Priming wires & Brushes, Camp c. s. c. kettles and Canteens or Wooden Bottles, but if you can recommend to us any who can and will engage to supply the Militia, with either of these Articles we shall be obliged to you. Steel Ramrods we presume you can get made, but not Bayonets, and therefore we have wrote Mr Hollingsworth of Cecil County immediately to procure a number, a sufficient quantity of which we will endeavour to supply you with as soon as possible, upon being informed you can have the Arms repaired and fitted. No period can furnish a greater necessity for your warmest efforts, and we trust you will not leave any thing unessayed upon the present occasion.

We will send you by the first opportunity some Cash to buy Guns, and Blankets with, which we request you will lay out

accordingly.

We have not exceeded four pounds five Shillings for a Musquet with a Steel Ramrod and Bayonet, but upon this occasion would have you go as high as four pounds ten Shillings, Guns which you may purchase without either, ought not to cost so much that the necessary repairs and providing Ramrods and Bayonets will carry them above four pounds five Shillings, unless they are very good, in which case we will also allow four pounds ten Shillings

N. B. There is a person on Kent Island who has repaired many Guns for the Militia, these particularly in the Locks, and we are informed is well qualified for the Business.

### [Council to Committees of Western Shore.]

No. 46.

To the Committees of Western Shore (respectively)

Gentlemen. It will be impossible for us to attend so particularly as we could wish to the execution of every part of the enclosed resolves and therefore must request the favor of you, (tho' we are conscious it will give you a good deal of Trouble) to assist us as far as the nature of the Subject and your situation will admit of to comply with them, particularly in borrowing Firelocks from such of the Militia as will lend on the Public faith that the same shall be returned in the like good order as received, or in case of Loss the Value thereof—in having them valued and also in collecting a sufficient quantity of Blankets for the Troops directed to be raised in your County for the Flying Camp, and if practicable more to make up the deficiency which we are apprehensive there will be in some other Counties.

We wish the defective arms which may be collecting in your County for the Flying Camp should be repaired and

c. s. c. fitted there, if possible, and therefore request you will exert yourselves in your endeavours to have them done as expeditiously as you can. We desire to know how many Arms you have which have been delivered in by, or taken from those who have not subscribed the Association or Enrolled in the Militia. We have already a sufficient quantity of Cartouch Boxes, Bayonets Belts and Slings, and have advertized for Persons to contract with us for making Knapsacks with Havresacks, Priming Wires & Brushes, but if you can recommend to us any who will engage to supply the Public with either of those Articles we shall be obliged to you. Steel Ramrods, we presume, you will be able to get made, but are doubtful as to bayonets, however if you can provide them also we would have you do it.

Mr Hanson will deliver you this and we request you will lay it out in the purchase of arms and blanketts. We have not hitherto exceeded four pounds five shillings for a Musket with a Steel Ramrod and Bayonet, but upon this occasion would have you go as high as four pounds ten shillings, Guns which you may purchase without either ought not to cost so much, that the necessary repairs and providing Ramrods and Bayonets will carry them above four pounds five shillings unless they are very good, in which Case we will allow four pounds ten shillings.

Dr Sir: When Captain Kelly was down my sloop lay at such a distance that we could not go to her as they were in such a hurry; but I promised to send up her dimensions, he heard her carector of being the fastest saylor in this place—her standing rigging in good order, sales & running rigging very indiferent: 46 feet long on deck, 14½ feet Beam, 6 foot Hole. I consider her sales and riging as nothin worth to the Province except her standing rigging & should not have mentioned her only for her fast sailing. I gave one hundred & fifty pounds for last yeare and if better to answer the purpose cannot be got, I am willing to take the same for her now.

Sir.

In answer to yours of the 10<sup>th</sup> Inst. which I received yester day I inform you I have twenty two muskets finished compleat and fifteen more ready for Stocking six of which will be finished this week.

Harvest & sickness of two of my best hands and the bursting of twelve or thirteen of my barrels in my absence has disappointed my expectation. Twelve of the Guns finished have been proved with two ounces of powder and one ball, the remainder with one ounce of powder and ball, but if this proof will not satisfy I will apply to the gen<sup>n</sup> you mention to prove them, tho' it will be attended with expence & trouble in taking them out of the stocks & fitting them in again.

What other barrels I make I shall apply to M<sup>r</sup> James Harris to see proved before stock'd as he lives handy to us & take his certificate. I will deliver at my factory or Harford town to your order what arms I have or can have made in time, according to agreeament, but will not deliver them at Baltimore town at my own risque & expense. As Colo. Hall is in this neighbourhood, will not a delivery of the arms to him answer.

We the subscribers having the Command of the two Companys of Militia on Kent Island, beg leave to inform you, that the people of the Island are much Dispirited by reason of the removal of the Independent Company off the Island, and also of a number of young men who is gone to the flying Camp which has weakened our Militia Companies very much, and as the people are apprehensive of being plundered and drove off the Island very soon unless reinforced, we therefore humbly desire that your honors will take the same immediately under your consideration and order a reinforcement to come to our assistance as soon as possible, or many of the people will go off, and indeed we are in some doubt that some of them will not take up arms unless we have some other force to assist us. and there is no doubt but they will be very spirited and will endeavour to defend the Island as long as possible. request we hope your honors will grant us, or we shall be in a most deplorable situation expecting to be plundered and perhaps drove off the Island if the enemy appears, which we humbly expect, as it is said the Island is intended as a place of Rendezvous for them. Agreeable to your orders, a Company out of my Battalion will be at Annapolis to day, they are not quite compleat but will be made so to morrow. The notice I had was so short, there was not time to collect the whole Battalion which is the reason that some of them are badly armed. We are sorry we cannot comply with other requests you have made us relative to the two companies raised in Kent, our Province is actually Invaded by Lord Dunmore with his whole Fleet who are now come into Potowmack and are Landing at S<sup>t</sup> Georges Island, our own Battalion and Independent Companies are marched off to the eastward by order of Convention. In this distressed situation every Gun we can muster from M<sup>r</sup> Winters and all other parts must first be first

As to Tents we will write you more fully hereafter, when we know certainly what Canvas we have at Chingotigue. Were we to make the ample provision you wish for two Companies in the Eastern Shore Battalion and leave the others bare of every thing, we should justly subject ourselves to the Charge of Partiality; you may depend we will do as much for those two Companies as we possibly can, at least equal to others in same Battalion.

No. 51.

To Captains Barnes and Elliott

Gentlemen. We received your favour of the 16th Instant about an Hour ago, and are sorry to find the People of Kent Island so very uneasy from an opinion Dunmore will attack them. We do not apprehend unless he should receive a considerable reinforcement that he will attempt any thing of that sort, as from the best information we have of them his party is unequal to such a measure; however hearing of the apprehension which prevailed among you and that you were not sufficiently provided with ammunition by the Committee of Observation for Queen Anns who we expected would supply you and being desirous of guarding against every possibility of danger, we had ordered before the receipt of your Letter a Barrel of Powder and four hundred pounds of Lead to be lodged with Mess<sup>15</sup> Thomas Ringgold, Aquila Brown and Doc' Ringgold for the use of the Island and that Captain Deans Company of the Flying Camp Militia should, as soon as they could be armed, march down for your Protection. We have wrote the Committee to provide Barracks for the Company, but as your recommendation of such as would answer the purpose, would probably expedite the Business we think you had better make the proper enquiry and write us.

St. Mary's County St. George's River July 17th 1776 Gentlemen.

I arrived down here on the 15<sup>th</sup> Inst with about one hundred of the Militia, where I found Cap<sup>t</sup> Beall with part of his Company and one Company of Colo. Barne's Battalion. About daybreak yesterday we were visited by a Row Galley or Row Gondola carrying 5 Swivels on each side and

a six pounder in her head and another in her stern, they rowed along side our centinals and not a man to be seen and instantly began a very heavy firing which lasted about one hour but without doing any execution, altho' their shot reached the ground on every spot where the men were stationed. In the evening she returned again and engaged us again for upwards of two hours, and at the same time the troops landed from the Ships in St. George's Island to the amount of about 300 pushed down to the point opposite to us with swivels and musquetry, and kept up a heavy fire, from which Capt Beall was dangerously wounded in the shoulder with a ball (as he says from a riffle) which has rendered him incapable of duty.

I shall endeavour to keep the post we are at at present if possible if not shall retreat to the woods about half a mile.

From a report we had given us yesterday they are constructing another vessel like the above and that they intend attacking us on the Potowmac side. I think from all appearances the Fleet will continue some time, if so, some Cannon and Swivels will be absolutely necessary to dislodge the men they have landed on the Island.

With what assistance we can give in this quarter, I think 500 of the Militia of the upper Battalions will be full enough to oppose the enemy. We have now at different posts about

600 men.

For further particulars refer you to M<sup>r</sup> Hopewell by whom this goes express, he also will inform you the difficulties we labour under in getting provisions for the men without money to pay for it immediately. £300 I think would be sufficient.

Col Barnes with his Battalion is on the other side of the

river, watching the motions of the enemy there.

Gent.

On my way to this place I heard two of our Flour Vessels at Annimessick. I called to know their situation and found there was no chance of escaping the enemy if they attempted

to get into Pocomoke.

Under these circumstances there appeared no better method of getting the Flour here than by carting it from Annimessick to Pocomoke, bringing it in a Craft some distance up the River, landing it again and carting it over the Inlet. For this purpose I directly engaged Carts on both sides of the river, and a Craft in Pocomoke, but to this moment I have rec'd no more than 78 barrels. The Batt<sup>n</sup> I am told will be here on Monday, but from what I have experienced I did not expect it so soon. Mr Crockett informs me 3 Vessels more had come off with Flour. I have enquired but can get no tidings of them. However I still hope they are safe in some Harbor, but shall not count upon them for part of this Cargoe. When I shall be able to dispatch the Brigantine I cannot say, this being the most uncertain and difficult Place to do Business in that ever I experienced.

There is no Corn but such as lyes much scatter'd, at great distances, in small quantitys and at extravagant prices. Tobo I find very scarce and lying in much the same manner; indeed any that I have yet seen is ordinary, and they ask 20 & 25/ Virginia money for it. But this Article must be our dependance and I shall as expeditiously as possible ship as much of the best, I can find as will, with the Flour, put the Brig in a light load and send her off. As to the schooner John, I decline loading her for acct of the Province and as soon as I can have the pleasure of waiting on the Council of Safety, I will give them satisfactory reasons why it ought not to be done. The musketts, powder, Sulphur & swivels still lay in a very dangerous situation, in an old shattered house. I therefore thought it prudent to send an express to the Worcester Committee to hire Carts to get it away and they accordingly have got all the Articles to Snow Hill, except a removed tomorrow. few Barrels of Sulphur that

At a meeting of the Committee of Somerset County July 10th 1776, David McDonald Jun. informed the Committee on oath that he was told by his father and Wife that they heard James Layfield say that he wanted this Deponent to join and take the ammunition from Lazarus Maddux which he was carrying to the Guard, and that his father and wife told him said Layfield told them he wou'd tie said Maddox and carry him aboard of Dunmore.

Ordered that James Layfield appear on Tuesday next before the Committee also that David McDonald sen and Sarah McDonald (wife of David McDonald) appear before said Committee to testifie against said Layfield.

Tuesday July 16th 1776. The Committee met. Were present, Thomas Bruff, Thomas Hayward, William Waters George Waters, John Jones, Daniel Dashiell, James Bounds and Peter Waters. Thomas Bruff in the Chair.

James Layfield appeared before the Committee. The Committee adjourned until to morrow morning. Wednesday July 17th 1776. The Committee met according to adjournment, all members present as on yesterday except Thomas Hayward.

James Layfield appeared. David McDonald and Sarah McDonald also appeared. The committee proceeded to examine the Witnesses. they depose as follows:

David McDonald Sen of lawful age being duly sworn deposeth and saith that some time in June last that James Layfield came to this Deponent's house and said that if he had help that he would have taken the ammunition that Lazarus Maddux had a carrying down to the guard, and if he the said Layfield had been a going down to Dunmore he would have tied the said Maddux and put him in his canoe and carried him to Dunmore. this deponent saith that he has several times before this heard Layfield say that he would not muster and that if he would get persons to join him he would stand in opposition to mustering and would not muster for any person and further saith not.

Peter Waters.

Sarah McDonald of lawful age being sworn deposeth and saith that some time in June last that James Layfield came to her fathers (David McDonald) in company with John Redden and Lazarus Maddux, Layfield and Redden came into the House, Maddox went to tie his horse, Layfield asked this deponent where her husband was and desired this deponent to tell her Husband to come out to him, she answered that he was not at home, this deponent saith that some little time afterwards that Maddux went of to the guard that were at Jerico. Layfield and Redden came up to the door. Layfield told this deponent what he wanted with her husband was that if he had been at home and was as willing as he was he would tie Maddux put him in a Canoe and carry him and his ammunition on board of Dunmore for it was a bargain they had made as they came along to do so and further saith not.

# [Council to Jordan?]

To the Commanding Officer, St. Marys.

Sir.

We have received your Favor of yesterday and observe the contents.—Some Powder and Ball we dispatched to you yesterday and shall immediately send you four Field Pieces &c. You will receive by Mr Hopewell three hundred Pounds according to your desire. You will Judge what additional number of the upper Militia may be necessary, and order them down. It gives us concern to hear that Captain Beall is wounded, but hope it is not dangerous, and as we understand you have several Surgeons with you, trust he will soon do well.

# [Alexandria Committee to Jenifer.]

Original.

Alexandria July 18th 1776.

Sir. At a meeting of the Committee for this County and District, a Resolution was entered into to write to your Council of Safety, and appointed me for that purpose.

I am informed that your commanding officer or officers in each County have it not in their power to raise the militia (on any occasion) under his or their command, without application to your Council of Safety and instructions from them for that purpose.

Permit me to say I apprehend many dangers may be avoided, many good consequences (in case of a sudden attack from the enemies of America) are obvious, had the commanding officers in each County on Potowmack River full power to raise the Militia and order them to march where there was a real occasion either in your own province or to the assistance of a sister Colony. We have been frequently allarmed with Dunmore and his Banditti with the vessels of war paying us a visit, and when he lately made his appearance in our River, it was presumed, his intention was to make this place an object

worth his attention. His well known enmity to Liberty, his untoward disposition towards this common wealth in particular, and his corrupt principles, capable of committing the most atrocious villainies, give cause to suspect that his intention might be to distress this place and the Inhabitants of each side the River, by which your Province would experience the dire effects of the Marauders.

Should you be attacked, and our assistance necessary we wou'd cheerfully obey the summons of Liberty, humanity, and neighbourly affection, and fly to your assistance, we should be wanting in duty if we did not, because we are not bound up by any ordinance, nor command, but at full liberty to exert ourselves in behalf of ourselves and in that of a Sister Colony.

I hope you and the gentlemen of your Council of Safety will excuse this remonstrance to you, and that you will see the necessity in the same light that we do of empowering (at least) your commanding officers on the river to raise the Militia under their respective commands (in case of danger) and to march them where there may be a call for them. I am convinced the gentlemen and soldiers would chearfully do it from a principle of humanity and friendship tho' the danger was more remote from them was this request put in execution.

I am Gentlemen, Your most Obed<sup>t</sup> & very Humble Servant John West, chair. P. L.

### [Council to Maryland Deputies.]

To the Deputies for Maryland in Congress Gentlemen.

Inclosed we send you Copies of some Letters we have Received from Colonel Barnes and Colonel Jordan, giving us an Account of Lord Dunmores Squadron having appeared near the Mouth of Saint Marys River in a hostile manner and that some of them had landed on Saint Georges Island—in consequence of these advices we have countermanded the orders to Captain Thomas and Captain Hindman, whom we wish to keep in the Province to assist in repelling the invasion. We do not expect Dunmore will stay long at Saint Georges Island—expect he will move up Potowmack, or to the Eastern Shore—perhaps up the Bay to Annapolis, or Baltimore Town. We shall send you further intelligence as soon as we receive it. Our Flying Camp are coming in almost every Day but many of them without Arms, Blankets, or any other necessarys;—a question has arrisen as to their subsistence, neither Congress nor Convention have made any provision for Rations during the time the Men are drawing together, nor whilst they remain unarmed, and unprovided with necessarys which will amount to something considerable. We intend finding Rations for the Battalion that are to supply the place of our own Regulars. We wish you to apply to the Congress and let us know what is to be done about subsistance for the other Battalions, they are all coming to us to be supplied with almost every necessary, and you may Judge our Situation is very disagreeable, not having it in our power to answer their Demands. Our Militia in a general way during this time of Invasion cannot be pursuaded to lend their Arms, most of those who enlist have none of their own. We take it for granted it would answer very little purpose to send you a Number of Men unarmed and unprovided with necessaries, and therefore do not order them forward. We congratulate you on the Victory that hath been obtained in South Carolina by the Americans over the British Fleet, some of Commodore Parkers Squadron have met with a severe drubbing according to the Particulars we have heard, of which we doubt not you have more perfect information before this time. We send you the Maryland Gazette, in which are inserted some particulars of the Damage sustained by Commodore Parker. We c. s. c. have information from below that Lord Dunmore hath been beat off at Gwinns Island, and we have too much reason to believe by intelligence from a Deserter who was examined before us yesterday, that Gov<sup>r</sup> Eden is still on board the Fowey. they have Seventy-two Sail of Vessells, divers of them small sharp Rigged Sloops or Boats.

We have received Mr Stone's Letter of the 12th but know not what answer to give as to supplying Tents, until we can see how our Canvas holds out;—do not believe it will be in

our power to furnish any in time.

Gentlemen.

The Bearer Capt Ewing has a ship to dispose of she is a new vessel and as well built one as ever I see. She is really a complete piece of work and stout enough to carry 8 or 10 six pounder with fifty men. She draws less water than any vessel of her size. She has new ankers, cabels and rigging; her mainsells new but not large enough for the revenue Service. I would agreed with him for her but am in some doubts of her sailing fast by the wind. There is no doubt of her sailing exceeding fast from the wind. Capt Ewing has agreed to carry her to Annapolis to you. I have told him you would get Gilbert Midelton try how she sails by the wind. Gil Midelton will make proper allowance for her being badly saild. If she will answer the end of sailing by the wind she may be made so able that nothing but men a war can hurt her and then She run in to such shoal water from that they could not get at her. I think when she has fifty men with water and provision and ten six pounder. She will not draw more than 61/2 feet water. If Mr Midelton finds she will answer the end of sailing by the wind, She may be bought from Cap' Ewing for 450% or 475% and he must find you a new mast Boom and all other spars for they are all too short.

Cambridge July 19th 1776. Gentlemen. I have to acquaint you that we have not met with the wished for success in raising the company you ordered us to raise in this county. The Militia having been discharged till after harvest we have not had an opportunity of seeing the men; add to this that on my return from Annapolis the Cambridge Blues were ordered to march to the streights where the Enemy was said to have landed. Unwilling to desert them at a time of danger, I commanded them on that expedition, so that it has not been in my power to exert myself as yet. M' Lynch has made up his complement, they are here and are a likely set of men. We have about forty or fifty men engaged in Somerset there were none willing to engage. I expect some next week from Worcester. I wait to know how many, which when informed of shall proceed to Annapolis to receive your orders, whether I shall continue to enlist or not. Our Militia Companies will meet next week, when we shall have a better opportunity of completing our number. Could I have engaged to take the men into immediate pay, the Company would have nearly completed. M' Lynch carries our warrants.

Dorset County 19th July 1776.

Sir. On receipt of yours of the 15th Inst. I immediately ordered a draft of fifteen privates and proper officers to be made from each company of Militia of this Brigade and those drafted in Dorset & Caroline Counties to be stationed in Dorset and the drafted militia of Somerset and Worcester Counties to be stationed in Somerset County, the men so drafted are ordered to be at the several places of rendezvous on Wednesday the 24th Inst.

If your Board should not approve of this disposition of the militia, you will please to let me know it and I shall make

such alterations therein as you may direct.

Altho' I have ordered out the militia to be in readiness to repel any attempt of the enemy to land in this district agreably to your directions, yet I think it will be difficult to keep them together without some money, the Country people here who have provisions to sell showing a great unwillingness to part with it unless paid for at the same time. I would therefore wish your Board would take some order about subsisting the militia of this District when called out in defence of the province by directing that the Treasurer of the Eastern Shore should pay to the committee of observation for Dorset County such a sum of money as you may think necessary to be applyed for the purpose of victualling and subsisting the militia of the Lower District when in actual service, as the commanding officer of s<sup>d</sup> Brigade shall direct. I have applyed to Gen<sup>l</sup> Chamberlain for 400 lbs. Gunpowder and 1600 lbs of Lead.

If you should have received any further intelligence concerning Dunmore and his fleet I should be glad to know it.

Charles River, Head Quarters 19th July 1776.

Gent<sup>n</sup>

On my arrival at this place on the 16th Inst. I found there had been an engagement with the Enemy with no other loss but the misfortune of Capt Rezin Beall being badly wounded, tho' its hoped not mortal. By four Deserters who came over

to us yesterday we are informed the mate or midshipman of the Roe Buck was killed in the action. By the best information the Enemy have not more than 50 Regulars of the 14th Regiment, about 150 Tories and 100 negroes that bare arms: all of whom are landed every morning and embarked in the evening under cover of the Fleet, which continues in the mouth of St. Mary's River opposite the lower end of St. George's Island. Our strength at present is about 400 Militia exclusive of the Independent and Capt<sup>n</sup> Forrest's company. I made bold immediately on my arrival (the strength of the Enemy being much magnified) to order to our assistance three full companies of Militia from Col Hawkins Battalion, to be selected from the interior part of the County, which I expect will arrive about to morrow evening, when, I shall discharge an equal number of the most necessitous of those now on duty. The Fleet (which at first consisted of eighty sail) is now reduced to little more than half that number, many of the Tenders and Square Rigged vessels having gone to Virginia opposite the mouth of Potowmack where a pretty constant Cannonade has been kept up ever since I have been here. We are told by the Deserters (two more of which have come over since I began to write) that the fleet intend only to wood and water on the Island, burn all, or most of their small craft and proceed to Sea. Had we a few great guns at a place called Cherry Fields Point, well planted and served, we might annoy the Fleet so as to oblige them to quit their Station. Cap' Forrest's Company has relieved an equal number of the militia who readily parted with their arms, such as they were.

I shall as often as any thing of consequence happens communicate it to you with the utmost dispatch, 'til when I am your most obedient Serv'

M' Thomas who was to have delivered you the inclosed is now with me. the Company is very anxious to be furnished with the arms which arrived at Chingoteage but I have informed M<sup>r</sup> Thomas the resolution of the Council as to them. It will be very difficult if not impossible to procure a sufficient quantity of guns here, the Militia have but few, and will not part with them unless to the Company which is to defend Kent Island. They I believe will be soon supplied from what I can learn, I cannot however speak with certainty. I shall meet the Committee next Thursday and shall then have an opportunity of forming some judgmt myself of the practicability of arming them. Pray write me if any thing extraordinary.

Gent<sup>n</sup> Frederick Town July 21st 1776.

Yesterday I received part of Capt. Good's Company. Lieut Ghiselin now waits on you for commissions and orders. Capt. . Good informed me that it will be out of his power to procure arms unless you will be pleased to furnish him with money, and then he can get both arms and Blankets. I submit it to your consideration whether it would not be best, I believe Capt Good to be a man of honour. I know him to be a man of property and will I dare say lay the money out to the advantage of the Publick.

Some villain or other has propagated thro' this county that Colo Beatty and myself have destroyed the recommendation of the filed officers by the Committee and the several petitions of the people for a further Representation. I hope you will not think me troublesome when I request the favour of you to inform me by letter that they are in your possession by Mr Ghiselin I hope to receive your answer.

Council met. Present the same Members as on Saturday. Ordered That the Treasurer of the Western Shore pay to the Clerk thirty Pounds for Expresses & other Purposes.

That the said Treasurer pay to William Johnson twelve

Pounds two shillings and six Pence for making Tents.

That the said Treasurer pay to John Denwood three hundred Pounds for the use of the Committee of Observation for Somerset County.

That the said Treasurer pay to George Woolsey four hun-

dred and six Pounds fifteen shillings and eight Pence for c. s. j.

Demurrage of the Brig Rogers.

Copy of Letter N° 65 was sent to Brigadier General Dent; Copy of N° 66 to Capt Isaac Perkins, and Copy of N° 67 to Brigadier General Hooper.

Adjourned till 3 O'Clock & met accordingly.

Ordered That the Treasurer of the Western Shore pay to M' John Ball thirty six Shillings for the use of his House for Barracks.

That the said Treasurer pay to James West twenty four Shillings and nine Pence for 396 Flints.

Copy of Letter N° 68 was sent to the Committee of Observation for Kent County, and Copy of N° 69 to M' Thomas Ringgold, M' Aquila Brown and D' Ringgold, Kent Island.

Denwood Turpin, and Solomon Ward having been ordered up under a Guard from Somerset County by the Committee of the Council of Safety, and being brought before this Board, and the Depositions taken against them, having been read, and the Prisoners heard in their own Defence, and alledging they had offended through Ignorance of the true State of public Affairs, and promising to conduct themselves better for the future, It was ordered and adjudged that the said Denwood Turpin and Solomon Ward be conducted back again under a Guard to Somerset County and remain in Custody until they give Bond in the Sum of £300 Currency each, with good Security to be approved of by the Committee of Observation for said County, with Condition that they do not correspond with the Enemies of American Liberty, and further that they obey all Orders of the honble Congress and Convention, and that on giving Bond with such security and paying all Charges they be severally discharged.

Ordered That the Treasurer of the Western Shore pay to Capt. Oneas Campbell for the use of the Committee of Observation for the lower District of Frederick County three

hundred pounds common money.

Whereas it hath been represented to the Council of Safety by physicians and others that the intolerable Stench arising from Slaughter Houses and spreading green Hides to dry in the City of Annapolis may be productive of pestilential Disorders and ill Consequences to the Troops and others residing in the said City, Therefore Ordered that no Butcher or other person shall, after the twenty sixth Day of this Instant, presume to slaughter Bullocks, Mutton or any kind of meat, or put up green Hides to cure within the Limits of said City for and during the Term of three months thence next ensuing.

Adjourned till next Day 10 O'Clock.

### [Council to Dent.]

To Brigadier General Dent.

Sir: Your favors of the 19th & 20th instant are before us. We approve of your ordering an additional Number of Militia from Colonel Hawkins Battalion, and dont Doubt your doing everything necessary to repel the Invaders, we have ordered Major Price down with Three Field Pieces, and one nine pounder, with Capt Thomas's Independent Company, which we rest satisfied are arrived with you by this Time. These will enable the Major and you to speak more properly with the Row Gally than you hitherto could do. You apprehend the Enemy are moving up the River, it is not improbable but they may, you will (as you have done) continue to watch their motions, and from time to time inform us. We wish to be acquainted how many and what sort of deserters have come over; whether they be Soldiers, Sailors, Tories or Prisoners taken by them.

Please to say in your next how Capt<sup>n</sup> Beall may be. 21<sup>st</sup> July 1776.

### [Council to Perkins.]

To Captain Perkins Sir.

The Council of Safety will fix upon some Day not far distant to issue the several Commissions for the Officers belonging to the Flying Camp, when you may depend upon you and your Officers receiving yours. We have no Muskets to supply your Company with or any other belonging to the Eastern Shore Battalion; it at present remains doubtful whether or not we shall after all our endeavours procure sufficient Arms to Arm the Battalion to be stationed upon this Shore in the stead of Colonel Smallwood's which is marched to the Northward. We expect to be supplied from Baltimore with Knap and Havresacks, a part of which when received will be appropriated to the use of the Eastern Shore Battalion. At present we have no tents nor are we possessed of the necessary materials to make them. When your Company is equiped for marching, and any of the Men at that time should prove non-effective, we think if others offer to supply their places you may safely incorporate them in your Company.

P. S. Orders are lodged with E. S. Treasurer.

### [Council to Hooper.]

C. S. C. No. 67.

To Brigadier General Hooper Sir.

Your letter of the 19th of July was this Day handed to the Council of Safety and agreeable to your requisition we have sent you inclosed an order upon the Eastern Shore Treasurer for £300, to be applied to the pay and subsisting of the Militia within your District when called into service. Your Arrangement of the Militia meets with the entire approbation of this Board.

We have just received information that a part of Dunmore's Squadron have moved from the Mouth of Saint Marys River pretty far up Potowmack, with intent to wood and water, which they are in the greatest distress for the want of, when they obtain those Articles it is not improbable but they may think proper to visit you for Fresh provisions; should that event happen we have full Confidence that every Military exertion will be used to give them a proper reception.

No. 68.

To the Committee of Observation of Kent County.

Gentlemen. We received by Captain Berry the following articles, viz' 50 Barrels Powder, four half Barrels ditto, 15 Chests of Arms two large and two small pieces Lead. We send him back again for another Load, and the Schooner Resolution is to follow her to bring away every thing she leaves. The Money for Waggon Hire and other Contingent expences we have ordered into the hands of Mr. Thomas Smyth. Sixty Barrels or 6000 Weight of Powder, and Lead in proportion is to be left for the Eastern Shore Magazine—five Barrells for your County. We want the Swivels, Blunderbusses, &c to fit out a small vessell immediately. Should Elisha Winters have any Guns please to let them come down by the Schooner Resolution.

P. S. We expect the Sixty Barrels for the Eastern Shore Magazine were left at Talbot Court house.

Fred. Town 22nd July 1776.

Gent. In conversation with M' Ringgold as he past through he told me that Genl Dent was collecting the Militia below to attack Lord Dunmore. I am apprehensive they will want arms for the purpose and that a good many of the men notwithstanding their Desire to go on the service may reluctantly leave their own neighbourhoods unhappily full of negroes who might it is likely on any misfortune to our militia, become very dangerous. I have spoke with several here and it seems to be a general sentim' that we ought to assist & I believe though our Exertions are already as great as we can well make that for a short Expedition on this very interesting occasion we might soon collect a Battalion and borrow the Arms which would be wanting. If you who are acquainted with all circumstances think it necessary to have men from hence I shall most gladly execute any orders you may think proper to

give for that purpose.

M' Ringgold gave me your letter for my Brother James our furnace is not now in Blast. I went out to him as soon as I got the Letter. We have now by us a few potts of about the size you describe, a few Kettles & a few Dutch ovens of much the same contents, the covers we could lay by and of all sorts, make up perhaps 60 or upwards. We shall have Bales made to them, and unless you have an opportunity of supplying the men with others more to your satisfaction, send them to Balt as soon as we can: the prices must depend on their sizes and the whole shall be so reasonable as to give Satisfac-But if you can be better provided please to advise me of it. My Brother is getting his furnace into Blast with all Diligence and hopes to effect it within a fortnight. You may then have any number of pots and Kettles that you please within a short time. We shall also attempt to cast such guns as are wanted but cannot contract for them in all Events because the metal may not suit, though we have every Reason to expect it will If we succeed in making good Guns the Public may have them deld at Baltimore at 40 f a Ton the Guns being proved at the works at the public Expence, the swivels at their common price, but I should be glad if you would ascertain the length & other Descriptions as the make of cannon carrying the same shot vary very much. If any Body also will contract for a Certainty, I wish he should be preferred even at a greater price.

Gentlemen. The five Thousand Dollars granted by Congress for raising the four German Companies in our Province have been paid into our Hands and retained by us for the Purpose of exchanging it for our Maryland Convention money and by this means to give our currency Credit & Circulation here. Had we not taken this measure, our Emission would have been useless here and the Commercial Connection between this and our Province would have been greatly if not totally obstructed had exchanged the whole sum with the merchants & shopkeepers and we have advanced as per account enclosed. Mr Hughes having obtd a large sum of Continental money he exchanged with us as far as we had our Convention Currency in our Hands: this gives us a fresh fund to keep up the Credit of our money here. You'll be pleased to advise us whether this measure of ours meets with your approbation, if not we will remit the whole immediately to you.

Cap<sup>t</sup> Stricker being appointed L<sup>t</sup> Co<sup>1</sup> of the German Battalion and being desirous to proceed immediately to Frederick County to forward with all expedition the raising of the Companies, we thought proper to advance him 1520 dollars of the Sum appropriated for that Purpose; and we also have taken the Liberty of advancing Col Ware £15. o. o and Major Gist £67: 10.—which sums they request you will charge to their account.

## [Matthew Tilghman to Jenifer.]

Talbot July 22<sup>nd</sup> 1776.

Sir.

I must beg the favour of you to lay before Council the inclosed Pet. If I have not paid absolute obedience to their order I trust they will impute it, not to a disposition to dispute their authority, but to the real cause. The saving to the public a considerable expence, or to myself an heavy and irreparable loss. If the Council consider the matter in the light in which I have endeavoured to place it, and which in my opinion is the true one, I am confident they will have no difficulty in granting my prayer: and I hope they will pay some attention to the hint of keeping an armed Boat to ply for the security of this part of the Eastern Shore. Be pleased to offer my petition immediately to the Board and whatever may be their determination, I must beg the favour of you to transmit it to me by the [bearer] who will wait.

I am Sir Your Most obed Serv Mat. Tilghman

To the Honble Danl of St Thos Jenifer Esq. Charles Carroll, or any other Member of the Council of Safety in Annapolis.

#### [Matthew Tilghman's Petition.]

C. S. C.

To the Honourable the Council of Safety of Maryland:—

The petition of Matthew Tilghman humbly shews, That immediately on rect of your order of the 13th instant he directed Tho' Smith his overseer to move all the stock except the Milch cattle from Choptank Island. That the said Smith. tho in the midst of his harvest, did immediately move off about seventy head of Cattle. That he then applied to your petitioner for directions how to dispose of the said cattle & remonstrated on the certain loss of most of the other kinds of stock should they be moved off, on consideration whereof your petitioner has ordered that all the sheep be got to the north end of the Island next to the narrows and that they and the hogs and the remaining part of the cattle kept on for the subsistance of the people be immediately moved off on the appearance of the Enemy. Your petitioner begs leave further to represent, that the Communication from the Island to the main land is very easy the narrows at the usual place of passing being not more than forty yards wide. That he has a fence across a narrow pass on the sd Island, erected for the purpose, before your order came to hand, between two plantations, by which means, upon any appearance of danger he can have all the stock speedily moved to & retained on the north end, from whence they may on the shortest notice be immediately removed off. That the hogs are now in the stubble fields, & must inevitably perish, or be lost, if carried off: That there is no part of the Bay side between your Petr House and his Island, a distance of about ten miles, but what is equally exposed, and from whence, there is the same reason to move the stock. The Island being so situated, as to be as easily defended by the militia as any other part of the neighbourhood, except the little difficulty in passing the narrows. That if an armed boat was ordered to ply constantly between Jame's Island and Kent point all Choptank, Miles, & Wye Rivers, would in a great measure be protected, there would then be no occasion for the removal of Stock, & this would not be so expensive to the publick as payment for what would undoubtedly be lost by removal. That your petitioners cattle now moved off, being pent up in small inclosures, or kept at the expence of Pasturage on grounds not abounding with food, must either all perish soon, or be reduced to such a state of poverty as will render it impossible to keep them alive the next winter. Your petitioner therefore in consideration of the certain loss which must attend the removal of his stock and the consequent expence as he apprehends to the public humbly prays that he may be permitted to order what is already

c. s. c. moved to be returned back, & that he may be allowed to keep the whole on the Island until the danger becomes more imminent, in which case he shall give strict orders for immediate removal:

### C. S. J. Tuesday 23<sup>d</sup> July 1776.

Council met. Present the same members as on yesterday. Ordered That the Treasurer of the Western Shore pay to William Niven for the use of M<sup>n</sup> Priscilla Pinkney ten pounds eight shillings and three pence for the use of his House for Barracks.

Ordered That the Commissary of Stores furnish Colonel William Hyde with what Arms and Accourrements may be

necessary to arm one Battalion of Flying Camp.

Alexander McGee of Baltimore County having been brought before this Board in Consequence of a Charge exhibited against him, and a letter wrote by the Committee of Observation for Baltimore County; and Mr William Buchanan having been examined on Oath in Support of the said Charge, and fully proving the same, and the said Alexander McGee having been heard in his own Defence and alleging nothing material,

It is Ordered and adjudged that the said Alexander McGee be conducted back to Baltimore Town under a Guard and there remain in Custody until he give Bond in the sum of three hundred Pounds Currency with good Security to be approved of by the Committee of Observation for said County with Condition that he do not in any manner correspond with or give Intelligence to the Enemies of America, & further that he obey all Orders of the honble Congress and Convention; and that on giving such Bond and paying all Expences of conveying him to Annapolis and back again, he be discharged from Custody.

Adjourned till 3 oClock & met accordingly.

Copy of Letter N° 70 was sent to John Yost of George Town.

Ordered That the Commissary of Stores send, in a Waggon to be procured for that Purpose, to the Committee of Observation for Skipton District in Frederick County 800<sup>th</sup> Lead: And to the Committee of Observation for the Middle District of Frederick County 8 Barrels of Gunpowder.

Ordered that Cap' James Hindman detach a Guard with

said Powder and Lead.

Ordered That the Treasurer of the Western Shore pay to Doctor Charles Alexander Warfield four hundred Pounds to enable him to carry on a Crude Nitre Manufactory.

That the said Treasurer pay Capt Good five hundred c. s. j. Pounds for the Purchase of Arms & Blankets.

Ordered that as soon as the Enemy which are now in Patowmack River may leave the Colony of Maryland, or there appears to the commanding Officer at S'Georges in S'Mary's County no further Occasion for detaining the fifth independent Company now there, that Cap' John Allen Thomas march the said Company to the northward and join the Troops already sent from hence.

Adjourned till next Day 10 O'Clock.

Upper Camp St George's 23rd July 1776.

Gentlemen.

I arrived at this place the 21" Ins' with one of the four Pounders, the other two I left at Leonard Town, 'till further orders. After inspecting this Camp and giving the necessary orders I went over to the Lower Camp commanded by Col<sup>o</sup> Barnes who is stationed much nearer the fleet than this Camp. I think a nine pounder could reach The Fowey from one of the points, 'tho I doubt our doing her much damage. The rest of

the fleet lay outside of her, they are very quiet and give us no disturbance. The Roebuck and three or four large ships went up the river the evening before I got here, since which a number of cannon have been fired as I suppose near the mouth of Nanjemoy. I have order'd the other two peices of Cannon to the Lower Camp and shall as soon as the nine pounder arrives order that there and if intrenching tools which I have sent after can be had thro up an Intrenchment as near the Fowey as possible. I find great difficulty in procuring necessarys, it is the poorest part of the country I ever was in. I suppose not three spades and shovels to be had within ten miles. We have several Deserters from the Enemy most of them in the small pox. A valuable negro made his escape from us last night he not being so well guarded as he ought owing to the people's being afraid of the small pox. shores are full of Dead Bodies chiefly negroes. I think if they stay here any time they must be ruined, for by Deaths Desertions and the Worm I think their business must be done compleatly. The officers who have been here some time immagine about fifty corps have been thrown on the shores.

Upon my arrival here I was inform'd that Gen¹ Dent had ordered a flagg of Truce on board the Fowey to request a passage for M¹ Daniel Wolstenholm to go to England with his property and that this was done in consequence of a passport M¹ Wolstenholm obtained from the Committee of this county and that he expected a boat every day to take him on board, but as matters are circumstanced I thought it adviseable not to suffer M¹ Wolstenholm to leave the Province until your knowledge and approbation could be had relative to this Buisness, therefore hope for your instructions by the return of this

express who promises to return Immeaditly.

St. George's Neck 23rd July 1776. Gent, Inclosed you will receive the papers relative to our permitting Mr Wolstenholme to go on board the Fleet here. The first application received from M' Wolstenholme was by myself directed to the Commanding Officer of the Station where I was. On perusing it I sent a message by the Gentleman that brought it, to inform M' Wolstenholme that as I understood Gen<sup>1</sup> Dent was at the Station at the narrows, I should consult him about it and send him an answer, which answer was that it was not thought proper for him to depart (as you will see by a paragraph in one of M' Wolstenholme's letters) on receiving of which he sent me his passport from the Committee of the County, a copy of which you have inclosed. Upon demanding of him that he would say nothing to the prejudice of the Province, he answered, that he defied his worst enemy to say that he had ever done or said any thing inimical or that had a tendency that way, but that he would not be bound to any thing, but that the same principle which had ever been the rule of his actions, would govern his future conduct. Well knowing from the knowledge I have of M, Wolstenholmes being a man of honour, and his word not to be doubted, and that as he for several years has been very anxious to go to England, and an opportunity now offered, which in all probability would not again for some time, and his passport from the Committee being unanimous, which without very particular reasons in my opinion ought to be adhered to, particularly by the military, were the reasons for me to agree with Gen! Dent that Mr Wolstenholme should depart. By one of the letters wrote by Mr Wolstenholme to Gov Eden with my surtificate to it which as sent with a Flag on board one of the men of war, it was understood by all the gentlemen here and must be by the Fleet, that Mr Wolstenholme was to depart, if they thought proper to send for him. Whether it is consistent with the honor of the province to detain M' Wolstenholme, after what has passed, I leave you to determine, but I must confess to you that I think the honour of the Province together with Gen! Dent's and mine are concerned in it. I am really astonished at the slight rec'd from

Maj<sup>r</sup> Price not to have been consulted or asked how the affair was really conducted before he counteracted Gen<sup>1</sup> Dent's and my conduct. I dont doubt Major Price will inform you of our affairs here which prevents my troubling you thereon. Reports having been spread to M<sup>r</sup> Wolstenholme's prejudice relative to a conversation passed between him and a Gondolo under his Bank, without any foundation as I am informed by several of his family who heard the conversation and were called on by him for that purpose.

I remain with regard

Your Obed Serv Rich Barnes.

P. S. The substance of the letter from M' Wolstenholme to Governor Eden was to beg that he would use his endeavours to procure him a passage in a ship that was going to England, and that if he could be received with conveniency a Flag might be sent from on board the Fleet for him. Under which I wrote the following surtificate. By order of Gen' John Dent, I do hereby certify that if the above shall be approved of and a Flag should be sent on shore every due respect should be paid to it.

On reading a letter from Dan' Wolstenholme Esq Collector of his Majesty's Customs on North Potowmack, setting forth that by advice of his physicians, he intended to leave this province and return to Great Britain, his native country, on account of his infirm State of health, for which purpose he had obtained a warrant, from the Right Honorable the Lords Commissioners of His Majesty's Board as Treasury in London. Yet the peculiar circumstances of the times, joined to his own inability to prosecute the intended voyage had unfortunately prevented him from embracing the opportunity, within the time limited by the aforesaid warrant. By which means he is utterly dis-

enabled by peculiar circumstances from making a second application to their Lordships for a renewal of it, and hoping under such a predicament to be able to justify his conduct in his proposed departure finds himself under the necessity of making immediate application to this committee for the grant of such a passport as may enable him to leave the province with safety to himself and that security to his property, which he hath ever hitherto enjoyed so soon as he can with convenience to the present situation of his affairs, procure a passage for that purpose.

Thereupon Resolved unanimously, that the said Daniel Wolstenholme Esq have leave to depart this province (with his effects unmolested) to Great Britain at any time hereafter as shall by him be judged most convenient for his health and private concerns, and that the Chairman make out a passport, to be delivered to the said Danl. Wolstenholme Esquire agreable to this Resolve.

Sir. St. Mary's 18th July 1776.

By Colo Read I am just now favor'd with yours of this date, acquainting me that you have communicated my request to Gen<sup>1</sup> Dent relative to sending and receiving a flag of truce from the fleet and that he is against sending a flag on board, and permitting any one to go on board from this part, and that you therefore hope I will decline all thoughts of going at present.

If you will please to refer to my letter sent on the occasion, I presume, you will find that the purport of it hath been entirely mistaken, as I only acquainted the Commanding officer at S' George's, which I find you was at that time, that I thought it necessary to inform him, a Flag would be sent for me, and desiring that a proper officer might be appointed on the occasion, and that every due respect might be paid to it, as the militia who had return'd to my house since the affair, which I had mentioned in my letter, were very little acquainted with ceremonies of that nature. How from the above request it could be imagined that I asked the General's permission to depart the Province, or to go on board any ship in the Fleet for that purpose, I am at a loss to determine, as he must no doubt have been well acquainted with the genteel treatment I met with from the committee of observation of this county and the unanimous consent they gave me to embark at any time I should judge most convenient to my health and private concerns. If by the permission granted me the Committee have exceeded the power delegated to them by the convention, which it is my opinion they have not, to that body only I apprehend they are amenable, but that their determinations are no way subject to any controlling orders of the General; so that unless the military power is authorized to supersede that of the civil, the General cannot possibly have any right to give the least obstruction to my intended embarkation. I therefore beg you will desire him well to consider the consequences of such a step as well with regard to the rights which every freeman in this province is entitled to, as the danger of that Resentment which may possibly be expressed against innocent persons here from a detention of an officer in His Majesty's service, without the least charge of any crime whatever against him.

I am far from disputing the General's authority to receive or not to receive the Flag, but I do deny that the military power hath any right to control that of the civil. If it has the people of this province are as compleat slaves as any in

Turkey.

As a friend therefore to the rights and privileges of a freeman of Maryland, I do expect and demand that no hindrance or molestation whatever be given to my departure for Great Britain in any vessel I please, provided that it is the General's Pleasure the Flag of Truce should not be received. Doct' Veyman, who is so kind as to promise me the delivery of this letter, will at the same time furnish you with the passport granted me by the committee in order to be shewn to Genl Dent, which after his perusal of it, I must beg you will be pleased to return him; Should its authority be still disputed, I shall be under the indisputable necessity of appealing to that power, which, as in the case of His Excellency Governor Eden and Mr Purviance, I flatter myself, will support the rights of freemen against every due invasion whatever.

Sir. St. Mary's 17th July 1776.

Doct<sup>r</sup> Veyman is so kind as to waite on you in order to acquaint you of the danger my house and family were in this morning from a covered vessel, or galley in his Majesty's service, the commanding officer not knowing who was the proprietor.

The manner in which it was prevented, and the conversa- c. s. c. tion that past betwixt the commanding officer and myself on the occasion, which, I have great reason to believe caused his immediate return without any intention of doing further damage, what happened afterwards to M' Morris' house, as well as the action which occasioned it, I flatter myself, you will hear from persons whose veracity may in general be less question'd than my own at so critical a juncture.

As I mentioned the term of four days, it was found convenient to be received by the Flagg, I thought it necessary to acquaint you therewith in order that you might appoint a proper officer on the occasion, and that every due respect may be paid to it, as the militia who have returned to my house since the affair are, I apprehend very little acquainted with

ceremonies of this nature.

I am very respectfully signed by Mr Wolstenholme

To the Commanding officer of the Maryland Provincial Troops at St. Georges Maryland Saint Mary's County.

#### [Wolstenholme's Case.]

Original Memo.

On the 16<sup>th</sup> January 1776 The Convention resolved "That if any Non-Associator should choose to quit The Province and go beyond Sea, the Committee of Observation of the County to which he belonged might and were empowered to grant him a Pass-port to leave this Country in Peace and go beyond Sea carrying with him his Property or any part thereof &c. leaving an Estate to be burthened with a proportionate part of the Expence incurred by this Province in the Defence of American Liberty.

Under this Resolve Daniel Wolstenholme Esq Collector of the Customs in North Patowmack on the first day of July 1776 applied by Letter to the Committee of Observation for S Marys County, informing of his Intention to leave this Province and to return to Great Britain and applying for such a Pass-port as might enable him to leave the Province Safety to his Person and security to his Property as soon as he could with Convenience to the Situation of his Affairs procure a Passage for that purpose. The Committee of Observation aforesaid consisting of 13 members having considered M Wolstenholmes Application Resolved unanimously that the said Daniel Wolstenholme Esq have leave to depart this Province with his Effects unmolested to Great-Britain at any time hereafter as shall by him be judged most convenient for

his Health and private Concerns and that the Chairman make out a Pass-port to be delivered to the said Dan' Wolstenholme agreeable to the Resolve." Abraham Barnes Esq the Chairman of the Committee accordingly delivered to M' Wolstenholme the Pass-port in the Terms of the Resolution aforesaid & he the said M<sup>r</sup> Wolstenholme put himself to considerable Trouble and Expence to prepare himself for his Departure. When Mr Wolstenholme had got into a Readiness to make use of his Pass-port, he addressed a Letter to Gov Eden then on board the Fleet at S' Georges requesting him to use his Influence with the Commanding Officer (Commodore Hammond) to procure a Flag to be sent ashoar to take him aboard. This Letter was put into the Hands of the Gentleman who then commanded the Militia at S' Georges & it was forwarded by him on board the Fleet. Unfortunately for M<sup>r</sup> Wolstenholme the Fowey Cap' Montague lay nearest the Shoar and his Letter was delivered along side of that Ship. Capt Montague having by his Conduct some time before off Annapolis been deemed to have broken the Truce agreed to, the Convention had resolved that no Correspondence should be continued with that Ship. To this Reason Mr Wolstenholme attributes his being prevented from going in that Ships Boat which was sent ashoar with a Flag for him, as he has never heard any other Cause assigned for depriving him of the Effect of his Pass-port.

Mr Wolstenholme looks upon himself as having been exceedingly unlucky that that Ships Boat of all others in the Fleet, should have been employed in this Business, believing that had any other Ships Boat been sent he would have been permitted to go, as he is not conscious of having done anything to forfeit the Indulgence granted him under the Resolve of Convention. The Hardships Mr Wolstenholme has suffered by the Detention of his Person and Property, his Situation in respect of his Health & the peculiar Circumstances of his Case being duly considered, he hopes that the Validity of his Pass port may be established and that he be permitted to depart with his Effects on the Terms therein mentioned.

Gentlemen, Frederick Town July 23<sup>rd</sup> 1776.

Colonel Stull informs me that at your last convention at Annapolis you did me the very great honour of appointing me a Colonel of the Frederick County Battalion to serve the United States of America in the flying camp until the first day of December next.

Ever since the commencement of the unnatural war waged c. s. c. by a wicked ministry against this Country I have considered it as my indispensable duty to exert my feeble abilities in its defence and entring early into the service have had the good fortune to be so far recommended to the Honorable the Continental Congress as to obtain a commission as Major of a Battalion of Riflemen to serve the United States three years, and being diffident of my abilities to discharge the duties of a more exalted station at present beg leave to decline the very honorable appointment by which you gentlemen have confer'd an obligation on me ever to be most gratefully remembered and acknowledged, I beg leave in a particular manner to profess my gratitude to those worthy gentlemen by whose recommendations I obtained so respectable an appointment their favourable opinion I trust will always be maintained by a propriety of conduct in Gentlemen

Philadelphia July 23<sup>rd</sup> 1776.

Gentlemen. Yesterday's Post brought us your Letter of the 19th Inst. The copies of the Letters from Colonels Barnes and Jordan you omitted to inclose. We hope the necessity of recalling the Captains Thomas and Hindman will soon be removed, and that they will be permitted to march to the flying camp as soon as possible. It is of the last Consequence to collect a sufficient force to oppose the british Army which may be hourly expected at Staten Island. General Washington has not above 15,000 Troops. Two Battalions of the Virginia Regulars are ordered to N. York, four Battalions in this province and two more in New Jersey are ordered to reinforce the flying Camp.

We agree with you that it will be useless to send Men without arms. We have had no opportunity to consult Congress relative to the subsistence of the Men during the Time they are collecting. We doubt not the expence will be continental. If they should be employed on your Works it would contribute to their Health & defray the expence of provisions.

A Man who professes to be an adept in the Refining Sulphur has applied to us & enclosed are his terms. We are ignorant whether any Quantity of Sulphur has been discovered in our Colony, & do not know whether you want such a Man.

We have no Intelligence from New York since the 19<sup>th</sup> Lord Howe's fleet not then arrived. We shall be obliged by the Communication of any Intelligence worthy of notice and at all times ready to obey your Commands.

We are, gentlemen, with respect
Your most obedient Servants,

Inclosed I send you a list of my proportion of men raised as part of the Flying Camp. This return I should have made sooner had I conceived it a necessary step. Officers that have made their returns taught me to believe that by this opportunity the end would be equally well answered as if I had come up a few days sooner. I was unwilling too, to leave the Province, whilst I thought I might have been of service in repelling Dunmore's men from Landing. I hope therefore I shall not be suspected of Negligence or Inattention as my Design was for the best.

I should thank you for any information respecting Arms for our men. If any money is allowed the officers to purchase arms, or when the men are to march.

In Committee of observation Dorchester County July 23<sup>rd</sup> 1776.

Gent. We received yours of the 16th Inst requesting our assistance in furnishing Firelocks and Blanketts for the use of the flying Camp which you may be assured we shall endeavour to comply with as farr as our situation will admitt of; but we think we should be wanting in our regard for the Publick Cause and the safety and wellfare of our Country, if we omitted to repeat to your Honours, what we have on severall former occasions informed you of our weak and defenceless state. We are satisfied at this time there are not more than a fourth part of the militia men in our County, who have arms that can be depended on, and these only Fowling pieces and squirrell guns not fixed with bayonets, there are others which are defective some of which may be repaired, which we are endeavouring to have done, but a great part of them can never be made fit for service. As to public Arms, we have none that we

know of in our County and but two of those taken from non-enrollers and non-associators.

As to Blanketts, there are none we know of in any of the Stores here, nor is there any way that we can think off by which there appears any probability of getting any, unless it be by applying to different Familys, some of whom may on this occasion perhaps furnish a few, tho' this is uncertain, as there seems a scarcity of Blanketts among the people, however on our receiving cash you may be assured, we shall endeavour by every means in our power to procure them.

We know of no person this way that can be engaged to make Knapsacks with Haversacks, priming wires and Brushes, Camp Kettles, Canteens or Wooden Bottles, if we should hereafter be informed of any such we shall advise you of it.

We are Gent. Your obd<sup>t</sup> & very hum<sup>1</sup> Serv<sup>ts</sup>

Baltimore July 23<sup>rd</sup> 1776. Gentlemen. Your order of the 16<sup>th</sup> for the purchase of Blankets and arms was yesterday taken into consideration by our Comme by whom we are directed to inform you the measures resolved on to accomplish your intentions. Several persons of Judgement and Activity and the most Influence are appointed to ride through different districts of the County, to use their best endeavours to prevail on the inhabitants to spare part of their Blankets on the present Emergency. The same persons are instructed to purchase all Musquets which either are good or capable of being made so. We conceived there was so little chance of borrowing any, that it appeared to us vain to attempt it, as those who are well disposed to defend their Country will use their own arms, and those who are otherwise disposed will be more influenced by the money than any other arguments. In order to dispatch this very urgent Business the more expeditiously we have borrowed a few hundred pounds, & given it to several of the Gentlemen appointed for the purpose who set off to the Country this day.

As we have recommended the greatest industry to the Gentlemen who manage this Busin, we shall probably be able to

inform you against next week of their success.

We have some Information which induces us to expect that a quantity of new country made Blankets may be procured in York county, therefore shall send an express this day to a person in York Town who can inform us on this subject.

The House Keepers in Town spared all the Blankets they could in the Spring to accommodate the regulars that were stationed here, so that few can be expected from them. Please to send the committee a thousand Pounds to answer the intended Purchase. Should we not be able to procure to that amount, the surplus may be returned. Gent.

I send you herewith 40 Barrels of Powder and 54 Stand Arms the arrival of which I informed you by the post. I have agreed with the Waggoners for thirty shillings per day each, going and returning; they are to travel 20 miles per day going and 25 returning. This it seems is the usual Price here, tho' I think it very exorbitant. I have paid them £12 each and have informed them they will receive the Bal<sup>ce</sup> from you upon delivery of their charge. Or if it be more agreable to you, they may be paid here on your certificate. I have paid £15. 2. 0 for Cartage from Egg Harbour and shall settle the freight tomorrow, which, according to agreement with Harrison & Vanbebber is 10 per ct. on the gross sales here, and Powder which came with ours has sold by the quantity for £25 p cw which I suppose will ascertain the Rule for the freight. The Guns came loose and are hurt by it. I had them put into Boxes to prevent their being further damaged, two are left out to guard the Powder & others & will be delivered you. I have thought it advisable to send two men to guard the powder & arms at 5/ per day each. My Brother Delegates think this mode of conveying these very necessary Articles to you right, and I hope it will also meet with your approbation. Nothing since ours by Post. I hope your hble board will consider the matter, and order for the best. I have the satisfaction to say our people have shewn a manly disposition, (on Monday last, when from the alarm guns from the Virga Vessels, fired in their way up to Alexa, the enemy were expected every hour up) they marched to the shore with great firmness. I was with them all the day, and from their behaviour make no doubt they would have behaved well had the enemy appeared and tryed them. I much wish they were provided better if it can be done. C. S. C. No. 72.

To Brigadier General Thomas Johnson

We have received your favour of the 22d and are very glad that Militia of Frederick are so ready to turn out on the

c. s. c. present occasion; we think their service will not be wanting, for altho' there are many of the Enemy's Ships in Potowmack, yet there are but few men in them; those sickley and die fast.

The Fowey and Otter with about fifty sail of Vessels are still at Saint Georges. The Roebuck with three Ships and a few small Vessels are as high up Potowmack as Mattawoman, where it is said they are watering. We have already contracted for a large number of Camp Kettles of Iron and

Copper, and expect to procure some of Tin.

If your Brother's Iron is suitable for casting Guns we could contract with you for fifty three pounders, fifty four-pounders, and seventy five Swivels to Carry one pound Ball. Captain Nicholson informs us that the length of the Swivels is not material, the three and four pounders ought to be somewhat shorter than the common standard. Should we find it necessary we will hereafter give orders for the march of a Battalion from Frederick County.

To The Honble Matthew Tilghman Esq<sup>r</sup> Sir.

We are very apprehensive that we should incur the censure of the Honble Continental Congress and of the Islanders who have stock should we make the order you request. Resolve of Congress is full and explicit without any exception, should we extend our powers to answer your request others would expect Indulgence, and we know not where the exceptions would stop, our powers are extensive but not large enough to controul the orders of Congress. Your application may well lay over till the meeting of the Convention, which will be in a short time—we shall take particular notice of your application for an Armd Boat, and give direction to our armd Vessells as soon as they can be got ready. The Defence is going down the Bay and will be a good security against Tenders for the present, perhaps it would be prudent to sell some of your Cattle, if you want a Market, our Contractor will probably take off some of your superfluous Numbers.

No. 76.

To Colonel Richard Barnes.

Sir. Before your Letter and papers therein inclosed came to hand, we had received a letter from Major Price in which M' Wolstenholme's affair was mentioned. The Council of Safety thereupon passed a General order to all the Committees of Observation, and Military Commanders not to suffer any person whatever to go out of the Province for the present, a Copy of this Order was inclosed to Major Price and your Committee—all Intercourse with the Fowey has been heretofore expressly forbid by the Convention, besides times are so much altered since Mr Wolstenholme's passport, and the Men of War have so openly Invaded this Province, that we could not discharge our Duty without passing such order, at least we thought so. M' Wolstenholmes case may be attended with particular circumstances, he must however submit to the times. We hope both General Dent and yourself on reflection will be of opinion that we have done right. The suffering Gentlemen to go off, on Board the Men of War or Tenders or any other Vessel that may have communication with them is attended with great danger to the Colony—every means of intelligence must be cut off if possible.

I have already advanced £50 to one of the Captains for the subsistence & expence money for raising the Company and I expect the others to call upon me for the same purpose. Should be glad there might one of the Companys of our Battalion be a Rifle company as I think could arm them in this Province, for musquets I am afraid can get but few thats good here. Middle District July 25th 1776.

Gent<sup>n</sup> I am directed by the Committee of this District to acknowledge the receipt of yours of the 16<sup>th</sup> inclosing several resolves and the Declaration of Independency to the contents of which papers due attention will be paid. Persons were some time ago appointed in the different hundreds within this district, to receive the arms from those who have not signed the association and enrolled in the Militia, but no returns have been made by them. Three guns only have been brought in which have been delivered to Mantz's Company, and the Committee offer it as their opinion that very few guns will be got by way of loan and that there is not the least probability of arming the Flying Camp from this quarter, but by purchase.

The Committee have often been applyed to by the Prisoners in the Torey Jail, for an enlargement, on giving sufficient security not to depart the Bounds which may be allotted them, and for their good behaviour, but are doubtful whether they would be justified in complying with their request and would be glad to be favoured with the opinion of your Honble Board, and as some of these prisoners are officers, whether they are not entitled to their parole agreable to the resolution of Congress respecting Prisoners. Yesterday were brought to this place under a guard from Burlington, fifteen officers, taken at St. Johns, who are ordered by the Board of War to Those who refuse to sign the parole are be kept here. ordered to be confined in Jail, three of them have signed, and the other 12 who refused to sign, were last night sent to the Torey Jail, which we hope will occassion them in a short time to take the advantage allowed them. It is a dreadful place (but the best we have) to be confined in, and so crowded at present (being 27) that it may be dangerous to their healths. The officers last mentioned find themselves, but it will be necessary to augment the guard, which will increase the expense, and the money sent to defray the charges of the Prisoners, being nearly expended, the Committee request that a further sum be sent by the first opportunity.

C. S. C. No. 77.

To the Committee of Observation of Worcester County.

Gentlemen. We are informed that are a number of pieces of Cannon in your County that have lain there some years, ever since the Spanish Wreck on the Seabord side of your County. We request you would immediately cause those Cannon to be examined, and let us hear from you by Express what state and Condition they are in, and how many there are, and what weight of Metal they would carry, as also who claims any property in them; and if any Body claims, under what contract or agreement they were purchased and of whom. We expect your answer as soon as you conveniently can.

## [Council to Maryland Deputies.]

No. 78.

To the Deputies for Maryland in Congress. Gentlemen,

The Letters from Colonel Barnes and Jordan were not inclosed in our last from inattention, we now send them with Copies of some other Letters from below, from whence you will see how affairs are going on there.

Dunmore's Fleet have seperated; the Fowey and the Otter with a number of Vessells haveing the Tory Families on board remain in the mouth of Saint Mary's River; the Roebuck and Six or Seven other Vessells have moved up the River Potowmack, as high as Quantico in Virginia, where they stopt to take in water. There are some flying reports of their having landed at Mr. William Brent's and burnt his Houses, which are confirmed this day by Charles Landsdale. He says 'tis feared they are landing on Colonel Smallwood's Estate—the last he heard of them was yesterday and the report was they were landing on the Maryland side near Colonel Smallwood's.

We observe what you say about the Flying Camp, and shall do the best we can. We shall give the necessary orders for finding the Troops Rations, in expectation that the Subsistence money will be reimbursed. As soon as the Regulars are replaced, that have and are about to march to the Northward; we shall use our endeavours to compleat the remaining Battalions with all diligence and send them forward either in Battalions or Companies as they get ready. most of those we have seen of the new enlisted men appear to be quite raw, and in great want of necessarys, some pay must be advanced to put them in tolerable condition to appear in. On Tuesday last we gave orders to Captain Thomas to march with his

c. s. c. men to Philadelphia as soon as the Commanding Officer below thinks he can be spared, and this Day, on receipt of your Letter, we have ordered Capt. Hindman to move forward, although we apprehend the Eastern Shore will be weakened thereby, and we are doubtful that will be the next place Invaded.

We feel for the State of New York, but cannot help feeling also for Maryland, and shall endeavour to conduct ourselves in such manner as to give every assistance in our power to them, and to the common cause, without exposing ourselves to destruction. Since the march of our Regulars we are truly in a defenceless state, and if powerfully invaded know not what may be the consequence, however we hope for the best and are exerting ourselves to the utmost. We wish our powder that arrived at Egg Harbour to be sent to Baltimore. The arms we desire may be left at Philadelphia, for the use of one of the Companies of the Flying Camp, who will have our order to call for them.

We approve of what you have done as to the five thousand Dollars, and would have you keep the balance to answer contingent expences, and render Account from time to time as you may see fit.

Doctor Toottle our Surgeon Major has put into our Hands a list of Chirurgical Instruments which we send you herewith, and request the favour of you to procure, and send down by

first opportunity.

We send you also the proceedings of the last Convention, T Jenings Esq<sup>r</sup> is just arrived in good health after a very long passage, he left London the 29<sup>th</sup> of March and brings no very particular news that we hear.

No. 81.

To James Tilghman Esq<sup>r</sup> Sir

The Business before this Board daily becomes more important and consequently requires as full a Council as may be, we hope therefore before this reaches you that your Line with your cousin is settled and that it will not be inconvenient for you to attend your Brethren immediately: we are the more earnest in making this requisition as Colonel Plater intends to Saint Marys in a few Days and then we shall be left with only four Members. Mr Smith pleads the necessity of staying at his ship yard about the Building the Gondola, in excuse for his non attendance & Mr Hands has resigned his seat.

# [Council to Baltimore Committee.]

No. 82.

To the Committee of Observation of Baltimore County Gentlemen.

The Alacrity shewn by your Committee in exerting itself in the Common cause, in which we are all engaged, it is hoped will be attended with the success it merits, and which is so exceedingly necessary at this alarming and important juncture of time, as without Arms and Blankets little prospect of a favourable Campaign can arise, if the Troops were ever so numerous. Agreeable to your request therefore, and to expedite the Business, we have transmitted to you by Captain Yates, the Thousand Pounds, the Disposal of which you will be pleased to render us an Account.

No Account has yet been sent to this Board of the Expenditure of the Thousand Pounds advanced at the time of the alarm occasioned by the Otter, omitted we suppose thro' the hurry of Business and therefore desire you will furnish it by the first opportunity.

Gentlemen. If you expect frequent intelligence from this place you must send down for it, it being impossible to get horses here. I have been under the necessity of sending home all the Militia except fifty and it was with much difficulty I could keep them, indeed their Distress seems to be very great for most of them are poor people whose Crops are suffering and many have not any dependence but their Labor. I received an express from General Lewis last night. The following is a copy of my answer to him which will give you as true a state of matters here as possible I found it absolutely necessary to keep the Waggon and horses brought from Annapolis not knowing what hour it might be necessary to move the Cannon and also to draw them back for it will not be possible to get any here. However if you think it best and will send me directions I shall act accordingly.

' St. George's Camp July 26th 1776.

Sir. The enemy comes on St. George's Island in the day time to get water and wood and in the evening retire on board their ships: they have no manner of Fortification on the Island. The Fleet lays from the North East side of St Georges

River a Bout a mile, the depth of water (as I immagine) about three fathom. The Island lays from the main about a hundred yards. The water at low tide about knee deep where we threw up a small Intrenchment. There is three pieces of Cannon on Cherry field point (about a mile from the Fowey) one a nine pounder one a four the other three I have another on the South West side the river, the narrowest water between the land and main, is a four pounder. I have about four hundred men (half of which is well armed, the other but poorly) placed on each side St. George's River. I have good reason to think that with the force I have I can prevent the Enemy's landing or plundering the Inhabitants. I yesterday morning sent one hundred on the Island about half after two o'clock. They marched silently through the Island 'till day appear'd and then lay hid 'till they came from the ships to water, the advanced party being rather eager was too soon discovered and the whole Enemy ran to their boats, my people then pursuing them with all speed and firing on them as they were geting into their boats when our people say that they killed three or four that they saw fall and several Wounded and one taken prisoner. The Fowey then fired on them and compelled them to retire after destroying their water casks and filling up a well, the best on the Island (for they have no springs) they returned to the main without loss. By the best advice I can get from the Prisoners and many deserters the whole fleet does not intend to stay here longer than those up Potowmack comes down which they expect every day. Gent. I did myself the honor of writing you on the 17th Inst by Mr Crockett. Some days after that time I purchased about one hundred hhds of Tobo, 60 of weh I have actually receid and since making the Purchase the whole of the Flour

has arrived. I have examined a good deal of it and find it in such a state as will not admit of its being stored any length of time in expectation of a sale. I shall thereupon endeavour to sell or ship it without delay. If I cannot do better, I must have the schooner John examined and valued, and send her off with it, for it will soon perish here, and there is a good chance of selling it very high, if it can be expeditiously pushed to market. The Brige will sail in 12 days by wentime Capt. Martin has engaged to return, if he does not I must send her without him, as it is not in my power to attend here longer. The 2 chests of Arms and 9 Bales of Sail Cloth the Capt. has delivered since the Committee of Worcester wrote you of the deficiency. The Powder yet remains, 12 whole Barrls short, 4½ barrels of which he says was put on board for vessells use. Capt. Martin appears very anxious to be commission'd, of this I can say nothing as he is a stranger to me, except that the men enter and act more cheerfully where they have a chance of shareing a Prize, but how proper it may be to grant Commissions to vessells carrying Cargoes must be submitted to you.

Gent<sup>n</sup> I am informed Col<sup>o</sup> Kent that was approved by the Convention to command the Defence, declines the acceptance of the Command. I shall therefore take the liberty to recommend Capt<sup>n</sup> George Cooke as a proper person to command the Defence, knowing that Capt. Richardson's opinion was that neither of the Gent<sup>n</sup> on board the Defence was sufficiently

qualified to take the command. Capt. George Cooke has served on board the English Navy for seven years and has been in several engagements, and I think well qualified for the Business. I have had an opportunity of finding him to be a man of Undaunted Courage since I have been in these parts. As Col<sup>o</sup> Plater is well acquainted with Cap<sup>t</sup> George Cooke and I suppose some others of the Council, I shall say no more about him, further than I thought it my duty to prevent his passing unnoticed if in my power.

I think the latter would be of no effect as the man who communicated the infection was a day and night in company with all the Soldiers here; some combed his hair and others slept with him. He was a man that called himself a deserter from Lord Dunmore and produced a pass from the committee of Essex County in Virginia. To Mr. Gerard Hopkins Son of Richard. Sir

Inclosed you will receive an order on the Treasury for Fifty pounds to pay off the Debts you have incurred on the account of the Knapsacks and Havresacks, for Girth and Diaper Web & what you may want for future Purchases of that sort.

I have it in command from the Council to inform you that it is impossible for them to fix the price of making the Havresacks as they cannot be Judges of the value of work they have never seen and Havresacks are made in various forms and of course more work must be bestowed on one kind than another.

Knapsacks and Havresacks in one are offered to be made in Philadelphia, and all materials found for eight shillings and six pence a piece; you speak only of Havresacks, it is not known if you mean Havresacks alone or Knapsacks and Havresacks together, as soon as the price can be fixed the cash will be sent you. The Councill will pay what the Committee of Baltimore shall fix that value at.

It is by no means agreeable to the Council that the Officers c. s. c. of the flying Camp should have any command over the stores of this Province and they cannot look upon you as acting in the Line of your duty in disposing of them to any of them without orders from their Board they are to be in Continental pay and no regular account can be kept against the Continent without such commands issuing from the proper place.

They will however take the eight hundred and fifty Havresacks made in consequence of Colonel Ewings request to you which you are to deliver only to the order of the Council of Safety, they again desire to know whether you mean Havre-

sacks alone or Knapsacks with them.

Inclosed is a Letter open which you are desired to seal and deliver to Mess<sup>18</sup> Gordan and Patten, it contains proposals for making a quantity of Knapsacks & Havresacks, the pattern and price, and they are requested to give an answer speedily.

Gent. Colonel Smallwood apprehending that his battalion would be in want of many necessaries at the Camp applied to us for a sum of money and we advanced him 1335 dollars for which he is to be accountable to the Convention of Maryd. We hope this advance will meet with their and your approbation, as not much can be expected from soldiers badly provided; and such is the discretion & œconomy of Colonel Smallwood that we are persuaded he will make a very judicious application of this money.

The Congress has allowed a regimental paymaster to each battalion in the Flying Camp, the appointment of which officer is left to the several States from which those battalions come. In the recess of our Convention, the appointment is in you, & we beg you may appoint one as soon as may be. Colonel Smallwood recommended to us for this place M<sup>r</sup>

Christopher Richmond. We mention this circumstance, because we know the appointment of M<sup>r</sup> Richmond will be very

agreeable to the Colonel.

There are now lodged in M<sup>r</sup> Stone's house 50 odd muskets lately imported for the use of our State, they want repairing and cleaning. We submit it to you whether we shall not best keep these muskets here to arm in a part one of our militia companies passing through this City on its way to the Flying Camp; this will save the expence and trouble of sending them to Mary<sup>d</sup>.

We are informed that there are large quantities of flint stones at the landings on Wye and Choptank rivers: these were brought by the ships as ballast and thrown out on the banks. The Congress has desired us to write to you on the subject and to procure some person who understands flints, to look after them & report to Congress whether they are good or not.

We have nothing new from N York; the post is not yet come in: We heard from Gen. Washington yesterday: all was quiet: the 10 vessels mentioned in the papers appearing in the offing at N York brought over highlanders how many we know not. As the harvest is now over, we imagine the militia will come in fast to compose the flying camp: and we hope the Mary<sup>d</sup> Militia will march with all possible expedition. We are with regard,

I therefore Introduce to you Mr Allcock of Baltimore Town who from the Character I have of him will be able to do you service. He has been as I am Informed of great Help to the Genta of Balt. Town in Designing and Erecting their fortification at Whetstone. He now at my Desire waits on you and will look at all your situations. He keeps a school in this Town and cannot very well spare the Time for his Journey. I have however prevailed on him to Ride down on a Promise of a Compensation for his Time and Trouble. You will on conversing with him judge whether he can be any Assistance to you as a Designer or otherwise. I fancy it will be Difficult to get Engineers from the North-

ward, and we must, in my opinion, avail ourselves of the skill of such as we can meet with among ourselves, tho' their knowledge be not so perfect or complete. I was yesterday at Whetstone and find Capt Smith has five Eighteen Pounders to spare, four of them on High Carriages and the other on a Low Carriage. I think the sooner you get them down to Annapt the better. ## [Chamberlaine to Council.]

Talbot County July 28th 1776. Gentlemen. When it was proposed to me that a Magazine should be

fixed in our county, I was told that a detachment from the fourth Independant Company would be stationed there as a Guard. I received from three Waggons the other day what is supposed to be 6000 lbs. the greatest part of which I think it probable is Cannon powder and such as will be useless with Musquetry. I send you a sample of it and hope it will be found better than it looks to be. I made a trial of it in a small Cannon that we have and found it to have equal force and quickness with some English powder that I had. I have directed a Guard from our Militia and shall continue them till I have your directions which shall be glad to have by the Bearer, its very inconvenient to those who are now on that service and if they must continue you'l please to direct the number that shall compose the Guard.

Sir. We have given your Q<sup>r</sup> Master M<sup>r</sup> Severn Hitch an order on the Treasurer of the Eastern Shore for the sum of £750 C<sup>r</sup> which no doubt he will deliver you—this sum is intended to pay the militia for their services heretofore, also something to your Quartermaster; the remainder to answer growing expences of militia for which you are to render an

c. s. c. account hereafter—the expence of the witnesses against Atkinson is referred to the board of accts they are not here at present. We shall lay all the accounts before them when they meet again which we expect will be in a few days. We doubt your Acc' is too general and that the board will expect particulars for the lumping charges; that must be left to them. We think the march of one half of Capt<sup>n</sup> Watkins's Company somewhat extraordinary—expect to hear more of it; we have already ordered you more powder, if it does not come down soon apply to Brigadier Chamberlaine, who has the care of the Eastern Shore magazine & will deliver you five Barrels for the use of Somerset County.

Head Quarters St. George 29th July 1776.

Dear Sir. Yesterday the Roebuck with the Fleet under her convoy arrived here from their cruizen up the River, they were watched all the way down by two Row Gallies from Alexandria, they will be here this evening, and I expect to night we shall engage the Fleet. The Roebuck stood down the Bay and is now out of sight. The Defence made her appearance yesterday morning but on the Foy's warping out thought it prudent to stand down again. We are preparing all the boats we can get to assist in boarding all such vessells as are not armed and I am in hopes we shall be able to give a good account of them. I most sincerely wish the Business over, the place is exceedingly disagreeable, not a drop of water, but what is brought near three miles together with the uncomfortable tents that we have, I am afraid will make us all sick, near half both of mine and Capt. Bealle's Company are down. The militia do every duty so exceeding

ill, and the service is so very unknown to them that the whole Burthen lies upon the few regulars that are here. I went on the Island yesterday morning a little before day with a party of forty men, but could find none of the Enemy there. We waited till eight o'clock but none came on shore, nearly half the Fleet have gone and the rest I suppose will go in a few days.

Whenever they go I shall proceed to Annapolis on my way to the Northward, and shall be extremely obliged to you if you will have the Tents Knapsacks, Havresacks, Camp Kettles and Canteens completed for my company ready at Annapolis. What I want will certainly be finished in that time. If the Tents are large they will hold eight men, so that at that computation I shall want fifteen tents for the whole Company with other things in proportion I beg you will endeavour to procure them for me by the middle of next week by which time I shall I hope be at Annapolis, but I shall necessarily be delayed here a few days to get on board the Cannon, and in procuring vessels to transport us, but not one moment shall be lost. Be pleased to present my compliments to Mr Plater and believe me to be

D' Sir y's affectly

P. S. I forgot to mention that we yesterday morning opened our Battery which played as 'tis thought with success on the Fowey. Numbers of dead bodies come on shore every day, that we are poisoned with the stench. J. A. T.

Commissioners of Gun Lock Manufactory Gent<sup>n</sup>

As a considerable time has elapsed since your erecting your Gun Lock factory, we are in great hopes you have made a number for the use of this Province.

The Province is in great distress for arms—few of the Troops raised for the flying Camp are supply'd with them, & the Militia will not lend theirs. There is an absolute necessity therefore that you immediately send them down what Locks you have. We expect Firelocks from Jn° Yost, they may come from thence if you contrive them there. Gentlemen.

30th July 1776.

We take the liberty to inform you that Cap' Dean's company are armed and have marched to Kent Island agreeable to their orders, and that Capt Dames's Company are full but we are clear of opinion that arms cannot be got for them in this county. We believe between twenty and thirty Firelocks may be had on Kent Island on loan for the Defence of any part of this county but the people will not part with them to go out of the county, and indeed these are the terms upon which chief of the Arms lent to Cap' Deans company have been procured.

We thought it necessary to give you this information relative to Cap' Dames's company that you may take such steps

as may be in your power to furnish them with arms.

Capt Dames is in a very disagreable situation with his men who are continually complaining to him of the want of employment, and of the necessity they have been under of boarding themselves out until they receive orders to march.

#### [Hooper to Jenifer.]

Since my last I have received from Major Honble Sir. Fallen who is stationed at Hooper's Streights an account of the Guard then under his command having taken a small schooner belonging to the enemy in a creek making out of Holland's Streights. Major Fallen having received intelligence of the Schooner being in the creek sent a Detachment of thirty men who took her and the Cargo consisting of a hogshead and a half of rum, 30 bushels of salt, the sails and rigging of a sloop, a large quantity of old Iron a few guns, swords and cartridge boxes. The schooner had four men, three of whom were just out of the small pox, and are now sent you by the Committee of this county, to be dealt with in

such manner as your board may judge proper.

I informed you a few days since of the drafts I had ordered to be made out of the several battalions in my Brigade, which I have since ordered to be stationed at the following places. Col. Richardson with 125 privates of his battalion at this place, 90 privates of Col Feddiman's battalion together with 30 privates of Col Ennall's battalion, at Cooke's point under the command of L' Colonel Stainton, Capts Robson & Stephens Woolford with 15 privates each at Taylors & James's Islands, Capt Keene with a party of 15 privates at Meekins Neck, Capt Travers with a party of 15 privates at Hoopers Island, Cap' Wheatly with a party of 15 privates on Ascom's Island, L' Col John Ennals with a party of 45 privates on Hungar river, Colo. Murray with a party of 130 privates of his battalion and Major Fallen with 30 privates of Traver's corps at Hooper's streights. The Drafts from Col Dashiell and Col Hayward's battallions consisting of 270 privates are stationed at Nanticoke point, dammed Quarter and Animes-The Cols of the several battallions in Somerset & Worcester Countys having consulted together were of opinion that the militia of Somerset County would at present be sufficient for the defence of that county and requested permission for the Worcester Militia who had marched to Princess Anne to return home, which I have granted them upon the assurance of the officers that they will hold their men in readiness to march on the shortest notice, if occassion should require it. I cannot in justice to the Brigade omit informing your board of the alacrity with which the officers & privates have stept forth on this occassion. We have scarcely in a single instance been obliged to draft, to make up our numbers and in several companies there has been no small contention for the privilege of being permitted to march: and indeed the spirit and alacrity shewn by the whole brigade has been such as does them great honour and has given me great pleasure. To induce the privates in the several battallions to enter cheerfully into the service, I ordered the Col<sup>5</sup> to direct a Cap<sup>5</sup>, Ensign, Sergeant and 2 corporals to march with the drafts of each company; and tho the number of officers was greater than I deemed necessary, yet I incline to think the men would not have marched with the same alacrity had they not been accompanyed by their captains. After the troops had arrived at their several places of rendezvous I discharged the supernumerary officers in every instance where I cou'd do it without breeding great discontents among the troops, both officers and privates being in general averse to the measure.

I am further to inform your board that I have taken such steps as it will put it in the power of every officer and private now on duty to attend and give their votes at the ensuing elections without leaving our coast exposed to the attacks of the enemy, which it is not all improbable they may make, under an idea that our people are taken off to attend the

elections.

The Powder and arms were sent some days ago to Annapolis which we hope will be attended with no Inconveni-We have not the least Doubt but every thing in your Power will be done in the best manner for the publick Service and the preservation of every part of the united States. Maryland to be sure must be a principal object of your attention and we hope considering the Spirit and Alacrity which all ranks of men have shewn, whenever Occasion required their service, that our Coast will be secure against the Ravages of Dunmore and his rascally Gang of Pirates. We have nothing lately from Ticonderoga. The enemy do not stir from Staten Island 8 ships arrived there a few days ago but whether they brought soldiers or not we have not heard. Gen<sup>1</sup> Washington has now a considerable strength at N. York, but there are only 3,000 men in Jersey, where there ought to be at least 10.000. Col. Smallwood is at New York. We have no doubt but the subsistence money will be readily paid, and we wish every necessary which can be had may be furnished the militia before they march. Money will be advanced to them now if they need it. Hunting Shirts will be a convenient & good uniform if they can be had. We shall at all Times give you the earliest Information of all important Occurrences, and shall with pleasure execute your commands.

Gentlemen. I this Moment received the enclosed Letter from Colonel Stricker, and send it to you for your orders to him.

If you think proper to grant him the Liberty of enlisting into the German Battalion from the Companies raised for the flying Camp, it might promote the service, as the former are enlisted for three years & the latter only till December, I am sensible Difficulties will occur.

Arms and blankets are as necessary as Men, but an account should be transmitted to your Board.

Unless you give orders as to the Quantity and Mode of subsistance, I am afraid great extravagance will happen.

Major Thomas Price

Sir

Capt<sup>n</sup> Mantz, who commands a Company of the Frederick Battalion well armed, and accoutred, this day, marches to relieve Capt<sup>n</sup> Thomas & his Company, whom you may there-

upon order up to this place in his way to the camp to the c. s. c. Northward. He may leave his Potts to Capt<sup>n</sup> Mantz's Company to cook with and may be supplied here with Camp Kettles or Potts more portable than those he has now in possession. Capt<sup>n</sup> Mantz will occupy the posts and places, where Capt<sup>n</sup> Thomas's Company were stationed until further orders.

The officers dispatched by you to give Capt<sup>n</sup> Nicholson notice not being able to overtake him had very near occasioned a loss of the Defence, she was becalmed & obliged to come to an anchor, Tide agt her; the english Fleet had a wind, which brought them down Potowmack within three miles of her, where she lay becalmed, when fortunately a Breese sprung up, which enabled her to escape; they heard no firing at your camp.

We are glad to hear the Cannon proves good, as it will be advantageous to the Province, and a greater encouragement to those, who use them in Time of Engagement, as they will put the more confidence in the rest; we are also well pleased on the account of M' Hughs's succeeding in the way to satisfaction.

We received Copies of M<sup>r</sup> Eden's, Wolstenholme's and M<sup>r</sup> Forrest's letters, and still retain the opinion communicated to you in our last, and of which we informed Col<sup>o</sup> Barnes, in answer to his packett, that it is unsafe at this period of Time to permit M<sup>r</sup> Wolstenholme to depart this Province, and the more especially, as he would not engage secrecy with respect to our movements, and present situation and his Letter to M<sup>r</sup> Eden of the 20<sup>th</sup> July, so far from removing, has impressed it more forcibly on our minds.

We are sorry for the fatigue, and hard Fare you have met with, and would alleviate it, as much as lies in our Power. it is only the fortune de la Guerre. another Time, we hope, you will have quarters more agreeable. we doubt not your humanity will interest you so far in favour of the sick, as to have all the care taken of them you can. we have heretofore wrote you about the Cannon coming up by water, after the Departure of the enemy.

P. S. We have some Powder and small arms arrived at Wiccomico on Virga as you will see by the inclosed receipt, & should be glad of y opinion how we could contrive it across in the safest manner to the Maryland Side of Potowmack 31st July 1776.

party of Maj' Fallen's men and sent by the Major to us as by his letter which we have inclosed for your perusal will appear. The depositions of Joseph Mariman and Moses Yell which are mention'd in the inclosed letter we have since received from Cap' Eccleston the Magistrate who took them, which we have also inclosed. We have not seen Capt Eccleston since he took the Depositions but are informed Mariman and Yell have returned home on a promise that they wou'd attend your board on notice. We apprehend the Prisoners will not deny their being in service of Dunmore, but if they should and any further evidence should be necessary to prove that fact on your informing us of it we believe such may easily be had. Wheeland is the man who the last convention (as we are told) were informed served as Pilot to Dunmore's vessels up to Nanticoke point and he confesses to us he was with the party who took cattle from Hopkins Island. # [Mariman's Deposition.]

Almighty God deposeth and sayeth that about the 15<sup>th</sup> day of this Instant he with Moses Yell left the mouth of Hungar River in a Vessel bound to Potomac loaded with Plank and Tar, but being a hard gale and a large swell they were obliged to put back, but on their attempting to put back the tide headed them, they afterwards hove about and stood for the mouth of Potomack again, and about day break they espied Lord Dunmore's fleet at the distance of about a mile, they then hove about and stood for Smyth's Islands and there came to an anchor they stayed there about two or three hours, the wind moderated, this Deponent went ashore to Smyths Island in order to buy some fish and to seek for a Canoe he had lost the night before, and to enquire if there was no inlet there to make a better Harbour, and to get some fire to cook with.

he got ashore they came up with him, this deponent says, they c. s. c. then asked him from whence he came, and what he had in, his answer was they had Plank and Tar, they were from Potomack loaded in Hungar river and bound to Potomack again. Wheeland then asked this Deponent if he did not belong to the fleet; this Deponent ask'd what fleet? they answered, the English fleet, this deponant answered he did not, he then asked him, who he was for, either the Country or the King, this deponant told him he did not choose to intermeddle with either side, he then asked him how many men he had on board, this deponant told him there was but one person besides himself, he then asked him, this deponant if he were a tory or not, he then told him he could not tell, the said Joseph Wheeland then told him he belonged to the English fleet and he must goe along with him, he then asked him if he was willing to stay with the fleet, he then told him the said Wheeland no, for he had a wife and children, and wanted to get home as soon as possable, the said Wheeland said he would not detain any person that had a family against their will, but if they had no family they should not goe, he then asked him for some victuals for he was very Hungry. then ordered him to get in the Canoe with the Mulatto fellow Lazarus and goe up to the three Schooners that lay in the Creek, and tell some person to give him some victuals, and while he was giving orders there came two other persons in a Canoe with a Case of Gin & Rum and gave him a dram, he then got out of his Canoe and sent one of the other persons with him, and he the said Wheeland and one of the persons in the other Canoe proceeded on board Cap' Yell. We went some part of the way in the Canoe till they came to an anchor, they then took it in and ordered him to keep along shore, as this deponant was going along, he met with one of the Islanders and had some conversation with him till the said Joseph Wheeland came up with the said Capt Yell, and then took him aboard said canoe and carryd him the said deponant with the said Yell on board the Schooners that lay in the Creeks mouth afs'd in Smyth's Island, where there was likewise a Sloop dismasted as they understood belonged to one White up Nanticoke and when they came abord they saw about twenty persons sharing of plunder, and as they understood was all County born except one. This deponant with Capt Yell requested the said Joseph Wheeland to goe on Shore, he told them they might, but that Yell must leave his Cloths on board, they then went on Shore and got some victuals at Richard Evans', after some time Marmaduke Mister and sundry persons came to the af'sd House and took supper, some time after supper Marmaduke Mister told this deponant

c. s. c. and Capt Yell that they must go abord, for they could not keep guard aboard & ashore too, they then ordered them on board, as they were going along he said (God damn you) do you goe before the guard. John Evans said it would make no difference, he the said Mister said they should not goe before the Guard, when they got aboard they ordered them down in the Cabbin where they remained all night, there were several on the Guard viz. Joseph Wheeland, John Evans, John Price, Robert Howith and one Dial, and several others, that he did not know, which said persons as mentioned above is under guard at Hoopers Straights except the said Dial. The next morning Joseph Wheeland ordered three hands to bring up the Vessel, they said when they returned that she was between two bars and they could not get her off. John Evans then persuaded the said Joseph Wheeland to let the men have the Vessel again, as she would not be of any service to them; Wheeland then told this deponant that Capt Yell might have the Vessel if they would get her off. This deponant and Yell then went down to the said Vessel, and when the said deponant and Yell returned, the said Yell told the said Wheeland that he could get her off, and wanted his said Cloths & money, he then refused him his cloths and Vessel, and said he must have the tar, but if he would waite till he was gone to the fleet he might have the residue of his Cargo and Vessel. The said deponent and Yell went to unloading the s'd Vessel and took out six barrels of tar and put them on board Richard Evan's boat, and told the said Wheeland that he should have the residue as soon as he could come at it. Wheeland told the said Deponent that he had just received orders to come immediately to the fleet, and to burn that Vessel that was understood to be Whites; the said Yell then asked him for his Cloths & money, he then gave him part of his Clothes, and told him some person had stole his money, and that he might have his Vessel and all his load, this Deponant says that he heard the said Joseph Wheeland tell the said Marmaduke Mister that if he would see the afs'd Sloop that belonged to White burnt he might have the iron of s'd vessel, upon which said Vessel was burnt, that the said Joseph Wheeland went off immediately the said Capt. Yell and this deponent hired hands and got off their Vessel and carried her to the Creek afs'd in order to take in the remainder of her load and before he had got her loaded two Tenders came in with the Island and the said Deponant and Cap' Yell went on Shore, and as soon as they got on shore two persons came down the Creek and went on board the said Vessel and carryd her over to the fleet, one of the persons as this deponant was informed was Isaac Summers from Little Annamesick, the other a lad

unknown; the afs'd Joseph Wheeland was as this Deponant c. s. c. understood esteemed the Commanding Officer of the said Vessels, and further sayeth not.

#### [Yell's Deposition.]

Original.

July 27 1776 Moses Yell being sworn on the Holy Evangels of Almighty God deposeth and sayeth. That some time about the 15th of this Instant this deponent was going in a vessel to Potowmack River with Tar and plank but on seeing Dunmore's Fleet this Deponent returned and anchored under Smith's Island. About two or three hours after he had anchored Joseph Wheland with one other man unknown to the Deponent came on board the vessel this deponent was in, & Joseph Wheland asked this Deponent if he saw the Fleet, this Deponent answered he had seen the Fleet & returned in consequence of it. Joseph Wheland then ask'd this Deponent whence he came and where he was bound & who he was for, this Deponent answered he had not a design to kill any person but was a Friend to his Country. Joseph Wheland then asked this Deponent which he thought was right the King or the Shirt Men, this deponent answered he thought the Americans were right Joseph Wheland then told this Deponent he was for the Fleet, and had orders from Ld. Dunmore to take any vessels belonging to the Rebels and destroy such as he thought proper and carry the rest to the Fleet, the sd Wheland then demanded a sight of this Deponents papers which this Deponent gave him, the s<sup>d</sup> Wheland then took the papers, a pocket book about forty shillings cash and all the cloaths belonging to this Deponent that were in the vessel, except what he had on, and carried this Deponent together with the cloaths and money on board a Tender which he informed this Deponent he had the command of, and likewise the sd Wheland inform'd him he had the command of the other two vessels that were with the one, this Deponent was put on board of. This Deponent sayeth Joseph Wheland told him he had taken a vessel belonging to White in Nanticoke and that he Wheland intended to fit her out with four four pounders, and twelve swivels to guard the Islands and keep the Shirt Men from going on to abuse the Inhabitants, the afsd Wheland told him he must take out the mast from his Yell's vessel and put in the vessel he had taken from White which was then driven on ground and had lost her mast, but before he had got her

over the Bar, he Yell understood from an old man on board the Tender that Wheland had rec<sup>d</sup> an express from the Fleet ordering him to come up to Potowmac to assist the Fleet in getting water as quick as possible as orders were come to the Fleet to go out, as soon as they cou'd, part to Martinico to fight the French (as they expected a war there) & part to N York or Hallifax. Wheland soon after ordered fire set to White's vessel and one other which he had not got over the Bar, & put this Deponent on shore gave him part of his cloaths and told him he might take his Boat again, this Deponant sayeth that Marmaduke Mister was one of the Persons that kept guard over him one night while he was on board the Tender, the afad Mister ask'd this Deponent who he was for, whether King or Country, this Deponent answered he was friend to every person that behav'd well, the afd Mr then commanded in the King's name to tell him the truth, this Deponent then told him he was born in this country and had a right to defend his Liberty, Mister then said what those damn'd Rebels call Liberty I call Slavery and so the people will find it, this Deponent further sayeth that Marmaduke Mister set fire to one of the vessels that was burn'd and was to have the Iron for doing it. This Deponent sayeth that John Evans Robert Howith, and one Price were likewise on board the same Tender under the command of the afad Joseph Wheland (he supposes) as he often heard them call him Capt<sup>n</sup>, this Deponent saith he heard John Evans say he was determined to have several of the principal people on the Islands either dead or alive, or get some of their negroes.

This Deponent saith he has seen Joseph Wheland, John Evans, Robert Howith and Price the four persons above mentioned since they have been under Guard at the Streights and that they are the same persons he saw on board of the Tender above mentioned. This Deponent further saith on his asking Joseph Wheland for his cloths Wheland threatened to put him in Irons in the vessels hole. the Deponent likewise saith that John Evans told him not to be uneasy about his cloaths and money for Wheland would give them to him after he was ready to go from the Island, for the paper money wou'd be of no more use to him than Blank paper. Sworn before Hugh Eccleston.

#### [Council to Hooper.]

Brig<sup>r</sup> Gen<sup>1</sup> Hooper Sir

Since our last we have had advice from Major Price our Commanding officer in Saint Mary's, that the British Fleet lay near the mouth of Smiths creek in Potowmack, that they were very weak in Land-forces not exceeding 300 men, that they were so sickly that 50 dead bodies had appeared on the shores, chiefly negroes, and that having gone up the River Potowmack to take in water & returned, he imagined they would soon sail from that Quarter.

Their Forces appear so inconsiderable and contemptible to him that he has dismissed all the militia and keeps only two independent Companies to oppose them, one of which, Capt Thomas's, we have this day ordered to march to the Northward, and Capt Mantz of the Fred Battalion marches to

supply his place.

Capt<sup>n</sup> Dean's Company is stationed at Kent Island, and Capt Goldsborough's is to supply the place of Capt<sup>n</sup> Hindman's, if the latter can get arms (which we cannot doubt the Militia will lend him for their defence, until the Province can supply them) These with the three independent Companies will make a body of near 500 men; we therefore think three fourths of the militia under your command may return to their habitations, and keep themselves in readiness to march in case of an attack, as the above force will be more than sufficient to repell any invasion from the Fleet.

We do not expect from their weak state that any attempt will be made, except to plunder, and we think the 500 regular Troops together with the 200 militia a sufficient force to protect your shore until the fleet sails, which we daily expect to hear of, and if some of them go to sea, & only a few remain at our Capes, and in Virginia to destroy our Trade, as is suggested to us will be the case, the remainder of the militia also

may be discharged.

If the Schooner you have taken would answer to make an armed Boat or vessel for the Defence of this Colony, we should be glad you would send her over that she may be put in repair & fitted for the service, if she is unfit on Acc<sup>t</sup> of her size, value and stores will be agreeable to us.

We are of opinion that a Court-martial ought to be held on the conduct and opinions of the two military Gentlemen you mention, and a representation made from it to our board, as a Foundation for their being deprived of their Commissions.

The spirit and ardor with which your Brigade has acted on this occasion has been exceedingly agreeable to us, and we are possessed of the pleasing prospect that they will continue C. S. C. to distinguish themselves on every future occasion by an animated affection to their Country, leading them to brave every fatigue and Peril to preserve her liberties inviolate.

Since our last we have received two letters from Major Price, copies of which are inclosed, from them you will learn the situation of the Enemy below, our pilot boat came up last night & informs they are not yet gone off, several vessels are dismasted, and on shore at the point of S' George's island with intention to burn them; Middleton thinks they are going off down the Bay, and we hope soon to be able to write you

c. s. c. to that effect, altho' we apprehend a visit to the Eastern shore, and are preparing accordingly. We have the satisfaction to inform you that the report of a Landing at Colo Smallwood's was not true.—Mr Brents houses were burnt, and a good deal of damage done—we hear of no particulars of any other

mischief up above.

We send you also inclosed a copy of a letter from Capt<sup>n</sup> Deakins as a sample of the many applications we have from almost all the Captains in the Flying Camp—they are in want not only of guns but of almost every thing else, we expect to be able soon to arm a number equal to that of the regulars, who are marched to the camp, and that we shall be able to send forward some Companies, perhaps a battalion or more, by the middle of this month. To enable us to do this we shall be obliged to advance more than the 5000£ given by the Convention to purchase arms, few or none can be borrowed.—the companies, many of them, not yet compleat.

We expect the Convention will approve our advancing a further sum to furnish arms for the flying Camp; without so doing they would not have been in condition to march at all, we think it adviseable to purchase for all the Companies rather than suffer them to remain here on expence, or be dis-

banded, which must have been the case.

We have ordered Capt<sup>n</sup> Mantz down to S<sup>t</sup> Mary's, and given Capt<sup>n</sup> Thomas positive orders to march; so that we hope he will soon be with you, on his way to New York. We congratulate you on the safe arrival of the Molly Capt<sup>n</sup> Conway in Great Wiccomico Virginia, with 21,000 w<sup>t</sup> of Gun Powder & 270 stand of small arms, for the use of this Province, we shall get the Cargo up here as soon as we can with safety.—We send you a letter from the Commander of the North-American Troops which came by Conway which please to forward to Gen<sup>1</sup> Washington.

One of the waggons that came with Powder from Phil<sup>a</sup> met with an accident that is likely to prove fatal to a Sergeant of Capt<sup>n</sup> Cox's guard, coming down the road not far from J. Hammonds, a bridge over a deep gutter that runs through his old Field gave way and wounded two of the people, shattered the waggon, and stove some of the powder, the loss of one Barrel of Powder is trifling to the life of the sergeant, he is not dead as yet; but 'tis apprehended cannot live; another man slipped his shoulder but is got better—the Powder and arms are safe at the Magazine except part of two barrels, making in all about one barrell lost.

We cannot but admire at what you say that there are only 3000 militia in Jersey,—permit us to ask what are become of all the militia that we read in the Papers are marched from

Pennsylvania, Jersey & be pleased to explain how it has c. s. c. happened that no more have as yet marched to their station in

that province.

By the southern post we have intelligence that the Cherookees have committed some outrages on the borders of Carolina; that the squadron under Parker & Clinton are moving frequently from Island to Island and are growing sickly—Yesterday our election for this county began and is not yet ended, we are sorry to inform you that Mess<sup>15</sup> Johnson & Paca and Carroll of Car<sup>16</sup> from present appearances will not be elected. Worthington, Carroll, Bar<sup>17</sup>, Chase & R. Hammond are greatly beyond any others on the Poll—very few people from Elkridge or the lower part of the County have as yet attended.

[Council to Dent.]

No. 108.

Brig Gen Dent

At the time we wrote you first to take the command, Major Price was on the Eastern shore, we know your attention must be engaged with the Flying Camp; had he been here we should not have troubled you at all, but sent the Major immediately down to take the command. Upon his return and understanding that the enemy were landing at S' George's Island and that Cannon would be necessary to repel them; hearing also that some of the fleet were preparing to move up the River; we came to the resolution of sending Majr Price down to St. George's, expecting you might be usefully employed higher up the river, and occasionally with the Flying Camp,—these were the motives for sending major Price, & not any intention of giving you offence.—We tell you candidly that we have no reason to believe that you were not equal to the task, or that you were deficient either in military knowledge, assiduity, or personal courage; and that we are surprised you should entertain any such Idea.

We had never any insinuations to your Prejudice, therefore there could be no foundation for appointing any hearing. We thought it would be of advantage to the public cause to send down Maj' Price, the service was like to be extensive and a commander wanted in more Places than one. We know you must be called off soon to the Flying camp, and accordingly wrote you the 28th inclosing your Commssn & requesting to see you;—we now repeat that request, & are convinced that we are able by personal conference to satisfy you, that we intended no affront or Indignity to you—unless you think the Convention have acted improperly in adjusting the rank

between the regulars and the militia.

c. s. c. We wish to stand fair with yourself and all other worthy men, & whatever you may determine upon, be assured that we had nothing to alledge against your conduct, & that we were actuated by no other views than those of service to the publick, & taking effectual measures to repel the common Enemy.

### [Queen Anne's Committee to Council.]

Gentlemen. Queen Ann's County 2<sup>nd</sup> August 1776.

Complaint has been made to us by Lieutenant Hawkins that Cap' Dean's company stationed on Kent Island are greatly in want of water at their station, and informed that a sufficient quantity may be had at Blunt's warehouse on the said Island or at Cap' Thomas Marshes Plantation adjoining their station; and further complained that M' Cummins the Commissary has neglected to make the necessary provision for the company and that the company are in want of a Physician.

We have applied to Capt Marsh for his permission to Capt Dean to station his company or a part thereof on his Plantation and have received his absolute refusal, in consequence of which we have ventured to advise Capt Dean to remove his Company or such part thereof as he may judge necessary, from the present station to Blunt's Warehouse and to fix such and so many Guards and at such places as he may think proper to promote in the best manner the service in which he is engaged, until he shall receive the further orders of your Board.

Gentlemen. Baltimore Town 2<sup>nd</sup> Aug<sup>st</sup> 1776.

I received your favour of 30th instant p M<sup>r</sup> James with your choice of the Canteens. I have set all the Coopers I can to work on them. Some of them I have desired to be made of White oak, which I think will be much the best as the Ceder will taste the water and not be so strong as the oak. I shall send a pattern of the oak down by the first boat for your approbation. I think I can get them of oak made at 2/or thereabouts and the men who makes the ceder will not do them under 2/6, as for bowls and trenches none to be had here, but I understand there is a man about 50 miles off has

plenty and if you think proper to let me know the Qnty and size, I will go or send to him & I know of no other way to come at them. I have sent 8 Dozn wooden spoons to Mr Howard @ 3/pr doz. if you think well of them I can have more or I can have peuter @ 4/pr dozn; all the muskets are at the Gunsmiths and he says he will have them repaired next week. I shall send down more ceder ware by the first opportunity and blankets also—there is about 1000 yds of tent stuff in the Maggazine She I set the sailmakers to work on it. The Camp Kettles are about, shall send a parcel of them down by the first opportunity.

Council met. Present the same members as on yesterday. Copy of Letter N° 109 was sent to Thomas Smyth and Thomas Ringgold Esqrs. and Copy of N° 110 to M' George Scott.

Ordered That the Treasurer of the Western Shore pay to Capt. Thomas Smyth three hundred and fifty pounds for the Purchase of Musquets, and One hundred and fifty pounds for the purchase of Blankets, to be expended for those Purposes by the Committee of Observation for Kent County.

Ordered That the Commissary of Stores deliver to Capt. Thomas Smyth 20 Pieces of Cruder, 400 Cartouch Boxes & Slings, 688 Bayonet Belts and 688 Gunslings.

Ordered That M' Francis Sanderson deliver to Capt.

Thomas Smyth 30 Camp Kettles.

William Bartlet Townsend was brought before the Council and the Depositions transmitted thither by the Committee of Observation for Worcester County as well as sundry Depositions produced by said Townsend were read and after Consideration of the same, Ordered that the said William Bartlet Townsend be committed to the Custody of a Guard until the next Convention shall take Order in the Premises.

c. s. j. Ordered that Capt. James Tootell be requested to send to the City of Annapolis the 54 Musquets received from Philadelphia, into the Magazine near his House on Thursday the first Instant.

Ordered That the Treasurer of the Western Shore pay to George Gordon forty Shillings for repairing Fire Arms.

Ordered That Francis Sanderson deliver to Col. Thomas Ewing 30 Camp Kettles for the use of Captain Posey's and Capt. Low's Companies of Militia for the flying Camp.

Ordered That the Commissary of Stores deliver to Col.

Thomas Ewing 172 Havresacks for said Companies.

That Mr Isaac Grist deliver to Col. Ewing 172 Wooden

Bottles for said Companies.

C. S. C. No. 100.

Thomas Smyth and Thomas Ringgold Esqrs

Gent<sup>n</sup> We have rec<sup>d</sup> your seperate favors of the 1<sup>st</sup> instant by Capt<sup>n</sup> Smyth, and transmit by him for the Committee the sum of £500 for the purchase of blankets and arms—the continental money which M' Ringgold has, we would have sent to us by the first safe conveyance—we should be fond of permitting Capt<sup>n</sup> Smyth to go beyond £4. 10. 0 for extraordinary guns, was it not that we are apprehensive of dangerous consequences from such license—as soon as a price is offered for any thing above what is customarily given, there is no purchasing at the Price which was before usually allowed, tho' the particular article bought in reality was worth considerably more, and therefore we cannot accord to his request, but hope as the number of arms which are wanting are very few, that they may be collected at not more than £4. 10—by the Time other necessaries can be procured for their marching-rifles we will allow £5. o. o. for. We shall give orders to the Colonel of the Eastern shore Battalion of Flying Camp militia to march his men in Companies to the Northward, when they are ready, as soon therefore as Capt' Smyth & Perkins's are prepared, they will apply to him for orders, but we shall be obliged to you, if you'll procure proper carriages for their Baggage and afford them other assistance which may be wanting. We have sent by Capt<sup>n</sup> Smyth twenty pieces of Cruder, & request you will engage proper persons to make them into Tents immediately—a sample shall be furnished from Baltimore. Your Committee will be pleased to have 500 wooden Bottles made as soon as possible for the use of the Province agreeable to the sample delivered Capt<sup>n</sup> Smyth but in proportion to the accustomed price for wooden ware, we think 2/6 very extravagant, however we will give what is usually allowed.] We also send to your Committee 30 Camp-Kettles for the use of the Flying Camp. Knapsacks with Havresacks are already contracted for, and we expect will be completed in a very little Time. Capt<sup>n</sup> Smyth has our orders to take with him from Baltimore 400 Cartouch Boxes & Slings, 688 Bayonet Belts, & 688 Gun slings, which are to be lodged with your Committee, & we request may be delivered by them with the wooden Bottles to the Flying Camp Militia on the Eastern shore when armed. The Council are very glad to hear Mr Smyth's business is so circumstanced as to admit his coming over—the earlier in the week the better, as we are much thronged with Business & some of our board are anxious to see their families before the meeting of Convention.

George Town Augst 3rd 1776.

May it please your Honours.

Not having known of my appointment by the Honourable Convention as Quarter Master to the Regiment now raising in Frederick County for the Flying Camp before the 1st of this Inst renders it impossible for me to enter on that Service on so short notice; although my inclination leads me to it. I know not who can, or whether any one ought to be blamed for neglecting to afford me timely Intelligence; but I can assure your Honours it will always give me the highest Pleasure to act in any situation wherein my poor though willing services can be of use in the common cause of the United States of America.

I have only to lament its being out of my power for the reasons aforementioned, to accept of the appointment allotted me; and to request you will tender my acknowledgements to the Convention, in any manner the most acceptable for the Honour intended me.

To the Honourable Council of Safety of the State of Maryland, The Memorial of William Stone of Baltimore Town humbly sheweth, That your Memorialist, some time in the month of January last past, requested M' Hercules Courtnay to endeavour to obtain Licence of the Honourable Council of Safety, to load your Memorialist's Brigantine with Indian Corn, to be exported for the purpose of importing salt. But the said M' Hercules Courtnay not being able to procure such Licence, did charter the said vessel to the Council on account That the said vessel was valued at of the said State. £1000. 0. o. when in truth she cost your Memorialist £1500. o. o. That your memorialist left instructions with Mr Courtnay to have the further sum of £500 Inshured on the said vessel at Philadelphia to indemnify your Memorialist in case of loss.

Your Memorialist further sheweth that after the delivery of your cargo, Capt. Martin proceeded in the said Brig to S<sup>t</sup> Eustatia, in order to receive the nett proceeds of two cargoes shipp'd by your Memorialist last October, when she was attached by M' Richard Jenings for a debt of £300 or thereabouts due from vour memorialist to him. That the said Richard Jenings sold the said vessel to Mr Harrison your Agent for the sum of £900. That the said Jenings rendered your Memorialist no account of the sale of the Brig, and retained the sum of £450 in his own hands. That M' Harrison loaded the said vessel and called on Mr Jenings for a Bill of Sale who refused to give one. That Cap' Martin (who was not authorized by me to make any sale or transfer of said vessell) was induced and prevailed on to give a Bill of sale for said vessel to M' Harrison in consideration of the sum of £900 and to accept an order drawn by Mr Harrison on the Honourable Council of Safety for the sum of £450. That the said vessell was sold for much less than her real value, she being worth £1500. Your Memorialist further sheweth that at the time his vessel was attached he was possessed of property in S' Eustatia and S' Kitts sufficient to discharge the debt due to the said M' Jenings. That the said M' Jenings being displeased with your Memorialist for not consigning the vessell to him last October, acted in the manner above shewn, to injure and oppress your Memorialist

Your Memorialist esteeming the actings and doings of the said M<sup>r</sup> Richard Jenings and Cap<sup>t</sup> Martin unjust, illegal and oppressive, begs your Honours will take his case into consideration, and not suffer any advantage to be taken of him by the sale of the said vessel to M<sup>r</sup> Harrison, your Agent: but

allow your Memorialist to have the vessel, on paying the money advanced by your Agent to Richard Jenings, and your memorialist will ever pray &c

I have this day delivered your order to the Committee of observation for this County, for 84 guns, they have returned me for answer, that they have not as many, but expect soon to let me have that quantity. I have sent off a Gentleman to Frederick Town who is likewise to go to Shepherd's Town in Virginia, where I am in hopes he will be able to procure a quantity of Guns and Riffles, if agreeable to you I propose making one of my Compy a Riffle Company as a Light Infantry Company to the Battalion. I shall be much obliged to you for an order on the Committee here for a Quantity of Blankets for my soldiers, which are to embark on Thursday or Friday next. As there is a quantity of arms arrived at Philadelphia since I had the pleasure of seeing you, and as they are indebted to you some arms, I shall be much obliged to you, your giveing me an order on them for some Guns, and allowing me to march some of my soldiers to Philadelphia without guns. You know I am very desirous of geting to station, therefore shall esteem it a particular favour an indulgence. Upon enquiry M' Hopkins has about 400 Hunting Shirts which I should be glad you would allow me to take for the use of my Troops, and for which they shall pay.

As I purpose sending off more than two Companys, I shall be obliged to you for an order for more guns, when received, for Camp Kettles, Canteens or wooden Bottles, cartouch boxes and Belts, Bayonet Scabbards and belts, with Gun Slings.

If your Honours thought proper to give me unlimited order for compleating my Battalion with such, I shall take nothing but what the Captains shall give a receipt and shall observe to them that they are accountable for every thing. I shall be much obliged for your answer and am with due respect

In Committee Cecil County Aug 6th 1776.

Gentlemen.

We received by the hands of Captain Alexander £500.0.0 from your board for the purchasing arms & for the use of the troops raised in our County. We find it will be in our power very speedily to collect a sufficient number of Blankets for the use of those men raised here and perhaps more than what they want. We will also do every thing we can, for procuring musketts but are very doubtful whether we shall be able to procure enough of them. There is a Gun Smith here will undertake to repair any quantity of Guns that we

may get. Steel Ramrods can be had here. We cannot as yet find that there are any more than three or four public arms in this County and we have not received any Guns worth any thing from the non associators or non enrollers. leave first to inform you that the Companies here are compleated and that the men from being thrown out of all kind of employ express great uneasiness at their situation especially as many of them are daily at expence for their support and are to receive no pay until they march. To mitigate their uneasiness and prevent their deserting the service We have advised the Captains to call all their men together and then Quarter them at the expence of the Continent until we can have your advice how to proceed and for their support we have been obliged to advance part of the money sent us by your Board to the officers. We have been very sorry to take this step without your orders but in our opinion the public service must greatly have suffered unless something of the kind had been done, indeed the men think they out to be under immediate pay. We request Gent<sup>n</sup> that you will as soon as possible inform us whether it is agreable to you to keep these troops in Quarters, and whether we may assure them that they shall be under pay from the time they entered into them. Should this be refused we fear the service will be discouraged and that it will be very difficult to recruit men here in future. We have procured thirty camp kettles made of Iron. The money we have will not be sufficient to answer all the purposes, if you think proper to send us any more we shall take care to dispose of it to the best advantage for the public service. As Cartouch boxes, Belts and slings, Knapsacks with Haversacks, priming wires and brushes are not to be had here, the sending them up by the first opportunity will expedite the Companys marching.

The Bearer Mr Chew, a Lieutenant in Capt. Tillard's Company in my Battalion, has applyed, he says by your order, for orders to put his Company into barracks until such time as guns and blankets can be got for them, It is my opinion from what I see when down the country, that numbers of the

poor soldiers are very badly off for want of subsistance. I therefore think it would very much forward the good of the service to put the soldiers as raised into barracks. I would be glad you would give me leave to isue such orders. M' Chew tells me he thinks he could procure a quantity of Gunns and Blankets provided he had money. I should be glad you would let him have some.

[St. Mary's Committee to Council.]

St. Mary's County Leonard Town August 7<sup>th</sup> 1776. Gentlemen. In Committee.

Capt Mantz with his Company is arrived here; we presume to assist in repelling the Enemy from this quarter as well as to supply the place of the Independent Company ordered from hence to the Northward. We beg leave to observe to you, that as the principle cause, that of the Enemy is now happily removed by the Fleet having left Potowmack and passed down the Bay there may not be so great a necessity for that Company now as existed and appeared to your Board, at the time you ordered Cap' Mantz to march to our assistance. We would further observe to you, that we find the strongest dissatisfaction prevailing in these men, at being stationed in this part of the Country, proceeding from a repsentation of some persons that it is unhealthy; and from the difference of situation, disease and ill health must be expected as a certain consequence, Espescially to those who have been born and bred in a more healthy climate. Add to this their licentious behaviour since they have been at this place, in killing and destroying people's property, and threatning to disband & return should any of their company fall sick. And being as we perceive and observe under no control or command of their officers, we fear they will rather prove a disadvantage, than service to the people of this county. Under these circumstances and for these reasons, we have taken the liberty to remonstrate to you and intreat their removal from hence, hoping that this act (which we conceive to be for the good of the whole) cannot meet with your censure or disapprobation. That it is right, agreable to a Resolve of Convenvention, to station some troops in the lower part of this County, we agree, and beg you will order that part of Capt Beall's company now stationed at Port Tobo to move down, or any other you may think more proper. This we are of opinion will answer the purpose better. Upon this principle we have

acted without any intention to counteract your proceedings, \ and in that point of light, we hope and trust you will kindly view it. Signed by order

A. Barnes, Chairman.

C. S. C. No. 128. [Council to St. Mary's Committee.]

Committee of St. Mary's County.

Capt<sup>n</sup> Mantz's company being compleatly armed, as well as good marksmen were the causes that induced us to send him to occupy Capt<sup>n</sup> Thomas's Station, whom we thought it our indispensible duty to order to the Flying Camp so soon as the enemy left Potowmack river. But as you are of opinion that this Company will not answer the end for which it was sent, we have ordered Capt<sup>n</sup> Mantz to march immediately to Annapolis & have sent Capt<sup>n</sup> Berry in a Boat to the mouth of Patuxent to take in his Baggage.

We cannot, without contradicting a resolution of the Convention, order that part of Capt<sup>n</sup> Bealls Company stationed at Port Tob<sup>o</sup> to S<sup>t</sup> Marys, but have ordered Capt<sup>n</sup> Forrest to take Capt<sup>n</sup> Thomas's station, and we must depend upon the militia's lending Capt<sup>n</sup> Forrest's Comp<sup>y</sup> arms until we can supply them, which, we expect, will be soon, expecting some from Virg<sup>n</sup> that we have lately imported.

P. S. We have rec<sup>d</sup> information by one of our boats that the enemies fleet had anchored in Hampton Road.

# [Council to Maryland Deputies.]

To Deputies for Maryland in Congress.

Gent<sup>n</sup> We have the pleasure to inform you that the enemy's fleet left Potowmack River on Friday last, and is gone off down the Bay; they had collected a number of small vessels which they had dismasted and left on the point of St George's Island with intention to set fire to them, but a high Tide floated them off, and they were driven on Shore near our Guard, who have taken possession of them and have found sundry goods and other effects on board to the value of three or four hundred Pounds currency; some of the Hulks may be repaired, and made fit for service—they burnt some other small vessels, and from appearances expect they are gone down to the capes—our Pilot Boat is just returned vesterday evening and says he heard at Pyanketank that the men of war had stopt in Hampton Road, and were making demands of fresh provisions and water, and promised on being supplied, to leave the Bay. The Deserters, of whom many have come over to us, inform that the Tory families are going some to the West Indies, others to Halifax, and the Roebuck to New York.

The Flying Camp are beginning to move, Capt<sup>n</sup> Good's company from Fred<sup>k</sup> will be with you by the Time this comes

to Hand, and Col<sup>o</sup> Ch<sup>a</sup> Greenb<sup>y</sup> Griffith with the remainder of c. s. c. the Frederick Battalion will follow him in a few days. Col<sup>o</sup> Griffith appears to us active and spirited, and we beg leave to recommend him to your notice—some little countenance from you might be of service to him: Capt<sup>n</sup> Mantz's company were ordered to S<sup>t</sup> Mary's, but we have this day given an order for their moving to the northward. Capt<sup>n</sup> Thomas is on the way to Phil<sup>a</sup>

Colo Ewing's Battalion is also under marching orders, two or three companies of this Battalion are near ready, and we are doing all we can to forward the others; they want but every thing—we have arms for one half the Battalion we keep, besides 270 lately imported, not yet come to hand these with what we expect from the manufacturers will enable us to compleat Col<sup>o</sup> Carvell Hall's Battalion, which we propose to keep. Colo Kent has resigned, & so we hear has Colo Earle, both endeavouring to obtain a seat in Convention two or three Eastern shore companies will be ready to march next week, two other companies have borrowed arms, and are to supply the place of Captain Veazey and Capt<sup>n</sup> Hindman the rest will be very slow, we fear, in getting arms.—Brig Dent hath also resigned and is elected for Charles County. under all these difficulties arising from want of arms and necessaries, and also from resignations, we are exerting ourselves to the utmost, money has flowed out of the Treasury very freely upon this important occasion; we hope for the approbation of the Honble Congress and Convention.

We shall say nothing particular about the elections more than what relates to yourselves, S. Chase is in for Ann<sup>1</sup>, W. P. & Carrollton Carroll for Annapolis. T. J. & T. Stone are left out, and there is a very great change in the members in all Counties, according to the intelligence we have. M<sup>1</sup> Stone will have a list sent him of all the Counties that we know or have heard any thing about, to which we refer you—there will be disputed elections we expect, particularly Q. A., P. G. & Ann<sup>1</sup>

Hond Sirs.

I did myself the pleasure of writing you 7th Inst pr Lieut Chew to which beg leave to refer, since which have been honoured with yours of the 6th current accompanyed by Capt Young and his Company. I observe you have given him £125 which he has laid out in shoes, stockings, hunting and body shirts for his soldiers, he has layd out more and has applyed to me for more money. I shall be glad if you would send him sixty pounds or allow me to give it to him, as it will be for the good of his Company and of course of the Service. The Committee cannot procure the quantity of Gunns ordered. Mr John Smith son of Capth Youngs Lieutenant tells me the Committee of Harford had 30 stand and that Mr Richard Dallam had 30 stand more compleated. I shall be much obliged for an order for them for to compleat Capth Young's company so as to send them off.

You omitted inclosing me an order for necessaries to compleat Cap' Young's Company, which please send me with the order you mention for the blanketts.

You will please likewise to give me an order for what tents is made or what you allow I should take with me. With respect to arms I dont doubt but if I was to march all my Battalion without arms to the Camp at the Jerseys but there would enough of the gentlemen malitia would be very glad to lend them arms on acco<sup>t</sup> of being relieved by us. I understand some of the malitia are grumbling very much and want

to be relieved and I am convinced Generals would rather have those whom they can with more propriety command. Captains here have come to a resolution of buying linnen & having hunting shirts made for all their soldiers. Capt Posey with his company arrrived here 9th & I expect Capt Forrest this day or to morrow. You will please send an order for things to equip Cap' Forrest out. Capt Posey will write you for some money, which please send. the gunsmith wrought all night and works all this day. I am as industrious as I can but can do but little without your assistance. for God sake if any way possible, let me have some arms. The Gentleman I sent to Frederick and Virginia has bought none which is a great disappointment to me. He tells me they give £4. 5. 0. in Virginia for muskets that currency. The present accompanies Cap<sup>n</sup> John Hawkins Low who goes down to settle his accot. I dont expect I shall be able to get his or any of the companys from this before Wednesday next. There will be a quantity of Haver and Knapsacks made together. You will please send me an order for a sufficiency to supply 4 companys and I will not lift the others. I shall esteem it a favour your not detaining Capt Lowe as he will be wanted here.

> I am with due respect Hond Sir, Your most obed' Hble Serv' Thos Ewing

NB. Cap' Young has got iron potts, for his company, which he would be glad to have exchanged for Camp Kettles with the troops who stay here on acc' of carriadge, Wooden Bowles and Trenchers, spoons and knives awanting for the use of Battalion, would be glad to know, if you are to furnish them or not. I am geting scabbards made for bayonets which I suppose is agreeable.

Head of Elk 11th of Augt 1776.

Gent<sup>n</sup> After a tedious passage of almost four days I arrived here this morning, the other Boats are all in sight. On my arrival here I applied to Col Hollinsworth for provision, and was informed by him that he had no orders from you for that purpose. however I have procured what Beef and Bread I want for the present, and propose to start from hence early on the morrow. Col Hollingsworth informs me that if you would give him a general order to supply the troops that come here with provisions, baggage waggons, he would take care to have all those necessarys on the shortest notice, but without such order he thinks twould be wrong in him to do it. I have

therefore mentioned it to you submitting whether such an order would not be proper. One thing also give me leave to mention, the victualler at Annapolis will find the troops coming by water, but little salt provision. I drew two days provision, chiefly fresh, all the fresh was so totally spoiled on the second day, that we could not use a morsel of it, it must happen so to others, and I submit it whether it would not be better to direct him to furnish the Troops going by water principally with salt provision whilst the hot weather continues. For want of salt provision I have been obliged to buy on the passage at extravagant prices. I hope the freedom I have taken will be excused by Gent.

To the Honourable The Council of Safety of Maryland: the memorial of your memorilist. Humbly sheweth that your Memorilist did provide provisions waggons shallops wood and other necessaries for the Maryland and Virginia troops on their way from the Head of Elk, to the Flying Camp. that your Memorialist being unprovided with salt provisions, and other necessaries, was under the disagreeable necessity of giving more,—Frequently for Provisions for said troops than reasonably may be supposed by Gentlemen unacquainted with the circumstance of the matter, he seldom knowing when they would arrive till they did and in some cases being informed off and expecting troops and making provisions for them, was disapointed and oblidged to salt and sometimes sell, said provisions for considerably less than it cost, bread in such cases entirely lost, this together with the provisions being to be made and provided at the several different places, the weather being warm of course rendered it impossible to transport them from one place to the other with Safety salt not to be had this being a just representation of the case your Memoralist beg leave to lay it before and assure your Honors that if his accounts are settled in the common way he shall be a very considerable sufferer, submitting the whole of the premises to your honours consideration, not doubting of such Indulgence in this particular case as justice and the necessity of the case may require & your Memoralist as in duty bound &c. Canteens with your permission I could get here for our company. The privates complain loudly for being kept so long here after haveing broke off from their homes and now no provision found them nor as yet no assurences of wages till they march altho many of them has been enroled six weeks. I think if we were ordered to assemble together at some convenient place for exercise and provision found them it would much forward the cause as some of our men are entirely undisciplined and would by no means be fit for action as soon as they arrive at the Rendivous. Some of the men are indebted and are threatened to be stopt for the same. Pray inform me your opinion if they should be kept back if the province will repay me the money that I have advanced to them agreable to the Resolutions of the late Convention. I am very glad to be informed that L<sup>d</sup> Dunmore and his fleet have quitted the Bay and am hopefull this circumstance will induce your militia to lend Assistance to the neighbours with more alacrity than could be expected while an Enemy was hovering on their Coast. You may be assured they are much wanted in the Jersys and at N. York when an Attack is daily expected and at both which places our strength is by no means sufficient to oppose the Enimy with that certainty of Success which every man who considers the Importance of the Event must wish. Cap<sup>t</sup> Thomas is arrived with his company. I shall rejoice to see Col Griffith with his Troops and shall with pleasure afford him and all other officers and Troops from Maryland any assistance in my power. I shall shew particular attention to Col Griffith. Your recommendation entitling him to peculiar notice.

The Difficulties you have experienced in raising your Quota of the flying Camp I am convinced have been distressing, but I hope they are now pretty well over. You may have any money you want from Congress upon application. The Enemy's strength at Staten Island is 15,000 men. the

Hessians are daily expected—by the last accounts they were shiping their men and making all necessary preparations for an attack. Gen¹ Washington is not so strong as he could wish. Upon these movements of the Enimy he ordered a reinforcement of 2000 from Jersey to York. the Maryl¹ Bat¹ was immediately sent to him, but I believe the Camps in Jersey were too weak to spare any more. I observe many of the militia of this State in motion, but many are leaving the camp and are not to be kept there by threats or Persuasions. I intend to leave this city on this Day week, till which I shall be ready to execute your Orders, being

When I was before the Council the time before I set out for New York, I was desired to furnish the council a memorandum concerning the Direction of physical matters of the military, in the province; and that it was unavoidable, the nature of the circumstances requires it, which memorandum you intended to lay before the Convention, but as imidiately after Dr Toothill was appointed for the present Battallion, and acting at the same time as Director, it gives me room to suppose myself to be superseeded and consequently discharged from any provincial Employment. my commission being Surgeon to the Battallion of Colo Smallwood, I never looked upon to be what I intended, but accepted it merely since the other was not as yet established. Should my suggestions of my discharge be your intention, be then pleased to give D' Toothill or any body else an order for the delivery of the remaining Medicines of the province now under my care, and as there will be a Ballance coming to me, both for the Battalion as well as the attendance at Baltimore Town and Fort, you will please to issue your order for that purpose.

To the Honourable Council of Safety of Maryland.

Gentlemen. Your several letters relative to forwarding the troops I have Recd, have give every assistance in my power, but have found much dificulty in some cases to give that dispatch I could have wish'd (on account of our waggons being taken on to Philad, so that the next troops were obliged to wait their return) that it hath from needsessety induc'd me to forme the following plan, which I flatar myselfe will be

approved of by your Honnours. The troops as they arrive to be provided with waggons at Elk to carry the baggage &c to Xteen, where shallops are provided or if not there at Newport or Wilmington, whare at furthest our waggons are to be relieved, whare there is Baracks provided for a Battalion and whare I have by the advice and recommendation of Brigade Gen<sup>1</sup> McKinley appointed Mr Jonathan Rumford to provid provisions, shallops and Waggons as occation may require to forward them to Chester, whare there is good well finish'd empty Baracks for a thowsand men, and whare by the General's recommendation I apply'd to David Copeland to provide provisions, open the Barracks & & &, so that by this method of proceeding the Troops will make the march from Elk to Philadelphia in three days (one day of 18 and two of 15 miles) and may have good Baracks and fresh provisions at each stage, by which means the tents and three forths the baggage may go by the shallops, as also the sick or ailing, and in some cases when there is room a company or two may go. In this Gentlemen I have far sirpassed my orders. Capt Alin Thomas was with me who highly approv'd the mode of proceeding. By him I acquainted the Honourable members of Congress for this province, as this method appears to me most comfortable to the troops, the cheapest and liable to the least delay, I flattar myselfe of your Honnours, and their Approbation. As these things are attended with considerable expence for which (with some arms I am compleating here for Cap' Alexander's Company) I have advanced freely. I submit it whither some person being appointed in this county to pay the several expenses, may not be conduceve to the service and am Your Honours most obed' Hble Serv' H. Hollingsworth.

P. S. My accounts should have come down, but have been too much hurried to make them out. 2. P. S. The 200 large Barrels will be a work of some time, how much I cannot say, as we have not been able to suckseed to my wish yet, and the call for Muskets bb<sup>15</sup> has been so great that I could not spare any hands from them, have now engaged a sett of Hands from Lanchester with intent to set them at the large Bbls. have got a pattern made and prov'd which am in hopes will do, have also got the Bayonetts making so well fix'd that baring accidents we shall finish forty a week. But few weeks happen without some interruption (from one quarter or other). the sarvice notwithstanding the resolve in our favour ridds me of many good hands, for when they will go I can't stop them, but have been yet able to procure others without any great disadvantage, more than must naturally arise from chaing

Baltimore August 14th 1776. Gentlemen. As I had unfortunately engaged the Hunting shirts for my Company, before I waited on you not doubting but your Honours wou'd have furnished me with cash to have paid for them, and as you did not, I was under the necessity of paying for them with the money you furnished me with to carry the said Company to Philadelphia, that together with sheaths for a parcell of bayonets, shoes, hats and body shirts, which articles the said Company could not march without, has taken the most of the money you give me, for the purpose of carrying the Company to Philadelphia. I am therefore under the necessity of begging your Honours to grant me a further supply by the return of Collo Ewing or an order on him to supply me with what will be necessary for that purpose, as it is impracticable for me to pretend to march my Company without I have warewithall to furnish them with necessarys of I am Gent<sup>n</sup> Your Honour's life.

Lower District Frederick County 15th Aug. 1776. Finding my Enemies have been so far successfull in poisoning the minds of the 20th Battalion of Militia, that a majority are against my acting as Major, I therefore take the liberty of inclosing you my commission. I wou'd not have it understood by this Resignation, that I have deserted the common Cause; no Sir, I will most cheerfully when necessary, hazard my life & fortune, in defence of the Rights and Liberties of America. Impressed with the deepest concern & warm'd with resentment of the measures pursued by a venal and corrupt Parliament, I stept forth with the foremost of my countrymen in opposition to the Tyrannical encroachments of Great Britain. Appealing to that Divine Being who searches the heart, I can safely declare I have been actuated by no other motive than the publick good & I flatter myself that every impartial person who takes a retrospective view of my conduct will find it uniform. Cecil County, In Committee Aug' 15th 1776.

Gentlemen. We wrote you on the 6th instant informing you of our proceedings respecting the two companies raised in this county for the Flying Camp, and least it should have miscarried on its way, we now send a duplicate of that letter, as we have not as yet received any answer to it. We now

inform you that the different officers are collecting arms as expeditiously as possible. Cap' Alexander hath got 14 guns in the neighbourhood which he paid for, and Colo Hollingsworth is to supply him with 20 more which is to be charged to your Board. We fear from Cap' Alexander's report that he will not be able to procure more than 20 others. He will get a sufficient number of Blanketts. Cap' George hath got 50 guns which are paid for and will be able to procure a sufficient number for his Company. He hath also got 54 Blankets which are paid for and will get the remainder that his Company may want. We have followed your instructions in the purchase of Guns. We have been obliged to give such prices for Blankets as they could be purchased for. The cash in our hands is expended and if you wish us to proceed any further a supply will be necessary as there necessary accountrements cannot be had without it. We further desire to know whether these troops are to be continued in quarters. If cartouch boxes are difficult to be procured with you, they may be had here at the same price as in Philadelphia. We have purchased 6 canteens at 4/6 each fearing you might want them. I am in behalf of the Committee Gentlemen,

No. 143. [163.]

To the Deputies in Congress

Sir. We received yours of the 13th and have seen what you wrote to Major Jenifer on the State of Publick Affairs, in Consequence of a Resolve of the Convention we have given orders to all the Independent Companies four in number to march. Colonel Carvell Hall and Colonel Ewing, and six or seven Companies on the Eastern Shore have like orders to

c. s. c. March, so that with Griffith's Battalion, we shall have near four thousand men with you in a short time—this exceeds our proportion for the flying Camp, but we are sending all we have that can be armed and equipped, and the people of New York, for whom we have great affection, can have no more than our all. Inclosed you have a list of the several Battalions & Companies.

We depend in case of Invasion on being supported powerfully by our neighbours in Pennsylvania New York & the Jerseys, besides having part of our own Troops sent back.

Our Gentlemen met for the first time after the late Elections on Wednesday the 14th M. T. in the Chair. their time since meeting has been taken up in Controverted Elections. Queen Anns, Prince Georges Worcester, lower District in Frederick set aside; the members have been all Discharged upon the principle of their having broke the Resolves of the late Convention with regard to the qualification of the Voters. Charles was Controverted or rather it appeared on the face of the return that they had adjourned the Polls to a different place than that appointed by the late Convention, it was not set a side for that Reason, the adjournment being made by Consent of all the Candidates and Voters;—some other Elections are talked of, but we know not whether there will be petitions;—Ann Arundel for one. in Kent County they began right and proceeded so some time, till interrupted by a Mob—the Judges broke up, and are ordered to finish the Election according to the old plan of Qualification.

We shall loose a valuable correspondent we fear when you leave Philadelphia; our wishes are that you should stay; but we submit to your determination and that of the Honourable

Convention.

16th Augst 1776.

P. S. These Companies are not all fully armed and equipped, but we hope soon to Collect enough.

My company now want nothing but Knapsacks to equip them completely, which, (as I suppose you have them not) I shall be glad youll please to order me to procure furnishing me with money for that purpose.

I shall be glad to receive your orders concerning Baggage Waggons. they can be either hired or purchas'd here very

readily and I believe at a very reasonable rate. The money you were pleas'd to let me have to advance to the men for the purchase of necessaries, is entirely expended, and we have and must run in debt for many things we cannot do without. Most of the men require a full month's pay, and some more, to procure necessaries to enable them to march. I hope your Honours will supply me with money for this and the above mentioned purposes not forgetting that our travelling expenses will be considerable.

The 20 pieces of linen you ordered over for our tents are not sufficient for the purpose, they will generally hold out 40 yds. to a piece, and each tent requires 30 yards agreable to this calculation, which is just there will be 120 yds. or 3 pieces wanting.

Original.

Gentlemen. I'm inform'd that the battalion in this City commanded by Col Hall has receiv'd orders to march. I had not the least idea, when I petitioned your Honours for a Surgeon's commission to attend that Battalion then quartered at Annapolis and which I presum'd was station'd, and there to remain for the protection of that city, that I should have been request'd to remove. My age and bad health, particularly at this season of the year, would have been a bar against a contract of that kind and interest another Impediment. I could scarce think of leaving home and between three and four hundred a year, arising from my practice of Physick and other advantages, to move into another province and leave my Family, consisting of a Wife a Daughter and a small son, for whom I have the most tender affection, and who in my absence must inevitably suffer, to embrace a surgeon's place, which pay would scarce defray my expenses as I should be oblig'd to travel with a servant and Horses, and perhaps be ordered by the Surgeon General to what department he pleas'd.

I have attended the sick soldiers with the greatest assiduity and care and I believe I have given general satisfaction both to the officers and soldiers. I have had great fatigue and trouble with regulating the Military Hospital shop and compounding various Medicines from the gross materials, which was acting beyond my line of office. It being my duty only to prescribe for the sick, the Medicines ought to have been delivered to me ready for prescription. The Hospital is now filled with sick soldiers which I'm ready to attend, and likewise the train of Artillery or any other troops that may be stationed in this City. I should be sorry that the Battalion should suffer, from my not marching with them, and really, as I'm circumstanc'd at present that is impracticable. No man has the prosperity of our army more at heart, nor is more deeply affect'd with our present distresses or more ardently wishes an honourable reconciliation than

Y' Honours most obedient & obliged Hble Servant 17th August 1776. Rd Tootell

Sirs. Your esteemed favour of the 10th Inst. I received and having duly observed the contents, for answer acquaint you, that I have not been able to manufacture or purchase any quantity of coarse Linnens as yet, owing to the scarcity of Hands to manufacter, and the great demand there is for hunting shirts, trousers & which has advanced the price of Brown Linnen so that I could not think to purchase on them

terms, yet I expect them soon to be lower, when I hope I shall be able to perform my contract.

As you are in immediate want of them and that my connections lie in Baltimore, Yorke, & Hardford Cumberland Counties, I think I could in a short time lay in a quantity of those sorts, will only charge 2½ per cent for my trouble you repaying me, when I deliver them. I have at the Bleach Yard about 40 pieces from 5<sup>5</sup>/6<sup>d</sup> to 7<sup>5</sup>/6<sup>d</sup> per yard, green, if they would ans<sup>7</sup> let me know and if the above terms are agreable, please to acquaint me by a line per return of post, and your orders shall be thankfully received and carefully executed by

P. S. When I can procure any quantity, will forward them to you, or deliver them here as you order. Let me know at what prices you'll have them. John McFadon

Hond Sirs. I yesterday forwarded three Companys Captains Posey, Young & Lowe to Head of Elk on their way to Philadelphia under the command of Major Edin, at which place he is to receive further orders. I have Isued orders to Captains Magruder, Hanson and Brooks to march with the officers and soldiers under their command here immediately, so as to embark for their station. You will please give me an order for what things I may want out of the Commissary's store for sending them off. I mean to march with these three companys myself. I intended ordering Captains Tillard & Bowie for to march, but from a letter just now received from Cap' Tillard, his and Cap' Bowie's company is stoped. I should be glad to know what companys your Honours intend to give me in place of Captains Forrist, Tillard & Bowie. I should at the same time esteem it a favour to be permitted to have them Companys with me.

To Colonel Ewing

Sir. We received yours of the 18th and observe your Complaint which arises not from us, but a very different cause, we mean your Companies not being Armed.—The order of Convention is that all the Companies are to March that can be armed and equiped. Captain Forrest and Captain Brooks have no Armes but what they have Borrowed or can borrow of the Militia, we have therefore ordered them to their Stations in Calvert and Saint Marys to supply the place of Captain Beall and Captain Thomas. Captain Hansen's Company we have ordered to March to this City and also Cap' Bowie and Tillard on their way to the Camp, when they can get armed and equipped. When that can be done, we shall give you the proper orders on the Commissary of Stores. We are sorry to have occasion so often to repeat what we had before told you, that your Companies are not to March unarmed. As soon as they get arms we shall order them to March immediately.

I have been with the Tent makers and find M' Johnson has made up all the tent cloth he had. M' Jacobs has two boys at work and has stuff by him to make upwards of 20 tents and has sail makers at work on old sails, he says he has orders to get more tent cloth from Elk Ridge, but I am certain Johnson will do them much sooner as he has now 4 or 5 hands idle. No tent cloth came from Parker, no Brushes or Priming Wires save 150 to be had here in less than two weeks. The Knap & Haversacks for the two companies are painted this day and to morrow if possible shall send them over the Bay. Shall send down the Cartouch boxes &c by the first opportunity. I can find no cloth in town at less than 25/ pr yard, and 'twill take more than two yards to make a Blanket. Colo Ewing has taken almost all the canteens that were made, but have been with the coopers and desired them to work night and day, and not take time to muster till they have served the Flying Camp for which I hope you'll excuse me. I have delivered cartouch boxes and Gun Slings to the Capt<sup>ns</sup> of the 3 Companies here and 12 Bayonets which were all in the Magazine. I dont know what will be done for Blankets. # [Richardson to Council.]

Gentlemen. I have just received a letter from Capt<sup>®</sup> Dames, giving a state of his Company, which I inclose. He and his Company being very anxious to go to the northward, they having taken much pains to procure arms and blankets for themselves, of which they have picked up a good many the order of your Honble board directing Capt<sup>n</sup> Dean to take so many of the arms of Capt<sup>n</sup> Dames's Company as will replace those borrowed conditionally by Capt<sup>n</sup> Dean, gives the whole company great uneasiness and Capt<sup>n</sup> Dames, thinks he is, by that means, robbed of the little merit his industry and attention in the premises entitles him to. As Capt Dames is so very anxious to get in motion, & thinks that with some small assistance he shall be ready by the beginning of next week, it is very much my wish that he should be assisted with such necessaries as you have, and that he be indulged to keep his Arms, if it can be done without injury to the service; for I would by no means give a check to the ardency of his spirit, c. s. c. Capt Fiddeman is pushing to arm his Company and hopes to effect it so as to be able to march some time in the course of next week. Capt<sup>a</sup> Burke will I expect, be with you in a few days. Cap' Goldsborough I have not heard from, but have dispatched a messenger to him. Capt<sup>n</sup> Potter, I am doubtful will not make up his men, the collecting our officers together takes up more time than I wish, have sent an express to Somerset for Maj Hopewell, another for M Edmondson our Quarter master whose assistance I much want, but am unlucky enough not to have it. I hear he is at Annapolis, if so, pray drop him a hint that I wish to see him. Colo Whitely will set off on Monday next, and I hope will head the first division of our Battalion into Philada I am on my way to Kent & Cecil, and hope to see the several Companys before they get off, shall take care to make a return of all their military stores &c so soon as I got an accot of the whole Doct Hindmin is at a loss to know who appoints his mates & where he is [to] be furnished with medicine &c. As numbers of the arms bought of the Militia will want considerable repairs, I beg leave to submit it to your honours whether they will not be sooner and better repaired in Philad than down here. I am afraid it is almost impossible to get Tents for so many of the Companies as will be otherwise equipped, & we cant do well without them; I therefore wish to know if there is any chance of procuring them on the way to Camp, if there be pray say where, and at whose expence, the continent or our colony:

I am with due respect Gentlemen, Your mo
Obed' Serv' W. Richardson

P. S. If the Convention appoints the surgeons mates I wish Doct Zabdiel Potter to be one, and hope he will be mentioned, he has taken great pains to make up his Company, but cant I believe do it, he is very desirous to go to Camp, and will go in that Character. I believe too his appointment to the mates birth will forward the service, because there is a man as well qualified that will make up the Company he was to Command in a few days:

We are assiduous at the Business and loose no time from the work, except when applyed in collecting the stock. the exact quantity made I cant justly say, having not weighed of for sometime, I expect some odds of two hundred weight, we daily increase the same something. Gentlemen: I have delivered to M<sup>r</sup> Tho<sup>s</sup> Walker at the request of Capt Nicholson, four hundred and thirty two half barrels of Gun-powder, eighteen chests of Arms, loose muskets and twenty pieces of oznaberg. M<sup>r</sup> Walker tells me he received only 431 half barrels of powder, the persons I

entrusted to deliver it are certain they delivered the whole quantity. I hope it will be found right. As soon as I was

inform'd by Capt Conway of his arrival and that the powder & was landed & stored not more than two miles from navigation in the lower end of the County, I thought it by no means a safe place for so valuable Cargoe, especially as Lord Dunmore's fleet was lying at no great distance from it, therefore I directed it to be carted about 12 or 14 miles higher up the county, where it might be more immediately under my inspection, this together with the necessity of having a constant guard, has occassioned a considerable expence, but not more I hope than will be thought requisite. The several accounts were laid before the Committee, who regulated them as they thought proper, except some few which I made a particular agreement for. You may be assured Gent that I have acted as if it had been upon my own account, and the trouble I have been at, you are exceedingly welcome to. I think myself happy in having had it in my power to serve the Province of Maryland, particularly upon so interesting an There is a ballance still due to the Colony of Virg\* of £3. 18. 2 which Capt Walker has promised to pay.

#### []. Nicholson, Jr., to Jenifer.]

Sir. Cap' Dames who has been exceedingly active in endeavouring to arm his Company of the Flying Camp to march to the Northward, has nearly got them equip'd for that purpose he only wants 30 firelocks which he can procure from Winters provided he can obtain the consent of the Council of Safety, without which he will not spare them as he looks upon them to belong to the Publick in consequence of his contract.

Cap' Dames has been encouraged by me to make application to you for them, upon a supposition that that part of the Flying Camp which belongs to the Western Shore will be armed there, indeed if Cap' Dames obtains the consent of the Council to get Winters's arms, it will be a means of getting off Cap' Feddeman's company likewise, because Cap' Dames will then be able to spare some guns from his company which are inferior to Winters's arms, but at the same time are so much superior to any Feddeman is likely to procure for his company, that he will gladly accept of them and march off early next week.

I shall do myself the pleasure of waiting upon the Council next week as soon as M<sup>r</sup> Johnson is elected for Caroline, which will undoubtedly be the case without opposition. I speak this from assurances made me by every man of interest and note in the County, every one of whom I have had personal interviews with. I congratulate you on the favourable

turn our affairs are likely to take in Canady.

I am with much respect Sir Your very Hble Servant J Nicholson Jr.

Gent<sup>n</sup> I take this opportunity by M<sup>r</sup> Smith to inform you my company is now on their march, have received knappsacks, haversacks, Cartouch boxes, Bayonett belts and gun slings, but are at a loss for Camp Kettles, Tent Cloth and Blanketts, not having more than about forty blanketts, the men complain much for want of them.

If we cou'd be furnish'd with cloth we cou'd soon have tents made here. Captains Smith and Perkins's company are exceedingly well fitted with Tents.

It seems from the number of troops that have marched to the Northward, it will be almost impossible to be supplied there. Gentlemen if your board should think proper to furnish me with tent cloth, camp kettles and some blanketts, shall think myself infinitely obliged. The things might be put on board a rock hall boat, where we may get them very handily. I have had no cash for the support of my Company, which I am much in want of. Baltimore 29th August 1776.

Gentlemen. I was requested by Cap' Nicholson to procure a vessel to go to James River for a load of coal. I have accordingly for that purpose made a verbal agreement with Cap' Johnson of the schooner Sally & Polly; he says she will carry about 2000 Bushells of grain, if so, he is to receive twenty five shillings per day, he victualling & manning her. I have referred him to you for orders. Cap' Nicholson also sent down the 27th Ins' two other small vessels at 12/6 p' day each with the schooner Revolution.

I am Gentlemen with the greatest respect, Y' Hble Serv' James B. Morris.

## [Richardson to Council.]

Gentlemen. Gilpin's point 1st Sept 1776.

Upon D' Potter's resigning his warrant for the inlistment of men to compose a company for the flying Camp, my brother Joe Richardson undertook to enlist them, and having in three days made up the number, he now waits upon you for a commission, and I hope he will meet your approbation and appointment. The Ensign appointed for Capt Potter's Company declined to act, therefore it is necessary to have a new appointment; my brother will mention a young man to your honble Bord, which I believe will answer the purpose very well, he is a sprightly, active stout young man & has engaged

part of his men already. I have no doubt but the Company will be filled up in the course of this week, and ready to begin their march, if your Bord can assist him with some of the arms brought up by the Defence, which I hope will be done. He has picked up some arms already and will want cash to pay for them, the money lodg'd in the Committee's hands being expended on Capt Fiddeman's Company. All the Companies are I believe now on their march to Camp except Capt<sup>n</sup> Goldsborough's and the above, Capt Goldsborough I expect will set off in a few days and I hope he will soon be followed by the Caroline Company. I set out to day on my way to camp.

Gentlemen. The Bearer M' Morris waits on you with an application to have M' Middleton's privateer stop'd and examined for 4 Deserters from the Frigate. Circumstances are very strong that they are or will be on board her, for the particulars of which refer to him, this I hope you'll think necessary, for should there not be an example made of those, if to be found, 30 odd likewise from the Eastern Shore I expect will leave her in the same manner.

I have sent three craft from this to wait your orders to get a load of coal. The first two went before I expected or should have wrote by them, and the last was out of the way. The Resolution returned here yesterday, the officer says by your direction. The Defence has required so much caulking that I do not expect she can be down before the last of the week. I am fitting and victualling her sufficient to go to sea should you think proper to order her. I have found great difficulties in getting her about two months salt provisions and as I did not use your order in Philadelphia for that purpose (for the reason refer to Mess<sup>16</sup> Chase & Paca) you'll please to send by M' Turnbull £514, one months pay, which shall apply to pay the ship's necessary disbursements.

Gentlemen: Some time since I wrote you how necessary it would be to have cashed lodged in the county in some person's hands that I could call on occassionally as the service

required it. As I have heard nothing since from your Honnours, it induces me to sopose that in the multiplicity of your Buisiness I have been forgot. Your Honours are too well acquainted with the nature of this Buisiness, to think of it being done without monney and much perplexity and trouble. I have laid out about two hundred pounds for Beef, Bread, Waggons & and have asum'd for how much more I cant say, as the acc' from Wilmington & Chester have not come in yet, though doubtless they are in want of cash, as they have only my word for all they have done in forwarding the Marvland Troops. 'tis impossible for me to firnish the acc' with all the necessary probets, 'till the troops are gon forward as the forwarding them takes up my whole time, to see them delayd here would give me as much uneasiness as it would your Honnours to hear of it. Needsessety therefore now Imbouldens me to draw on your Honnours for one hundred and fifty pounds and also to request that at least that some (more) be sent to me at Elk, that I may be enabled to fullfill my contracts and forward the remaining part of the troops. There has no part of the Troops sent on been delay'd one hour for waggons, shallops or provisions. If M<sup>r</sup> Joseph Gilpin who I have drawn for has the money lodged with him, there is no doubt but he can get a safe conveyance of it to Elk.

Honble The Council of Safety, Lower District of Fredk County, Gentlemen: 2nd September 1776.

Yours of the 17th last month to my brother Leonard came to hand a few days after he had marched for Philadelphia, he waited several days after his letter to you of the 12th but receiving no orders he consulted Colo Griffith, who ordered him to march and recruit on the way, four or five men to compleat his company, after which his return was to be made from Philadelphia. I hope my brother will stand excused for this step, for both the Colo and himself thought it for the good of the province; he would have been one of the first companies full, had he not been unlucky in some of his officers, he has himself recruited most of his men. Bruce who sollicited you for the Ensign's commission has not recruited one man, notwithstanding he engaged to go with the Company till the day they march, and even then promised the Captain to follow him in a day or two, but has since declined.

I know my brother will wish to have his first Sergeant, Mr Denniss Griffith appointed his Ensign, and when he makes his return I expect he will sollicit you in his favour. He is a very deserving young man and I think merits the commission.

The cash you sent by M<sup>r</sup> Nicholls for my Brother is delivered to the Committee of this District who will account for it.

May it please your Honours. Harlem 4th Sept 1776.

The unhappy situation of the Maryland Troops now here. makes it absolutely necessary that you should be acquainted with it, and also you might have received information from others, yet I think it my duty also (tho' low in office) to make you acquainted with it and I have not the least doubt but you will immediately apply a remedy. We have now and have had for some time a number of our men sick, a number very ill. I have had from fifteen to twenty of my men extremely ill and have not yet been able to procure them the least assistance. The Province have but two surgeons here, one of them very ill, and none can be procured here. From the best authority I can assure you we have at this time near two hundred men unfit for duty and most of them without any assistance from the Doctor. The neglect of the troops when sick discourages them more than any other circumstance, and I am convinced if it was generally known, would have the worst of consequences both as to recruiting for the Troops already raised or in raising new levies.

I hope the freedom I have taken will be readily excused, especially when 'tis considered, and I hope believed, that I have no other motive than the publick service. With this hope I conclude myself,

Charles County, 9th Sept 1776.

Mathew Tilghman Esq. Sir: As it is disagreeable to me to hold my commission as Captain of the militia any longer, I now return it to the Council of Safety inclosed herein. My reason for so doing is, that the Company seem to be discon-

tented and getting into confusion. I therefore would prefer standing in the ranks as a common soldier.

I am Sir,

Your most humble Serv<sup>t</sup> Charles S. Smith.

To the Committee of Baltimore County

Gentlemen. We have desired Colonel Hollingsworth to waggon from Christine Bridge to the Head of Elk one Hundred half Barrels of Powder belonging to our Province and to send the same to your care, when it arrives be pleased to store it in the new Magazine. We think it would be prudent to remove a Considerable part of the Province powder that is now stored in Baltimore, to the same place, as it may be dangerous to keep large quantities of that Article within reach of the Enemy.

To Messrs. Vanbebber and Harrison

Your favours of the 9th 24th & 25 of July and August 1st & 15 are before us. It has been unlucky for this State as well as for you that so many of our outward bound Vessells have miscarried. We have been tolerable lucky in our importations, having only lost the Adventures by Scott and Simmerton that we as yet hear of, Captain Luce is safe arrived in Delaware, and we daily expect to hear of the arrival of the rest of the Powder, you advise us that you have and are about to ship. We are very solicitous to Charter or buy Vessells to load out to your address as we want a large sum of Money in your hands for the Purchase of Salt, Arms, Coarse Cloathes, Blankets and Lead but we fear that we shall be disappointed in procuring as many as we want—you will therefore if possible Charter or buy Vessells with you and load them in with Salt as far as thirty thousand Bushels and draw Bills upon us or upon Mess<sup>15</sup> Willing Morris and Company at Philadelphia and you may depend upon their being duly honoured. Next to Salt we want a large quantity of course Cloths, Blankets, Sail Duck, light as well as heavy, Lead and Muskets. We do not restrict in price, but leave it to you to do the best you can for the State of Maryland, and your Bills for the whole or any part thereof will be paid.

P. S. Your Bill on T. Johnson Esq<sup>r</sup> will be duely honoured.

Gentlemen

We take the Liberty of transmitting you Copy of a Resolve of this Committee enterd into on Monday last relative to an Application made to us by Job Green of this Place for a Permis<sup>n</sup> for the departure of a Schooner loaded with Provisions. This Copy of said Resolve we should have sent to you before now, had we not apprehended that M<sup>r</sup> John Smith who was present in Committee during the transaction had taken a Copy of it with him, which we have Reason to suspect he did not, it being reported to us that Job Green hath obtained from your Board a Permis<sup>n</sup> for the departure of said Vessel, which we are inclin<sup>d</sup> to think you would not have granted had you been acquainted with the Circumstances of the Case.

In the mean time to prevent M<sup>r</sup> Green making An Advantage of your Permission untill you was fully informd the Reasons of our refusing him Permission We have requested Capt<sup>n</sup> Smith not to suffer the said Vessel to Sail before we received further directions from you on the Subject. The true

State of the Case is as follows.

Mr Green lately Applyed to the Chairman to know if he might have a Permit to load a Schooner with Flour to the West Indies; which he was answerd he might have If he wou'd engage to comply with the terms required by the Committee, of giving Security in double the Value of the Cargo (when the Vessel sailed) that the Vessel should not proceed to any Port or Place prohibited by Congress or Convention. On promising these terms shoud be complied with, a Permit to load was granted by the Chair to Mr Green) not suspecting that any Fraud was intended: But being informd shortly after that the Schooner which M<sup>r</sup> Green had obtained Permission to load, was a Vessel belonging to James Clarke of this Town who had been a few days before published by this Committee as an Enemy to the Interests of America of which Mr Green coud not be ignorant; It gave us great Room to suspect that the whole matter was a Collusion betwixt M' Green & M' Clarke & only intended to evade the Incapacity of the latter from Trading to which he was Subject by his Conduct. We apprehend there is the more Room for such Suspicion from M' Greens Conduct which does not stand so fare as we coud expect from a Friend to our common Cause.

But at any Rate we conceived that every Person was precluded from trading with M<sup>r</sup> Clarke after he was published by the Committee: And by M<sup>r</sup> Greens own Acknowledgem<sup>t</sup> before it appeared that no Sale of the Vessel was made to him before that time.

Original,

Caroline County Sept the 17th 1776.

Sir. Agreable to the requisition of the Convention made to the field officers of this County, to endeavour to get a company made up to march for New York, I thought it necessary to convene the 28th Battalion of Militia on Saturday last for that purpose, and after meeting in the usual field of parade, the several Companies were drawn up, except the Company under the command of Capt John Fauntleroy. I then requested he would draw up his company, who made me for answer, that he had but a few officers in the field and that he should not draw up under me as the commander of the field.

Capt Fauntleroy's reasons for not joining the Battalion I do not certainly know, but after the Battalion were dismissed, I am credibly informed he endeavoured to see who would join him against me, for what purpose I do not know unless to treat me ill.

As it appears to me, Sir, that he is a disobedient officer and possibly was I to look over this injoury to the common cause, it might prove to be of bad consequence, besides under these circumstances my person as well as character may not be altogether safe, and in order sir, that peace and harmony may again take place, I pray that a court marshal may be appointed by your board for the trial of Capt Fauntleroy, in order to find

out what I am to be accused with and that he or myself may meet with the instant demeritts we deserve.

George Town 17th Sept 1776. Gentlemen. I received your favour of the 8th Inst. and duly observe the contents, wherein you request to know the steps I have taken to fullfill my engagement with the publick, what progress I have made and what returns. the steps I have taken are as follows viz: I have at a very considerable expense prepared a house that will contain sixteen looms and all other utensils for carrying on the weaving business, shall by the last of next week have up 8 looms, and as soon as I can procure hands will set up the remainder. I have purchased weavers, hired jorneymen taken apprentices & I mill for brusesing & swingling flax the have erected a best on the continent. I have purchased a quantity of flax and imployed spinners and expects in a short time to have it in my power to finish 100 yards of linen pr day which the Convention may have provided they will give me as much as I can sell my linen for, by receiving letters from the Counsel of Safety that they were much wanting course linen, for tenting and sheeting, I carryed 2391/2 yards to Annapolis the week before last and by the valuation the Committee put on it I lost from 6 to 10 pounds of what I could have sold for it here, notwithstanding they confessed they had not received as good linen from any other factory. This is publick punishment in place of publick Incouragement. With regard to the progress I have maid in manufacturing it is so well known to the most of the gentlemen in this part of the province and some of the members in Convention know I have brought manufacturing of linen to greater perfection than has ever before been done in the province and is able to bring it to as good perfection both in and whitening as any imported provided I meet with proper Incouragement.

I am with the greatest respect, Gentlemen, Your very humble Servt Alex McFadon.

Sir. Lexington Balt Co<sup>ty</sup> 17<sup>th</sup> Sept. 1776. In complyance with yours of the 8<sup>th</sup> (and the resolves of convention therein referred to) a meeting of the field officers of Col Tolly's and the Baltimore Town Battalions with the Committees of observation, was held on Friday last by appointment previously advertised for the purpose of nominating officers for two companies of Militia to march imediately for New York which nomination was accordingly made.

On Saturday I met my Battalion to publish the same and solicit volunteers, they were very backward in offering, until some officers of the Companies turn'd out, this in some degree roused the Ranks and each (the officers of three companies) got a considerable number of their men to offer to go. I met all these officers yesterday in town each tells me he has engaged some, on the whole I think about a number sufficient for one company mostly of this Battalion and say if they had money to discharge the bounty advance and purchase of arms they have no doubt of succeeding. Here we wait not only for the money, but also for an explanation Respecting the offers of companies, whether they are to be confined to two and therefore supersede our nomination, or wheather all volunteer companies togeather with the two by us nominated are to be taken into pay. not that I have the least expectation that the whole county can turn out more than the two companies properly equipped in good time, one of which we would have a good chance of effecting by consolodating the three offering companies of my Battalion with one of those nominated.

I know not whether I have been right in telling the Volunteers that so high a bounty is given to enable each to equip himself with a blanket as well as other necessaries for their immediate march. this will however be the most expeditious method of procuring blankets, should they be paid for by the State, which is by some expected. The Bearer Capt Teams one of our nominated Capt will be a good opportunity to send money by for this business; he waits upon you for that purpose and for further instructions therein to

Sirs.

We have given Frederick Teems a warrant for Enlisting a company of volunteers in Baltimore County. We take it for granted from what you say, that he has been recommended by the Field officers, altho no regular recommendation has been returned. it will be proper to return the recommendation and we will send warrents for the other officers—the County money and one months pay being advanced the soldiers are expected to find themselves all necessaries except arms.—this is the construction we put on the Resolve of convention about raising the last two Battalions: arms are to be got as you will see by borrowing or impressing on receiving the appraisemts, we shall pay for what may be necessary for two Companies for Balt<sup>n</sup> County.

Gent. In the last lre. wrote you by the Harford Committee of which I was lately a Member I was desired by them to inform you of their transactions in a particular department under the signature of the Chairman and also of their dissolution which they in consequence notified to the People by advertisements set up in the most public places in the county.

Since my writing the above I received a letter from M<sup>r</sup> Ashmead in which he informs me he had sent down to Harford the remainder of his Guns & Blanketts and also the inclosed account proved which closes the affair of the £300 and there remains in my hands a ballance of two pounds eighteen shillings and one penny.

No expectations can be formed of our Committee's acting longer without a new Election. They universally looked upon the Convention's continuing them beyond the time for which they were elected by the people to be unconstitutional and laying a foundation and precedent for one of the most alarming stretches of power the continuation of some future Convention or publick Body for many years. This was their opinion before the resolve of the convention. I have no right to think it changed.

In obedience to the commands of the convention I called my Battalion together on Monday last and on reading their resolves, three Cap<sup>11</sup> in the Battalion with their commissioned officers, to wit Cap<sup>1</sup> James M<sup>2</sup>Comas, Cap<sup>1</sup> Alexander Cowen and Cap<sup>1</sup> Rob<sup>1</sup> Harris the first with thirty one the other with thirty of their privates offered to serve their Country agreeable to the resolves of the Convention and to day the Field officers meet in order to decide who shall go and I believe the lott will fall on Cap' Harris as he is a single man of spirit very desirous of going and the furthest from the water and internal enemies in case of an attack.

I should be glad to know of you if the arms & blanketts in this county collected and now at Harford could be spared for the use of the Company in my Battalion. It will be necessary to imform me immediately and also to give Hollingsworth orders to make Bayonetts for them. They can be sent there directly and before they march I think I can have the residue with some difficulty got from the people in the same manner they were collected by the Committee.

Money being the life of all business and the sinews of war it will be absolutely necessary to send up immediately and lodge in the hands of some one of this Battalion a sum of money large enough to discharge the bounty and month's pay

advance and also gun and blankett money.

I sett from our place of meeting to attend 6 companies to morrow at Deer Creek to assist our Cap' in compleating his company and to endeavour to inspire as many as I can with a love of their country and desire to serve her and shall assure those that inlist with their speedy getting the money, tho' it would have the most charms if glittering in their sight.

Tents will be necessary. The soldiers that will go will be chiefly Farmers and their sons. What price will the province pay per y<sup>d</sup> if they find it or can the Council of Safety furnish all the troops.

Original.

Gent. Queen Ann's Coty 20 Sept. 1776.

In obedience to a request from the President of the Convention signified to me by his letter of the 8th Inst. I immediately wrote to the several Captains and commanding officers where there are no Captains, requesting them to call their companys together, those on Kent Island to meet on Monday, and those on the main to meet on Tuesday now last past. A few days after I had wrote to the officers on the main, the principal persons in five of the companies (some of the officers in them excepted) had a meeting and determined to

meet on the Monday and not on the Tuesday agreable to my request. Being in hopes it would be in my power to remove some prejudices, I desired Majors Hemsley & Emory to attend at Kent Island (where more than an hundred privates attended) and determined to go myself to the other field, where, after the privates were drawn up in one line to the number of about 60 or 70, Mr James Obryon informed them, that the business of the day was to chuse Field officers, that there was a probability of their being now gratified, that he offered himself a candidate for the first office, and said he demanded it as a matter of Right for two reasons—First, because he was the oldest officer in the Battalion and 2<sup>ndly</sup> because he thought himself as well qualified, if not better than any other. Three Gent were then named to take the polls, the number of those who voted I cannot with certainty pretend to say, as I was by the company denyed a copy of the number of voters, but believe it somewhere between fifty and sixty. However on the clerks examining their numbers, M<sup>r</sup> Ja OBryon was declared duly elected Col<sup>o</sup> M<sup>r</sup> James Bordley Lieut. Colº Mr John Dames 1st & Mr George Hanse second major.

While the men were standing up I happened to be in an argument with M<sup>r</sup> Turbutt Wright, a threat was made to throw us over the fence. I knew it was designed for myself, however it did not intimidate me from speaking my sentiments.

It is well known that Gent, has publickly advised the people not to meet in Battalion under any appointment but their own and he avowed it in the last Convention. It is said that some of the Gent Delegates from Q Ann's have wrote over to some of their friends who have long opposed the Convention, with regard to their appointment not only of field officers but other militia officers, that the Convention is disposed to gratify them in their own appointments, and that now is the time. If that be the case why does not the Convention signify it to us, or take the Commissions from us by commissioning others. The people have been induced to believe they ought not to submit to any appointments, but those made by themselves, so that whenever I have requested a meeting of the Batt<sup>a</sup>, part of the officers and five of the companies have met before and not on the days I appointed. The other four Companies in the 20th Battal have always conformed to the regulations of Convention, and I believe approve of the power being lodged in that Respectable Body.

It appears to me needless to attempt hereafter to call the Batta' as some of those who have received commissions from Convention, as well as others, refuse to obey orders, particularly some of those voted for and chosen last Monday.

There have been very few applications made to the Field officers and as we were of opinion no time was to be delayed, if any service was expected this fall from the Company to be raised in this Battalion, we met yesterday and have recommended; but I am really apprehensive there will be great difficulty in arming them, if it is to be done with the militia arms. There may be a few musketts offered for sale and I believe but few; as for impressing which the Convention has given authority for, I shall not chuse by any means, to do it and believe the other Gent will not.

I most heartily wish some mode could be adopted to restore harmony to this distracted County, but which way it can be effected I know not. Some are displeased with the Convention or Council of Safety appointing and others I believe are not.

I have been informed the Convention has adjourned, till Monday week, which is the reason of my giving your board the trouble of this; but am determined if I can make it convenient, to attend their next meeting, in hopes that something may be done to settle the unhappy Disputes.

Baltimore 20th September 1776.

Gentlemen. Having a large quantity of bread belonging to the publick on hand already bak'd, and a vessel to dispose of, that we think must answer your purpose thought it most proper to advise you thereof. She is a large schooner that will carry abo' Eleven hundred barrells flour, completely found ready for sea, a good sailer & as tight as a bottle, the price we ask for her is £850. that if she will any way suite you beg youl advise me immediately for my government, as if she dos not answer you, hope very shortly to dispose of her to some people of this place; dare say the quantity of bread we have baked belonging to you, together with what Mr Spear has baked for you will intirely load this Vessell, and if imme-

diately sent out must certainly come to a good market almost any where. I myself am just now returned from Boston where I have been on a visitt to my friends there, where I found both bread & flour very scarce and high, indeed scarcely any to be got, not one barrle of sweet flour was to be had in the whole town of Boston and bad as it was sold quick at 4 Dollars p Ct: I think this Vessell of ours loaded with a cargo of bread in bulk to go to Boston must answer well with a little flour, and for returns coud purchase West India goods of any kind very low, as they are falling still lower every day from the great quantitys of prizes that are constantly comeing into them. I was myself for several days at there publick sales of prize cargos, where I saw great quantitys of sugars, spiritt rum, coffee, cotton &c, sell very low indeed or if them articles would not answer it appears to me there might a great deal of money be made on a cargo of salt. I see it sell in Boston at 4/pr bush by the quantity, and it was thought by most people there it would be lower, as a great many of their vessels were gone after salt, thinking it will be scarce and dear which is thought there will not be the case, that I realy believe salt may be bought as low in Boston as any where we can safely send for . it, as there is many circumstances in fav of a vessells getting there safe. from there good forts on Nantaskett and other heigths near which no Kings ship will dare to come, and their coast is so much of an iron bound one (so caled) that no ship will dare to lay off there this time of the year. This vessel of ours will carry about four or five thousand bushells of salt, which would be a very handsome back freight, and she is extreamly well adapted for the purpose of carrying salt being a very boyent vessel that will not load too deep. I hope Gent you won't immagine I presume to dictate to you what should be done in those matters, as you undoubtedly do know much better than I can think or immagine; but several of my friends here advised me to write to this purpose, what I knew of these matters, which I hope you won't take amiss, as so great a quantity of bread being ready and much in our way, want to make more room & a get it out while they Bay is clear. Your favouring me with a line on this subject immediately will very much oblidge me, and if I can in any wise serve you in loading this vessel shall be extreamly glad of the favour, in which hope I act to your aprobation in every Gent your most obed' most Hble Serv' respect. Gent. Phila 20th Sept 1776, Fryday. Capt Watkins waits on you by our advice with a Return of his company by which it appears he has now here only thirty seven effective privates and indeed several of that number appear to us not really effective. The men complained of not being furnished with Blankets and Cloathing according to the Engagem<sup>th</sup> made with them, and from this ground as Capt Watkins alledges the present discontent of the men originated. We have no certainty of getting the cloathing though our

Endeavours shall be continued. the Officers have procured the Blankets. Lieut. Long goes to Worcester to endeavour to get the Deserters to return to their Duty under an Assurance which we have presumed to give that on their immediate Return the past shall be forgiven. Cap' Watkins and his men we are sorry to inform you are on very ill terms, the Cap' has beat some of them, he says he had great cause. they say he had none. some of the men have said nothing shall induce them to continue in the company under Cap' Watkins. We shall endeavour to keep the Remnant of the Company together under the care of the third Lieut' until your Orders can interpose, for though an Inquiry seems to us to be necessary it cannot be had here; if the Independ' companies should be regimented or even if the soldiers cloaths can be got, perhaps order may be restored in the company.

We have a letter of the 15th Instant from Capt Thomas from whence it appears our sick have not such care taken of them as they ought. we wish if it is in your power to send a skilful and attentive person who should have the immediate care of the Independ companies, you would do so. We have requested Dr Bond to recommend such a one that we may propose him to congress for this purpose, but from the Doctor's answer we almost despair of finding a suitable person

here.

By a letter from Gen¹ Washington of the 18 Inst. we had a little Brush on Monday in which the Enemy had about 100 killed and wounded. Our loss was considerably less. Report had much exaggerated our advantage. Major Leach of the Virginians is wounded though it is hoped he will recover. Some of Richardsons & Griffiths Battalions were in the action and behaved well.

Col<sup>o</sup> Richardson told W. P. that he lodged in the same house as Capt. Watkins, that he is addicted to Drink and his appearance at several Times we have seen him bespeaks it. To Col<sup>o</sup> Benjamin Rumsey

Sir. We received your letter by the Post and observe what is said about the expenditure of the three hundred pounds formerly sent the Committee of Harford. We need say nothing in answer to that at present, nor to what you say about the Committee of Observation refusing to act; with regard to arms and blankets in Harford, we are willing that the Comp<sup>y</sup> which is first ready in your County should have them [we expect it will be from your Battalion, but if otherwise the first ready must have them] for their encouragement. We have given Mr Steele the Bounty Money and one months pay, for a Company to be raised according to yr letter of recommendation on Saturday last. We shall hereafter advance for another Company when we receive the recommendations.

We have heretofore wrote you about attending the Council of Safety to which you have given no answer, from whence we conclude you have not received it—the Convention would not proceed to any new Appointment only in the room of Mr Hands who declined—pray let us have your personal attendance here for two or three weeks as soon as you can, at furthest by the first of next week.

P. S. Get Linen for Tents if you can procure any upon reasonable Terms. You are as good a judge of the Price as we are.

I thought it prudent to have the ship brought at anchor under point look out, and this morning early when hove short the small bower caple parted near the anchor. We got the Pilot boat to the buoy rope when a strain hove on it parted the buoy rope at the crown of the Anchor, the wind blowing a fresh gale at N W puts it out of our power to get the anchor at this time. We have left a watch bouy at the place and sett several places for finding it some other time. Mr Middleton will have the Marks and knows the place where the anchor lies.

Sir.

I received a letter from D<sup>r</sup> Toothill which I take the liberty to communicate to you, as it referrs to a verbal order of the Council of Safety to deliver to him all the medicines, Shopfurniture, Instruments & belonging to the Province, now under my care.

As the reason for it is, because the hospital in Annapolis is crowded with Patients and medicines are much in request, I will take the Liberty to observe that the whole shop cannot so easily be removed without manifest loss and great Trouble, every thing must be taken out of Boxes, Drawers & and packed up singly then packed into Chests or Barrells, the shop furniture likewise must suffer, besides we being bur-

thened with several useless articles in bulky furniture as well as medicines and the expenses made in putting them in order would be likewise thrown away. If I add to this, that our hospital is perhaps crowded equally to that in Annapolis and wants medicines, and considering that this may be deemed the safest place for the Repository, if at any time any disturbance should happen in the province. The Defence & Resolution as well as the Frigate have been from time to time supplyd with medicines which is another reason I must give.

Doctor Toothill at his first accession to his majority, gave me an Invoice of Medicines he wanted, but as we had not the fourth part of them neither in quantity or at all I furnished him with what we had, and when in Philadelphia I made enquiry, the whole city could not have furnished the half. I assorted our shop as well as the scarcity would admit of. I have not received any order from the Doctor since, for a supply, which is about ten days ago I got a little supply should have furnished him if he would retrench his prescriptions to the present situation of affairs.

I shall however deliver every thing according to order of the Council whenever it is so desired along with the Patients.

Chyrurgical Instruments are not in my possession except a few Lancets, a Bullet forceps and some needles, as well as 3 small Catheters, having hitherto made use of my own instruments. The Capital Instruments are on board the Defence and in Annapolis. I beg to excuse my intruding on your patience and am with due respect.

#### [Council to Maryland Deputies.]

To the Deputies for Maryland in Congress.

Gent<sup>n</sup> We received y<sup>n</sup> of the 24th relative to Capt Watkins but have not seen him since you wrote; we have heretofore furnished him and his Company with every Thing in our Power; just before he left the Province he had near £1000 Currency for Pay and Subsistence agreeable to his own Acct— Blankets we had not to give, we wrote to a Gentleman at the Head of Elk, who, we expected, would have furnished his Company with some. he had Linen from us for hunting Shirts & and we frequently intimated to himself and others who applyed on his behalf, that if he would buy woolens to cloth his Company we would pay for the Stuff and making the common course of business with all the other Captains of Independent Companies—he talked of taking money in lieu of Cloathing. we offered him four Pounds per man for that article, he some times assented, at other Times made excuses and appeared undetermined—and to say the truth, we firmly believe that he renders himself incapable of taking proper care of his Company by drinking to excess.—his distance from us was considerable, 'tis but lately we knew any thing of him; he was represented to us as a brave man; how it has happened that he and his Company have quarelled we know not, the men we doubt not have suffered from the inattention of their Captain—his removal perhaps would be the best method of promoting the publick service. As to Surgeons we have sent forward Mr Stone's Letter to Dr Brown, we know Capt Thomas wrote to some Gen<sup>th</sup> of the Convention, and Surgeons have been appointed, of which we send you a list inclosed—if they are all gone up, there can be no just cause of Complaint, we have not appointed D' Wallace chief Surgeon, to Col<sup>o</sup> Smallwood's Battalion, because D<sup>r</sup> Wiesenthal represented to us that he had been up & settled all things to the satisfaction of those concerned. we should be glad to hear whether an appointment be necessary to that Battalion; if so, we propose to raise D' Wiesenthal, and his present mate & send up a second mate.

We are obliged to you for your care of the Powder, & request you would order it by the Stages to Baltimore Town, to the care of Gerrard Hopkins our Dep, Commissary. The Freight we desire you will be pleased to pay, must leave the quantum to yourselves. Harrison & Vanbebber say nothing to us what sum ought to be paid for freights. 10 p c on the value here is what we have charged to others, and paid when charged; we take it for granted 'tis the customary freight. The Bill of Lading however ought to be adverted to; and if

the freight be therein specified, no more ought in our opinion C. s. c. to be demanded. We have a duplicate of the Bill of Lading which ascertains the freight at forty six Pounds five shillings in Dollars at 7/6—inclosed you have an order of the late session of Convention, which T. Smyth was to have forwarded, but we are uncertain whether he transmitted it or not.

Your favor of the 13th we only recd the 23d inst the delay was occasioned by yr letters being delivered to a member of our Board who resides on the Eastern Shore which through hurry of business for some time escaped his memory.

We have ordered our Commisary of Stores at Baltimore Town to deliver one Ton of Powder to Mess<sup>13</sup> Lux, Purviance and Stewart, for proving the Cannon intended for the Frigate, & the further quantity that you desire for the use of her shall be supplied when she is ready—should it not in the mean Time be convenient for you to send it from Philadelphia. It is true, that we have a considerable quantity of Powder at Baltimore Town; but we have and are equipping 16 armed Vessels of one sort or other, we in all probability shall have use for all the Powder we have by us, and indeed more.

Upon all occasions we have furnished the Honble Congress, & our neighbours with whatever has been requested of us, and we wish the same measure had been dealt out to us; if it had, we should not have been denied 14 pt of Canvass which we were in the greatest want of to compleat the Sails for some armed vessels that we were fitting out, and for want of it we have been obliged to substitute ozens. Had we christened our own Child first, we could not have let the Congress & our Friends of Virgthave had 240 pt Sail Duck, nor yet the Canon, Musqth &c that we supply'd for the Hornet and Wasp.

You will be pleased to excuase our reminding your Board of these things for we are exceedingly hurt by its refusing us so

Head of Elk 28th Sept 1776.

Gentlemen. The troops having principally pass'd on, I have for this few days past been collecting the account, in order to lay them before your Honnours, for which purpose I intended setting out this day for Annapolis, but yesterday had letters from Colo' Parker and Eyloit, of the Virgenia Forses, requesting that I would procure provisions, waggons and other nessesarys for the 4th and 5th Virgenia rigements, and that they would leave Williamsburge (as last Sunday) has retarded my setting out and as I am in great want of cash, am imbouldened to draw on your Honnours for seven hundred pounds, the accts that I have collected, paid and assumed for, ammounts to one thousand and fifty odd pounds. I have received of your Hon-

nours, by M<sup>r</sup> Joseph Gilpin three hundred pounds. M<sup>r</sup> Gilpin informs me there was an order sent me on the Eastern Shore Treasurey, for 300 more, but I have not received the order or money, if the order should come to hand shall return it, as all the monney now drawn for is due. I submitt it to your Honours whither it would not be conducive to the sarvice, to lodge a sum of monney in this county, in some Gentleman's hands who your Honnours could confide in, who I might apply too, as my advancing as much as I have done heretofore, (this is soposing the troops that are now raising to go forward) may be rather prejuditial to my other concerns. The quantity of muskett barrels and Bayonetts, that I have made amounts to about the sum recd on that acc' the accts of which I shall bring down with me as soon as in my power, together with the accts for forwarding, and arming the troops, it appears to me, that I have a quantity of barrells and bayonetts now by me, that M<sup>r</sup> E. Winter will not want, as I sent him seventy Bbls and ninety Bayonetts the other day. I shall therefore send them by first opportunity to your Honnours, as I have not locks (or I would have them fitted).

I have now began in earnest with the large Bbls, I tryed it some time since with some of the best workmen I had, and found that without stone coal, we should spoil many Barells, which would make the others come high, as soon as the passage was safe I sent a vessel for a load to Virginia, which has returned with 500 bush' coal, which answers well. I shall make six a week as I shall keep our Forge with three hand forging these bbls, and they can forge one each day, some of which I shall send down for your inspection first opportunity, if locks could be had which Mr Thomas Johnson informed me he thought might at Frederick. I could have musketts finished hear (as I think to advantage) as they would be ready for the Troops as they pass along to the Northward or Southward, and if locks could be made of proper size at Frederick, for the large pieces, and sent by way of Baltimore to this place, I would have them fited also, at your Honour's pleasure, as the size and weight of them will make the carriage of them troublesome and expensive this with the whole I with much diffidence submit to your Honours, and am with much esteem,

> Gentlemen Your most obed' most Humble Serv' H. Hollingsworth.

P. S. Pray gentlemen excuse the freedom I have taken with your Honours as 'tis meant to promote and forward the sarvice.

Gent. Your letter of the 27th to the Delegates of Maryland was delivered to me yesterday. Capt Watkins did not leave this City so soon as I expected he would do. I fear nothing will do with him but dismission. I have procured clothes for his company and have directed Lt. Grace, who at present commands, to have every thing got ready for them as soon as possible. Every thing here is very dear, but I thought it better to pay high, than keep the soldiers doing nothing or send them naked to camp. I have heard nothing of the powder you mention. My colleagues I presume attended to that matter. Mess<sup>n</sup> Chase and Paca left this on Sunday and I shall sett out on Thursday if my state of Body will permit, tho'

this I much doubt being at present much indisposed. The two adverse armies remain in Statu quo. Gent<sup>n</sup> Publick Bodys shou'd be equaly cautious of taking offence as of giving it, because mischiefs are very apt to arise therefrom & generally before a remedy can be applyed. You have taken amiss the refusal of fourteen p canvass wanted for your colonial vessells & had information that 2000 pt had been imported in one vessell here. These are your premises & the Facts are as follow. It was not this Committee that refused you the canvass for we had agreable to orders of Congress delivered the whole to the Marine Committee & that whole consisted of about 600 ps instead of 2000, but it was not possible the Marine Committee cou'd spare you a single Bolt, because the Congress had but a day or two before your application ordered all the light Duck and other stuff, then in the Publick stores or that could be bought in the City to be made up into Tents and sent immediately to Gen<sup>1</sup> Washington, the Marine Committee remonstrated against this measure alledging that none of the Continental Vessells cou'd be sent out if this canvass was taken from them, no matter they were told the soldiers should have Tents if they stripped the yards of those Continental Frigates and Cruizers that had sails made up, & in consequence of this measure which nothing but the extream necessity of our army cou'd justify, we have now a parcell of fine vessells lying here useless at a time they might have been most advantageously employed. Therefore Judge you, whether that Committee or the Congress itself cou'd have justifyed sparing you the Canvass you wanted. You may depend Gent that no just grounds are ever meant to be given by Congress or any of its committees for complaints like yours. We are all embarked in a cause that requires our utmost united exertions to carry us through, and be assured you can always command our utmost aid and assistance, when it can possibly be extended, consistent with the general welfare.

I was by the former Convention ordered to examine the salt petre earth on the South branch of Potowmack of which I produced a sample. The Convention having adjourned before my return I now take the liberty to make a report thereof. The place is on Patterson's Creek about 12 or 14

miles from the South Branch near Colonell Hights: it is a perpendicular rock, in the middle of which is a Cavern and which was formd from the stones composing the rock decaying and tumbling down carrying along with them a good quantity of rich mould, which contains the Saltpetre, and as the Cavern is so deep that no rain can come in, the Saltpetre is not washed off. If stones are broke off or lifted up, there is sometimes a good quantity of real Saltpetre in its white colour found, which can be scrap'd off out of the Interstices where it collects. As for its formation there is a similarity with old cellars which are known to contain often according to their age great quantities, with this difference only, that the collection of nitre in these Caverns may be from thousands of years which accounts for their richness.

From the situation and causes I had reason to suppose that the mountains must contain a great many such Caverns and accordingly informed the inhabitants with my notion, who have since searched and discovered about 3 miles further another such Cavern equally rich, and as I have received a sample of Saltpetre from the Ohio which was found and scraped off from interstices of stones in a cavern, which I hereby send for the inspection of Convention, it is evident that our mountains contain every where such caverns full of Saltpetre as to furnish the Colonies with that desirable article to the fullest extent at reasonable rates.

I attempted a Trial to make some Saltpetre out of the mould, and took 2 bushels thereof from which I extracted between 2 and 3 pounds, but am sure that it would have produced considerable more, if I had the necessary utensils on the spot, a sample of the nitre I have brought to the Council of Safety. This Saltpetre was exceeding strong and in very large Cristales.

The people on the spot now make Saltpetre and make use of it partly in gunpowder, and partly for salting meat, that being a scarce article there, and no doubt squander away great quanties, not being sufficiently skilld to make it to advantage.

## [Petition of Chew's Company.]

The humble petition of a majority of Cap' Richd Chew's company of militia belonging to Colo John Weem's battalion.

These humble petitioners doth petition this honourable house of Convention for a new choice of commissioned officers to serve under in the Militia, as they thinking themselves ill used by the present ones for the reasons hereafter mentioned.

First: We do complain of an unfair election for a second lieutenant on Friday the ninth day of August last, two judges being appointed to take down the votes, and one of the candidates desiring to see the poll after it was closed was denied the sight of it, for which reason he thinks himself ill used.

Secondly. We can and are ready when called upon to prove our officers have been partial in regard to fines upon the people for not attending on field days, and offering to clear all their back fines that would vote for Mr Richard Harrison to be second Lieutenant.

And thirdly and lastly we do complain of our Captain and Ensign, speaking in public company against the poor people in generall as you do see in M<sup>r</sup> Gilbert Hamilton Smith's form of Deposition above mentioned.

The Form of a Deposition which Mr Gilbert Hamilton Smith is ready and willing to swear to if called upon.

Anne Arundel County:

This is to certify that I Gilbert Hamilton Smith of the County above mentioned heard Cap' Richard Chew of the said County say that no poor man was intitled to a vote, and those that would insist upon voting, if he had his way should be put to death, and I do affirm also that I heard his brother Samuel Chew say that a poor man was not born to freedom, but to be a drudge on earth. Council met. Present as on yesterday.

Complaint being made to this Board that General Stephens from Virginia has impressed a Pilot of Annapolis, and confined him with a view of obliging him against his will and inclination to pilot the vessel of the said General Stephens to the Head of Elk in this state, the attendance of General Stephens was by them requested, who in consequence thereof waited on the board, when M' Vice President on their Behalf informed him that such conduct was contrary to the laws of this state, and an Infringement of the rights of the Inhabitants thereof, that if General Stephens, or any officer of the united

c s. J. States did or should stand in need of any Assistance from us we should exert ourselves to the utmost in procuring it, but that it became our duty, on complaint, to take notice of any violation of the Law. The General replied that he had the greatest Veneration for the civil Law of the Land, and should always draw his sword in Support of it, that he by no means intended to infringe it, but being under necessity to pass to the Head of Elk in his way to the camp near New York with part of the Virginia Forces, having no skilful Pilot, and standing in great need of one, he had at first used some force, but had afterwards obtained the consent of the owner of the Pilot, that it did not occur to his mind at that time, that there was Council of Safety, or Convention sitting, or even a Justice of Peace, but that he would restore the Pilot to his Liberty and desired the Board to procure him one which they accordingly did, agreeable to his request.

Chas County Octob 7th 1776.

Sir. I am sorry to be under the necessity of informing you of the misbehaviour of the 12th Batt and hope you will lay the same before the Honble Convention. On the 23rd ult the said Battalion was ordered to attend at the usual place of mustering, and those that attended (tho' it was not a full meeting were drawn up in a line to perform the manual, but immediately upon the adjutant's giving the word of command a great number of the soldiers broke their ranks and collected together in a crowd: upon which I instantly went amongst them to inquire into the reason of such extraordinary behavior: & some of them objected to their being mustered by a Scotchman, but the greater part declared that they would not be mustered by any adjutant at all, alledging that the province was run to a very great expence by employing adjutants and they thought it the duty of the officers to muster the Battalion. I said every thing I could (and so did many other of the officers) to shew them the absurdity of such conduct but to no purpose. I then ordered them to be dismissed untill I shou'd hear from Convention and hope it will not be long before some step is taken to reduce them to order.

George Town Frederick County 9th Octob 1776 Permit me through you to address myself to your honourable house for permission to pass some time among my friends in Virginia or if the House can be induced so far to relax from their sentence to permit me to remain there without any limitation of time, under the restraints which they have been pleased to lay me under and which I have given bond with security to the President of the Council of Safety in the penalty of a thousand pounds sterling to observe. I beg, Sir, you will lay me with all humility before the House, with an assurance that I would have addressed them in the first instance, either by petition or through you, but unacquainted as I am with bonds and the forfeitures of them, did not know, but it might be going beyond the line of my engagements. My principal reasons for desiring to go to Virginia are, that I have many near and dear connections there; my Fortune little as it is lays chiefly in that country, and having lost my living which has hitherto been my chief support, I wish by my industry, to do something for the subsistence of my family, which I cannot possibly do while confined to Frederick County. I have also, Sir the assurance of several gentlemen of no inconsiderable rank and weight in my native country, that my residence among them will not only give no offence, but that they will even sollicitt this House (if necessary) for my enlargement. That my situation is a most unhappy one those acquainted with the human heart, will readily conceive and if my sufferings can be alleviated without any injury to the public weal I flatter myself humanity will plead powerfully in my favor. To be held up to the world as an enemy to my native land: to be deprived of my living in which the laws of my country had taught me to believe I had a permanent estate, must sink deep into the heart of a man less attached to worldly affairs than I profess to be; but the voice of the representatives of the State has pronounced the sentence and I must submitt to my fate; yet conscious as I am of having never harboured one thought injurious to the rights of mankind, I cannot but hope your honourable house will remit my too rigorous sentence and permit me to try my fate in some other land, where if my inclinations lead me, which I call God to witness they never have done, it will be out of my power to hurt this country. If not for my own, for the sake of those innocents who have me alone to look up to for protection and support, I hope I may gain thus much at your hands, more especially as the common rights of mankind were yet preserved inviolable in the State of Maryland, give me some

grounds for the hope. I have the honor to be with the great- c. s. c. est respect, Sir, Your mo obed wery Hble Serv John Scott

Camp of the Maryland Regulars Head Quarters October 12th

Sir

Through your Hands I must beg leave to address The Honble Convention of Maryland, and must confess not without

an Apprehension that I have incurred their Displeasure for having omitted writing when on our March from Maryland for New York, and since our Arrival here, nor shall I in a pointed Manner urge anything in my Defence, but leave them at large to condemn or excuse me, upon a presumption, that should they condemn, they will at least pardon, and judge me perhaps less culpable, when they reflect in the first Instance, on the Exertions necessary to procure Baggage Waggons, Provisions and House Room for 750 Men march'd the whole Distance in a Body, generally from 15 to 20 Miles per Day, as the several Stages made it necessary,—and in the Latter I trust they will give some Indulgence for this Neglect, for since our Arrival at New York it has been the Fate of this Corps to be generally stationed at Advanced Posts, and to act as a covering Party, which must unavoidably expose Troops to extraordinary Duty and Hazard, not to mention the extraordinary Vigilance and Attention in the Commandant of such a party in disposing in the best Manner, and having it regularly supplied,—for here the Commanders of Regiments exclusive of their military Duty, are often obliged to exert themselves in the Departments of Commissary and Quarter Master Gen1 and even Directors of their Regimental Hospitals.

Perhaps it may not be improper to give a short Detail of Occurrences upon our March to Long Island and since that Period—The Enemy from the 21st to the 27th of August were landing their Troops on the Lower part of Long Island, where they pitched a large Encampment, and ours and their advanced Parties were daily skirmishing at Long Shot, in which neither Party suffered much. on the 26th the Maryland and Delaware Troops which composed part of Lord Sterling's Brigade were ordered over, Col Haslet and his L' Col: Bedford, of the Delaware Batt<sup>n</sup> with L<sup>t</sup> Col Ware and myself were detained on the Tryal of L' Col Zedwitz, and tho' I waited on General Washington and urged the Necessity of attending our Troops, yet he refused to discharge us alledging there was a Necessity for the Tryal's coming on, and that no other Field officers could be then had. after our dismission from the Court Martial it was too late to get over, but pushing over early next Morning, found our Regiments engaged Lord Sterling having marched them off before Day, to take Possession of the Woods and difficult Passes between our Lines and the Enemy's Encampment—but the Enemy the Overnight had stole a March on our Generals having got through those passes, met and surrounded our Troops on the plain Grounds within two Miles of our Lines. Lord Sterling drew up his Brigade on an advantageous rising Ground, where he was attacked by Two Brigades in Front, headed by the Generals

Cornwallis, and Grant, and in his Rear the Enemy's Main Body stood ready drawn up to support their own Parties and intercept the Retreat of ours. this excellent Disposition, and their superior Numbers ought to have taught our Generals, there was no Time to be lost in securing their Retreat, which might at first have been effected, had the Troops formed into a heavy Column and Pushed their Retreat, but the longer this was delayed it became the more dangerous as they were then landing more Troops in Front from the Ships. our Brigade kept their Ground for several Hours, and in general behaved well having received some heavy Fires from the Artillery and Musquetry of the Enemy whom they repulsed several Times, but their Attacks were neither so lasting or vigorous as was expected owing as it was imagined to their being certain of make the whole Brigade Prisoners of War, for by this Time they had so secured the Passes on the Road to our Lines (seeing our Parties were not supported from thence; which indeed our Numbers would not admit of) that there was no possibility of retreating that Way. between the place of Action and our Lines there lay a large Marsh and Deep Creek not above 80 yds a Cross at the Mouth. The Place of Action upon a direct Line did not much exceed a Mile from a part of our Lines towards the Head of which Creek there was a Mill and Bridge across which a certain Col. Ward from New England, who is charged with having acted a Bashful part that Day, pass'd over with his Regiment and then burnt them Down, tho' under cover of our Cannon, which would have check'd the Enemy's Pursuit at any Time, otherways this Bridge might have afforded a secure Retreat, there then remained no other Prospect but to surrender or attempt to retreat over this Marsh and Creek at the Mouth, where no Person had ever been known to Cross. in the Interim I applied to Gen1 Washington for some Regiments to march out to support and cover their Retreat, which he urged would be attended with too great Risk to the Party and the Lines; he immediately afterwards sent for and ordered me to march down a New England Regiment, and Cap<sup>a</sup> Thomas's Comp<sup>y</sup> which had just come over from York, to the Mouth of the Creek opposite where the Brigade was drawn up, and ordered two Field Pieces down, to support and cover their Retreat, should they make a push that Way.—soon after our march, they began to retreat, and for a small Time the Fire was very heavy on both sides, till our Troops came to the Marsh, where they were obliged to break their order, and escape as quick as they could to the Edge of the Creek, under a brisk Fire, notwithstanding which they brought off 28 Prisoners—The Enemy taking advantage of a Commanding Ground kept up

a continual Fire from Four Field Pieces, which were well served & directed, and an Heavy Column advancing on the Marsh must have cut our People off, their Guns being wet and muddy not one of them would have fired, but having drawn up the Musquetry and disposed of some Rifle Men conveniently, with orders to fire on them when they came within Shot, however the Latter began their Fire rather too soon being at 200 yards Distance, which notwithstanding had the desired Effect, for the Enemy immediately retreated to the Fast Land, where they continued parading within 800 yards till our Troops were brought over, most of those who swam over, and others who attempted to cross before the Covering Party got down, lost their Arms and Accoutrements in the Mud & Creek, and some Poor Fellows their Lives, particularly two of the Maryland, two of the Delaware one of Attleys Pensylvania and two Hessian Prisoners were drowned. Thomas's Men contributed much in bringing over this Party—have enclosed a List of the Kill'd & Missing. amounting to 256 officers inclusive. it has been said the Enemy during the Action, also attacked our Lines, but this was a Mistake, not knowing the Ground one of their Columns advanced within Long Shot, without knowing they were so near and upon our Artillery & part of the Musquetry's Firing on them, they immediately fled—The 28th during a very hard Rain there was an Alarm that the Enemy had advanced to attack our Lines, which alarm'd the Troops much, but was without Foundation.—The 29th it was found by a Council of War that our Fortifications were not tenable, and it was therefore judged expedient that the Army should retreat from the Island that Night, to effect which notwithstanding the Maryland Troops had had but one Days respite, and many other Troops had been many Days clear of any Detail of Duty, they were ordered on the Advanced Post at Fort Putnam, within 250 yds of the Enemy's Approaches and join'd with two Pensylvania Regu on the Left, were to remain and cover the Retreat of the Army, which was happily compleated under cover of a thick Fog & a South West Wind, both which favored our Retreat, otherwise the Fear, Disorder, and Confusion of some of the Eastern Troops must have retarded & discovered our Retreat and subjected Numbers to be cut off.—After remaining two Days in New York, our next Station was at Harlaem, 9 Miles above at an Advanced Post opposite Montresore's and Bohana's Islands, which in a few Days the Enemy got Possession of without opposition, from the former of which we daily discoursed with them, being within two Hundred yards and only a small Creek between—It being judged expedient to abandon New

York and Retreat to our Lines below Fort Washington, the military Stores &c. had been removing some Days, when on the 15th Sept the Enemy effected a Landing on several parts of the Island below, (and it is cutting to say without the least opposition) I have often read and heard of Instances of Cowardice, but hitherto have had but a faint Idea of it, 'till now I never could have thought Human Nature subject to such Baseness—I could wish the Transactions of this Day blotted out of the Annals of America,—nothing appeared but Flight Disgrace and Confusion, let it suffice to say that 60 Light Infantry upon the First Fire put to flight two Brigades of the Connecticut Troops—Wretches, who, however strange it may appear, from the Brigadier General down to the Private Sentinal, were caned and whip'd by the Generals Washington Putnam & Missin, but even this Indignity had no Weight they could not be brought to stand one Shot—Gen<sup>1</sup> Washington expressly sent and drew our Regiment from its Brigade, to march down towards New York, to cover the Retreat and to defend the Baggage, with direction to take Possession of an Advantageous Eminence near the Enemy upon the Main Road, where we remained under Arms the best part of the Day, till Sergant's Brigade came in with their Baggage, who were the last Troops coming in, upon which the Enemy divided their Main Body into two Columns, one filing off on the North River endeavored to Flank and surround us, the other advancing in good order slowly up the Main Road upon us, we had orders to retreat, in good order which was done, our Corps getting within the Lines a little after Dusk—The next Day about 1000 of them made an Attempt upon our Lines, and were first attacked by the brave Col. Knolton of New England who lost his Life in the Action, and the 3<sup>d</sup> Virginia Regiment, who were immediately joined by Three Independant Comps under Major Price & some part of the Maryland Flying Camp who drove them back to their Lines, it is supposed with the Loss of 400 Men kill'd and wounded—Our Party had about 100 Kill'd and Wounded, of the former only 15.—Since which we have been viewing each other at a Distance and strongly intrenching till the 9th October, when three of their Men of War, pass'd up the North River above Kings bridge, under a very heavy Cannonade from our Batteries which has effectually cut off our Communication, by Water, with Albany—I must now break off Abruptly being ordered to march up above Kings bridge, the Enemy having Landed 6000 Men from the Sound on Frog's Point. 50 Ships are got up there, landing more Troops, there is nothing left but to Fight them. an engagement is generally expected and soon, have enclosed a Copy of a General Return of the Battalion & Veazy's Company being all the Troops I march'd from Maryland with the Accoutrements & Camp Equipage taken in Philadelphia to to be rendered the Congress together with our Weekly Gen' Return. The Independants are now about their Returns of Arms Accoutrements & Camp Equipage brought by them from Maryland, but not having Time to finish, they must hereafter be return'd to Council of Safety, we have upwards of Three Hundred Officers & Soldiers of the Maryland Regulars very sick which you will observe by the Return and I am sorry to say, it's shocking to Humanity [to have no more Care taken of them—] this must hurt the Service upon the New Enlistments—Majors Price & Gist & Cap<sup>n</sup> Stone are in the Jerseys very Sick, and Col: Ware and myself are very unfit for Duty tho' we attend it—many more Officers are very unwell—I am very respectfully

#### [Hindman to Jeniser?]

Philadelphia Octo 12th 1776.

D' Sir. About four days ago I arrived here in search of necessary cloathing for the Maryland Regular troops, which am much afraid shall not be able to procure at present, particularly shoes and stockings, of which we are in great want and unless they can be got will render many soldiers unfit for duty. I suppose between this and Christmass they may be procured but at a most extravagant rate, common yarn Hose are now at £6.. 10 the dozen pair, and every kind of goods in the like proportion. I applied to Congress in hopes of being supplied from the Continental store, but can get nothing from thence. Am in great hopes your House will order us back to the Province to get recruited and furnished with the cloathing we are now in immediate want of. Col Smallwood wrote me he had wrote down to the Convention for that purpose. I can assure you the very thoughts of keeping our troops at Camp all winter disheartens them very much, nor is it to be wondered at from the severe duty and great fatigue they have undergone ever since they have been at N. York: a sufficiency of Provisions we do not complain of, if a constant succession of beef and flour from day to day will do, and that sometimes without salt, and one day in the week we get salt pork, no kind of vegetables does the Commissary furnish us with, and such our situation that we can get none, being the nearest to the Enemy's lines, any thing of that kind coming from the Country being taken up by the Eastern troops over King's Bridge. Think not sir, I mean to complain on my own acct or that I wish to be recalled, it is for the men in general who

are much discontented, for fear they should be kept the winter through. The Bearer M' Hopkins who I believe goes down to sollicit favors from your House, and who has been a cadet with our troops, can give you a very good acc of our treatment and situation at present, and shall say nothing further on that subject. Am informed the army is to be put on a new establishment and the whole in the Continental Service, could wish to know what is to be done with the Provincial Regulars of our Province, as they seem to think they cannot be kept in the continental service without their consents; and if the contract they have entered into for the provincial service be once dissolved, I doubt they will not enter very freely into the Continental. such is also the case with the Flying Camp, the hard usage they have met with will greatly discourage them from enlisting again under the new establishment struck out by Congress, which I wish had been earlier fallen upon, as by that means we might at this day have had a well disciplined army and which I now despair of being raised very soon. Are the Maryland Independent Companies to be form'd into Battalion, it is the desire of all the officers belonging to them they should. It is very inconvenient so many companies acting together in one Battalion and subject to the command of one do not suppose I am speaking for myself in hopes of promotion, but that would be better for the service they should, I think that melancholy day on Long Island convinced us of the want of Field officers, having none but Major Gist to command us, who behaved as well as Man could do; therefore do again repeat I think they should as soon as possible be formed into Battalion: and if your honorable House should not think the services I have done and the line of promotion I now stand in sufficient for my advancement, shall submit to your determination. I take the liberty however of recommending my first Lieutenant A Anderson as a man worthy of promotion and as good an officer as any in the Maryland service, and have no doubt when his character is inquired into, you will find I say no more of him than he deserves. We are inform'd that a Committee is to go from each State to the Camp to know what officers will serve and their merit. I think they will generally find the Maryland Officers merit the Trust and confidence heretofore reposed in them. I must beg the favor of your notice and attention to James Morgan, first Sergeant in my company, for promotion. Am satisfied he will merit any favor that may be shewn him in that way, and have no doubt of his making a good officer. He has acted as such ever since he has been with me. Shall return with the sundry articles I can procure in two or three days. Am very sorry to hear from my brother that a report is spread among Cap'

Stone's friends that my company, the day we were engaged on Long Island, behaved very ill. I gave him by the earliest opportunity as true a state of the whole affair as I could recollect, which he informs me he shewed to M' Chamberlaine, and which I believe the officers under me can aver to the truth of, as can the officers under Cap' Stone. I cannot judge him guilty of writing any thing of the kind, have not had an opportunity of seeing him since I received my brother's letter, being gone to the Country very sick. such aspersions are base and ungenerous, and not giving men a fair chance of vindicating themselves. I have had the vanity to think the company I have had the honor to command have behaved themselves as well as in the service, notwithstanding the dark insinuations that have been thrown out to their prejudice, and will refer to Col Smallwood for their behaviour and conduct since they have been under his command. I lost only three men on Long Island. My company wants but few men to compleat it; they have been and still are very sickly, as are all our troops.

I am your much obliged Hble Serv' James Hindman.

If their commissions are sent to me shall take care to have them delivered with dispatch. I have advanced to M<sup>r</sup> W<sup>m</sup> Rae £3. 10. 4 for his expences and trouble in goeing to Annapolis for the money for the Company as pr the account I inclosed and beg the favour of your sending the money by the first safe hand as cash is very scarce with me.

Baltimore Sunday Morning Octob 13th 1776. Gentlemen. Captain Norwood being out of town, I take the liberty of answering your letter. I have 18 men in the barracks in Baltimore, which has recd their bounty and some of them a month's advance, and I believe the 2nd Lieut has 9 which is all the men there is enroll'd in Capt Norwood's company and I dont think the remainder could be got in less than a month from this date. 12 of thoose men are willing to enlist during the war or be turnd over to another Comp, if some of their officers go with them. Cap' Deems is likewise out of town, 'tis probable you may not hear from him p this express he wants a number of his men perhaps 10 or 12: the expences of our men has been considerable, and I would be glad to know, as they are at my charge, whether they will be turnd over to Deems' Company or discharged and go free with what they have. I will forward your letter to Cap' Norwood as fast as possible that he may return the Money not expended—and in the interim,

Camp N: Harlem 13th Octo 1776. Honble Sirs. I arrived here the 18th ult. where I found the three companies I forwarded from Baltimore under the care of Major Eden, Cap' Posey, Young and Low, the latter of which I found wounded, which he received in an engagement, which happen'd the Monday before I arrived. The next day we were joined by Cap' Hanson and Magruder, the 22<sup>nd</sup> by Capt Tillard and Bowie and the 1st inst by Capt Forrest, so that I have 8 companies here and am in dayly expectation of Cap' Brook's comp' which will compleat my battalion, sorry I am to inform you that the battalion is very sickly. By the last return I had 237 privates sick, besides officers, owing to our lying on the cold ground, without straw or plank, which is not to be had, and medicine very scarce, great numbers of the soldiers are badly off for clothing. I have given the Cap' orders on the continental store for what things they want, but even then they cannot be supply'd. Numbers of the soldiers are without blankets. Several who never received any and some of the first 3 compan<sup>es</sup> lost theirs in leaving New York. I have furnished Gen! Beal with the acco' of all the arms and accoutrements recd by my Battn from the State of Maryland as delivered me by the Capt all but Capt Posey who is in the country at sick lodging.

Yesterday morning we were allarmed here by an express which arrived at Head Quarters from Gen¹ Heath who commands over King's Bridge, informing his Excellency that the enemy had landed about 4000 troops with an intent of cutting off our communication with the Country, upon which we were all ordered to our allarm Posts, and Gen¹ McDougal's Brigade, in which is Colonel Smalwood and the Independent Companies, were ordered to march imediately to King's Bridge. There was a report in the evening that the enemy were in possession of East & West Chester, if so are doubtful the sick and wounded with a

great deal of stores, are fallen into their hands.

There is orders come out for our soldiers to cook three days provision and to hold themselves in readiness for an immediat march, by which it is thought we will evacuate this About four days ago there was three men of war (frigates) went up North River, past all our forts. One Gent<sup>a</sup> waked the 2<sup>nd</sup> deck seemingly in command, as if nothing was was the matter and seven forts keeping a constant fire at the Ship. What damadge was done is uncertain, but believed to be very triffling. Our soldiers, what of them are in health, appear to be in good spirrits, tho' ragged and several without shoes to their feet. The three first companies have gained great honour under the command of the Major, who I believe to be a brave man and I am hopes the other compy when try'd will not disgrace them. All the field officers here would be much oblidg'd to you for the settlement of the rank of the Battalions and the officers of the Flying Camp. It is a very material affair, therefore hope on receipt of this you will settle it and inform us how. I have ordered the Capt to draw out the pay roll of their several companys, agreable to the moade here, by which those of the officers who have not settled with you, will lose Miladge. I have assured them that I have no doubt but you will make it good to them.

I am with due respect, Honble Sirs Your most obed' Serv' Tho' Ewing

M' Parsons my Quarter Master is arrived who informs me, you are angry at my not writing, which is the cause of my sending you so long an epistol, the incorrectness of which you will please excuse.

Gentlemen. I was in hopes I should, by this days post, have received some instructions from your board about Capt

Maxwell's company's marching, as they have been furnished some days, with guns, blanketts and a few (not above four or five) bayonets (which is all that could be got here) Mr Hartshorn called at Baltimore agreeable to your order and got cartouch boxes and Havre Sacks, and I am told the Canteens have since arrived at the Head of Elk, but no tents are yet come, and the people here ask such an exorbitant price for their coarse linen, that I think, if there is any probability of getting them in Philadelphia, it would be better for the company to go that far without them, however I shall act in that respect agreeable to your instructions, which I hope you will forward as soon as possible.

Sir.

We would have Captain Maxwell's company march immediately to Philadelphia. The Captain will there apply to and receive further orders from Congress. It is doubtful whether Tents can be had for them at Phila if they can they will be furnished, but we presume, as Barracks are building at the camp, that they may be well provided for when they arrive there.

May it please your Honours. Enclosed you have a list of the men now enrolled under my command, and I apprehend that my Lieutenants and Ensign may have a few more, but this I am uncertain of.

There are only a very few guns and blanketts yet belonging to the company and I am fearful that not many more can be procured in this county so as to be ready for this company in any reasonable time. But if it is your opinion that I should march with those already enrolled, in our present condition, you will be pleased to transmitt me your orders and they shall be obeyed. In the mean time with the assistance of Col Magruder, I shall try to purchase all the arms and other necessaries I can hear of, and also to enlist more men.

Sir

We presume to adress you as a member of our Convention on a matter which we think of the utmost importance to the Public in these times when dispatch at Ferrys is so very necessary, Coln George Mason is propriator of the Land on the South side of Potowmack and Rents his Ferry over to George Town which in Virga is established by Act of Assembly. We have also a Ferry on the Maryland side and our misfortune is that no Ferrys in Maryland are established by Law, this we apprehend occasions the evils we are about to complain of and which we hope our Convention with your assistance will remedy as far as you think it consistant with the Public good, our Ferry man has always been threatened by Coln Masons Tennant with a suit in Virginia for presuming to Land in or bring from Virginia any Person, so that we are to Reap no kind of advantage from our situation on Potowmac River it being wholy claimed by the State of Virga Yesterday our Ferryman was arrested we suppose at the suit of Coln<sup>1</sup> Mason or his Tennant for this offence, tyed by the sherriff because he attempted to make his Escape and dragged to Fairfax Goal in Alexandria, to accomplish which the Sherriff came over to this side got the Maryland Boat to put him over

desired the Ferryman to come on shore and he would pay him, which he did by serving the writ, so that the matter was concerted and with a design to prevent Maryland from having any Right to a Ferry over Patomac at all, but as to the Right we submit it to our Legislature to be determined at any future day yet when dispatch over Ferrys is at this time so very necessary for the Post and for Troops that may have occasion to pass as well as private Travellers we hope for immediate relief as to our Ferryman so far as it may be thought in the power of our Convention for it is notorious that unless he is Released our Passage over Potowmac either to the Southward or Northward will be very much obstructed, the Virginia Ferryman having no Boats, at least not a sufficient number for the purpose. We look upon this to be a matter of consequence and hope you will not neglect having done in it what you think right, at least so far as you have it in your power and we are very respectfully Sir

Philips Height's October 1776.

Gentlemen. I have received but two letters from you, of the 11th September and the 2nd October, in the latter of which you express some surprise at never having received a letter from me since I left Maryland, which is just and should I have incurred your censures, it is nothing less than I have expected and let me assure you it was with great reluctance I subjected myself to it, but I am yet conscious, could you have viewed the severe and perplexed duty I have had, and our corps in general been exposed to, you wou'd at least have pitied them and excused me for this neglect. in answer to yours wherein you require a particular return of the arms, accoutrements, Camp equippage and utensils &c of the Regular troops immediately under my command, must beg leave to refer you to a letter wrote to the Convention on the 12th in answer to theirs of the 4th of this inst, wherein you'll find a short detail of

C. S. C. occurrences from our march to Long Island to the 12th when I was obliged to conclude rather abruptly, having received orders to march immediately for Phillip's Heights, four miles above King's Bridge, the enemy having landed a body of men on Frog's neck adjacent to these Heights. also a copy of a return made out in Philadelphia to be render'd the Congress of those articles appertaining to the Battalion & Capt Veazey's Company, being all the troops I marched from Maryland, which hope you'll find satisfactory, also a list of the killed and missing on Long Island, and a general weekly return as rendered Gen! Washington, which will shew such men present as are effective, and such as are sick among which are included a general return of killed and missing was ten wounded. rendered General Washington the next morning after the action on Long Island and as the drafts of their pay are suspended till exchanged, have been directed to discontinue the entry upon the weekly return, for we cant ascertain, nor will the enemy indulge us with a list of such as were taken prisoners without which we cant ascertain who have been killed, perhaps you may require the names inserted in the Returns, agreable to the returns of our muster rolls at Annapolis your letters do not urge this mode, but shou'd it be required, it shall be complied with.

I ordered the Independent Cap<sup>15</sup> on the 11th Inst upon receipt of the Presd of Convention's letter, to hand in their returns of arms, accoutrements, Camp equippage and utensils, 'till then I thought this had been done upon their leaving Philadelphia where I imagined they had supplied their men with sundry necessaries, and would of course make the natural returns, as their commands till their arrival there were distinct and unlimited by any other control than that of Convention or Council, however I found this had not been done and I now find from the train they have kept their affairs in, it will be done with difficulty and perhaps be subject to loss, for I am apprehensive many things may have been lost upon their march from Philadelphia and since; which as they were not accustomed to inspect and make weekly general returns of arms accoutrements, cloathing, camp furniture and utensils &c some of these at this time they may not be able to account for: Capt Bracco complains he can't obtain a roll of, nor any accounts relative to his company and that Gen' Bell has taken a fifer out of his company, Burrel by name, and keeps him in the Flying Camp. I have wrote Gen1 Bell concerning this Boy and his story is lame, but from what I can collect, he says the Council of Safety allowed him to take the Boy out of, and upon return of the Flying Camp he will return him to the Company. now if he belongs to, he certainly ought to be in

the Company, as it has no other fifer and if he does not, the c. s. c. company can have no business with him after the Flying Camp is discharged; The council will please signify whether they gave such indulgence, and whether the boy was returned in the muster roll of the company and this matter shall soon be set right between the General and the Capt<sup>n</sup> I wish their accis may be as easily adjusted. There are many other charges exclusive of what articles are and will be enumerated in the returns, which the Continent is charged with, particularly medicine necessaries supplied the troops, arms repaired & for often on our march and since the Commissaries cou'd not supply nor would the public armourers work, at all events, soldiers must be fed and have their arms repaired, or else it cant be expected they will fight, an account of which can't at this time be rendered, for the retreating and flying disposition which has so much prevailed in our army latterly, made it most safe to send my books, papers &c to Philadelphia lest they should be lost, but be assured a true and particular acc' shall be rendered, doubt not the province shall not be injured.

This precaution was necessary, for hitherto we have been generally drawn from our station and Baggage, to cover the retreat and defend the baggage of others, which has subjected us to much loss, upon the retreat or rather flight from New York. I have scarce an officer (myself included) or soldier who did [not] lose more or less of their baggage, pillaged by the runaways, indeed I believe many of them never had other views, than flight and plunder, both which they are extremely dexterous at. General Washington was so kind after he left the common where we were posted, to stop waggons himself and made one of his aid de Camps attend the sending of our baggage, but as I had left but four soldiers as a camp guard, being desirous the Reg' upon this occasion shou'd be as full as possible, these cou'd not guard the Waggons and thus we lost part of our baggage. have since stripped from these poltroons several of our soldiers coats and had them severely scourged. Have purchased from the Continental Store Cloaths for such of the Independent Companies as their Captains inform me have received none before and I think upon good terms, accounts of which shall be trans-I think Thomas's company were paid for finding themselves, or at least he preferred this one day when I was present at the Council, you'll inform how this matter is, and whether you supplied him with money to purchase cloaths at Philadelphia, his company being as bare as those who have never had. I have dispatched Cap' Hindman's to Philadelphia after his Company's cloaths which he tells me are ready made there, by whom Thomas has sent for his. I have sent

c. s. c. near £900 by Hindman to purchase such deficiency as the Continental Store could not furnish, particularly shoes and stockings. I am about to draw pay for the troops that first marched with me, from the 6th of July (the time they were ordered to march, which will replace in my hands the half month's pay advanced by Council and half a month's pay advanced at Eliza. Town, out of the money advanced me by Council and our Deputies at Congress. I also paid Capt Veazey's company out of the above sums a month's pay, they having had no advance from the Council upon their marching. I shall credit the Province with this sum, having charged it before the pay advanced by me to the soldiers &c and credited it with the sums received from the Council & Deputies. We have received no pay since in this service but £750 paid the men when marched to Long Island, and I got an advance from the Gen<sup>1</sup> of £750 more in part of the sum sent by Hindman. There is now due us down to the 31st August which is as late as they will pay us to near £3.000 inclusive of the Independents pay shou'd the Council not approve of my drawing and retaining in my hands that part of this sum that will be due to the Province, they will please signify and it shall be lodged to their order. My motive in drawing it being only to provide for contingencies, money not being to be drawn here when most wanted, for it has been the policy here to retain 2 or 3 months of the Eastern Troops pay to prevent desertion and retain them longer in service, by which better men often suffer and languish for their pay. there are severall vacancies now to fill up, but having no time to make out a list, must beg leave to defer it till I have more leisure. Lieut Ford behaving well has acted under brevet as Captain of Light Infantry which is We want medicine in rotation agreable to his seniority. much, none can be had here, our sick have and are now suffering extremely, the number as you'll observe from the list is very considerable, owing in a great measure to the bad provision made for and care taken of them, the men being often moved and have been exposed to lye on the cold ground ever since they came here, after lying without their tents for several nights as is now the case, having been five nights and days without them, being ever since the enemy landed up here.

The inconvenience attending frequent removals of troops when there are not a regular supply of waggons for that purpose, which is much wanting here, no person can conceive who has not experienced it, besides when their tents and baggage cant attend them, they must be injured much by lying in the open air at this season and in this place where heavy dews prevail so much, and I may justly say our corps have

had a greater proportion of this duty than any in this army, c. s. c. for we have generally acted in Brigade under Northern Brigadiers General, who have seldom failed to favor their own and put the laboring oar on our Regiment, but it has perhaps made us the better soldiers. our Commander in chief is an excellent man and it would be happy for the United States if there was as much propriety in the appointments in every department below his. It is not owing to any want of precaution in him that discipline is not exacted with more rigour, much must depend respecting this, on the superior officers next under him in command; and here there seems to be a total ignorance of and inattention to this system, so necessary to render an army formidable.

Our next greatest suffering proceeds from the great neglect of the sick, and his orders relative to this Department are most salutary were these to be duly attended to but here too there is not only a shameful but even an inhuman neglect daily exhibited. The Directors of the General Hospitals supply and provide for the sick, who are extremely remiss and inattentive to the well being and comfort of these unhappy men, out of this train they cannot be taken. I have withdrawn all mine long ago and had them placed in a comfortable house in the country, and supplied with only the common rations, even this is preferable to the fare of a general hospital, two of these regimental Hospitals after I have had them put in order, one has been taken away by the Directors for a General Hospital and my people turned out of doors, and the other would have been taken in the same manner, had I not have applyed to Gen<sup>1</sup> Washington who told me to keep it. the misfortune is that every supply to the Regimental Hospitals of necessaries suitable for the sick, must come from an order from these Directors and is very seldom obtained. I have more than once applyed that my Quarter Master might furnish and make a charge for what was supplied, by which means I could have rendered the situation of the sick much more comfortable, at a less expense, but could not be allowed. I wish this could be obtained. I foresee the evils arising from the shameful neglect in this Department. one good seasoned and well trained soldier recovered to health, is worth a dozen new recruits, and is often easier recovered, than to get a recruit, exclusive of which, this neglect is very discouraging to the soldiery and must injure the service upon the new enlistments; after the troops go into winter quarters, if the Convention & Council should judge it consistent with the interests of the province, and the good of the service, I could wish the regular troops might return home to refresh themselves in good winter quarters, and recruit the complement wanting, this I c. s. c. dont urge altogether thro' inclination (tho' I believe nothing would be more desirable to both officers and men who wou'd more readily than ever return in the Spring) but should it be necessary could point out the expediency of their return, upon a principle that it wou'd contribute much to the benefit of the service, so far as their small force could have any weight.

Our Army in general have been well supplied with good provisions & indeed with more than a sufficiency. Vegitables and some other small necessaries could not be procured, but in general there has not been the least cause of complaint on

this head.

You mention my having the command of the Flying Camp, which I have not, altho' we frequently act together and have encamped close by eeach other for better than a month. I thank the Convention for the resolve in my favor. intention was good tho it has not had the desired effect, owing to an impropriety in their mode of appointment, tho was I to insist, General Washington has said I ought and should have the command, tho' it might raise some difficulties here perhaps in other commands. Mr Bell without doubt is a brave and an honest man, but I leave you and the Convention to judge, whether with propriety he can expect he will do himself and his country any honour in the character of a General. He is considered here as the second edition of the Eastern Generals and the distinguishing gentlemen here, who now begin to entertain more favorable sentiments of our State, are not a little surprized at the impropriety of this appointment, but their will be done, even tho' I suffer an indignity, where it has not been intended.

Gen! Lee has just arrived, and is appointed to the command of one of the Divisions, who are to oppose the enemy above King's Bridge. The Enemy have landed their Chief force on Frog's neck, and are making every disposition to march across from the sound to their Ships in the North River, thereby to cut off our communication by land with Albany and the New England Governments and to coop in and starve us, for I am apprehensive it will be in their power by their ships at any time to cut off our retreat into Jerseys, both which should they effect, it will just pin up the Casket. The situation of the Country favors our troops, being very uneven and rockey, interspersed with some few bushes, and abounding in Stone Walls. Were our officers good, and our men well trained, it would be impossible to effect their purpose, for we have now on this side the bridge thirteen brigades, which do not exceed thirteen thousand men (by this you may see how far short the Governments of furnishing their respective quotas, none I believe have compleated but Maryland) but with this force,

could our officers be brought to a proper sense of their duty c. s. c. and dignity and the weight of the army, the enemy might be checked in their course; for this you may rely on however their parade may indicate the contrary, yet it is a fact, they are as much afraid and cautious of us, as we can be any of us of them, their officers alone give the superiority, and in this instance I have greater hopes of our officers and mens fighting than ever, for here is no hopes of running away left; Fight or starve and surrender at discretion has almost become the word, which event might have proved favorable to the common interest, had they reduced us to this dilemma before, at least it would have prevented much disgrace and brought our army to think of fighting. Our northern Generals have introduced a new system for conducting this war, which subverts every principle in the art of war adopted by other States, for instead of instructing their troops in the principles of military discipline, preparing and encouraging to meet their enemies in the fields and woods, they train them to run away and to make them believe they never can be safe unless under cover of an intrenchment, which they would rather extend from the North to the South pole than risque an engagement. Discipline here is totally neglected and yet after all it is the only bulwark in war; had our troops been trained better, and worried less with the pickaxe and spade, by this time our army would have been in a condition to have sought for their enemy in town. I am pretty sure this cannot be the case soon under our present system.

The Enemy's army has been said to amount to 20,000 effective men but I dont believe it exceeds 17,000. Ours on this side the North river amount to about 17,000 effective, but great numbers of the sick are recovering fast. Agreeable to your orders I directed Cap' Hindman to get me a stamp made in Philada and the arms shall be stampd & Being often interrupted and hurried you'll excuse this scrawl and believe that I remain With sincerity and real regard Gentlemen

There will be want of public arms for this company, but as most of them have good guns of their own, expect they will conclude to carry them, till can be better equipt, and should blankets be wanting I am in hopes they will leave those we have to the most necessitous and provide for their own houses. As I mention'd to you before, I fear new blankets can't be got @ 20/ as it will take five yards of Kersey, and this is selling at 5/ pr yard to make a blanket, and as to Linen common tow linen is selling at 3/ & 3/6 p<sup>t</sup> yard. Sir

We received your Letter of the 13th instant by the Post and desire the Company may march as soon as their guns are repaired. Barracks are provided at the camp which will make Tents in a great measure unnecessary, however, if others than what are made out of the linen you have sent up to Philadelphia can be there furnished, the Company will have them. We cannot supply any from hence. Gun-slings & Bayonet Belts can be more conveniently had at Phila. The

Heights near Harlaem 18th October 1776. Gentlemen. I this day received your Honour's letter of the 11th Inst. communicating your instructions to stop the money due to the State of Maryland, from the several people mentioned in the accounts therein inclosed, amounting to £3675.. 17.. 5. will endeavor to do this as soon as possible, but fear the whole cannot be received till the pay for the months of September & October is issued by the Paymaster General, the men having suffered great losses in cloaths on Long Island, will want the whole of the money remaining due to them for July & August to procure such covering as is to be had. The Pay abstract of continental pay due to the Battalion and Veazey's Compy & Hindman's, the Battalion & Veazy's commencing the 6th July the time they were voted into the service of the continent—and Hindman's the 26th of same month, the time he received his last orders to march, calculated to the 31st August amounts to £4126.. 15.. 2. out of which the State of Maryland by the paymaster there, and through the hands of Col Smallwood, has advanced upwards of £1600, which will be secured for the State as soon as possible, and remitted as soon as received. The Battalion and Veazey's Compay will have 3 days pay due to them from the State of Maryland, which it is proposed to pay them out of the last mentioned sum. The money is ready at the Paymaster General's office, but on account of the alarm of the enemy's landing troops on different parts of the main land of this Colony from the Sound, I have thought it adviseable to put off receiving it till our troops get a little settled in their new encampment above Kingsbridge to which place they marched, from hence, last Saturday. You will be pleased to observe that the sum of £200 charged in the accounts reced from you as advanced Capi Veazey is not included in the £1600 above mentioned, Col. Smallwood having paid him at Philadelphia half a month's pay for his company amounting to £118.. 17.. 6. not knowing that such a sum had been paid him at the commencement of his Cap' Hindman informs me he received Maryland pay to the 3rd August, so that there will be due the State from that compy the amount of the whole company's pay for eight days, viz, from the 26th of July to the 3rd of August. regard to the four independ companies viz, Gunby's, Thomas's, Woolford's & Bracco's, which have joined the Battalion lately, I do not know how to make out their pay accounts against the Continent, not having been informed at what time they were considered as having entered into its service. I have understood that most of the four received a month's pay advanced them at Philadelphia, but they have received none since they came here, nor do I expect they will, till about the beginning of November, when they may probably be paid up to the end of October, with the rest of the Troops. I shall be very glad to be inform'd by your Honours as soon as possible, of the time these four Companies entered the service of the Continent, and also whether I am right or not, in fixing the time of the Battalion & Veazeys on the 6th and Hindman's on the 26th July. I will send you a particular account of the disposal of the pay now laying ready, as soon as I have paid off the men, and settled the account to that time, in the mean time I shall execute any of your commands in the best manner I am capable of. And am with great respect.

Your very obed Serv Chris Richmond

P. S. Capt. Scott informs me he paid a sum of money in part of the State's accot against him to M<sup>r</sup> Chas. Howard, credit for which is not given and I think Capt<sup>n</sup> Adams paid some money to some person in part of his accot.

Harford County Sir.

I am to inform you that it is not in my power to purchase blanketts & Linnin fitt for tents. Arms I have about forty but believe shall be able to procure as many as the company may want. they will want some repairs. The company is now up and Capt Harris waits on your Board for orders. I could have purchased blankett and linnen but at a much higher price than the Council thought reasonable I have sent up to Pensilvana where I hear is linnen and blanketts both county made, and as the blanketts is larger than those from Europe I am afraid they will fail as to the blanketts in Harford Town it is uncertain that the company mentioned in y' letter will leave

any for Capt. Harris. I should be much oblige for a line from your Board. Any think in my power you may depend on.

Mary Robins (wife of Josiah Robins) being sworn on the holy Evangels of Almighty God deposeth and saith that on the 15th of November 1775, in the morning of the same day, Benjamin Butler came to the house of her said Husband and enquired whether there was person in his house except his family; her husband made answer that there was: upon which they went out and after some time, her husband came in, and told her that he was going to a certain William Barclay Townsend's; that a certain Levin Townsend had been down to Norfolk on board the Man of War and had brought up a quantity of ammunition, and that all those who were for the King were to go down to the said W<sup>m</sup> B. Townsend's, to get their share of the ammunition, and that the said Levin Townsend had brought a paper from on board the said Man of War that they were to sign; and that the said Levin Townsend was to get out this day on his return to the man of War, and that if there was a sufficient number of signers to the aforesaid paper they were to have assistance immediately from the said man of War.

Joshua Selby of lawfull age being called upon by the Committee deposeth as follows, that he was at W<sup>m</sup> B. Townsend's on Sunday the 12th Instant, when he heard Levin Townsend say that he had been on board the Man of War five days, that Mr William Allen was at the said William B. Townsend's & endeavoured to persuade him to appear before the Committee, that said Townsend declared that he would die before he would be taken or submit to the punishment which he supposed the Committee would inflict on him, and this Deponent further says that early on the Wednesday morning following Benjamin Butler came to this Deponent and ask'd him to go down to W<sup>m</sup> B. Townsends, that there was salt to be got there cheaper than it could be got at Snow Hill, that Butler told him the orders they had, was to carry loaded guns, that this Deponent accordingly went to Townsend's that when he got there he was carried up stairs, and sworn to keep secret by Levin Townsend (son of W<sup>m</sup> B. Townsend), that on his being sworn he asked said Townsend for what purpose it was, Townsend replied to keep secrecy that they were going for salt: this Deponent asked when they were going, Townsend replied it Original was no matter when, if you will go with us I will tell you. This deponent replied he could not go, for that he could not leave home, That this Deponent then asked Levin Townsend what he would do if he brought salt and the people attempted to take it from him, that Townsend replied he should not come without help, that this Deponent saw the above mentioned Levin Townsend at a desk as he supposed taking down the names of the people who were to go with him for the Salt, and that the following persons were attending the said Townsend as this Deponent apprehended giving in their names for that purpose, to wit, William Dickerson, Benjamin Selby, Thomas Moore, Thomas Cluff, Hugh Vestry and Solomon Butler, and this deponent further saith that he has not seen any of those persons since the time above mentioned and supposes they are gone on the aforesaid design.

William Townsend being called upon by the Committee of Worcester county, deposeth and saith that on Wednesday the 15th day of November it being the day before William B. Townsend and company embarked, he was at William B. Townsend's house where he believed there might be 60 or 70 men, many of whom were armed, that W<sup>m</sup> Barclay Townsend and son Levin told this Deponent that Luke Townsend was to procure a load of salt ready for them at Norfolk and asked this Deponent if he was willing to go along with them for it, that it was necessary to keep it a secret from the Committee and for that purpose Levin Townsend administered an oath of secrecy to this Deponent, that he believes the said oath was administered to numbers that were there that day, that the said William B. Townsend said he wanted friends enough to attend him as might prevent the salt from being destroyed and this Deponent further heard Levin Townsend say he was on board the Man of War at Norfolk, that he this Deponent has often heard the said W<sup>m</sup> B. Townsend say he wou'd never submit to the measures of the Committee.

Townsend and Thomas Moore talking very much in private whilst the said Townsend was in Worcester and that said W<sup>m</sup> B. Townsend advised him whilst in Norfolk to inlist in Lord Dunmore's service and that he this Deponent heard Levin Townsend say he expected a large number of men to join him on his return in Annamessick and that Thomas Moore af went down to Tinley's landing, from which place this Depon' embarked and where they parted and that Thomas

Original Moore wished them well and said he hoped in a short time to Copies. see them return safe.

Sworn before Joseph Dashiell.

Hugh Vestery.

December 1st 1775.

Solomon Butler of lawfull age being sworn deposeth and saith that Levin Townsend sent for this Deponent by Hugh Vestry that he wanted to see him and talk with him, that he went on the Tuesday evening before Townsend went away, that he this Deponent was sworn to secrecy, and Townsend told him he wanted him to go down to the mouth of the river for that there was plenty of salt there very cheap and that this Deponent accordingly agreed to go and went home next morning to get his cloaths and by Levin Townsend's direction carried his gun, Townsend telling him there was plenty of fowl at the mouth of the river, that he accordingly embarked with Townsend and his company and that in their way down the river they took possession of Daniel Boston's vessell, that they then proceeded to the mouth of the river, when they arrived there and found there was no salt, this deponent with some others expressed great uneasiness and were desirous of returning, that Levin Townsend and his father and sundry others laughed at them and told them they must go further for the salt, and immediately took their boat on board, and secured all who appeared desirous to return, under the hatches, that when they arrived at Norfolk Levin Townsend and Isaac Coston went on board the man of war, and on their return to their company sollicited them strongly to enlist under Lord Dunmore and told them they should have a guinea and a crown advance, and standing pay allow'd them with a suit of regimentals a gun and bayonet &c that this deponent and several others refused to enlist, that he heard Levin Townsend say that he intended to fit out a tender to cruize in the bay and take all the prizes they could and then to proceed up Pocomoke River to take the Committee of Worcester County prisoners and carry them to Lord Dunmore, and that Isaac Coston, William Dickerson, Benjamin Selby, Francis Britt, Joseph Gray Taylor, Levi Townsend, Elias Townsend, Zadock Townsend and Josiah Ward approved highly of Townsend's scheme and were determined to join him in it, that Townsend repeatedly expressed a confidence of being joined by a large number of people on his return home, that Thomas Moore was at old Townsend's the day the Company set off, and went with them to the landing where he wished them well and told them he expected to see them again in a short time, that Moore likewise met them at the Ferry down the river and had conversation with some of the

company which this deponent did not hear, that as they went Original down a beef was killed and brought on board, that this deponent heard Isaac Coston and Francis Britt say that they help'd bring the beef on board, but who the others were he cannot tell, that he heard Levin Townsend say he paid a half joe for it, and that he obliged the company to pay their proportion.

Sworn before Joseph Dashiell.

November 30th 1775.

William Willis being sworn on the holy Evangels of Almighty God deposeth and saith that Levin Townsend sent for this Deponent and that he accordingly went and said Levin Townsend told this Deponent that if he wanted salt he might have it down at the mouth of Pocomoke River and that this Deponent asked him who had it and that said Levin Townsend said it was his brother Luke and that he might have it almost for going for, and that this deponent agreed to go, and after they had proceeded so far as Oystershell Town this Deponent asked where the Vessel was that had the salt and that said Levin Townsend said he imagined it was lower down and in their going further down, said Levin Townsend, Levi Townsend and Isaac Costen went on shore where they killed a beef and brought it on board uncleaned, which they said they paid for, & upon this deponent's making further inquiry after the salt and finding there was none, this said Deponent requested that he might return home, but that Levin Townsend said he should not and immediately hauled the boat upon deck and put this Deponent with others under the Hatch way and there kept them, till they arrived at Norfolk and upon their arrival there, said Levin Townsend & Isaac Costen went on board Lord Dunmore's Ship, where they stay'd some short time, upon their return said Levin Townsend asked this Deponent and others if they were willing to inlist under Dunmore, that if they were they should have a suit of regimentals, a guinea & crown, a gun and bayonet and that this deponent replied he could not stay on them terms, well replied said Townsend if you won't agree to that will you stay and go with me privateering up & down the bay to take prizes and this Deponent said he could not do it and this Deponent further saith that the said Levin Townsend said that Isaac Costen was to be his Lieutenant and that he intended to visit Maryland as soon as the Governour cou'd get him a commission for that purpose and that he intended up Pocomoke river in a very short time that he wou'd take if possible the Committee of Worcester whilst they were asleep

Original in their beds and carry them on board his vessel and convey Copies. them as speedily as possible down on board of Governor Dunmore's ship, and this Deponent further saith that he was sworn by a person in Norfolk unknown to this Deponent, the purport of the Oath this Deponent can't well recollect and further saith William B. Townsend pressed this Depont exceeding warmly to inlist in Lord Dunmore's service, but that this Deponent, Cornelius Dickerson, Bartley White, Hugh Vestry, Solomon Butler & Thomas Cluff absolutely refused, that the rest of their crew, to wit, Isaac Costen, Joseph Gray Taylor, Francis Britt, William Dickerson, Zadock Townsend, Elias Townsend, Josiah Ward, Benjamin Selby, Levi Townsend, did as this Deponent believes inlist in his Lordship's service, that when this Depon' left the said Townsend at Norfolk the said Levin Townsend told this Deponent he might keep a look out for him in about 10 days or a fortnight off the mouth of Pocomoke river and that he wou'd see him the said Townsend.

Sworn before Joseph Dashiell.

William Willis.

November 30th 1775.

Thomas Cluff of lawfull age being sworn deposeth and saith that he went at a certain place gathering of corn and that Levin Townsend sent for this Deponent and when this Deponent arrived at W<sup>m</sup> B. Townsend's, Levin Townsend asked this Deponent if he did not want salt, that if he did provided he would go with him he shou'd have it very reasonable, upon which this Deponent agreed to go with sundry others down as far as the mouth of Pocomoke river upon which the said Levin Townsend administered an oath to him to keep the matter secret, but not finding any salt this Depont & some others wanted to return, upon which the said Townsend confined them and that the said Levin Townsend and others went on shore where they kill'd a beef, whereupon they proceeded down to Norfolk and upon their arrival at Norfolk the said Levin Townsend and Isaac Costen one of their number went on board Lord Dunmore's Ship and some time after returned to this Deponent and said Levin Townsend asked this Deponent and company if they were willing to inlist under Governour Dunmore, that if they wou'd they should have a suit of regimentals, a gun, a guinea and a crown entrance with their standing pay, and that this Deponent said he would rather choose to go home again and that said Townsend said you cannot return home, for you will not be let return, you will be taken up and further told this Deponent that if this Deponent did not go up to the Standed in Norfolk the Governor would most certainly detain him and this

Depont further saith that the aforesaid Levin Townsend came Original with an officer who administered an oath to him, the contents of which this Deponent can't particularly recollect; and further saith that the said Levin Townsend was fitting out a small vessel for a tender and that said Levin Townsend told this Deponent that he intended to come up Pocomoke River in the Tender aforesaid, and that a certain Edmond Scarborough of Virginia was to go to Pocomoke with as an assistant and that the said Levin Townsend said that after he took a cruize or two up the bay in order to make some prizes, he shou'd lay his vessell against the Cypresses in Pocomoke river & that he wou'd then seize the Committee of Worcester County whilst they were asleep in their beds and convey them on board his vessel and then proceed down to the Governour as quick as possible, and this Depon' further saith that when Levin Townsend was insisting on him to inlist under Governour Dunmore, William Bartlet Townsend press'd this Depon' to do it, and told him (this Depon') that he cou'd not any thing that was better for him and very strongly recommended it to him and the said William B. Townsend further told this Deponent he should come up Pocomoke river in the tender with his son Levin, and this Depon' further saith that the said Levin Townsend desired this Depont and the others that returned with him to keep a look out on the Annamessix shore for his return to assist the said Levin in his scheme; and further saith not.

Sir. Upon request of your wife I was this day going to a magistrate, to give my deposition, respecting your case; but am informed the Magistrate will not take it, but refers me to the committee, and time will not permit the calling, and my going before the Committee for that purpose at this time.

I am informed that you charge my oath against you, as the principal cause of your preasent troubles. This is to assure you that I never to my knowledge swore an oath against you that could in my opinion injure you was it fairly laid before the Honble Convention, nor indeed could I with truth. I cannot now charge my memory what the several questions were that was asked me about you in Committee, or what my particular Ans<sup>13</sup>, if I said any thing that was construed to shew, that you intended to go on board any of the fleet under com-

mand of Lord Dunmore, introduce the King's forces or raise an army to join them, I do now solemnly declare that I never intended so to be understood, and if called upon woud at any time make affidavit of it. But as I before said, I sceirce know the particulars of my oath before the Committee, as being a close prisoner and under much fear and apprehension, yet be assured, I was not so sceared or surprized as to have sworn what I understand you have heard of.

The Respectable members of the Secret Nantes Committee of the Province of Maryland.

Gentlemen: Although we have not the pleasure of your acquaintance we nevertheless shall take the liberty to assure you of our respects, and make our offers of service to you in Europe, and for your assurance of what we have the honor of offering, will referr you to the Honble Continental Congress & Secret Committee of Philadelphia, to whom our names are well known and with whom we passed a contract in February last for the furnishing of ammunition and other necessary articles in your present situation, and further you may inform yourselves of Governor Cooke at Providence and Messrs. Nich & John Brown of the same place, for which last we have dispatched two vessels since the establishment of our house in this place.

We hope after your informations concerning us, be it from the Congress or the Generals of the Army and in particular from Doctor Franklin that you will be satisfied, in order to put confidence enough in us to consign all vessels you send for this port to our house, and we flatter ourselves to find the best sale possible for your merchandize: and send in returns what goods you will think proper to order, if they are to be had in France.

We are able to furnish you at demand with cannon & gunpowder, salt petre, sulfre, lead, Iron & brass cannons of all sizes, muskets, such as we have sent the Congress, being of the last mode for the Infantery of France, proved, well finished and perfectioned with double bride locks.

We have muskets at all proof from 12 to 22 livers p<sup>r</sup> pice with bayonets, steel ramrods and boxes suitable for ball of 14 to 16 to the lb; all the muskets are uniform, of the same size and same model; we have also handsome and good gun locks, which are well finished and conditioned.

We have the honnour of observing that there is only our

house able to furnish you with the foregoing articles, and that we shall take upon us the risk and danger of putting them on board, and to let your vessells go out of our port freely; them are powers that we are trusted with and which we have in hands, not any other house in France shall be able to give you the like advantages, and furnish you with such amunition, which we receive directly from the manufactories of the King.

We are able to furnish you also with all kinds of broad cloths, fit for cloathing of soldiers (we have sent a quantity to Messrs. Browns of Providence) we have them of all colours, good quality and well assorted for the price of 5, 6 & 7 livers p'ell, but the following colours of the same quality will be somewhat higher, such as scarlet, prussian blue, yellow and green; and further we are able to furnish you with such cloths as will be desired, likewise with all kinds of blankets from 3, 4, 5, 6 a 7 livers p' piece, also linens for shirting the Troops from 30 @ 50 souce pr ell. We shall be able gentlemen to furnish you in general with every kinds of merchandize of the first quality and at the most reasonable rates; and you may assure yourselves that we shall dispatch immediately every vessell you shall think proper to address us, whether the Cargo is sold or not.

We have established our house in this place, thinking it the safest and most convenient port in France for the American trade, and we have entered in partnership with one of the richest and first houses for business in Nantes, the name is J. Gruel, Merch' upon Isle feydeau, therefore in addressing your vessels to that house, by giving us immediate notice will be the same as if addressed directly to us, making but one and the same house for all the trade we have with North America.

In case you should think of sending a vessel to Bordeaux, we take the liberty of recommending to you the house of Mess<sup>11</sup> Reculé de Bamarain & Raimbeaux, being one of the most principal houses there and who we think will do your business better than any other can do.

We have in our house and at the head of our affairs that we transact with North America, M<sup>r</sup> Wilt, a young man from Philadelphia, who holds our correspondence in English, therefore if you should have any affairs particular or secret to transact or negociate, you may be assured of the order and discression that reighns in our house

We have the honnour to be in the meantime with our most sincere respects

You have on the other side the copy of my last I sent two days ago with a man I sent to Baltimore for the stores for Cap' Holland's company. The company has had a meeting yesterday and have concluded to set off for the Camp next Wednesday.

On their meeting their arms has been review'd, and what are concluded to be carried, and what can be collected will call for more money than I have for that purpose. Two of the gentlemen that agrees to assist me being on the enquirey for Blankets & Capt Holland has signified to me that to expedite their departure he thinks it expedient to request the Council of Safety to forward up a farther sum for that purpose. Mr James Hall waits on you, and if it is agreeable a further sum of one or two hundred pounds may be sent up which I will account for in the equipment of that Company. Having no quarter master to attend them there must be provision made for there subsistance to where they can be supplyed. To the Respectable Members of the Convention for the Province of Maryland.

Gentlemen:

An Ardor for the success of the present continental cause, will I doubt not excuse a seeming impropriety in my address-

ing a Body with the members of whom I have the honor of

claiming little or no acquaintance.

I am here during the war, and my connection with M<sup>r</sup> Penet (for whose character I refer you gentlemen, to the secret Committee of Congress) influences me to request that preference in your business which we have already been honored with from the Secret Committee of Congress.

Much pains have been taken to obtain a possibility of doing the American business from hence, which I have the satisfaction of informing you have met with such success as renders it in our power to supply the Continent with any articles they

please.

The articles w<sup>ch</sup> may be imported to advantage from hence are Vitrey Linnens fit for coarse shirting or sails; coarse cloths for soldiers or negroes cloathing and blankets with all kind of

military articles.

Letters directed to Penet and Rumsey to the care of M<sup>r</sup> John Gruel of this city: Messrs. Reculess D<sup>e</sup> Basmarein & Raimbaux Merchants in Bourdeaux or Mons Stephan Cathalon of Marseilles will be carefully forwarded.

St. Pierre Martinique Oct 20th 1776.

Our last respects to you were by Capt. Martin, who sailed from this place the 11th current with a valuable cargoe. Since then your favours of the 12th Sept. have come safe to hand p' the Molly Capt. Conway. His cargoe, tho' a very proper one, we are sorry to acquaint, has come to a most wretched market, 57/ p<sup>r</sup> barrel for his flour and 36/ for his bread is the most we have been able to obtain and his tobacco is yet unsold. Since disposing of this Flour, a cargoe of Philadelphia Superfine has been sold for 53/. This fall has been occasioned by the immense quantities that have arrived and continue to arrive from France on a supposition that it would be a scarce article here. We fear there will be no change for the better till towards the middle of Winter and spring when we imagine it will begin to advance again as in all probability the exportations from France will cease when it is known how badly their speculations must turn out. and plenty as flour is, we know of nothing that can be sent from Maryland that will turn to a better account so surprisingly are we glutted with Tobacco and all kinds of provisions.

We almost despair of supplying you with the large quantities of Woolens and salt that you want. they are scarce and

command ready cash, but we shall do our best.

As vessels with you are difficult to procure and markets here very low, we fear you cannot easily remit us money sufficient for the extensive we have and are to enter into, we would therefore beg leave to propose a method which we think may be employed with more success and facility than any other at present. It is, if possible, to get a boat or two out from S. Carolina with Indigo. One pilot boat ballasted with that article would yield more money here than any three or four Brigs with flour and tobacco. It is constantly worth from 6/ a 12/ p<sup>r</sup> lb according to quality, and is the only article of our exports that can be shipped from hence to France; and the risk of getting it here will be triffing as it may be sent in such small fast sailing vessels.

A part of Cap' Martins' tobacco has been sold in Statia at 42/p'.cwt and yesterday we shipped the remainder for that

place.

We hope to dispatch Conway in 8 or 10 days with some woolens, muskets duck & and are &

## [Petition of Castle Haven Company.]

To the Honourable Convention of Maryland. The humble petition of a majority of Castle Haven company sheweth: That your Petitioners have laboured under repeated impositions from their Captain Joseph Byus which in their opinion render him unworthy of the office which his country has intrusted in his hands, and we knowing of no other justifiable method of redress then presenting our petition; we hope and trust that the honourable convention will either remove him from his Captaincy or oblige him to appear before you, that your petitioners may have an opportunity of proving their accusations against him, which we doubt not are of such a nature that the moment they are heard, they will be ajudged sufficient cause for removal. To mention some of our accusations to your Honours, which we charge him with, is, we were called on duty, which he our said Capt. provided for us thirty four pounds of pork, three bushels of Indian corn meal, as also thirty six pounds of bacon, thirty three pounds of pork, and three gallons of rum, got from Capt. John Tripp, and as sum of the neighbouring gentlemen was so good as to bestow their charity upon us, by giving us sundry provisions, that out of the above provisions we made use of only thirty six pounds of pork twelve small loaves of bread, and three gallons rum, the remainder of the provisions our Captain carried home and converted to his own use, and charged us with the whole, which charge was five pounds ten shillings, common money, so that he stoped out of our wages and rations four shillings from each officer, and two shillings from each private. we found ourselves thus treated with, we complained to our field officers, which caused him to repay to each officer three shillings and six pence, and eighteen pence to each private. it was by mear chance that we got possession of a true accompt of the provisions found, made use of and carried away, such a chance as we cannot expect to meet with every time we are thus used: which gives us great reason to believe that we shall never be honestly dealt with, by a man that no trust can be reposed in, and that requires a constant over-looking in order to have justice don: he has also given orders to his non-commissioned officers, that for the smallest offence to knock down any man belonging to his company, and he will support him in it contrary (as we view it) to the millitary resolves of convention: these and sundry other threats and useages gives uneasiness to your petitioners.

Till we have the determination of your Honourable Body we shall continue to obey our Captain has we have hitherto done, but as we are extremely unhappy in our present situation, we

pray for a speedy decision: and your petitioners as in duty bound will ever pray.

Dorchester County, Cambridge Oct. 21<sup>st</sup> 1776. I hereby certifie that some time last summer a certain Standly Cook with four or five others complain'd to me (as one of their field officers) against Capt. Joseph Byas. said that being cal'd out on duty with others of Cap' Byas's Company that he, Cap' Byas purchas'd provisions from some of the neighbours for the use of the Company, but being discharged in a short time, and receiving provisions from several of the Inhabitants, that were kind enough to make no charge against them, they made use of very little of that purchased by Capt. Byas, and that when he was going to pay them their wages, wanted to stop a shilling per day out of each mans pay for the provision he alledg'd he had found them, great part of which Stanly Cook said he cou'd prove Capt Byas put to his own private use. I told them I wou'd speak to Capt Byas, and have the matter settled. Some time after I saw Capt Byas and Stanly Cook together. I acquainted him of the charge made against him, upon which he said if he had done wrong it was for want of knowing better, and that he was ready to settle in any manner that I or any other of the Field officers wou'd advise him to, he said there was some Indian Meal and I think some pork that his wife had delivered out the quantity he could not prove, therefore, wou'd make no account of it, there was likewise some bacon he had purchas'd of Cap' John Trippe which he said he had them by him and

desired to know what he should do with it. I told him to sell it and apply the money towards paying off his men which he promised to do. I then ask'd Stanly Cook (as he seem'd to be the active person) if the company wou'd be willing and satisfied to allow the remainder of Capt. Byas' account, which was Rum and some other article, he said he believed they wou'd, upon which I thought the matter wou'd be settled

Philad 24 Oct. 1776.

Dear Sir

I arrived here on Saturday Evening last but my Colleagues did not all arrive before last Monday. On Tuesday we laid the Resolves of Convention before the Congress and on Wednesday about one oClock two of their Members informed us that the mode proposed by our Convention of substituting the Gift of ten Dollars in Lieu of the hundred Acres of Land would prove in the opinion of Congress extremely prejudicial to the united States as it would subject them all to the same Advance, an Expence in their Apprehension too great to be borne and we's to use their own Expressions would break the Back of all North America they represented that Land might be bought for three Dollars per hundred that the Soldiery had already extorted from the State greater Wages than could well be borne, they further requested to know if we

would proceed to attempt the Inlistment of the men with the twenty Dollars Bounty without promising the ten Dollars which Congress were not inclinable to grant at present but had appointed a Committee to draw up a Letter to the Convention of Maryl<sup>d</sup> on the Subject of their Resolves setting forth their Reasons for not furnishing us with money and

dissuading them from that mode of raising men.

We informed the Gentlemen our Province had no Land solely, that an Expectation was formed by the People of our State that what was conquered from an Enemy at the joint Expence of Blood and Treasure of the whole should become their joint property but as Claims had been set up opposite to our Ideas of natural Justice it became wise people rather to prepare for the worst by giving ten Dollars now than trust to the mercy of a few Venders from whom they would be obliged to purchase (having pledged their Honour) at any price, the Case of all Monopolies; that we had limited Orders from our Convention a special Authority under which we must act and not deviate; that if their Letter to our Convention could be wrote in any reasonable Time we would await the Event and return or advance as we should be by them ordered.

They also observed that the State of Maryland shewed a Disposition to separate by their Resolves from the united States, that the Resolves ran in the Stile of we would not— We remarked in Reply that the Terms made use of were ought not and the two Reasons that appeared in the Resolves themselves were first that the mode of Calculation was unequal and the second that it was out of our power to comply not having the Lands solely and exclusively and yet notwithstanding Injustice was done us and we had not the Lands & We had as a State resolved to raise the men requested by Congress which together with our former Zeal in the Cause evinced our Attachment to it and ought in our opinion to have excused us from such an Imputation: Thus ended the Discourse and it is now Thursday Evening and no Lre wrote that we know of I shall wait upon a Gentleman of the Congress tomorrow for the Lre to go by the Post and we intend to write to the Convention. The Aristocratical Party or those who have a Desire for a Mixture of it in the Governm' have appealed to the People at large agt the Democratical or ag' a great part of the Constitution settled by the late Convention of Pennsylvania—The Aristocraticks headed by Dickinson McKean Wilson Rush &c have beat their Adversaries Cannon Matlock & all hollow as the Sportsmans phrase is-This work is to go on through all the Counties

and Cities and there will be Orations plenty and equal Confusion then the next Convention is to alter the work of the preceding—These very Aristocratical Gentlemen are laying a Foundation for a plebiscitum in the State and this may lay a Foundation for future Appeals to the people I have iust now seen Cap' Valentine Creager Philip Smith 1 Lieut' George Need 2 Lieut and John Perkinson Ensign of a Company in the flying Camp from Frederick County they delivered they say their Roll to Major Jenifer dated the 19th of Sept 1776, on the 21 of that Month and never received Commissions altho they have applied to D' Fisher Col<sup>o</sup> Stull before and Mr Stone since their arrival here who all have promised to gett them, that they were pushed off by their Countrymen without under a promise of sending them after them here where they have staid 3 weeks and the men not only refuse to march with them but inlist in other Companies —I need not press you to get the Council of Safety to send them inclosed to the Capt and it will be necessary I suppose to date them back. they ought to come up by the Return of the Posts.

When I set off from Annapolis I asked G. Duvall for the Commissions transmitted to Convention by Congress, he answered there were none sent they were to be got at Philada When we came here our old Friend the Honble Jno Hancock would have sent us back to get them but he was overruled in this and we should have got others—I beg if we are continued in Office that we may not have Favours of that Sort to ask—And that you will take Care they shall be sent up by the next post.

The 4 German Companies have been with us and complain much of the 5 Companies of Pennsylvanians with whom they are united they say their 4 Companies outnumber the Pennsylvanians 100 men & that most of the men of this State in that Battalion are the vilest and lowest Wretches breathing they complain that they are oblidged to recruit in Maryland & their men will be turned over to serve under Pennsylvania Captains I inclose you a Copy of their Inlistment. They agree to inlist in the Maryland Troops and wish solely to be under a Maryland Commander they make a good Remark that an Emulation will naturally arise in the Troops of each State to excell the others in Courage and serving their Country well and they say if they behave well as they are this State will get the Credit of it.

Our Friend Smallwood is to be or is a Brigadier what I have wrote has been with Pain from bad Ink & Pen it needs another Excuse as being done currente Calamo. however I

cannott alter that tis agt my disposition to write otherwise And as I fear you are as much tired of Reading as I am of Writing and it is now nine oClock I shall bid you good Night.

#### [P. S. Smith to Council.]

October 24th 1776.

Gentlemen: In July last I received an order from your Honourable board, directing a Court Martial to be held on the 15th of that month for the tryal of Capt. John Mackall and Levin Miles of Calvert County belonging to the fifteenth Battalion of Militia. In consequence thereof I called a meeting of the members on the day appointed, and summoned the parties to appear with their evidences. A sufficient number of members attended to hold a court and Capt John Mackall appeared agreable to summons but not being provided with his evidences and Levin Mills having been sent express by Col. Somerville to your Honble board, the Court Martial adjourned to the Monday following the 22nd Inst. On that day I attended at the place appointed, but none of the members appeared, some of them, I think the greater part together with Levin Mills being on duty, either at Drumpoint or at St. George's Island, watching the motions of Lord Dunmore's fleet.

Thus circumstanced I was at a loss how to act, and 'twas doubtful with me, whether I had power alone to adjourn to a future day. If I had 'twas altogether uncertain whether the members would be at liberty to attend, and our election coming on the week following, I determined at last to postpone any further proceedings thereon for the present, indeed had a court martial been held and the parties ready for tryal, we could not have proceeded with propriety, as the charge against them was not expressed in the order, and Col Mackall had not furnished me with it. I have since applied to him for the charge, and his answer was that he had lodged it with the Council of Safety, signed by Col Somervill and himself where he referred me.

I then resolved to return the order to your Honble board with the reason why I had not proceeded, but unluckily had mislaid it amongst some other papers and could not lay my

hands on it, 'till within a few days past. I now inclose it and hope your Honble board will not impute the delay to neglect or disobedience of your orders, but to the reasons above assigned; and should you think it expedient to renew the order, must request that the charge against the parties may be thereto annexed, and be assured I will immediately proceed thereon agreeable to your directions.

I have the honor to be with the greatest respect Gent.

Head of Elk 26th October 1776. Dear Sir. Yours of the 11th I yesterday received and not before, having been from home at Philadelphia this twelve days endeavouring to settle my accounts for provisions, carriages &e of the 4,5th and part of the sixth Regiment of Virginia from Elk to Chester, the men being near halfe sick has made their carriage very tedious and expensive and has taken up my whole time since the 26th of September. You are a judge how much my time was taken up with the Maryland forces before that date, so that for the last two months I have been prevented from taking proper care of my buisenis, otherways should have been at Annapolis before this day, could wish a commissary was appointed, as I am now while I am wrighting applyed to by Cap' Johnson of the sixth Virginia Ridgmnt to provide barracks, waggons & provisions for his company to pass them on to Phild, and that there is 800 Carolinahans in the river which must be provided as above, you sir are, as is the honourable Council of Safety better judges how necessary it is to forward those troops than myselfe, and you also know th' no person hear will forward them but myselfe, (in your absence) I must therefore Begg the Idulgence of the Honnour Council if the arrival of those troops, and transporting them over, should delay my coming to Annapolis longer than they may expect, as I assure you and them on the word of a Gentlemen that nothing else shall delay my coming one day, when I hope to satisfy their Honnours, that every thing has been done by me that could, by a man so circumstanced. As to the first 90 bayonetts sent M' Winters they are not so good as they ought, as most of them were made by young hands in the Buisenis, and many of the best of what was then made, picked out for the Marching Companyes going to flying Camp,

the steel not good, though the best I could then get, the want of Experienced hands in the mill, all plead for their Honnour Indulgence. I have sent M' Winters some since much better and have now by me about 200 which I flatter myselfe will merritt their approbation, which with some muskett barrels and large piecs, I fully intend down with as soon as the service above resighted will permitt, you will please to lay this before their Honnours though wrote in much haste (as 'tis all truth) I should have wrote to their Honnours but have received no cencure from them save what Col. October 29th 1776, Swan Creek.

Sir. Captain Holland's company, marched last Wednesday, one of the gentlemen that assisted me was pretty fortunate in procuring blanketts, the whole company was well equipt therewith, and have remaining now in store at Susquehannah Ferry, Fifty three, with the remainder of the Cartouch boxes and knapsacks, they were all equipt with good guns, and all fixt with bayonetts but two or three tho very few scabbards, but these were to be got in Philadelphia, all the exertion in my power was used, and by the assistance of some Bayonetts I had by me and my smith to fit them believe the gunns will answer, being mostly old tryed gunns. I have near One hundred and Fifty yards of linen they took none of that article, on being inform'd they were to have Barracks but wish they may not want it. I paid the Captain near Fifty pounds for their subsistance to Philadelphia, and have still a little left, the whole account I will render as soon as I can get in one of the Gentlemen's accounts that assisted me. I shall wait your order what to do with the remaining stores and money in my hands.

And am Sir, Your humble Servant,

Honle Gent.

On the 4th of this Instant I wrote you by Capt. Brown & Walker who I sent in with a Snow and Sloop taken off St. Augustine, which I hope have got safe in. I flatter'd myself at that time that you would have heard from me sooner. this day have taken a small schooner with 40 hhds Rum, three hhd' Sugar, 1 Cw' Coffee, a few Barrells Limes &c. from Dominica by her clearance bound to Newfound Land, but have reason to believe the Capt of her intended to New York to supply the Ministerial armey, he gives me Information of two Briggs and three schooners to sail from Dominica in a day or two with rum, sugar & Coffee for New York, or Hallifax. I shall endeavour to be in their way, and hope you'l be no way uneasy should I stay rather longer out than you might expect. I have spoke a schooner from Charles Town for Cape Nichola, and yesterday spoke a French Ship from Cape Nichola bound for France. We have spoke every thing that we have seen, but one schooner which we did not attempt, being in chase of the French Ship which gives me great reason to think our Ship sails fast.

Our Ships Company keeps their health extremely well, and have the Pleasure to inform you we are well satisfyed, and

that the greatest harmony subsists between us.

I hope you'l pardon the freedom I hear use, being a young officer in this service, in pointing out to you those officers under my command that is deserving of appointments, but I should in every degree think myself blameable to my country, should I not mention such to you; M' Auchenlick and M' Burnell my two Lieut's from every circumstance since with me, I find them to be experienced and brave officers, have been a considerable time in the British Navy, and from every thing I can observe hath entered into our service entirely from Principle. I have likewise occasion to mention M' Joseph Smith second Lieut of Marines on board, who has behav'd extremely well. From those circumstances they hope for your favour at the time of appointments in the country service.

I am Hond Gent yr most obedt Hum! Servt Geo. Cook

P. S. I have inclosed you a list of all the officers and men belonging to the Ship. I would have transmitted sooner, but it was not in my power G. C.

Hond Sir, And most worthy friend, from some of your last Expressions to me, that you expected to hear from me often, and the Pleasure it gives me to write you, shall trouble you in reading my scrawls. I wrote you on the 4th Inst. by Capt Walker in a Prize sloop, and the same day sent away a snow, which I hope both have got safe into the port of Annapolis. Yesterday at 4 P. M. took a small schooner with 40 hhd Rum and 3 hhd Sugar I cwt coffee, a few Barrells Limes &c. from Dominica cleared out for Newfound Land, but from what the Captain said, that he intended for America I have great reason to believe he intended for New York to supply the Ministerial Armey. He says that there was at Dominica two Briggs and three Schooners that will sail in a day or two. I shall endeavour to fall in with them which may in some degree lengthen our cruize.

This minute spyed a Sail, a ship to Leeward. I'm in hopes she'll prove a prize. Since I wrote the above have spoke the Ship. She is a French Ship from St. Dominica for Marcelis which proves to be no prize. I have not the least doubt of doing something clever before I go in, altho' the time I can stay out is not a great while with safety on account of my water I have 42 days at half a gallon p man p' day but must

return with enough should I be forc'd from our capes. I'm in a great hurry to get this schooner away, and hopes you'l make my excuses to my most worthy friends Colle Fitzhugh & Collo Barnes, I doubt not but they will blame me for not writing them and must begg your favour to Reconcile that, and am in hopes when I've the pleasure of your and their company on board that I shall be able to clear it up to their satisfaction. Please except of my best wishes to your Lady and self, and if not too much trouble please offer my compliments to those of my friends. We are all in high spirits and very healthey, we have seen nothing we chas'd but what we have come up with and spoke with.

> I am hond Sir, Y' most obed' Humb! Serv' George Cook.

I have desired M<sup>r</sup> Langrel Prize Master to send you and the other Gentlemen of the Council a few limes which I hope you'll please to accept.

We are obliged by your favor of the 17th and are sensible of the distresses you and those under your command must have been in and suffered by the repeated shiftings of the Continental Camp. So soon as it is in your power we again beg that you will furnish us with an Account of the Accourrements &c. carried out of this Province agreable to our request in the letters you have referred to, that we may debit the Continent with the whole credit it for what may be returned. We may have granted General Beall leave to take the Fifer out of Captain Bracco's company, but we do not recollect it, and we hope he will settle the affair to your and Mr Bracco's satisfaction. Your sending of your Books and Paper to Philadelphia

was a prudent precaution. Thomas's company were paid for c. s. c. furnishing their own cloaths and The extra's should be deducted out of their pay. We think it right that you should draw and retain in your hands the monies you mentioned due to this State, and wish that our men could be indulged with receiving the residue that may be due to them from the Con-They deserve every countenance and assistance that can be afforded them. Enclosed you have two Commissions one for Ford, the other for Harrison, the dates you will be pleased to fill up. When your list of the other vacancies comes to hand, a due regard and attention shall be paid to your recommendation, and should Mr John Mitchell be among the number it would afford us pleasure he being warmly recommended to our Board. Weisenthall & Wallace had considerable stock of medicine belonging to this State—at present we are almost without. We are very sensible of the truth of your observations respecting the frequent removal of Camps. We know the men must suffer greatly. You must derive great comfort from your Commander in Chief whose excellent qualities cannot we conceive be equalled. Had those who have had the supreme direction of affairs been as vigilant & provident our men would have suffered much less than they have.

We wish that the service may allow our Troops to return into Winter quarters in their own country, where nothing in our power shall be wanting to furnish them with every comfort, which is so much their due. We are making provision towards their cloathing &c., and wish to see them in situations agreeable to their desire. We are pleased to hear that General Washington has removed his Camp to a place so much for the better, and where it's probable you cannot be outflanked or surrounded. Pray present our compliments to him.

P. S. We have an armed Brig just now arrived in the Dock with a valuable Cargo for this State and hope by the winter to have a Provincial Store properly assorted.

The most convenient way of getting dry goods would be, we think, to give Capt. Conway leave to cruize a week or two to windward of the Island when he comes out again. By the time he gets back, if dispatched quickly, there will be fine pickings among the outward bound West India men.

The duty I owe your respectable body calls upon me to give you an account of the killed & wounded, not doubting but Collo<sup>1</sup> Smallwood has before this forwarded you a circumstancial account, as he is only slightly wounded, and has more time at present than I can possibly spare.

Since the skirmish the Enemy have been exceedingly busy in erecting a Breast work on the Eminence they took from us. Yesterday morning having got prepared to open it upon us, the General ordered us to abandon our front lines, which

in our present situation was rendered useless to us.

The Enemy immediately took possession of them, and Judging that we were making a precipitate retreat, formed the line, and advanced upon us with a large collumn to bring on the attack, the artillery on each side keeping up a smart fire, and they soon found their situation disagreeable, and as if ashamed of the attempt they sneakingly skulked behind a wood, and retired unseen to the lines. In much haste,

Gentlemen.

On Wednesday last and not before I Recd your favor of the 10th of October. I observe the contents. As to the eighty fore Bayonetts mentioned I had no expectation that they would all do, but soposed some of them would, I have not been able yet to finde out but one Smith that can forge a Bayonett properly, but on receiving your letter of the 12th of July in which you request very pressingly that 400 Bayonetts be made of different sises for the flying Camp Militia, I sett several workmen to work at forging Bayonetts, who at first made them very deficiant, some of the worst of which I kept hear as not fit for use, at any rate, and sent many on which were of the best with the flying camp militia, receipts for which I have now with me, the remainder such as they are I sent to M' Winters desiering him at the same time to send those that were not fit for use Back, as also all Barells that prooved not good or unfit for use, to be sent back with his objection to them in wrighting, by which I hoped in a short time to be compleat in our Buisenis, but to my disappointment have never rec<sup>d</sup> one, though frequent opportunityes, had the Large Barells mentioned been sent back they might have been long since made small as they were sent to Mr Winters the 10th September, and were made as near as I could to his Directions, as he wrote me some I had sent before, had not stood proof for want of substance, and your Honnours will pleas to recollect that I never had a pattern sent me, but I am of opinion that Mr Winters hands did not long stand for want of work, for I finde by my Books that on the 30th of the same month, he had 50 Barrells more, which I hear of no fault to, and had the others been sent back, they could have been made smalle in three days, tis said the Bayonetts are too soft which I doubt not, as they are all steeld with American steel (or at least the Smiths had steel of me for them) some of which I found after to be raw Iron, not at all converted into steel, which at that time I was a Strangure too, as it was sold me for good steelan imposition I hope to prevent in futar, as I have (now) when Last in Philadelphia contracted with Mess<sup>n</sup> Shewmaker & Humphris to take 2 Tun a year, and to have it in the flatt Barr Blistered, in which order tis easily known, whither tis Steel or not, as Mr Joseph Gilpin was good enough to acquaint me that you had censured me, and I had Recd nothing from your Honnours, I wrote him last week, partly to the same effect of this scrawl, which together I flatter myselfe may serve to satisfy your Honnours, that I am not altogether so

c. s. c. culpable as at first might appear. I have through the cours of this week been Busied in sending on three Companyes to flying camp, and am waiting now for the Carolinahans, which I expect every hour, which when I have forwarded shall immediately wait on your Honnours, when I doubt not of rendering full satisfaction, the large and small Brel\* & Bayonetts are going on as usal, shall Bring a parcill of each sort with me, or send them by first opportunity, and am, Gentlemen, Your most obd' Humb. c. s. c. with a very valuable Cargoe. I hope she has sailed, or about sailing at this time. We have just made a large purchase here of some Woolens, Musketts, and Gun flints which we shall ship in the first of the Councils Vessells, that may arrive We cautioned you and the Council some time past agt sending your vessells to this Island, thinking it the most dangerous and difficult to get into, which we are since sorry for, as it has proved less here than to any other Island and for the future Advise you to send all your vessells here for sundry reasons, viz. This is always the best Markett for your Produce, particularly tobacco which is now rising fast, all our purchases are made here, and Freight paid to Martinico for all the goods shipped from there, and most of the Cargoes is sent from Martinique here to be sold and very high freight paid on them that on the whole this is the best place by farr and grows less difficult to Transact here, as the Dutch have discover'd that their laws when put in force must ruin their Merchants. I am on the best terms with his Excellency the Governor and have his word and Promise relative to some particular that gives me great Satisfaction and puts much in our powers.

I was not so happy some time agoe and every bad consequence to apprehend on our new Governor's taking the Command, but we are as well fixed with him now as we were with the former. We are very largely indebted here on acc' of the State, many sums now due and many lately contracted that will of course be due shortly. We are doing all in our power to serve our Country, and hope they will not let our credit suffer.

We are well satisfied that M Gibbons is worthy the trust to which you have recommended him, therefore have appointed him Captain of the Friendship being confident that you would not recommend any man that was not hearty in the cause of America. Pray push out all the vessels under your care as fast as possible. The sooner they get out of the capes the less danger from the Enemy, as we daily expect two men of War will take their Station there. Salt up one hundred Barrels of Beef as soon as you can and buy up 300 Bushels of Salt lately come in, the Council wants a great quantity now, but do not care to rob the People too much

Honourable Gentlemen

After thanking you for your civility while I was at Annapolis I am to inform you that I have looked into my soldiers Stockings (that I purchased with a view of cloathing my Regiment) There are only 128 pair remaining unsold, and some of them, 18 pair, are damaged, having been less open to the Air and moth.—the 110 pair are good, and are at your service at 7/6 a pair. the 18 pair may be mended and you may have them at half price 3/9, or I can use them myself, indeed I can sell them all with thanks among my neighbours. I send you 3 pair for samples. If you chuse to accept of my stockings, they shall be delivered to your order, and I hope your Messenger will either bring the money or be authorized to give me an order at once on the Treasurer, for However Honourable sentiments I entertain of your Board; and Respect I have for the Persons of the Board of Accounts; yet I will never, if I can help it, subject myself to their arbitrary determinations. I attended a whole week about an account, that if Justice had been done me, I should have had Publick Thanks for,—instead of which I was delayed and injured against the most palpable evidence, and compelled to take in November, when our currency is not of half value, a great deal less, than I had offered me in hand by Major Marshall in June! Such is the reward I have had for my Publick spirit and love of Country. Yet although I thus smart, I do entirely confide in the Integrity and candour of the Council of Safety. I have about 50 good firelocks and some other matters. We are manufactoring a species of linnen cloth, that I think if pursued would be of great Publick utility. We take the tow of Flax and Hemp, Card it into rolls, spin it on the Great Wheele: then double and twist it and weave it: it will make good tents, Bagging, Waggon cloaths, coase sheets, Sails & tis soft and pliable and the doubling and twisting makes it exceeding strong. Our women spin in these days 21/2 lbs

c. s. c. each, it is carded for them. The Doubling and twisting is new to me, and perhaps it may be so to others, and if it prove useful, my intention will be gratified. If the tow thread is warped and filled in with ordinary wove, it will make good fearnaught and Bedding.

I am your affectionate Servant

General Schuyler is very desirous of having an answer to his Letters respecting the Nanticoke Indians. The six Nations repeatedly complain that those of that Nation who were left in Maryland are detained there contrary to their Inclinations. This Idea, tho' not founded in Truth creates much uneasiness and is constantly held up by the Indians in their conferences with the General. Congress have before written to your State on the Subject on which I have now the Honour of addressing you by order of the Board of War, but have not been favoured with an Answer, which I have it in command to request you will now be pleased to give that it may be

She has been hove down and graved with Tallow bottom &c. but yet the Carpenters have some little to do to her, how long it will take them Capt. Kelty will advise you, but I think she will be all clear for sea this day week, she has now in: some of your Staves, 20 hogsheads Tobacco, and 220 barrells flour: the rest of her flour I expect to get in Tomorrow and the beginning of next week, and then her bread to fill up—as to a Master I immagin you wont get your choice of an undoubted good man, without you give the consignment, which they seem all to hang out for here, but by the time the vessell is loaded I hope shall be able to procure a man of Merritt, and if such applys to you, hope you send him here. I am informed you have some Salt Vessells arrived to you, which is an article much wanted here, and the present is principaly to propose purchasing a cargo off you, which shall take immediately out of your vessell at the highest price any person will give here,

and shall pay on receipt for the same; or load the vessell for c. s. c. you as you may order (or shall otherwise receive the salt in my warehouse, and retail it to the public as you may think proper to order it, in all which expect to be accountable to you and do your business to your approbation, I hope, and on as low terms as any person in this place. Mr Hugh Gardner of Charles County being desirous of serving the American States in the Military wars, we beg leave to recommend him to your Honble Board. from a thorough knowledge of M' Gardner, his strong attachment to the interest of his Country, the Zeal he has always shown in the common cause, his indefatigable assiduity and application to and knowledge of Military affairs. We can assure that his merit wou'd well entitle him to the command of a Company or Indeed to a higher commission, but as he is sensible that there are men of merit who have been some time in the service and who ought to be preferred, all that he at present aspires to is Lieutenancy, and I believe he would be glad of being in the Mattross Service; We wou'd Therefore propose him as first Lieutenant in the Company of Mattrosses now raising for this Town, to the command of which company from the good opinion we entertain of his abilities, we hope Mr Wm Campbell may be preferred, We are gentlemen

Honble Sirs.

I arrived here the 2<sup>nd</sup> Inst. with 76 Privates, a return of my company stores, & the state of our Guns I deliv<sup>d</sup> the Board of War, and beg<sup>d</sup> that those wanting repairs might be sent to the Smiths for that purpose. My request was not complied with, to have marched to Camp with Guns in such order would have been folly. I therefore applied to Col<sup>o</sup> Ramsey for money who procured me 250 Pounds.

I have taken the Liberty to Inclose my account, by which you will see there is a Balance due the Company which I beg may be sent, or an order therefore to Col<sup>o</sup> Ramsey. I have been obliged to advance money, as the Company was in need, and unwilling to march without being paid

Sir. Upon enquiry of Mr Stephen Steward about water-casks for the use of the armed vessels belonging to this State, we are informed by him that he had purchased thirty two hundred weight of Iron hoops for that purpose, which hoops you had intercepted & now detain from him & he is thereby prevented from forwarding that necessary piece of business. This procedure of yours appears to us to be very extraordinary & a little out of the common road. We are therefore only to request that you deliver the hoops immediately to Mr Steward or his order that the vessels which he is fitting out may not any longer be detained.

Philadelphia Nov. 13th 1776. c. s. c

Gentlemen.

In consequence of a letter to congress this day received from the Honble convention of Maryland inclosing sundry resolutions of that Body relative to the raising their Quota of the new Levies, I have it in charge to furnish you with the Resolutions of Congress pass'd yesterday admitting the new Levies to enlist for three years, and at the same time to inform you, that if the Inhabitants of the State of Maryland will inlist to serve during the continuance of the present war, they already have the Faith of the United States of America pledged for the land to be granted to such soldiers.

The Resolutions referred to you have inclosed, and contain the sense of Congress as to the mode of the new Inlistment.

I am with Esteem

Honble Commissioners from Maryland. Your very hum. Serv<sup>t</sup> John Hancock Presid<sup>t</sup>

In Congress Nov. 12th 1776.

Resolved. As the opinion of this Congress, that if the Soldiers to be raised by the State of Massachusetts Bay be enlisted on the terms offered to them, which are more advantageous than what are offered to other Soldiers, serving in the same army, it would much retard, if not totally impede the Inlistment of the latter and produce discontent and murmur, unless Congress should equally encrease the pay of these, which it is the opinion of this Congress would universally be reprobated as an immoderate Shame and complained of as a grievous Burthen by those who must bear it, and therefore that the Committee from the State of Massachusetts Bay be desired not to enlist their men on the additional pay offered by the assembly of that State.

Upon reconsidering the resolution of the 16th of September last, for raising Eighty Eight Battalions to serve dureing the present war with Great Britain, Congress being of opinion

C. S. C. that the readiness of the Inhabitants of these States, to enter into the service for limited times, in defence of their invaluable privileges on all former occasions gives good ground to hope, the same zeal for the Public Good will appear in future, when necessity calls for their assistance, and the uncertain length of time which Forces raised during the continuance of the War, may be compelled to serve, may prevent many from enlisting, who would otherwise readily manifest their attachment to the common cause, by engageing for a limited time. Resolved, That all non Commissioned officers, and soldiers who do not incline to engage their service dureing the continuance of the present war, and shall enlist to serve three years, unless sooner discharged by Congress, shall be entitled to and receive, all such Bounty and Pay as are allowed to those who enlist during the continuance of the present war, except the one hundred acres of land, which land is to be granted to those only who enlist without Limitation of time, and each recruiting officer is required to provide two distinct enlisting Rolls, one for such to sign who enlist during the continuance of the war, and the other for such as enlist for three years, if their service shall be so long required.

By order of Congress
John Hancock President.

[B. Rumsey to Jenifer.]

Philadelphia, 13th Nov 1776.

Sir

Congress have this day given an answer to the Resolutions of our State, which being an entire new one, we have dispatched to the proper place to be considered. They resolve that the Troops may be enlisted for three years, and a Bounty of twenty Dollars only be given, or during the war, and one Hundred acres of land be added to the Bounty, they will not specify where the land lies belonging to the United States.

Our instructions run that they are to be inlisted during the war, of course when our State accedes to it we can proceed. Congress has got rid of the difficulty with Respect to the Land and has not closed in with either of the propositions made by our State, nor receded intirely from their own Resolution.

But if they have escaped they embarrass us. What can we do with our Regulars? they are enlisted during the war; Must we inlist them again in the service of the States for three years? I imagine our State will not incline to do so if they do we ought to have Instructions on that Head.

King brought only one of the Bundles of Commissions up,

there are not more than enough for four Battalions. There are five of the Flying Camp, and two of the Regulars the German and Rifle companies will make the eighth, surely then you have not sent commissions enough. I should be oblidged to you to send up a Copy also of the Resolves of Congress relative to the raising the eighty eight Battallions as we have not got it, and would be as little troublesome as possible to the Congress.

Four thousand of our Troops under General Putnam have crossed the North River to reinforce Gen1 Green who has six thousand under his command to prevent the Enemy's plunderring the Jerseys or penetrating to this place and I suppose they will be followed by a more considerable Number if the

Enemy pass that River.

Very little of the Transactions of Convention have transpired here. You are exceedingly concise on that head. You tell me they are still engaged about the constitution. I should naturally have concluded they were so, but pray what sort of a constitution have they framed? how far monarchical aristocratick or democratick, how far a mixture, how Balanced each power? It is a matter of great Importance to a Subject of a State that Power should be well and equally balanced.

If we stay here much longer the ) flying Camp will come near us or to us.

I am, Sir, Your most humble Serv Benjamin Rumsey

A man who has contracted to furnish M' Green on account of our State with fifty Reams of Paper called on me the other Day and informed me that they were ready, that M' Green had directed him to send them down by water, but reflecting on the orders given by the members of Congress from our State not to hazard a former Quantity by water, he was apprehensive that he should do wrong to risk them now, a Thought which did not strike him, till after the Departure of M' Greene, and that he would on notice send them by waggon.

I forgott in my two former dispatches to mention it but informed him he would receive a line from our State relative to it.

We have received yours of the 12th instant and are glad to hear that the Schooner Resolution is near ready to sail, and that the Friendship will be loaded in a few days. When Capth Martin's Brig is clean, you will load her as fast as you can, but let it be superfine flour, if to be had. For the Freight of the Brig we refer you to Captain Martin, the Powder being twenty five shillings p Barrel but for Chests Boxes and such things belonging to the French Gentlemen we do not ask any Freight. The vessel you mention is arrived here with one hundred Barrels of Bread and eighteen Casks of Powder only, but no salt as you mention. We suppose that article to be left by mistake or neglect of the Shipper, and that the quantity of Powder also may be mistaken. Logan says he gave a Receipt for no more than eighteen Barrels.

### [Dorchester Committee to Council.]

In Committee of observation. Dorchester County Nov. 15th

Gentlemen.

In obedience to an order rec<sup>d</sup> from the late Convention we had several Evidences before us whom we examined concerning certain depradations & outrages committed by Capt.—Richard Andrew of Caroline County and a number of People whom he headed, part of them Inhabitants of that county, and others inhabitants of this County and on Evidence it appeared that they searched the Dwelling House and out Houses of M<sup>r</sup> James Sulivane for Salt, that finding only five or six bushels there, they took none of that but proceeded to Col<sup>o</sup> James

c. s. c. Murrays on Hunting Creek, which is also in this county, and there got from M' Murray, the Key of a House in which there was some salt and took from thence by their account fourteen and a half bushels of salt for which they offered to pay, M<sup>n</sup> Murray fourteen and one half dollars that she refused to take the money on which they left that sum in the House and went off with the Salt.

On receiving this Information we ordered the Evidence to appear again on a certain day to which Day we summoned those of the afd company who reside in this county, and appeared to have been the most active in the outrage, to appear to answer, some of them appeared agreeable to summons and behaved orderly and offered some excuses for the non attendance of the others under these circumstances and as some of the most material witnesses did not attend we postponed the hearing of the matter till Wednesday last, when we ordered the parties charged and witnesses to attend us which they promised to do, the Parties charged came on Wednesday, but contrary to our Expectation they came headed by Capt. Andrew and upwards of one hundred armed men to support them, and the company behaved so riotous and disorderly that it was out of our power to proceed in the Business, and their coming so unexpectedly it was impossible for us to collect a force sufficient to stop them before they returned in the evening. Many of the Men swear they will support what they have done at the Hazard of their lives as it seems they have associated to do, and by their declarations against the present measures of the country and in favour of the King shew themselves intirely disaffected to our cause.

If these men were all we had to contend with it is probable our Militia might be sufficient, but from the best information we can obtain we are of opinion they have a very formidable number to protect them from Caroline, Worcester and Sussex in Delaware, and as (since their outrages) several Companys in this county have taken salt nearly in the same way which will of course stop them from opposing them if they do not join them, we are unanimously of opinion that it is very improbable there can be in General Hoopers Brigade a sufficient number of the militia raised, who wou'd on the present occasion take up arms to suppress and stop the progress of these Rioters and their adherents and bring the offenders to Justice; and we therefore think it most prudent to decline making the attempt as a failure would be very detrimental to our cause, and give Strength and Spirits to their party & Friends. And have sent this by an Express hired for the purpose to inform your Honours of what we have done and what we apprehend is our real Situation, and we would beg leave to Submit to your Judgement, whether it would not be proper under our present c. s. c. circumstances to send men to bring these offenders to justice, also having neither connexions or acquaintance with them may be relied on, and will probably much better go through the Business. It is becoming a matter of great importance & we are apprehensive if it is not soon checked will probably go a great way towards destroying the Peace and good order

of the greatest part of this Shore. We cannot omit the opportunity (in behalf of those people of our county who have yet remained quiet under their great distress for Salt) to inform your Honours that the want of that Absolute Necessary of Life is so great in this county that many Families for months past have not had a spoonfull of Salt, others have got a quart or a few handfulls by begging from those who coud badly spare any. The people hearing of Quantities of Salt going to Baltimore have some of them applied there for relief but have very few of them got any it being generally taken for the Inhabitants of the Western Shore before those this way can get there to apply, under these circumstances they are much distressed and if these unhappy people find they have no chance of being supplied equally with those on the other shore we know not what may be the consequence, perhaps they may at length grow desperate rather than perish. We therefore are moved in pity towards our distressed county men to apply to your Honours for such relief as may be in your power to grant them and as we hear there has lately arrived Vessels at Baltimore with Quantities of Salt if your Honours wou'd be pleased to order that a part of that or any other Salt that may arrive be bought and sent to us for the relief of the Inhabitants of this county we will engage to be answerable for the price set on it, and will undertake to have it delivered at the same price as far as it will go in small quantities to the distressed people, this being done we are persuaded it will not only be of great advantage to the People, but that they seeing measures are taken to relieve their wants will have their minds made easy and will go on much more spirited and chearful in doing their duty in their respective stations than they now do. We shall be obliged to your Honors for an answer by the return of our Express, and Gentlemen. are with great Esteem,

### [Council to Commissioners.]

Gentlemen. Your letter to the President of Convention, with a Copy of the Resolves of Congress, we received.

It is our most sincere wish that Congress had come to those Resolutions much sooner than it has; the delay has hurt the service, and as our Convention is up, we are under difficulties how to act. But upon mature reflection, we are of opinion that you immediately proceed to camp, and endeavour to enlist for three years all the Maryland troops, as well as regulars as those of the Flying Camp, into the Continental Service under the Congress Bounty of seven pounds ten shillings, such of the Battalion and Independent Companies as are inclinable to enter into the Continental Service for three years, but be informed that at the expiration of such time they will then be in the service, and under the direction of the State of Maryland, provided the War is continued beyond that period. As to our State's being obliged to give Land as a Bounty, we can by no means accede to it, nor do we believe or conceive that Maryland will ever contribute one shilling towards the purchase of such bounty.

War Office 19th Nov. 1776.

Gentlemen.

An Exchange of Prisoners having been long agreed upon, but prevented from taking Effect by the General's being constantly employed in counteracting the designs of the Enemy, it is now desired that no longer delay may be used. General Washington writes very pressingly for all prisoners of War to be sent to Fort Lee in New Jersey addressed to the care of Gen! Green commanding Officer there. You will therefore be pleased immediately to collect all the Brittish Prisoners in the State of Maryland and have them properly escorted to Fort Lee that an Equal number of our suffering Countrymen may be relieved from Imprisonment and Distress.

By Order of the Board of War.

I have the Honour to be,
Your very obed Servant,
Richard Peters Sec

Be so good as to send lists of the Prisoners to the War office with an Acc' of all Expenses incurred by your State on the Score of Prisoners. Please to have the officers conveyed seperate from the Privates, and let both take a Route by which their coming thro' Philadelphia may be avoided.

# [Vanbibber and Harrison.]

St. Eustatia 19th Nov. 1776.

Gentlemen

I have by different opportunitys lately advised you of the Change and turn that has taken place here by Government in favor of the American States. Now our Flag flys current c. s. c. every day in the road. The Merchants here are always complaining of Government untill they would give as much Protection and Indulgence here to us as the French and Spaniards The orders from the States and Great West India Company to this Governour for the Prohibition of the Export of Powder and other warlike Stores expires the 28th Instant. Its made publick and the Governour is daily expressing the greatest desire and Intention to protect a trade with us here. Indeed they begin to discover their Mistake and are now very Jealous of the French's running away with all their trade. All kinds of goods and warlike Stores are very Plenty here and much more Reasonable than they are at the French Islands and all your goods purchased here, and at a very great expense and Risque too, they are up to Martinique to be Reshipped to Maryland in your vessells as they all arrive Your Flower, Bread and Tobacco is all sent down here to be sold as this is allways the best Markett for your produce especially Tobacco which this is the only markett for. All these goods are burthened with a very heavy freight from Martinique here and never fail to suffer great abuses in the way. Hhds, broken all to peices and the Tobacco hove loose ashore &c &c indeed its lessened in value 50 pr Cent. All this I have often mentioned in sundry of my last letters to your Honourable House. I have enclosed all my own private accounts by three different vessells. I hope you have received some of them and Flatter myself they will be approved of as I must assure you I never omitted doing any thing that has ever been in my Power that cou'd serve my country.

Sirs. On Mr Crockett's arrival here, I intended to have returned home and left him to settle my affairs here, but my circumstances are such that our Creditors would not consent to my leaveing this place untill our debts are discharged. shall endeavour to content myself untill it may suit you to enable us to Wind up what we have done for our State here, and will render every service in my Power during my stay; tho' I must inform you that I dislike my Station, and would be happy if it was to be in my power to leave it very soon. I have endeavoured allways to Encourage all the Trade and Speculations that was possible to any part of the Continent and particularly to our State as perhaps you may have observed, and I have engaged into some concerns very largely, in order to enduce others to speculate to our State, Viz. in particular in two Ships ordered to be purchased in Baltimore and load out from there. One of them I engaged to be a fifth and the other a Fourth concerned, this was purely to serve my country, and my engagements otherwise will

c. s. c. scarcely admit of my being concerned. This I inform you of with an expectation that you would take the Risque, Profit or Loss of my hands. The plans of the voyages are good and we will attend to and see them well managed &c. M' John Crockett is to return and is the Bearer of this, he is well acquainted with all matters here that you may wish to be advised of and to him please to be refered. Should he at any time want a sum of Money to execute any orders he may receive, I hope you will not hesitate to let him have it as I assure you Gent<sup>a</sup> that he will not call upon you for it unless it is to execute orders that he may receive from me or through my Recommendation, & I shall in future send my letters under cover to Mr Crockett who will imeadiately wait on whom soever you may direct him to with them. Our M'R.H. is at Martinique and has lately dispatched several of your vessells with very valuable Cargoes, & I am doing all I can to send home Salt and have borrowed many large sums of money in order to join with Merchants here to hold part of their Vessells and Cargoes to induce them to send in Salt. We never had any orders to join your Honourable House into Partnership or perhaps we should have chose to Interest you before ourselves. Indeed as the saying is we are makeing one Nail drive another and shoeing the Horse, for when we were able to pay of one Debt it give us a Credit for Twice as much, which Credit we allways modestly made use off.

Capt Robertson of the Continental Brig Andrew Doria arrived here three days agoe and Saluted the Fort with eleven Guns the Salute was returned from the Fort with 18 Pounders and the Capt most graciously received by his Honour the Governour and all Ranks of People. Its esteemed here by the first Gentlemen a favor and Honour to be Introduced to Capt. Robertson. all American Vessells here now wear the Congress Coulours. Tories sneak and shrink before the Honest and Brave Americans here. Robertson and his officers and Crew make so good an Appearance in every Respect and such good order observed, that it gives the greatest pleasure to the friends of our States and strikes the Tories with terrour and confusion.

### [Chase to Council.]

Original.

Philadelphia Nov. 19th 1776.

Gentlemen.

I arrived here yesday afternoon. I have seen our Commissioners. Congress in answer to the three Propositions from our State for Raising our Quota have given a copy of a Resolve, relative to the Massachusetts Bay, who as I am informed, offered 30/s a month extra for the privates, in which Congress agrees to give 20 Dollars bounty to each soldier, who will enlist for three years. Our Commissioners are much distressed.

On Saturday last Gen<sup>1</sup> Howe with his whole army surrounded fort Washington, We had 2000 men in the fort. There were two lines outside of the fort. A large Body of our men marched out to the further Lines, and sustained the attack with great Bravery, until a party of the Enemy enclosed them within the first lines on the back of our Troops. Our forces then retreated into the fort, and soon afterwards Surrendered. it seems agreed here, that the fort was injudiciously defended, and not with the Bravery that might have been expected from the officer (Col<sup>o</sup> Magaw) who commanded, and the Troops which consisted of Magaw's and Cadwallader's Battalions and a party of the flying Camp, chiefly pennsylvanians. If the fort had held out till the morning, Gen' Washington had expectations of bringing off the men, however 2000 men could not, I suppose withstand an army of at least five Times their numbers. Thus we have lost two thousand of our best Troops and some of our best officers, with provisions and stores for 4 months. Be pleased to send us the form of Gov' when published, I write this in Congress.

Your obed Servant Sam Chase.

Colo Tilghman's Nov. 19th 1776.

Gentlemen.

Your favor of the 14th Inst. notifying my re-appointment and desiring that I would join the Board as soon as possible, I received only this morning, had it reached me sooner I should have taken the earliest opportunity of answering it to obviate any inconveniences which might arise from the want of your full complement of members.

The repeated Honors I have experienced from the Convention merit my warmest acknowledgements and afford agreable Testimonials of their approbation of my conduct as a member

of the Council, and I could wish it were still in my power, c. s. c. without making too great a sacrafice, to remain of that Body, as the fullness of my gratitude wou'd perhaps, be better manifested by a continuation in that department, than any profession I can make; but as that cannot be effected unless under such circumstances as scarcely leave it optional to act or not, and in my opinion will justify a temporary retirement with one who has been so long and constantly engaged in the service of the Public as I have, I am obliged, however reluctantly, to decline a further continuance and to request you to accept this as my resignation. When I was last in company with the President of the convention I desired he wou'd do me the favor to signify to them the impracticability of my remaining longer at your Board, and to request for me, that I might not be in the nomination, but I presume as I am in, it escaped his memory from the hurry of Business and was not intimated to them. I am persuaded if it had been they would have dispensed with my acting any longer in that Station, and chearfully indulged me with the recess, which I am now constrained to take.

I have the Honor to be most respectfully,
Gentlemen,

### [Council to Dorchester Committee.]

Gentlemen.

We received yours of the 15th, and would gladly send you a company or two of Regulars, to assist in suppressing the Riots in your Country and Caroline, if we had them to spare, there are no troops here now, but two companies of matrosses which are necessary to mount guard and do duty in Annapolis. Should the Fleet that have sailed from Sandy Hook come into this Bay, we shall be obliged to call in the militia to assist us. We think it best to wait a little before any thing further is done about the Salt. When Brigadier General Chamberlaine returns, we will give instructions to him to assist in bringing the mutineers to justice. They have some field pieces in Talbot, which may be of use, but Everything of this kind ought to be kept to yourselves. We are greatly concerned to hear of the mutinous spirit of some of your people, and wish it was in our power to gratify those who are peaceably disposed, by sending a quantity of Salt—there is none here to be had that we know of—the people in general on the Western Shore want salt, and can get no supplies; we had orders from the Convention to purchase a considerable quantity of Beef and Pork for the Troops, and cannot proceed for the want of Salt. The vessels that went up the Bay, except Captain Martin were private Adventurers from St Eustatia, and sold their Salt at Baltimore to individuals at a very Should we receive any soon, you may extravagant price. depend we shall not forget your application, and should think ourselves happy in quieting the minds of the people by furnishing them with that necessary article. Perhaps some may be imported but this is very uncertain. We must all expect to suffer in the great Struggle for Liberty. We send Colo Murray an order on the Treasurer of the Eastern Shore for £40 to be applied towards defraying the expence of taking the number of Inhabitants in your county. Since printing our hand bills which no doubt you have e'er this received, Congress have sent down another express to inform us that Lord Dunmore has the Command of the Fleet, the destination of which is either to South Carolina, or this Bay, as they hear from General Greene. Sould you hear of them at the mouth of this Bay or Delaware, be pleased to communicate the intelligence by express.

C. S. C.

Sir. We received yours of the 15th, and are truly concerned to hear any disturbance should have happened in your county about salt, we have wrote the Committee of Observation fully on that head, to which we beg leave to refer. We send you an order on the treasurer of the Eastern Shore for the sum of fifty Pounds to be expended in provision for the guard. But we think you keep rather too many to guard the small magazine of Powder at Cambridge. We would have you discharge the greatest part of them as soon as you think it can be done with safety; we hope the fleet that sailed from the Hook on Wednesday last will not come either into the Delaware or Chesapeak Bays; if so all will be quiet we expect this winter.

By Capt. Norris I have sent you a parcill of Armes, as tis now a long time since I have heard from M' Winters, I have made so free as to trouble your Honours with them, have sent the Bill Inclosed. I should have been down to Annapolis long since had not the service (which my whole time has lately been spent in) obliged my stay here, but I hope in a few days to be so much at liberty as to have the Honour of waiting on your Honnours, and flatter myselfe of giving satisfaction and also to receive more full instructions relative to the large wall pieces, your Honnours will observe that I have had two of them stocked one I thought fit to riffle, in order that you might forme a Judgment, which would answer your purpos best, the musket barells are such as the last 50 I sent to M' Winters which he acknowledges are excellent. the Bayonetts are as good as I can get made, after many chainges and much expence and trouble the finishing of them has been Intirely out of my power, as it would require several Filers and an over Looker to be with them, which I am by no means equal to, as I am not of the Buisinis, and am call'd too much from home. I have had 1/4 dozen finished by a young man who ofers to undertake some and have sent them for your Honnours Inspection among the 200, if they will do sopose I can have some finished am going on as usual with the large & Musket Barells and such Bayonetts as those now Sent and have the Honnour to be, Your Honnours

Should Captain Stone replevy the Brigg, you will be pleased to let us know immediately that we may give the necessary security and proper orders to the Sheriff. Capt<sup>n</sup> Stone petitioned the Convention and by his own desire the affair was postponed. Should he now issue a writ of Replevin, it can be only to obstruct the voyage, which we are determined, if possible the vessel shall be at liberty to make; the Interest of the State requires it, and on behalf of the public are able and willing to give security to answer all damage. We are glad to hear that Capt" King and Capt" Gibbons are ready, or near ready to sail, pray dispatch the Brigg as fast as possible. Get Ship-Stuff work the Bread, if necessary, we rely on you and shall pay all reasonable demands. Get Beef for the present as much as can be salted with 500 bushels of salt. The residue of the salt please send to us by first opportunity. Pork will be plenty, we expect soon, and we doubt Salt very scarce.

We are sorry to hear the Tradesmen complain, particularly M' Dugan, sure never was a time when an industrious Tradesman could get more, than at your town at present. Gentle<sup>n</sup>

the Bearer C\* Kelty waits on you for some canvas to make a foresail for the Schooner, Ninety Two, which sail we now find wanting, it is a very great misfortune for us all, that this sail should be wanting as it will cause a detention of two days longer to the vessell, and no longer, as they sail-maker says he'll engage to compleat it after he gets the Canvas, in less than two days.

The reason of this Sails being now out of the way is owing to the Ship Defence, who took all the 92's sails a considerable time agoe, on some occasion of puting them with many other sails into her Grateings, and this sail is somewhere mislaid that nobody can tell where. I hope this stopage will not do much damage, being in hopes that a new Foresail for this Vessell whoes other sails are all old; will answer some good purposes however am willing to make an allowance for it that you may think just and reasonable the last of the 92's cargo left me last Monday being now intirely full her cargo is-620 Barrells of flour, 200 Barrells Bread 146 kegs fine bread, 20 hhds. Tobacco, & abo' 3 thousand of your hhd and Barrell Staves; invoice and Bill Lading of which shall render you as soon as I get this foresail, and the Vessell away from here, C\* Kelty has shiped some people and I have put in a man for mate, that shoud not a better man offer send us mase this is a man whose family lives here, well attached to the Cause, but do wish for a more active smart man, however C\* Kelty says he seems to behave exceeding well.

Baltimore 21st November 1776.

Honourable Sirs.

Last time I had the Honour to attend your Body, I took the Liberty to represent the great Hardship I should be under, if my vessel should fall into the hands of the Enemy, or be lost by any casuality or stress of Weather in her passage to the West Indies or Back, as I am in no manner secured and as your Honours would not give any security or satisfaction in case of Loss; —I was constrained to apply to Baltimore County Court for a writ of replevin to endeavour to procure some indemnification. The writ of Replevin was delivered to the Sheriff of this county to serve, in consequence of which he went to the Point where my brig lay, with intention to execute the Writ, accompanyed by the appraisers and myself, when the Sheriff was most violently opposed by Captain Martin the Crew, and others he had collected for the purpose, threatning to shoot wound or distroy him or any other person who should come on board, altho the Sheriff acquainted Capt Martin that he was not to come on board in any illegal manner, but that had a proper writ of Replevin issued forth of Baltimore County Court. After the Sheriff had delivered the vessel to me, by laying his hands on the Gunwall (which was the only manner he could make delivery) Capt Martin with some others, cast the vessel loose from the wharf, and carried her in the stream, at such a distance as put her out of my reach, and still forcibly detains her. I therefore have thought proper to inform your Honours of the whole proceeding, and to request you will permit no person immediately under you, to so grossly violate the Civil Authority, which you have declared should be held sacred and unviolated. As Capt. Martin has in this instance in a most daring manner opposed and put at defiance the Civil authority, I hope your Honour will give the most immediate and posetive orders to him, to deliver the vessel to me, or not suffer him to depart the Province with her without my consent untill the matter is settled:-and not in a manner under your own sanction, countenance a proceeding of so dangerous a Nature. I repeat again that it much distresses me to have taken this course, and nothing but a view of securing myself should ever have compeled me as I saw no other remedy to secure myself in case of accedents.

In hopes of your Speedy and favourable answer I have the Honour to be with greatest respect,

Sirs,

Your most obedient Humble Servt William Stone

of the Council of Safety, 1776.

He says he can engage 10 to 20.000 pounds of Beef at the prices you mention 3<sup>d</sup> to 3½ but it must be sent for next week, as the people who have it will not feed it and without feeding the Beef will fall away now. He cannot engage to cure it. You must send salt and casks to take it away. There is a good deal of Pork in that neighbourhood, some ask 3/. others say they will take market price. If you will give Directions he will engage that too. He has no one to assist in looking after the curing of meat and therefore any comm. on the purchase will not make it worth his while to undertake that part of the Business.

Philad Nov 21" 1776. Thursday Evening

Gentlemen.

Congress have not received any further particulars of the Loss of fort Washington, than the account published Nov. 19th Capt. Ramsey arrived here this afternoon. I am informed by Dr Rush, that he relates the affair in this manner (from Colonel Cadwallader, who is released by the Enemy without any Parole, on the Request of General Prescott, for the civilities & attendance of his father, the Doctor, on the General when a prisoner in this city) That fort Washington could not contain any thing near the number of our Troops ordered for its Defence. That there were two lines thrown up, the first at a considerable distance from the Fort, the second (and by far the strongest and capable of holding all the Garrison) much nearer to the fort. Our Troops were posted chiefly in the first Lines and were there attacked by the british Troops, at this time a large Body of Hessians crossed Harlem River, and landed within the second lines, there not being

any lines, Breastwork or forces to oppose them. as soon as this movement of the Enemy was discovered a Body was sent to oppose them, of the british Troops there were only 40 privates and one Captain killed, of the Hessians there were 200 privates killed, and 27 officers killed & wounded of our Troops only 30 privates and a Colonel Baxter, and a Capt. Miller, of Pennsylvania killed, 2,200 of our Troops are prisoners. The fort was victualled for three months and amply supplied with cannon and all military Stores. If this account be true, we have again blundered. Our loss is certainly very great. Dr Rush says that Gen! Washington is abandoning Fort Lee.

All is well at Ticonderoga.—I have this Evening received an exact account of the Enemies Naval force on Lake

Champlane.

I have seen your opinion to our commissioners that they should proceed and enlist our Troops for three years. I am apprehensive you do not see the opinion and object of Congress in its fullest extent. The Congress will agree that Maryland may raise her Troops for three years, but have declared, and now hold, our State bound to contribute her proportion of the Expence attending the procuring of lands for the officers and soldiers furnished by other States for the war.—We have proposed and urged in Congress, that the Question as to the procuring Lands at the Expence of the United States, and our claim that the back lands acquired from the crown of G. B. in the present war should be a common stock for the benefit of the United States, and should remain open for the determination of some future Congress. We have proposed that any State which may raise its Quota for the war, and give a bounty in lieu of land shod indemnify the United States from any claim from their officers and soldiers who received an allowance in Lieu of Land, and that such State should not be chargeable to the united States for any part of the expense attending the procuring of Lands for the officers and soldiers of the other States who shall furnish troops for the war. Both these propositions have been rejected. This Day a resolve passed, that each State be at liberty to inlist for the war or three years, what our Commissioners will do I know not, nor can I advise them. I am amazed at the obstinacy of Congress.

The paper for our money is shipped this day. M' Paca arrived this morning, so that we are now represented, but if M' Rumsey should go to Camp, we shall soon be without a Representation. I am, Gentlemen, with Respect & Regard Your most obed' Servant

Gent<sup>n</sup> We send you enclosed copy of a letter from the Convention of Dorchester County, by which you will perceive what confusion they are in about salt. We are under some apprehension the affair may have very serious consequences, especially if the Enemy should send any troops to this Bay. We have wrote the Committee and given them our opinion, that they had better wait, a short time at least, until General Chamberlain's return from Philadelphia, when the upper Brigade may be put in motion. We have no salt to send

C. S. C. them, nor have we sufficient to cure one twentieth part of the Provisions the Convention have directed us to purchase. Neither can we spare any troops, we have none here but matross Companies. Should the campaign end soon to the Eastward, perhaps Colonel Smallwood's Battalion may be indulged in coming to this State to recruit, and if one or two of the Independant Companies were sent down to the Eastern Shore to recruit and winter there, it might have a happy effect. if you see a proper opportunity we wish you would suggest something of the sort to Congress. We are sorry to hear of the loss of Fort Washington and the men who were in garrison there, many of those Strokes will hurt us. We have not heard one word, only from Congress, about the destination of the fleet that left Sandy Hook on the 13th. they are not bound, 'tis probable, to Delaware or Chesapeak Bays, or something would have reached us ere now.—We write by this opportunity to General Beall about the arms belonging to the Flying Camp, which we leave open for your perusal, and if you think proper, be pleased to forward it to him. Capt. Curwen imported some powder for this State to Philadelphia, which we have heard nothing of lately, should the dispute about freight still remain unsettled we think you had better leave it to arbiters to put an end to it. We have heretofore sent up the Bill of Loading that the Captain gave.

We send three copies of the form of Government one for the Gentlemen-Delegates, one for our Commissioners, and one

you will please to present to J. Dickinson Esq.

We wrote you on the 2<sup>d</sup> Inst. by Capt. Conway who sailed the 4<sup>th</sup> with a cargoe consisting of muskets, Powder, woolens, Linnens and Salt to the amount of £3944.. 19.. 10, this currency, which we hope are all or will be soon safe in store with you. We have received your fav of the 29<sup>th</sup> Ulto by Capt Pattison who we have supplyed with sundry necessaries for

his vessell amounting to £72.. 18.. 3 pr Rect

We are glad to find you were loading out some vessells for us. our creditors are growing importunate and unless paid off soon will be exceedingly clamorous and troublesome. We can with truth affirm that no men can be more desirous to serve their country than we have been and still are, and we would immediately ship to the amount of the 25000 f in such articles as we could get, was there a possibility of raising money of bills, but there is not the least chance of procuring a penny that way. Every man who has money here knows too well the advantage of sending it home in goods.

This being the case our sole dependance must be on remittances from you, which we doubt not of your disposition to forward as quickly as possible. so soon as our old scores are rubbed out we can with more confidence and facility dip a little further for you, tho' it would be greatly for your advan-

tage to get before hand.

Linnens are in great abundance. Powder we are quite overstocked with and some small arms may be bought. But we know of no Brass cannon or Howitzers, and Woolens are

yet scarce.

We have just received a parcel of Goods from Bordeaux from M' McCreary among which are some woolens. We would willingly forward them to you by Capt. Pattison, but he being lumbered and bound on a cruse, cannot take them. They shall go by the next opportunity that we like.

The Elizabeth Capt. Sangier got safe into Cha<sup>s</sup> Town and sold your Powder there with the Cargoe, and has since arrived here with a fine parcel of rice and Indigo. It has been determined by the opinion of some merchants that we should take

an interest in the Expedition in proportion to the amount of c. s. c. the Powder, and we are in hopes of getting 14 or 1500 for you if a ship arrives that was purchased and loaded with rice in part of the rations. At any rate we expect to save the Capital, and you'll please to make a blank charge of it against us untill the voyage is settled. Tobacco is rising fast in St. Eustatia where several ships are loading with it for Holland, and begins to sell well here. But Flour and corn are very low, and will keep down till towards the Spring. Such a cargoe as Capt. Conway brought us last will generally answer best, especially if the Quantity of the Tobacco was to be more large, black and thin. We hope soon to be advised of the arrival of Martin and Conway, and are very sincerely

Philadelphia Nov. 23<sup>d</sup> 1776. Saturday.

Gentlemen.

Since I wrote you on yesterday I saw a letter from General Mifflin from Elizabeth Town dated the 21<sup>st</sup> Inst. in which he writes, that the Enemy crossed the North River below Dobbes ferry in 400 Boats, and stole a march to Fort Lee, which the Garrison evacuated leaving all their artillery, cannon, stores, provisions and their Baggage. We have not heard from the Army since the general Letter of the 19<sup>th</sup> The alarm of a Fleet sailing from New York, with Troops is without any foundation. about 150 Transports and store ships sailed under convoy of Commodore Shuldam in the Bristol, and two frigates, and one supposed to be bound to Ireland for provisions. This Information comes from General Mercer. On yesterday I procured a state of our Treasury, as a few days ago.

Emitted 20.000.000 Expended 16.817.737 In Treasury 3.182.263.

This is for your private Information and not to be made public.

The Congress have resolved to encrease their navy. two

frigates of 36 Guns are to be built in our State.

Many of the Congress, some true friends, are uneasy at the Powers to the Delegates of Maryland. they are apprehensive, if made known, they will reach Lord Howe, and encourage him, and if the courts of Europe should see them, it would prevent a foreign alliance. Some Reasons are given to countenance this opinion. I do not see why they should be published in the Journall, the Powers relate to Peace and War, and can be of no service to the public. I wish you would consider this subject.

In eight days the enlistment of the far greater part of our army expires. I greatly doubt if we shall be able to prevail upon the Troops to enter into the service. I have some hopes of obtaining our wish from Congress, our commissioners will proceed on Tomorrow I believe, however whether they do or

not is a secret. I am, Gent.

### [B. Rumsey to Jenifer.]

Sir.

We have continued in this Place untill this day in w<sup>ch</sup> we shall set off for the Camp not being able to proceed before neither under the Letter nor Spirit of our Commission.

Our Convention had certainly two capital objects in view that as the Congress had engaged the faith of the United States to furnish the Soldiery with the Bounty of Lands which they were to purchase, it followed by Implication that the United States had none belonging to them in common but must purchase of particular States who claimed a monopoly in them and of course might ruin those States who had none. Her view then was to have those lands declared a common stock as being purchased (if ever purchased) by the joint Blood and Treasure of the confederacy or find no Land to her Ruin.

The first Satisfaction she received on this Head was that she might inlist for three year and give the 20 Doll' Bounty, but must give the Soldiers the alternative to inlist during the war on the first conditions. Opening two Rolls for the Purpose.

This not pleasing they Resolve again that the Commissioners may proceed to inlist for three years upon one Roll alone keeping it always in view that it was better to inlist during the war, if it did not retard the Service.

This Resolution keeping up the first Bone of Contention

the Land and by Implication that the States had none still not answering expectation The Congress further resolved that any resolutions that had passed should neither operate to weaken or strengthen the Claim of the United States or any of them to any Back land by which this point that has given such uneasiness in our Province will be saved and be discussed hereafter in our future Confederacy.

The second point they had in view was the point of Taxation which they thought unequal being rated on slaves as well as whites. This has been expressly named as the mode as to 6 millions of Dollars. As to 14 more the same Declaration is made as in the article of Land, that the proportion of sinking it shall be adjusted hereafter on each State and that nothing heretofore done shall strengthen or weaken such Inquiry or Question.

Our Province having in some measure obtained a Satisfaction on these two Heads, nothing now remaines but to consider whether the Convention having impowered us to proceed and inlist for and during the war on the 20 Dollars we can go on the Terms of three years and the same Bounty being for a less Term and in this Point we are pretty generally agreed to depart from the Letter to preserve the Spirit.

Fort Lee has followed the same Fate as Fort Washington except that our Powder and men with two 12. Pounders escaped. We lost 1000 Barrells of Flour and 300 Tents better than 400 of the Maryland Troops were taken in and about fort Washington where Major Price writes our Brother Comm<sup>n</sup> son fell as well as Col<sup>o</sup> Williams of the Rifle Battalion bravely fighting in his Country's cause.

I am greatly surprised that these Britons are so bent on surprising and that we should be so often so surprised on Long Island, York Island, White Plains, Fort Washington and now Fort Lee tho' the enemy crossed at Dobb's Ferry they became not visible 'till within sight of the Fort in short there are so many of them that I shall be all wonder and surprise or learn in the Poets Phrase Nil admirari. I am afraid you have not sent Commissions enough.

Camp at White Plains Nov. 7th 1776.

Dear Sir.

I arrived here on Monday the 28th of last month about 4 in the afternoon while our people were engaged in a very hot battle, the particulars of which I suppose you'l hear before this comes to hand. Col. Smallwood's battalion suffered a good deal, the Col. himself wounded in two places, the number of killed and wounded, as the Report is in the Camp, amounts only to about 90, but from the wounded I saw myself in the hospital, and adjacent houses, there must at least be an hundred and twenty or thirty wounded the number of killed I dont know. The day after I came here I waited on Doctor Morgan Director General of the Hospital here, for medicines &c he told me he had nothing to say to the Maryland troops, and that it was not his business to supply the Regimental surgeons with medicines, and that it must have been a mistake of the convention or Council of Safety of Maryland, to send their surgeons here without them and think they were to be supplyed here. Upon this I went to Col. Smallwood who is about 15 miles from this, near the hospital and told him the case, and what condition I found the sick in both the Regular and Flying Camp Maryland troops without the least morsel of Physick of any sort, although a great many of them in a very piteable condition, upon which the Col. gave me a letter to Doct. Morgan, the Doct. then told me I might have some few things, if I could go to Newark for them, which is about 80 miles from this. I told him by the time I went there and got back, that the time of most of the Maryland Troops would be expired, he told me he could not help it, and that medicines were very hard to be got. I should be glad this matter was communicated to the Council of Safety. Since I came here I have been of what service I could to the Maryland Troops, all their Surgeons are over in the Jerseys with their sick, and a great number are still sick here. The companies to which I was appointed are not yet come here nor can I hear any thing of them. I am just now with Col. Smallwood's Battalion and Independent Companies, I go up to day to the Flying Camp, who are about 16 miles from this to enquire into the state of their sick and see if I can, by any possible means get some medicines for their relief. I should be glad you let me know first opportunity whether I am to continue here, or how I am to proceed if these companies do not come up. The Enemy went off from this night before last, it is conjectured they are to attack Fort Washington, which is about 20 miles from this & then go into

Philadelphia Nov. 26th 1776. Tuesday morning.

Gentlemen.

In my last I expressed some hopes of prevailing on Congress to give our State some satisfaction as to the back lands, and the mode by which the Proportion of the Expenses of the

war was to be paid by each State, in this Expectation I was delayed and disappointed for two days, by M<sup>r</sup> Jenifer's mentioning that our Commissioners had your orders to proceed, by an obstinate perseverance the enclosed Resolve was obtained last Saturday; on Sunday afternoon our Commissioners left this city, on yesterday the Commissioners from Congress, of which M<sup>r</sup> Paca is one, also set off for the Camp.

much depends on their success.

The Reduction of fort Washington and easy possession obtained of fort Lee has greatly encouraged General Howe, and probably induced him to carry on the Campain much longer than he would otherwise have done. There is great reason to believe his views extend to this city. On Sunday evening General Mifflin arrived in this city. Our army under the command of General Washington in the Jerseys are about 6.000, of which the service of about 1500 expires on Sunday next. General Lee has about 11,000 effectives on the West side of North River of which the enlistment of about 3000 expires on the same day. The Enemy have about 21.000 effectives, they can spare about 16.000 and leave a sufficient Garrison to maintain New York. Gen Howe has 6,000 in the Jerseys opposite to Newark. In this State it is proposed to call out all the Militia of four countys and this city immediately for six weeks. Chester, Bucks, Northampton and Philadelphia counties are the nearest to the Jerseys, and it is also proposed to call out a Company of volunteers from each Battalion in this State to enroll 'till 10th March next.

The Preservation of this State and the Jerseys, and, in great measure, the common Safety will depend on the success of

this Requisition.

New Jersey is also called on for aid, and Delaware is solicited, and if our State could afford any assistance in time,

an application would also be made to her.

If the present cloud should be happily dispersed, the new Levies will be the first object of your attention. We can neither prosecute the war nor obtain honorable Terms of peace without an Army. The inlistment will be only for three years, on the bounty of 20 dollars, and the annual clothing, or the 20 dollars in lieu thereof. by the Resolves of Congress, I am informed, that the recruiting officers are entitled to 10/for each man inlisted and passed, and 10/per week for provisions, till the Recruits arrive to some place where they can be furnished by the Continental Commissaries.

We have certain intelligence that a number of Ships of the smallest Draught of water, sufficient to carry 10000 Troops are now lying ready in the North River with Fascines on their sides. The Destination of this Float is uncertain, some con-

jecture to land a body of Troops at South Amboy, which is very probable, if this City is the object with M<sup>r</sup> Howe, others guess Virginia or South Carolina, the latter is the most suspicious, because if they succeed against Charles Town, they can pass the winter there. a few days will relieve us from conjecture.

I submit to you the propriety of ordering the Artillery Companies at Baltimore Town and Annapolis, be exercised daily, if the weather will permit, and at least three times a week. Practise alone can make Artillerists. In our Army we destroy

as many of our own People as of the Enemy.

Your letter of the 2<sup>nd</sup> I received by yesterday's Post. We have paid for the paper. There are not 400 Dollars in M<sup>r</sup> Paca's hands. would it not be proper to transmit the account agt Congress, or by some means lodge money here to exchange our money.

I delivered the Resolves relative to Virginia to the Delegates of that State.

I am Gentlemen, Your most obedient Servant Frank Leeke Sheriff of Prince George County. C. S. C.

[W. Harrison to Jenifer?]

George Town, Kent County 28th Nov. 1776.

Honble Sir.

I had the pleasure before I left our American Camp, which was on the 19th Inst. to receive a line from you, a favor which I am extreamely sorry I cou'd not before this acknowledge. At the time I received it I cou'd not procure the necessary materials for writing to you. Ink and paper being then not to be had, on any condition, and since that time I have been endeavouring to get to Annapolis where I expected to have had the satisfaction of conversing with you on the situation of our Army &c; but I have been unexpectedly disappointed on that head, as I have not been able to lay my hands on Capt" Veazy's papers which concern the public; they made my business to Maryland, they wou'd have made my principal business to Annapolis, cou'd I have received them in time from Veazy's father who, thro' mistake has got them. I wrote for them immediately on coming down and Colonel Veazy wrote me in return that I should have them as soon as he receiv'd them from Apoquimini, where they were with his son's baggage, however, as the time for which I have leave of absence is nearly out I must hasten back, tho' with the prospect of returning immediately, when I hope I shall get the papers and wait on the Council with them.

The occurrencies which we experienced before the 9th Instant from the date of my last to you, I make no doubt you have been well inform'd of, the principal one I need only mention to you, which was the battle at the White Plains. In this affair, as in too many more of a similar nature, our Generals show'd not equal judgment to that of the Enemy. We were badly disposed to receive the attack of the Enemy's small arms, and unfortunately much exposed to their Artillery, which flank'd us so heavily as to render the post tenable but a short time. The matter was ended by a confused and precipitate retreat on our part with the loss of 90 men killed and wounded including in the number 4 officers, Capt<sup>ns</sup> Scott & Bracco killed, Lieut. Walters and Goldsmith wounded, of the above number 46 of our Regiment. I forgot to say that Colonel Smallwood was wounded slightly.

Since the engagement of the White Plains you hear we have been unfortunate enough to loose Fort Washington, a capital stroke against us in my opinion as we shall soon find it very difficult to keep up a communication between the Northern and Southern Provinces. had we been able to hold the fort, during the winter we certainly should have been able to

stop the river in such a manner as to be impassable to ship- c. s. c. ping in the Spring. We could also have built other forts on the Jersey side of the river which would considerably aid and assist the forts we already have, but alas! we must no longer think of holds and fortresses on the North River.

There are, I hear, various opinions respecting the taking fort Washington, some think that it was too easily surrendered, others say our men behaved well and that it could not possibly be help'd. I have not been where I wou'd hear anything respecting the order of our men at that place the only intelligence I have is in a letter from an officer of our corps. he tells me that the greatest part of our men engaged the Enemy one mile at least from the fort, at the stockade or rear line (described in my last to you) that while they were engaged there a considerable body of the Enemy passed over the Spiten devil or Harlaem Creek and by a quick movement possess'd themselves of all the passes, between our men at the lines and the fort, the consequence was that they surrender'd immediately. there were I make no doubt other movements of the Enemy, to the Northward of the fort as per newspapers; but he mentions to me nothing more.—It seems the Garrison consisted of upwards of 2000 men, I am surprised then that they would leave the fort at any rate. It appears to me to have been rashness to have left it at such a distance as they did. It required little foresight to know, that as Gen! Howe had his whole armament at hand, he would make a vigorous effort, if any at all; and as he was furnish'd with conveniencies for passing Harlaem Creek, was it to be thought that he would confine his attack to one place? However I am undertaking to judge perhaps without having the truth of things. this I think very certain, that it would have taken 5000 instead of 2000 men to have defended against Gen' Howe's Army, the lines which it is said our men attempted to defend.

I am now on my way to Camp, where I shall find it God knows; if any thing worth your notice comes within my observation I shall write you with pleasure.

I had the pleasure of seeing two of the Honble Commis<sup>n</sup> from this Province, at philadelphia, Mess<sup>n</sup> Hanson and Chamberlaine; but as I had made a resolution before I saw them not to engage again in the service I had little conversation with them on the subject of appointments. I thank you

tion with them on the subject of appointments. I thank you kindly Sir for the favorable opinion you have of me, express'd in your last, I wish it may ever be more in my power than it now is to confirm it.

### [Council to Maryland Delegates.]

We have several letters from Mr Chase of the 21st 22d & 23rd inst before us, and are obliged to him for the intelligence therein communicated: the news is very bad, but our hearing it may be of service, and can do no prejudice. What he says about the commissioners we have adverted to, and are much concerned; 'tis not in our power to extricate them out of all difficulties. We are of opinion, and so we told them in our letter, that they may proceed to make the enlistment for three years on the bounty of twenty Dollars, agreeable to the last Resolve of Congress, but not to engage our State to pay any part of the bounty in Land. They are still under difficulties about the double enlistment, or in other words giving the alternative to each Soldier whether he will enlist for three years or during the war, we can say nothing on this head, but must refer the Gentlemen to the Resolves of Congress and Convention. it gives us pleasure to find by the last letter from Mr Chase, that the points in controversy are in a way to be adjusted, and that the Commissioners are likely to proceed on their journey to Camp. Should the Honble Congress still persevere in their plan, we have no powers to make any concessions in direct opposition to the Resolves of our Convention. We take the enlistment for three years to stand consistent with the general Tenor of those Resolves, differing only in the circumstance of time;

which we apprehend this Board have Powers sufficient to give c. s. c. countenance to. The printing of the votes and proceedings of last Convention goes on slowly, and we have time to give orders about the Instructions to our Delegates to Congress; they came in towards the latter end of the proceedings; our Board are not determined what to do, they rather incline at present not to interfere; although they are very desirous of doing any thing that might be offered to the common cause, or tend to satisfy the minds of our Friends in Congress.

We doubt our own people would be more alarmed, than they are already, in case the instructions should be suppressed; and perhaps it would be said in the next General Assembly that we contravened the order of Convention in directing the publication of those instructions among the other proceedings. We wish to hear from you on the subject, and in the mean time we will consider what is best to be done, and wait for a

full board and until we hear further from you.

Thus far we had wrote before we received the last resolves of Congress, and letters from Mr Chase and our commissioners by the post, all difficulty about the alternative being removed, we are glad to hear the Commissioners are on their way: may good success attend them. We shall do all we can to get provisions as soon as our salt arrives which we

daily expect.

We cannot but observe that our people are very backward in carrying the new government into execution. Ann' County has named no Electors to the Senate, nor any Committee of Observation: none of the judges attended, and very few people. The city of Annapolis has not named any Elector, and we expect news of the same kind from other places. What this can be owing to we leave you to judge. the people are uneasy, we are informed, in Charles County. Mr Stone has wrote the Major. M" Stone is very unwell, so that he cannot attend congress at present. We will forward the acc' against the Continent as soon as possible, and endeavour to get orders in Phil\* to put you in cash.

May it please your Honors.

Were I to consider my business, which is difficult to transact, that I must load a Sloop for sea before the Frost, & not an article of her Cargoe purchased,—I am afraid it would be an insufficient reason for my not appearing before your Honorable Board, because private ought to give way to public concerns.

If your Honors are acquainted I have large quantities of wheat at different creeks in our Bay to be brought up, and carried across to Appo. for merchants in Phil<sup>a</sup> that from the difficulty of procuring craft and waggons no person but myself can superintend these affairs, it will serve probably as an apology for my not attending.

The Levy court will come on the middle of December if I am absent a number of Poor must suffer, especially as Col<sup>o</sup> Veazey & Capt. Hyland will be at Annapolis, and perhaps other Magistrates detained at home by sickness, bad weather or other accidents.

But there may be an attack on the Deleware. if I leave the county, it may be said, "he has shielded himself in the Council of Safety"

If depredations should be made by the Enemy on that neighbouring State, from the vicinity, interest and generosity of the Battalion in which I am engaged, they will certainly march to their assistance and will as assuredly expect my presence, in our present situation we want rather hearts than heads while your Honors are at the Helm.

These last reasons have more weight with me than any other. Indeed it gives me pain to decline any appointment of the Convention, or so polite an Invitation from your honors, which if it were not for the above cogent objections would be a mandate to

Your Honor's

Gentlemen.

By a resolve of Congress of the 12th of October 1775 each Captain and other commissioned officer, while in the recruit-

c. s. c. ing service of this continent, or on their march to join the army shall be allowed two Dollars and two thirds per week for their subsistence; and that the men who enlist shall each of them whilst in Quarters, be allowed one dollar per week, and one dollar and a third of a dollar, when on their march, to join the army for the same purpose.

The Resolves enclosed will show the allowance by Congress for recruiting. I have given you this trouble on a presumption, that the allowances by Congress were unknown at the

time recruiting orders issued in our State.

I am desired by congress to call your immediate attention to their request some time ago to our convention to make Enquiry of some Nanticoak Indians, which the six Nations alledge came into our State and have not since been heard of, and they express fears for their safety. be pleased to enquire of Mr. Duvall for the letter from Congress on this subject, and take effectual measures for a speedy enquiry. I should imagine the Committee for Dorset County could make the proper enquiry.

Chester Town December 1st 1776.

Gentlemen.

This will be delivered you by Robert Read a Black Smith of this Town who waites on the Council to sell them 17 muskets which he has made and carries with him, they seem to be strong and substantial, he proposes contracting with your Board for a good many, he bears the character of an honest man, has some real property in this Town and I believe would be pretty punctual.

I wrote the Council a few days ago that no salt had reached

me for curing the Beef and Pork they had given me orders to purchase. I coud have purchased by this time the 100 blls. of beef and as many of Pork had the salt been ready, but for want thereof could not pretend to buy a single beef and most of it is now sold. There is a good deal of very fine Pork to sell which the farmers hold very high up to 45° p' C' and some people I am told have offered that price Little or none has yet been sold and I apprehend it may be bought at 40/ pr C. If you propose to limit me in price or quantity please to write me particularly by the bearer of this letter. The salt ought to be here now as most people will sell their pork in the course of two weeks and when the salt arrives I shall do the best I can. The people of the neighbourhood of this Town both in this county and Queen Anns are greatly distressed for the want of Salt, the Council woud releive their distresses much if they coud send some for their use at the time they send that intended for the Province use, and I would engage to destribute the salt and remit the council the money for it.

The Roe Gally that is building at my yard is nearly ready to launch the cables and Anchors are wanting to secure her when in the water. the Guns are wanting to enable the carpenters to make the carriages and the pig Iron for ballast. The Council will please to direct me what name to call her.

M' Thomas Coursey who stands on the list of applications would accept of the command of her. I am told he is very capable and was all last war engaged in the sea service and had the command of a privateer; or he would accept of the command of one of the Province merchant vessels. M' Coursey is well known to several Gentlemen of your Board. The Council will please excuse the liberty I have taken in mentioning M' Coursey and am with much respect,

I have got the ship at a wharf, but not without some trouble, I am in hopes provided this weather proves good to have the Ship at Annapolis some few days before Christmas, I shall do my utmost in getting ready for sea. In my last I inclosed you two advertisements of the sale of the Snow Georgia and Cargoe that you may if thought necessary, appoint an agent for the Province, the other vessell here is all lyebell'd, and I believe the rum in the schooner will soon be sold as the casks are in bad condition. We shall want Rum for the use of the Ship, and shall be glad of your advice on that head. I have sent the Tender to go in serch of our anchor that's left in Potomack and it will be necessary for M' Middleton and his boat to go on this occasion which I'm in hopes you'l be pleased to direct. We shall want for the ship some small sails of which the inclosed is a list with the quantity of canvas wanting which I'm in hopes is in your power to supply me with. Should any thing occur to you relative to the advantage of the Ship, I hope you'l please to give me your Instructions that I may closely attend thereto, and shall from time to time inform you how we go on. The Prisoner M' Dennistoon is discharged from the ship agreeable to your letter to me, and

should have done it on the first application but was informed the Board of admiralty, had the management of that business and my not seeing them was the reason. Thomas brings us the agreeable news that a large quantity of Cloathing hath been taken in one of the Enemies Transports, a seasonable supply we hope for the use of our distressed Troops. We are collecting shoes with all diligence, and will send forward one thousand pair or more if you request it. Pray let us know the quantity wanted. Stockings are scarce and we doubt will not be got till late if at all. Stephen Steward has promised us an order on his brother in Philad\* which we will send you as soon as we can get it from him. You have heard no doubt of the arrival of the ship Defence, she has taken five Prizes none of any great value (one has been retaken and taken again by Capt. Campbell) Some of the best vessels we propose buying for the Province, and shall send out as soon as possible.

We have heretofore wrote the Board of War about the Indians M' Chase mentions but on reiterating the request by him, we have wrote General Hooper and desired him to make a particular Enquiry, there are none detained in this Province, but shall write more fully when we hear from Brigadier Hooper, who is near the spot, and must know their situation. Congress is of opinion that the order from the Board of War extends only to such prisoners as are natives of Great Britain and soldiers from thence in the present war, and therefore the prisoners from Carolina and privates there lately taken in arms against us are not comprehended and are still to be detained. as to the two Gentlemen taken by Capt Cook whether they be prisoners or not is a matter our State must decide and not congress. I am told by the Delegates to the Eastward that persons in such predicament are set at liberty, but the property taken is confiscated, but this is not a general rule. Circumstances often require them to be prisoners, you must therefore (I speak my own opinion only) exercise your discretion in the present case.

The Enemy is still at Brunswic, Gen¹ Washington has faced about and is moving towards them with the reinforcements from this State. Gen¹ Lee has crossed the River, as we are informed with about 12000 men, and we are also inform¹d that Gen¹ St. Clair with about 12000 men left New Windsor last Friday week and that by this time we hope the Enemy will find themselves between two fires and Heaven grant they may be well routed.

Great complaints have been made by the Privates of our flying Camp of neglect and want of pay. I am afraid our officers have not been so careful and industrious in making out their rolls as they ought to have been; we are doing all we can to get them their money, which indeed has been long ago ready for them and only detained from the want of the officers' rolls. Our poor sick were much distressed till they came to this City. here every necessary is found them and the best care taken of them, we have declined no trouble to have these poor creatures comfortably provided for.

December 8th 1776.

Honor'd Gent.

Our people's time will expire some time this month, and the beginging of next, and as their is wages given as far as Eleven Pounds per month in the merct service, its very possible that many of them will leave the service of this State, without due encouragement. I'm informed that there is a resolve made by the Honble Convention of this State giving twenty dollars bounty for able seamen and ten Pounds for ordinary seamen. I'm in hopes this bounty will engage the whole of them or the greatest part to the service, provided its advertised. I hope for your instructions in this case and should take it as a singular favour you would provide for me the resolves of this State, or Congress, that is relative to the Navell Department, that I may act accordingly. I'm doing all I can to get the Ship away before Christmas and make no doubt of its being so provided we can keep our people together.

Since I wrote the above I rec<sup>d</sup> your favour of the 6<sup>th</sup> Inst. and it gives me pleasure I can be supply'd with canvas. Mr Hollingsworth bid for the Snow fourteen hundred Pounds and upwards, I believe he went as far as he thought the value of her, but was over bid. The Schooner Nancy one of our Prizes I make no doubt will answer your purpose, if large enough, the Capt. of her informs me she is a good vessell and well found. As I expect to see you in a few days I shall have an opportunity of taking farther with you, therefore shall trouble you no further at present, but am, Hond Gent.

Sir,

On wednesday night I was served by a M. Hopkins with a written paper of we the following is a copy. "Your conduct has been such in this State during our struggle for Liberty, that we are at this present moment determined that unless you leave this Town instantly & the State within six days your life shall be sacrificed by an injured people

Signed Legion

Directed to Robt Christie

Soon after rect of this paper Hugh Scott & myself went into a room at Grants, & told the people we should leave Town in the morning, but this was refused & we obliged to take our horses & leave Town at 11 o Clock at night. We enquired what we had done to merit such treatment, but

no reasons were given. The only thing we can be laid to my charge, is not having taken up arms; & I defy any man to say (at least to prove) that I have directly or indirectly done any thing in opposition to, or to the prejudice of the present measures. Besides if I had been ever so criminal, I surely was entitled to a hearing before condemnation. It may be necessary to inform your board of some of the persons who were present at this extraordinary transaction. Commodore Nicholson, Lieu Aquila Johns, Cap John Martin of the armed brig (a very busy man), David Stewart, Daniel Bowly, Charles Ridgely son John, Wm Hammond, John McLure, Barnet Eichelberger, Doctor Baird, Doctor Swoope, Nich Norwood, Thomas Elliot tavern keeper Fells point who I thot seemed to assume some command, James Cox & John McLellan members of the Committee, & one Poe a wheelwright (who seemed at the head of the lower class) composed this body, or at least such part of it as I can at present remember—In justice to Commodore Nicholson I must observe that he declared in my presence, his sole reason for coming there was to prevent injury to our persons, & he actually forbid the people from insulting us when we went out to mount our horses-My chief reason for troubling you is that Baltimore County is deprived of a Sheriff by my expulsion, & there is a considerable number of prisoners confined in Jail who must be supply'd wt provisions, therefore you will take such steps as you may Judge proper on this occasion. After such unmerited treatment as I have experienced, I cannot again trust myself in Baltimore, nor will I come there untill times alter.

Since I left Town it has been reported that I went off in Debt to the County, we is a scandalous falsehood. On the contrary I am considerably in advance for the year 1775, & altho' I cannot exactly say how the acco' stands for 1776 yet I am pretty certain after deducting my own claim against the County we was allowed last levy Court, I have paid away more than I have received. I shall appoint a person of character & property to transact the collection business during my absence, we directions to pay off the public Creditors as fast as he receives the money. I sincerely wish peace & prosperity to the Province of Maryland & am we great respect,

I am told Cap' Nath' Smith, Rob' Buchanan & Jn° McHenry were all of the party. your most obedient Servant Rob' Christie, Jun'

It cannot be doubted the Council of Safety would lend the Hands belonging to the Defence for this very important service. You will send an Express to the Council of Safety not one moment is to be lost. I write this by the order of congress.

We were informed yesday morning that the Enemy were at Burlington Monday evening. We have certain intelligence just now, that the Enemy were not there last night. It is reported and believed, that some of their light Horse were seven miles above that place on Monday, not one of the Enemy are on the West side of the Delaware. It is beleived the main Body of General Howe's army is at Maidenhead, about six miles above to the East of Trenton, General Lee with between 5 & 6000 men was at Morriss Town last Sunday Evening, he will join General Washington who is with his army opposite Trenton. Humbly Sheweth—

That your Petitioner has two small children in Calvert county and the oldest of them not being above five and half years old, they are incapable of doing any thing for themselves;—And at the same time, most honourable Gentlemen, I am to inform you that after the death of my wife and the time of my enlistment I agreed with a friend of mine there to take care of them for a limitted time But through the frowns of Providence and the misfortunes of the world, he has fell through and reduced to the very lowest ebb of Poverty, so that most Honourable Gentlemen he is incapable of affording

or aiding himself any support, let alone any subsistance for my two far absent infants, and without some relief and that quickly they must inestimably perish. Likewise most Gracious and considerate Gentlemen I am to inform you, that the person with whom I left my poor infants, wrote me that I must go down immediately in order to provide a living for my children, as he was under the necessity of Going to Frederick, Therefore most honourable Gentlemen I hope you will take the low and deplorable condition of your poor Petitioners two children's situation into your most serious consideration and grant him some leave of absence, or other method to provide for them, and your poor Petitioner shall ever be in duty bound to pray. The Committee of Observation for Balt. County.

Gentlemen. Some papers of an alarming nature have been produced to our Board by Melchior Keener, signed Legion dated in Baltimore Town originating in a Club called the Whig Club as we are informed, which seems to assume to themselves not only Legislative but even Executive powers, and we hear others of the like import have been sent to several persons—conceiving ourselves vested by the late Convention with the executive Powers, we cannot pass over this Proceedure without Notice; it is contrary to our Association, flying in the face of a Resolve of Congress and against the spirit of our Declaration of Rights. The peace of the State ought to be preserved therefore we call upon you the Committee of observation for Baltimore County to point out to us any person, who may have acted contrary to the Resolves of Convention or the Laws of this State so as to endanger the same and we will take the proper steps to secure their Persons and have them brought to a regular Tryal. At the same time we must press you to an exertion of your authority to prevent all irregularities and disorders, tending in their consequences to prejudice the common cause; for on steadiness and unanimity amongst ourselves depend our success; whereas the conduct of the Whig Club, if truly represented to us, will manifestly introduce anarchy and a total end of all regular Government.

P. S. We are sending forward in consequence of your letter, all the vessels we can procure to the Head of Elk.

[R. Christie to Council.]

Nottingham Furnace 13th Decr 1776.

Gentlemen.

I did myself the honor of writing to your President the 10th inst acquainting him that on the night of the 4th of this month, myself and a number of the inhabitants of Baltimore had been drove from their houses by a Mob. I mentioned all the circumstances of the transaction so fully then, that it is needless to say any thing more on the subject now. I have every reason to believe, that none us can return again to Baltimore wt any prospect of safety to our persons untill times alter. For my own part I am so fully convinced of this, that I am determined to retire into some remote corner of the Province, at least for some little time. By my absence the

Public business of the County will be thrown into some confusion especially the collection; not above one fourth of we is yet made, and consequently many of the public Creditors are unpaid. If the Council of Safety think proper that I should finish the collection, I propose putting it into the hands of M' Moses Galloway, who is a person of property & unexceptionable character. And I shall give him directions to apply every shilling he collects to the payment of the County debts, & I am content to wait for my own claim untill the others are paid. Or if you think proper to take it out of my hands, I am ready to settle an account the County; and if after deducting my own claims which have been levied by the court, their appears any ballance due by me, I am ready to pay it to any person you direct. The last mode will be most agreeable to me. I apprehend it will be necessary to publish some Resolve on the subject, as too many of the people are ready to catch at every excuse, & will not pay without something of this sort is done. It has been said by some of my enemys since my departure that I am considerably endebted to the County. The contrary will appear to be the case upon examination. For I am considerably in advance for 1775, and altho' I cannot exactly say how the accorstands for the present year, yet from the smallness of the collection I am pretty confident, that after deducting my own claims, we were allow'd at the Levy Court, little or nothing remains in my hands; which as I said before I am able & willing to pay. It is necessary something should be speedily done in this affair, & as you are much better Judges of the mode than I can pretend to be, I shall say nothing further on the subject. Please to favor me w' an answer by Mr Galloway, and believe me with much respect,

Sir. There is a man on board Capt<sup>n</sup> Conway's Sloop who has the small Pox. He belongs to Saint Mary's County, and has a desire to return there, but lest he may spread the Infection the greatest care, ought to be taken, which we are desirous of doing. It is said that you are innoculating in your House, we beg you will take him in, he has it favorably and will soon be well. This we hope will not be inconvenient to you, and perhaps will prevent the disorder from being communicated by him in Places not yet infected—any Expence or Trouble you may be at on the occasion shall be thankfully repaid you. If you are not innoculating in your House as we are informed be soon so good as to get him into some House that has the small pox.

P. S. If you cannot get the man into a house, where the small Pox is, then you will endeavour to get him taken into some house where the family have had that disease.

To Brigadier Gen<sup>1</sup> Chamberlaine (Circular)

Sir. We have certain information that Lord Howe has joined Lord Cornwallis, and that the main army of the Enemy is near the City of Philadelphia with intention to attack that important place. They are still on the East Side of Delaware. Assistance will be most wanted, and we request you will give the necessary orders to your Brigade to hold themselves in Readiness to march to Philadelphia. Col. Ewing tells us that a requisition has passed Congress for the militia of Baltimore Harford, Frederick and Cecil, Counties to march, and that he was desired by the President of that honorable Body to give us notice thereof, we wish not to loose a moment's Time. As soon as we hear further Intelligence, we will write you by express.

Gentlemen.

In consequence of letters to our Committee and myself rec by Thursd' Post, Capt" Nicholson went off yesterday evening with about 30 or 40 of his best Hands & some of his officers with near 20 sail of Small Craft for the Head of Elk to assist in bringing down the Public Stores & sick that might be moved from Philad. About an hour after his departure I received the inclosed letter for him which I dispatched after him by a Barge. He returned it to me, late last night, and agreeable to his desire I now forward it to you by Express for your consideration. Should you think fit to order the Defence's men to follow after Capt. Nicholson, I we beg leave to suggest whether it wou'd not be adviseable to take a few of the nine Pounders from the Fort, & send up along with the Defences Guns, to put on board the Frigates should they attempt sending them around to this Bay. We have plenty of Craft here to carry up the Defences People &c to Elk. Our Comme agreeable to M<sup>7</sup> Chase's requisition wrote the Comm<sup>66</sup> of your City to send up to Elk what Craft were at Annapolis. I have since learned that there is no Committee. There will be no necessity of sending any more craft, as we can get plenty here. Our Comme are preparing the Court House in the best manner the time will admit for the reception of the Congress shoud they be obliged to leave Philad, in which case M Chase writes it is intended to come.

The Delegates in Congress

Gent<sup>n</sup>. In consequence of a verbal message from the President of Congress delivered to us by Col<sup>o</sup> Ewing, we instantly gave the necessary orders to the Commanding officers of Frederick Baltimore & Harford and Cæcil Counties to call together the Militia of those Counties to be in readiness to march to the assistance of Philadelphia expecting that we

should every moment receive orders from Congress,—but no c. s. c. such orders have yet come to hand. It is true Mr. Chase wrote to Mr. Quynn to apply to the Council of Safety to send relief to the head of Elk, for the sick and Stores belonging to this State. We immediately engaged craft for that purpose, but before they sailed Purviance advised us that a sufficient number were engaged at Baltimore. By letter from Mr. Chase to Capt Nicholson which was just now handed to us we observe that seamen are much wanted to man the Frigates and in consequence thereof we have ordered Capt<sup>n</sup> Cooke to proceed with all the men that can be spared from the Defence to Phila and there to receive the orders of Congress. We have not received a scrip of a Pen either from Congress, our Delegates, or any one of them, relative to the assistance mentioned to Col<sup>o</sup> Ewing, M<sup>r</sup> Quynn or Capt<sup>n</sup> Nicholson and we cannot help observing to you that applying to individuals who necessarily must apply to the Council of Safety from whom their power must be deputed before they can act is losing of time to say nothing of the want of respect to a Body of men with whom the Executive Powers of the State are entrusted.

P. S. Inclosed you have the letters we have sent to the military Officers, and doubt not but they will do every thing in their Power to have their men in readiness to march to Philadelphia or any other place they may be ordered to.

Gent.

This evening an Express came to town from Baltimore with the Resolution of Congress of the 9th Instant requesting the militia of Balt. Harford, Cecil and Fred. counties to march to reinforce Gen<sup>1</sup> Washington. I do not know what could have delayed the messenger between Phila and Balt. the Resolution was inclosed to the Commee of this county they have resolved the militia ought to march and I believe a very great proportion will though as you must imagine many of them are very illy provided for a winters campain. it is intended if possible to get some in motion on Monday. I do not know whether it is intended that I should command the whole Militia or any part of them or not. if it is I think some special authority for that purpose will be necessary and I shall cheerfully execute it as well as I can, but in a matter of so much consequence I shall frankly give my opinion at every hazard that it is best not to let our militia go out under any provincial Brigadier. Gen<sup>1</sup> Beall's commission I suppose has expired and if not many of the Flying Camp speak of him so far from respectfully that you may be assured that many from here would but half obey him, and so far with all ill will. None of the rest of us have seen service and I fear we are not so competent nor will the men have the same confidence in either of us, as in one who has had experience. Gen! Smallwood and several others I believe have but very small Brigades, but if any Gent. goes from here as Brigadier he must have a great stock of philosophy to give up his brigade to another tho' superior in abilities, and having nothing to do when he foresees the general however unjust imputations which will be thrown upon him. if these reasons appear to you in the same strength they do to me, I imagine our militia might be put under the immediate command of Smallwood by a request to the Congress, or General Washington. I have seen a good

many of the Flying Camp who speak well and some who speak ill of Smallwood. If you have any stock of shoes, stockings or blankets that you can spare to be forwarded to York immediately and there sold to the men at moderate prices or sent after them it would be a great Relief. We hope to receive supplies from thence being determined to miss no opportunity that offers of throwing cargoes into your hands for that purpose. We have given to Martin, and shall to every other Captain in our Service orders to proceed either to 'Statia or Martinique as the most probable chance may offer of his or their geting in with safety. Mr Van Bibbers private accounts that you refer to, we have not received but should be glad of them, as well as the Acct of Mess Van Bibber & Harrison as soon as possible, and we recommend it strongly to that house to furnish the Council of Safety, or State, for the Time being, with a state of their adventures & Acct Curr by every opportunity. We are sorry that Mr Van Bibber should be distressed by his advances for Maryland, and trust that it will not long be the case; his order of £1320 we have directed Messrs W. M. & Co to pay.

M' Crockett we have not seen since his return; but whatever money he may apply for on your Acc' shall be advanced to him agreable to your order of the 19th Nov'

It affords us pleasure that Captain Robertson's Salute was returned in the respectful manner you mention. Mr Lux pro-

duced an order from you on us which we offered to pay in c. s. c. dollars at 7/6 but he refused to receive them unless we added the advance of 25 p cent for his disappointment in not

receiving goods.

It gives us concern that you have not any prospect of passing your bills upon us: times may alter, and opportunities may offer, wherein you may dispose of them. Should that be the case, be sure to embrace every opportunity that may present itself. We are well pleased with McCreary's shipping the goods you mention, and hope that we shall have the pleasure of seeing them soon.

There cannot be a doubt that we ought at least to receive for our Powder sold at Charles Town the price that was given for it at that place; if not a share of the Profits on the returns: But this business we leave to you to settle in the best manner you can for our State. We have debited you for it in the

manner you advised.

Inclosed you have Invoice and Bills of Lading for—which we wish to a good market. For God's sake send us all the Salt you possibly can. Our people are in the greatest distres from the need of it, next to that article send us Blankets & other Woolens, Lead, Musquets, Hats, strong shoes, stockings, Cold Thread, & Butts for Cloths, Medicines agreeable to the inclosed Inventory, sail Cloth for Tents & sails, course white Linen, ten thousand needles of different sizes, and five thousand strong clasp Knives for Soldiers,—Thread for the Linen & Twine for the Tents & Sails. We have a pretty good stock of Powder. Send no more 'till you hear from us on the subject.

Some Time ago the Comme of this county formed James Wells's, Wm pepples, Henry Stevenson's Lucien Meredith, Henry Baker, Basil Dorsey, William Bressledan and David Moor's companies into a Battalion and recommended Upton Sheredine Colo David Steiner Lt Colo. David Moore 1 Major, Ephraim Howard 2 Majr and Charles Warfield Qr master it is said here the recommendation was sent to the council of Safety and is lost. Afterwards, as it is said under the countenance of some of the Committee and after a very general agreement on time and place, and two or three weeks intervening, most of the officers and some of the men though from what I understand not a majority of the privates, met

and voted for Field Officers to be recommended, who were recommended according to the vote, James Wells colo David Moore L' Col° Ephraim Howard 1st Majr Joseph Wells 2nd Majr and Henry Stevenson Qr Master. this recommendation was forwarded to Mr Sheredine in the time of the last Convention, but he says on receiving a letter from Capt. Moore, who was present and did not vote, suggesting the election was not fair, he did not get any order for the commissions. I see neither set of Field officers will intirely please the Battalion and yet if Field officers are not appointed to that Batt. I fear little, may be expected from it. I wish therefore commissions were immediately sent up. W" Winchester is first & Upton Sheredine 2<sup>d</sup> Lieut of David Moore's Compy, Charles Stevenson is first Lieutenant of Henry Stevenson's company, Day. Steiner is an infirm man and tho' enrolled never musters, so that there can be no use in appointing him a field off. am told Field officers were some time ago recommended for the upper Batt. of all, Lemuel Barrett Colo the rest I either did not hear, or have forgot, but I understand the commissions have not come up, if the recommendation is before you and not very exceptionable I would wish the commissions were sent up, what few people may on any occasion be got from that quarter will tell for at least so many.

23<sup>d</sup> I have had no Oppt<sup>y</sup> of sending the above away. This afternoon the Commer received money from the Congress. None have yet marched but are very busy in preparing. you can possibly supply shoes, stockings, Tents, or Blankets especially the last it may save a good many poor fellows, if you can spare any do hurry them to this place or Taney Town and advise us of it. I took the freedom to mention my sentiment that if Gen1 Beall's commn had not expired it would not do to give him the command of the militia: The prejudice is so strong against him that many of the officers say they will not go under him, as I hear this sentim' is so general I think it my duty to mention it to you, I wish to be ascertained whether I am to go or not. I am heartily willing to exert myself, in the military line, if you think it may possibly promote the I am Gent. service

Gent. I apply'd to the Commissions for a Commission in one of the Battalions to be raised for this State, but after they

had made the Arrangement of Officers, they inform'd me from the instructions they had received from the State, they could not Promote me to the rank I ask'd of them, not knowing that I bore a Commission in the Army, or bore any particular Rank. After I made it appear to the Commissinors that I bore a Commission, they told me they should have a Battallion oppen for your Honours to fill up, that they made not the least doubt but I should get the Post I ask from the recommendations they had rece in my favor. Shall be glad you'l apply to the Commissinors for the recommendations in my favor, if sufficient, and I am thought to merit the Post I ask, by your Honors, I shall be happy to continue in the Service of my Country-if I am Honord with a Commission should be glad it could be settled as soon as Convenient, as the Battallion may have an equal chance with the rest in recruiting. By direction of the Congress, I send you the inclosed resolves. The last letters bring us a piece of Intelligence that it may be material for you to know one M' Bevan a person that may be depended on who was taken by Capt. Hammond informed M' Morris that Hammond told him they were now determin'd to put a total stop to our trade, and for that purpose 6 Frigates were to be stationed off Georgia and the Carolinas, 6 off the capes of Virginia and six off Delaware, Their signals and their stations were fixed so as to form a compleat line along the coast and that they have determined to keep their stations during the whole winter. This I fancy it will be difficult for them to do, however I thought it necessary the Board should know their plan.

Joppa 23d December 1776.

Gentlemen.

M' James Talbot a merchant in Joppa and an officer in the militia in the eighth Battalion is desirous of procuring a Captain's commission in the Regulars to be raised as the Quota of this Province.

I have known him for some time, he is a cool serious thinking man a native of America, possesses as far as I have ever heard a fair character in trade and his dealings, has ever been ready to do his duty as a Militia officer, has on all occasions shewn his readiness to meet the enemies of freedom, upon every requisition, early in this contest has solicited a commission, and in my opinion has spirit enough added to his attachment to the cause to meet the foe and do his duty in the field to the best of his skill and ability.

Mr John Wayne would accept of a Lieutenancy under him, he is a native of Great Brittain married into a family in this neighbourhood, seems much attached to the cause of Liberty, is well acquainted with the manœuvres generally taught in the militia and I verily believe would make a good officer.

I am Gentlemen, Your most Humble Serv<sup>t</sup> Benjamin Rumsey.

Fred. Town 24th Dec' 1776

I inclose you a resignation of M<sup>r</sup> Azel waters as Quarter Master in Col<sup>o</sup> James Johnson's Battalion. M<sup>r</sup> Richard Butler

whom I think a very good man, is desired to be commissioned You have too a letter and its Inclosure I received this afternoon from Col<sup>a</sup> Bruce and Blair. I hope the returns you have before you will supply the omission of some of the Gen's Christian names, if not I really do not know what can be done unless you can trust the Committee or me to fill up the Christian names of such as you may be at a loss for. I shall write to Colo Bruce informing him of the omission and desiring him to write to you, but to prevent delay I had much rather receive the Commissions if they can issue. I had no suspicion that the Militia Commissions in this and Washington County were in such disorder. This morning Capt. Brossleday of the new Battalion came to town on purpose to tell me that none of the officers in his Company nor as he believed of any other company of that Battalion had yet received a commission. I went to the minits of the committee and on a long search could only find five companies had been returned I shall inclose in this a certificate as to them for fear if any return was ever made to the Council, which I doubt, it may have been mislaid. I very much wish I could get up commissions for all the Gent. who are entitled to them. I imagined from what passed in the Committee last night, they would have sent off an Express this morning to have known for a Certainty whether the Militia could have had any supply of blankets &c from the Council of Safety, but this morning on my several Times mentioning it the Gent. seemed disinclined to it, presuming you would not furnish them, they were never wanted more than by those, who now offer to turn out and I cannot forbear repeating my former request that if you possibly can, you will forward shoes, stockings and blankets especially the latter to Taney Town or this place. I understand part of our arms were left at Philadelphia to be removed some distance from thence will you be pleased to send orders for the delivery of them to our People. The Committee as I wrote you resolved the militia ought generally to march and the Humor seems to be that all ought to march, it will if any thing general leave the Country rather too naked I should have liked better that about one half was to march, but I do not know that it was possible to contrive it so. I have hired the bearer on purpose to carry this, and bring your answer. I wish him not to be detained I am, Sr.

Johnson's Batt. Please also to send a Commission for Carlton Taneyhill in the room of phil Meroney who has not lately attended his Comp, nor do I believe his comp would allow him. This Comp is in Baker Johnson's Battalion. I believe if you think proper the Militia of this County will be pretty generally pleased at going under me. Therefore unless the Militia from any of the other Counties will be much dissatisfied I think you had better give me orders.

### [Council to Johnson.]

Brigadier General Johnson

Sir. We send you by the messenger Commissions in Colonel James Johnson's and Colonel Bruce's Battalions according to your request. We have also sent Commissions for Colonel Sheredeine & others in his Battalion made out in the best manner we could, there are no commissions for some of the Captains, Lieutenants, & Ensigns, because we did not know them, but you may assure any of the Gentlemen who may march, that we will send them forward so soon as you will be pleased to favor us with a list of names.

We are exceedingly desirous of forwarding the Service all we can, and should cheerfully have sent forward Blankets and stockings, but we have them not, nor can we get enough of Blankets for the Hospitals; we will send up five hundred or a thousand pair of shoes by the first waggon we can get to be left at Frederick Town and delivered to you, or in your absence to your order; unless you should write us that they had better be sent to Christiana Bridge, or the Head of Elk where we are of opinion the Troops might more readily get them. We expect to hear from you on that head as soon as possible: in the mean time we will order them to be packed up ready.

As to the command we would by no means be instrumental c. s. c. in disappointing your wishes on the occasion, and desire you would take the command unless some other be appointed by Congress, which we think not improbable, as S. Chase has wrote them on the subject, he was here and saw your former Letter, and has requested Congress to send up money. to tell you the truth we wish Congress may appoint some other, and that you should take your seat in that honorable Body, where you may be of great service at present. however if they do not appoint a commander we leave it to your own judgment and discretion to march or not as you may think best for the public Service.

Should any other Commissions be wanted, we will send them up on being informed for whom; we heretofore laid the state of the militia particularly in your Brigade before Convention for their advice; they never gave us any, and we

know not to whom Commissions are to be given.

P. S. Gent. Col<sup>o</sup> Beatty tells me Peter Mance who was Capt.,
Adam Crush who was first Lieut. and Adams who was second
Lieutenant of a company in his Batt. and went to the Flying
Camp, refuse to hold their Commissions in his Battalion.
Crush is in the regular service. Mance he says desires to be
so and Adams says he will not act at any time hereafter. All
agree not to desire any body who has returned from the

Camp to go again. Nicho. White was Ensign. Col<sup>o</sup> Beatty tells me the Company are desirous he sh<sup>d</sup> be a Captain, and that he thinks him a proper man, I should therefore be glad you'd send him a commission. We have a very deep snow. Upwards of 300 of Colo. Beatty's Batt. begin their march in the morning. I wish they were better provided. I am very desirous of hearing from your Board. and am Gent.

Montgomery County Decr 28th 1776.

May it Please your Honors.

In consequence of a letter I received lately from Brigadier General Johnson directing me to call together the Battalion of Militia under my command, to take an account of their arms &c., to prepare them for an immediate march and to hold themselves in readiness for further orders; I have to acquaint you that all this has been done agreeable to the said Instructions.

I have also in Committee for this County, seen two Requisitions of Congress to the same purport, directed to the Committee of Frederick County, whereupon this Committee has recommended it to the Militia to put themselves in readiness to march to reinforce General Washington, and have requested the Colonels to call them together for that purpose: all this has likewise been done; and I have now to inform you that not more than eighty eight men of this Battalion are willing to march, in which number is inclosed the greatest part of the officers belonging to the different companies.

From the disposition of many of the People, I am urged to request you will inform me of the Destination of these troops, of the time they are to continue in actual service, and whether your orders in particular are not immediately necessary towards forwarding this Expedition:—which when received,

shall be punctually complied with, by Gentlemen

Your most obedient Servant John Murdock.

Joppa 29th December 1776. To The Honourable the Councill of Safety of Maryland.

I do hereby certify that I am and have been for a number of years acquainted with Capt. Bennett Mathew, that during a great part of that time he followed the sea and commanded a Ship of which he was as I understood half owner, that I have always heard that he had served a regular apprentiship to the sea and followed it 'till a few years ago, when he retired to a paternal estate. he has alway's born the character of an expert and able seaman and on shore an honest man and if the Councill of Safety will give him the command of a Gally, I am convinced he will acquit himself with such spirit, skill and honour as not to discredit or bring disgrace on those who appointed him, and that he will do his country all the service in his power.

Benjamin Harrison Esqr (of Congress.)

Sir,

Considering the State of Maryland to be embarked in the same cause with the Honble Congress, we readily and chearfully agree that you should have the small armed Schooner now in your Port, which, we hope, will answer the purpose intended, nothing more will be asked for her in Point of Price, but what she cost the State, we expect not to gain, nor would you wish we are persuaded that the state of Maryland should loose any thing by the vessel. we let you have her in the public cause to oblige congress. be pleased to notify this to the commander, and direct him to return a schedule, or mem: of Guns, and other Effects on board, the price we will send hereafter.

Blankets we have none, but we will furnish M' Griffin with Cotton to make them, which may be easily done, 'tis the shift

we are forced to make for our own hospital, as also enough to c. s. c. make two for your servant, which may be returned in kind, when convenient.

Sir. Decem<sup>1</sup> 30th 1776. When I return'd home the other evening and found you had ben waiting some time to talk over this dark afare which I must confess has every apearance of rapin and voilance, but worthy sir, when you consider that this was intirely an act of neede and not choyce and that perhaps a man concearnd had a Gill of salt in his famaly for a fornite you'l in som measure excuse it for my own part I dont beleve a man on earth has a greater avertion to mobs or voilance then my self and a few months back thought nothing could have drove me into it and I verily belave it to be the case with the whole and as to aplying to you for the Salt I confess we ought but ware told by many individuals which you had refused to sell to that for seventeen persons to aply after this wold have pervented our geting any and that we could no longer do without, and that we pased Mr Hindman who thay say had a greater quantity and went to that place it being defenceless I did not know he had a bushel nor that any person on the Estern Shore had such a quantity as you had. Whowever if the money we left

is not sattisfactory we think ourselves bound by everything to give you your price and will when required and hope when you consider colely on the matter you<sup>1</sup> not indeavour to drive us to any further acts of rashness and am sorry it fell on you who from my knowledge of your family I shall all ways treat

I am Sir your very humble Servt
Iere Colston.

To The Honorble James Lloyd Chamberlaine Brigd General Talbot County

with esteem and respect.

Tho I am considered as a princable in the afare I declare myself not.

# [Melward and Larey, Depositions.]

William Melward of Talbot County being duly sworn deposeth and saith that,

he went to live at Plain Dealing in the Spring of the year 1774 and his wife was employed to take charge of the house as housekeeper, at that time there was a quantity of salt in a house the key of which was delivered into his wife's care, he saw the salt himself and supposes it might be less than one hundred bushels and that the whole family were supplyed with salt from that heap and he believes they consumed about twelve bushells pr annum.

William Milward the deponent further saith that in January

in the year 1775, he did receive five hundred and fourteen C. S. C. bushels of salt for Mr James Lloyd Chamberlaine and put it into the house above mentioned at Plain dealing and that between the month of October and Christmas of the same year he the deponent did measure and sell all the salt out of the aforesaid house which he received as before mentioned at three shillings pr Bushel And that at the time while that salt was measuring and selling James Lloyd Chamberlaine aforesaid, did caution the Deponent not to mix the new received salt which was his, with the old salt that was before in the house as that did not belong to him, but to Tommy Chamberlaine a minor

And the deponent further saith that the family at Plaindealing used out of the aforesaid salt nearly at the rate of twelve bushels pr Annum, untill the 28th day of December in the year 1776, when a number of men armed with guns and clubs came about 8 o'clock in the morning and enquired for him the deponent who immediately went out to them, and enquiring their business, was told by one of them who appeared to be their leader, that they heard there was a quantity of salt there that their business was to buy some of it for which they would pay. The Deponent told them that he had very little salt, that the salt which was there was for the use of the family and not at his disposal, nor even under his care. he advised them to speak to Mr Chamberlaine which when they objected to he offered to send to M' Chamberlaine himself, to which they answered that they would not wait so long. they some of them swore that they knew the key was kept there, that salt they would have and if the key was not delivered to them they would break the door. they then asked the Deponent's wife for the key and she refused to deliver it to them upon which refusal some of them said it would be the worse if the key was not deliverd at the same time the most active said, come along, come along we have talked long enough, let us be doing or nearly the same word. At which they all of them went to the door of the house where the salt lay (except Jeremiah Colston, who appeared to be their leader and who continued still to propose for the key that they might not be under necessity as he said of breaking the door) some picked up large stones others shook the door and some seem'd to stand as centinels with their guns in their hands. The deponent's wife being allarmed and fearing that other mischief might be done ran to the door and told Jere. Colston that she would open the door and show the salt upon which M<sup>r</sup> Jere. Colston called out to the others to stop. And the Deponent's wife opened the door and Jere. Colston with most of the others went into the house where the Salt lay. the deponent being

c. s. c. unwell returned into the house, but saw them carry several

baggs away.

The Deponent further saith that in about half an hour his wife came into the house and brought a tally board which she said she kept to know what they carried away, and imediatly after came in Jere. Colston with his followers and offered to pay for the salt, which the Deponent refused to take still alledging as at first that he could not dispose of the salt, but they counted the money among them and laid it upon the table, and the Deponent did then count it and after they were gone he put it away. The Deponent saith that by his wife's tally they took  $17\frac{1}{2}$  bushels of salt, and they left with him 35 dollars in paper money.

Sworn to this 30th day of December 1776, before
William Hayward.

James Larey of Caroline County confesseth that on Friday evening last one John Bush came to the house of John Cooper and got a horse from Cooper as he was informed and that Bush asked Cooper if he would send after salt and that Cooper agreed to send, and asked him if he would go, and that he agreed to go, that about three hours after moon up, a company collected and called for him (Larey) upon which he join'd them that there were in the Company, Jere. Colston, James Dwiggens, Solomon Eagle, James Smith son of Michael, Thomas Curtis, Nathan Wheatly, David Morgin, Thomas Cooper, Aaron Cooper, Levin Martingale, Samuel Martingale, John Cheesly, Daniel Bayner, James Hix son of James, John Bush and John Russum all of the County aforesaid, That Colston, Dwiggins, James Smith, Samuel Martingale, Nathan Wheatly, James Hicks and Aaron Cooper had guns, that Colston as he understood was the first proposer of the scheme, and had the command of the Company, that in a little time after he join'd the Company, they marched down and when opposite M<sup>n</sup> Nicols's in Talbot County, they turn'd out of the road and marched through the woods by a path that leeds to another road, and then proceeded down to where M<sup>r</sup> Milward lives, when several of the Company went up to the house, but he (Larey) stayed a little while with his beasts and then also went up to the house, when he heard Colson ask M' Milward if there was any salt there for sale, to which Mr Milward answered that the salt that was there was not his, nor had he orders to sell any, that Colson then asked who kept the key of the house, and M' Milward answered that it was kept by his wife, upon which several of the Company walked into the Dwelling house, but as he did not go in knows not what conversation happen'd there, that in a little time after they went

into the house he observ'd them coming out and M<sup>n</sup> Milward C. S. C. with them with the key in her hand, and that they with M<sup>n</sup> Milward went to the house where the salt was stored and M<sup>n</sup> Milward agreed to open the doore when the people (or at least) most of them went into the house and got as he thinks seventeen Bushells of salt, that the salt was measured by a negro man belonging to the plantation as he understood, that he paid to Colson fifteen shillings for a bushell of the salt and believes the rest of the Company paid him at the same rate for the salt they got, that they return'd home by the same way they came out, and that none of the Guns were charged but one, and that one was order'd by Colson to be drawn whilst they were marching through the woods from M<sup>n</sup> Nichols's and further sayeth not.

This confession was made before me the subscriber on the 30th day of December 1776. W<sup>m</sup> Hayward.

M' Jesse Hollingsworth

Sir. We received two Letters from you, one by M<sup>r</sup> S. Steward, the other by M<sup>r</sup> Crockett. 'tis very well that you purchased the Brigg, two thirds of her belongs to the State of Maryland, as also two thirds of all the other money the Prizes sold for, and so you may inform the Marshall, therefore we have sent only 2000 Pounds currency for her loading and Outfit. We do not expect Congress will want her as they have wrote only for a small armed Schooner which we have let them have.

C. S. C. Get the Brigg ready as fast as possible and let her be loaded with best Flour, some Bread, and thirty or Forty Hogsheads of Tobo. if to be got on Tolerable terms; Your militia we hear are marching, but we think you ought to be excused, as you are much engaged in the service of the State; should you go, you will leave our business we expect in good hands.

Mr William Lux

Sir. Upon looking over the returns made to our Board by our Commissioners, we find that they have filled up all the majorities, and left to us some vacancies for Lieutenants and Ensigns, neither of which stations Mr Hopkins chuses to fill. and indeed by the Resolution of our Convention our hands, in the line of Promotion, have been tied up to the Regulars and to the Flying Camp Battallions. When we desired Mr Hopkins to come down, we did not know that the Commissioners had proceeded in filling up the Commissions to the extent they have done, otherwise we should have been explicit and thereby prevented him from taking this journey to Annaps.

The Acct' you mention will be paid so soon as they are passed by the Board of Accounts.

Hond Gent. Philadelphia Decemt 31st 1776.

I wrote you on Tuesday last, and since that time the greatest part of the people I brought here is inlisted in the land service for the sake of the twenty dollars bounty, and gone to the Camp. Those who were sailors has enter'd in Merchant men, wages being extravagantly high. Since our arrival here have been helping to fitt out the Deleware two days past. Mr Morris desired we should repair on board one of the row Gallies and follow that part of the army that's gone into the Jerseys. We made the attempt but the ice prevented us from proceeding, upon which we were oblidg'd to return. I have used every persuasive argument in my power to keep them together but they complain of the want of cloths and of their time being expired.

I have not over twelve men with officers that is now willing to go to Camp. I informed M<sup>r</sup> Morris a few days agoe of my Peoples entring and going off as there was no immediate call at Philadelphia. I wanted permission to return to the Ship

with what men I had left. he did not approve of it, but signified what did not return to advertise, I shall at my return give you a list of those who are gone and those who returns with me—I confess had I known we was to have had a winter's campaign, I would have provided cloths for them, all that I expected was to have done what was in my power for the present occasion and to have return'd to the ship in a short time; agreeable to your Instructions I wait the pleasure of the Congress, or Marine Board to return, or your orders for that purpose, yesterday there was 950 Hessens come to this Town Prisoners, exclusive commissioned officers and it is reported since there being taken, there is about 300 more with a Hessian Brig<sup>r</sup> Gen<sup>1</sup> made Prisoners.
